and to the Political Bureau of the RAL/LRT

Dear Comrades,

This is to announce the formation in the Belgian section of a tendency supporting the Leninist-Trotskyist Faction on the fundamental questions. I have attached the tendency declaration to this letter.

I am in agreement with the program and aims of the Leninist-Trotskyist Faction as listed in the ten points that constitute the LTF platform. I do not at this time state my position on the points that are under discussion but are not included in the platform.

I ask that you read our tendency declaration with care before responding, and take note of any differences that may appear. I, for my part, see none.

Revolutionary greetings,
s/Marcel
