To All Organizers and
Educational Directors

Dear Comrades:

A compilation of texts for a class is available, entitled:
Discussion of the Class Character of the East European States.

This consists of a series of excerpts from documents through the years 1946-1951, in which the problem of the sociological nature of Yugoslavia and the "buffer zone" countries was debated.

These excerpts can serve as the basis for a study course on this subject. They may be supplemented and rounded out by references to the full texts of the bulletins and other documents listed in the bibliography.

The compilation is 31 pages, and sells for 40 cents per copy.

Fraternally,

E. Reed
