BUFFALO SOCIALIST

PUBLISHED WEEKLY BY THE BUFFALO SOCIALIST PUBLISHING COMPANY... 52 W. Eagle Street, 2nd floor, BUFFALO, N. Y.

THURSDAY, JUNE 6, 1912

THE VOICE OF THE WORKING CLASS

In presenting this first issue of the "Buffalo Socialist," the class-conscious workmen of Buffalo have an apology to offer...

The message of the "Buffalo Socialist" is not a message of pessimism, nor is it an invitation to a festival of lawlessness...

We shall not seek to guide your opinions, your beliefs and your passions as do the capitalist newspapers...

What a picture arises in your mind's eye, when we mention the working class? The picture is a gloomy one...

The "Buffalo Socialist" has sprung into being to voice the hopes and fears and, yes, the demands, of the militant working class of Buffalo...

In the meantime, all of the pettifoggery of the feudalistic class, all of the bayonets of the profit and the greed of the priestly bribes of heaven and threats of hell shall not prevail against this little band of Soldiers of the Common Good...

And in this battle of Need against Greed, where do you stand? Are you with those who are fighting for you and your children and your children's children...

ARE YOU DOING YOUR PART?

What are you going to do to help the Buffalo Socialist? There are many ways in which you can help...

First subscribe yourself. Then ask your friends to subscribe. The strongest organ of the working class would be helpless without an audience...

Patronize our advertisers. Those who patronize us deserve your support, as they will do to it, you can strike a blow for Socialism every time you spend a cent...

When you are through with your paper, don't throw it away. Pass it to your neighbor or shopmate. After he has read it, you won't have much trouble in getting him to subscribe...

If you have any suggestions, criticisms or suggestions to use for the issue of the next advantage, put somebody on the list, who can afford to subscribe.

UNEMPLOYMENT

Men willing to work are unable to find employment while others are suffering for lack of necessities.

A condition constantly confronts the working class that should make the person with average intelligence think; especially those belonging to the money class...

At the doors of the big industrial establishments throughout the City of Buffalo may be seen almost any morning a group of men waiting a chance to go to work...

"Dignity!"—and a man humiliated to the stage of a dog waiting at his master's side for a home—"what sarcasm!"

The capitalists like to see plenty of men at their doors looking for jobs. It is good for their business.

The more men unemployed the greater the competition for jobs, and the cheaper the labor.

Therefore, why shouldn't the capitalist class be satisfied to see hungry men at their doors looking for work?

The capitalist class have profited most by solving the SYSTEM OF PRODUCTION. Food, shelter and clothing can be produced in abundance by the workers of this country...

Now, Mr. Workington, it is up to you to use your brains and strength to solve the SYSTEM OF DISTRIBUTION.

You have worked hard producing machinery to displace yourself. You have done all the dirty work in solving the system of production for the capitalist class.

Will you do as much for yourself? Your workers, who are looked upon as common cattle, menials, worthless and undesirable citizens 364 days in the year...

To do you intend to stick to all your old superstitions, prejudices, personal dislikes and hates? Or will you wake up to your own interests and do something for yourself?

It is up to you to SOLVE THE SYSTEM OF DISTRIBUTION. "WIMMY" do it!

The capitalist class does the job it WANTS done for their benefit and to their interest.

If the working class does it, it will be done in the interest of the whole people.

The Republican and Democrat parties represent the capitalist system.

The Socialist party represents the collective system, by which they mean to solve the system of DISTRIBUTION.

With the means of production and distribution, socially and collectively owned, the problem of UNEMPLOYMENT will be solved.

The workers in an industry will determine the hours necessary to work to produce the supply of goods for the market.

With the means of production and distribution, socially and collectively owned, the problem of UNEMPLOYMENT will be solved.

Politics in the Home

"Why should I take any interest in politics? They have nothing to do with me," said a patient little house-keeper...

Nothing is further from the truth, and nothing is more harmful to the mass of wives and mothers upon whom depends not only the present household cares, but the upbuilding of the future generation...

Now, since cotton cloth is the price increased, why is the price increased?

In order that manufacturers may make enormous profits and stockholders may get dividends, certain men secure control of the raw material, form a corporation and set up a trust.

When that big thoroughly cracked the crowd they began looking us all over and we will do so for our lives. Every once in a while they would require some fellow who had been their hero...

When he had thoroughly cracked the crowd they began looking us all over and we will do so for our lives. Every once in a while they would require some fellow who had been their hero...
