Should be to date	2500	1719	72.8

Dear Comrades

As the scoreboard indicates we have begun to catch up. Berkeley sent in 143 subs during the week to move from 33rd to 6th place on the scoreboard, and Austin moved from the no-subs category to the 160% point. Several other areas are moving up quickly, helping the national campaign to approach the "should be to date" point.

The next sub campaign scoreboard will be the one distributed at the convention, so every area should make a special effort to catch up by then.

Comradely,

*Kipp Dawson*
