TO ALL MEMBERS OF THE LTF WHO WILL BE ATTENDING THE PLENUM

Dear Comrades,

There will be a meeting of the Leninist Trotskyist Faction on Sunday evening after the close of the National Committee plenum. There have been a number of important developments in the international that will not be dealt with at the plenum because of lack of time. An LTF meeting would make it possible to briefly bring comrades up to date.

The proposed agenda for the faction meeting is:  
(1) report on the new platform document of the Bolshevik Tendency (led by Moreno) and on recent developments in Mexico; (2) report on recent developments concerning the OCRFI; and (3) report on organization of the faction in the SWP (finances and recruitment of new members).

The platform of the Bolshevik Tendency is being translated now, and will probably be out in bulletin form for comrades to read before the plenum.

Some comrades might have already made travel plans that would preclude staying in New York for the faction meeting. But if possible, comrades should try to adjust their plans so as to be able to stay a few hours longer.

There will be dinner available in the hall following the last plenum session so that we can begin the faction meeting as quickly as possible.

Comradely,

Caroline Lund
