Sec 3 Value of mfg

COOP. CHARACTER OF L.P. IS IN THE LATTER CASE A TECHNICAL NECESSITY DICTATED BY THE INSTRUMENTS OF LABOR ITSELF. cf. p.422--instruments of labor employ wkman

p.387 *ftn: Descartes* in defining animals as mere machines saw with eyes of mfg. per. while to eyes of the middle ages, animals were assistants to man... That Descartes, like Bacon, anticipated alteration in the form of prod. & the practical subjugation of Nature by Man AS A RESULT OF THE ALTERED METHOD OF THOUGHT is plain from his Discours de la Methode.

Sec 9 Country Notes

p.492: Tech. also discovered the few main fundamental forms of motion which, despite the diversity of the instruments used, are necessarily taken by every productive action of the human body

p.493: But iff Mod. ind. by its very nature--ABSOLUTE CONTRADICTION BET. technical necessities of Mod. & social character inherent in its cap. form, displaces all fixity & security in situation of laborer... HOW THIS ANTAGONISM VENTS ITS RAGE IN THE CREATION OF THAT MONSTROSITY, AN INDUSTRIAL RESERVE ARMY // p.494 "under penalty of death // BUT THE HIS. DEV. OF THE ANTAGONISMS
