

Vol. 1—No. 34

BUFFALO, N. Y., JANUARY 25, 1913

Price Two Cents

MILK TRUST DOORS ITS HOME IN 1913

Few Figures Showing the Easy Money Made on Milk in This City — The Poor Dealers Must Live, But Never Mind the Workers — They Must Get Used to It.

By C. E. NORRIS.

62,000 per year profit on one article of consumption and that of the greatest vital necessity to our physical health. This is the amount taken of every 10,000 of the citizens of Buffalo each year and all from a daily crop of one cent and seven mills on a quart of milk. That is the way the trust is being exploited, and remember this trust deals in several milk products, from which it derives a revenue possibly as great as that of the trust in the oil business. This the writer merely says on this feature.

Now you realize what that 62,000 per year means? If you do not it is not one cent to you and not a cent to the poor. It means that if the people are sensible enough to take possession of the trust that out of that sum alone they could be restored to health and wealth. That thousands of lives might be saved annually that are now lost in darkness, distress, want and misery—that the poor children of our tenements could be supplied with proper food and clothing—that the famished women and sickly children might be restored to health and strength and be enabled to perform the duties of life through the restorative remedies that might be brought to their reach; that children now perishing in filthy disease-ridden tenements, deprived of proper light and fresh air, might be transported to sunny spots where they might breathe the pure air and bask in glorious sunshine; that means that your children might have educational opportunity to fit them for the struggle of life; and it also means that the people who are now poor to the reader, if the people were intelligent enough to seize hold of the government and take possession of the machinery of industry. This by way of introduction and for your most serious consideration.

Milk Raised to 8 Cents

Take over 10,000 others in this city, the writer has been buying milk in the "trust" concern until a few weeks ago, and would probably still be buying from it had not "the last straw" been placed on the camel's back. It is not much milk that is consumed by the writer for there are only two in the family, but still it is a pint a day, probably 200 quarts a year—counting extra milk on special occasions. The "trust" has been supplying this milk at 4 cents a pint, but finally sent a regular in October last stating that after November 1st, the cost would be increased to 5 cents a pint or 8 cents a quart. The inquiry was submitted, and on the 1st of December the first bill came in, but "the trust" had evidently been put wise that the demand for milk was so great that it would stand fast, and so the bill called for only 4 1/2 cents a pint. The writer was patient and submitted, but in December he wrote a letter to the "trust" and stated that unless it was prepared to supply milk at the rate of 4 cents a pint or 7 cents a quart, it had better cease delivery on and after January 1st. Then came a reply, accompanied by a circular glorifying the trust and alleging that it supplied over 10,000 families in Buffalo with milk. In part it read:

"We claim the privilege of adjusting our prices to suit the actual cost of delivery at your door. This milk costs us 2 1/2 cents delivered, and it would be impossible for us to deliver it at 7 cents."

Prove Case Against Themselves

The circular that claimed the "trust" supplied over 10,000, however, proved the cause of this accompanying certificate. For the writer realizes that if the cost to the "trust" delivered at his door was 3 1/2 cents with a profit of 1/2 mill per pint—an immense revenue result—and he bought 10,000 pints of milk per day, that is one pint of milk per family, or for 10,000 families, \$31,000; that at 4 1/2 cents delivered, it would be for 10,000 families, \$45,750.

But the writer claims that his is but an individual case, and that the average milk consumed by each of the 10,000 families is about a quart. That would mean a profit of 80,000 per year per family, or for 10,000 families, \$8,000,000.

Now it is an assumption that the "trust" has failed, which is not likely to make its computation sufficient to

OUR EFFORTS AND OUR REWARD

We are pleading and working and fighting for the poor and the neglected, for the destitute and needy—and these people regard their misery as an inevitable and necessary fact of the eternal order of things. We are pleading and working and fighting for the poor and the neglected, for the destitute and needy—and these people regard their misery as an inevitable and necessary fact of the eternal order of things. The Socialists are gross materialists and enemies of our most glorious civilization!

We are trying to open the eyes of the masses of the people to those significant facts of our present economic system to which is due their own oppression and subjection,—namely, that their labor power is merely a commodity, the price of which is controlled by the law of supply and demand, and the value which is determined by the cost of its reproduction, that is to say, by the amount of food, clothing and shelter necessary for its reproduction; that the price they are receiving for their labor power, i. e., their wages, represents but a small part of the value produced by it; and that the resulting accumulation of wealth in the hands of a comparatively few explains—to the satisfaction of their masters—the sacred duty to consider privation and humiliation as virtues.

But instead of learning the truth and realizing facts as they are, their masses echo with conviction the senseless fable formulated by their exploiters and their hirelings that the Socialists are disturbing the peace of society and the wonderful harmony which unites all classes into one delightful brotherhood.

We are opposing the violent struggle for existence waged in the fashion of the savage, but with the highly refined and specialized weapons of twentieth-century culture, in the form of competition for positions, for markets, for spheres of influence and exploitation, and the wholesale slaughter of human beings in factories, on railroads, in mines and workshops. We denounce as willful murder the wars in which the workers are compelled to kill one another for the benefit of their rulers, and we prove that this, as our every method of slaughtering human beings, is in open and acknowledged violation of the highest precepts, teachings and laws of the most advanced and civilized religion.

