

## GUIDE TO THE SUBJECT INDEX

- This subject index covers issues of *Workers Vanguard* published during 1982, from issue No. 296 (8 January) through the end-of-the-year issue No. 320 (31 December). During this time, *WV* was published biweekly.
- The fullest listing is by SUBJECT. Subject headings are arranged alphabetically. Entries are listed chronologically with two exceptions: all entries comprising a series are listed together immediately following the first entry of the series; corrections immediately follow the relevant entry. An asterisk (\*) after the page location of an entry indicates that a correction follows.
- Entries are listed under subject heads. In some cases, subject heads are broken down into subcategories. These subcategories are listed immediately after the initial subject head and preceded by a dot (•). The numbers following each entry headline give the issue number, date and page number(s) for the article. Thus:  
We Stopped the Nazis!, #303, 16 Apr. (12, 11)  
means the headline of the article, issue No. 303, 16 April 1982, beginning on page 12 and continuing on page 11.
- No entry is listed twice; refer to cross references for guidance in locating the subject head for particular articles. Cross references are of two types: those following the word "see" deal centrally with the subject head; those following the words "see also" are related articles. Subject heads in cross references are separated by a semi-colon, while subcategories of subject heads are separated by a comma. Thus:  
Revolutionary Socialist League (RSL)—See **Fascism: Ann Arbor, Chicago; Spartacist League.**  
means that articles on the RSL can be found by going to the subject head **FASCISM** and looking under the subcategories **Ann Arbor** and **Chicago** and by going to the subject head **SPARTACIST LEAGUE**.
- Individuals mentioned in articles are usually not listed separately unless the article is primarily about the given person.
- Entries relating to foreign countries are listed under geographical headings and not necessarily under any other subject heading. Unless listed separately for some unusual reason, all foreign political organizations are listed under appropriate countries, while U.S. political organizations are listed under their organizational names.
- Specific defense cases (e.g. Michael Zinzun) will be found under **CIVIL LIBERTIES: Cases**. Articles pertaining to the civil liberties of the Spartacist League will be found under **CIVIL LIBERTIES: Spartacist League**, while attacks against the SL by ostensible leftists will be found under **SPARTACIST LEAGUE**.
- Articles on historical aspects of the Marxist movement are listed under **HISTORY OF THE MARXIST MOVEMENT**, while reprints from writings of particular individuals are listed under **ARCHIVES OF THE MARXIST MOVEMENT**.
- Articles on actions against the Nazis and the Ku Klux Klan are listed under the subject head **FASCISM** and are subcategorized under the location of the given action.
- Abbreviations used in entries are:  
C: Correction      S: Series  
L: Letter          Sup: Supplement  
R: Review