Our reward is to be called enemies of religion, morality, law and order, whilst the butchers of men, and those by whose orders and in whose interest they kill, are glorified as heroes, model citizens and benefactors of the city and world.

A delightful situation, indeed, to be slandered and vilified, denounced and hated for endeavoring to make knowledge, freedom, prosperity and happiness accessible to all.

to the distribution of patronage and it is said the names of Republicans and Democrats alike adorn his payroll in about equal number.

The ramifications of the officials political bosses pick for us are many and devious, but the electors seem to be utterly oblivious of that fact when they stack up against the voting machine. The building of the schools has no doubt been retarded by the fact that the city's bonding power is nearly exhausted and barring the ministrations of a sterner legislature municipal poverty straits is the fact. But suppose the voters were to apply the same methods to the transaction of their own business as they do to that of the city, how long would they evade the bankruptcy court themselves?

BOY SCOUT SHOTS HIMSELF WITH HIS NON-MILITARY GUN

Lockport Lad Falls Victim of Brandishment of Scout Masters and Gives Up His Life: Parents Wiser Now

One more deed is added to the gory record of the "non-military" Boy Scouts of America, in the self-inflicted gunshot which took the life of little Alfred Ferguson, a 16-year-old Boy Scout of Lockport, N. Y.

The parents of the Ferguson lad had swallowed whole the cunning brandishments of the Y. M. C. A. officers and church people of Lockport, and innocently thought that the Boy Scouts did not encourage the militaristic instincts, because it is not printed in the books which they issue to their children.

The boy, according to the capitalist newspapers, who are always anxious to conceal the true nature of the murder school, was "playing with a rifle in the presence of his Scout masters and thought that the Boy Scouts did not encourage the militaristic instincts, because it is not printed in the books which they issue to their children.

HOTEL WORKERS WILL FIGHT TO LAST DITCH

The International Hotel Workers are putting up a stern fight in New York City, and it is expected that every hotel worker in New York City will be called out if necessary to win.

"If the I. W. W. has accomplished nothing more than give the striking waiters and cooks a spirit of confidence and endeavor to fight to the last ditch for their demands, it has reason to be proud of its achievement. These are the permanent results of Elizabeth Gurley Flynn's propaganda meeting of the I. W. W. in New York City, at the Labor Temple, 47 East 44th street, Thursday. Miss Flynn's remarks could not be interpreted in any way as referring to any affiliation between the International Hotel Workers' Union and the I. W. W. beyond the fact that she struck at present being conducted with advisory help from I. W. W. organizers.

Miss Flynn added that the hotel workers had decided upon three demands. These are: abolition of the tipping system by the introduction of a \$20 a week minimum living wage for hotel workers; abolition of the abolition of private employment agency.

Miss Flynn added that the hotel workers had decided upon three demands. These are: abolition of the tipping system by the introduction of a \$20 a week minimum living wage for hotel workers; abolition of the abolition of private employment agency.

CHICAGO GARMENT WORKERS MAY STRIKE

A vote is being taken among the Garment Workers of Chicago on the question of a general strike of the trade in the city.

The 15,000 are organized, but the union is confident that the 45,000 unorganized workers will join them if they decide to strike at present.

Conditions are so bad throughout the country in the clothing trades that it is impossible for the workers to live on the wages they receive, and with the frequent layoffs, they suffer starvation during the slack season.

In Buffalo for instance the workers lose about 18 weeks time every year, and receive only the income of the workers, to a poor existence.

PRIESTS TO STRIKE FOR PAY

ROME.—Four hundred priests in the diocese of New York have signed a memorial to the Archbishop demanding "amelioration of their material lot, and that some of the demands not granted.—New York Call.

Buffalo Socialist and International Socialist review for one year, \$1.25.

COURT DECIDES ON 54-HOUR LAW

New York.—Justice Blackman in the Supreme Court of Brooklyn has handed down a decision declaring that the fifty-four hour law, applicable to concerns employing women and children, is constitutional. The decision deals a heavy blow to the owners of canning industries, who, in the busy season, force women and children to work eight hours a day. It also likewise hits many other industries where this law has been violated in the frenzy for profits.

N. Y. STATE COUNCIL OF SOCIALIST PARTY MEETS

Interesting Meeting of Representatives from Every Part of State Held at Ithaca Last Sunday — Complete News of the Session by Representative of Buffalo Socialist.

The New York State Committee of the Socialist Party met in semi-annual session at Ithaca Sunday January 19th.

The Committee is composed of one representative from every organized county, with the exception of New York County which has 4 delegates, Kings County with 3 delegates and Queens County with 2 delegates.

Eric O'Connell was represented at the Committee meeting by Louis F. Bégin, Niagara County by John E. Parsons, Monroe County by John O'Rourke and Chautauque County by George Dunne of Dunkirk. The Committee meeting was well attended. Delegates were present from almost all of the organized counties. The bulk of the new committee consists of those who were members of the 1912 committee. Among these are some of the pioneers of the movement in the state including Slobodin, Wanchope, Lee, Arland and Burke. The new members of the County are active and active and they took great interest in the proceedings of the Committee.

Solomon Schwartz of Kings County was selected as chairman, Algonquin Lee of New York, vice-chairman and Herman Kabbe of Westchester secretary of the meeting. The report of State Secretary Solomon proved to be very interesting. The party membership has increased, new locals have been organized and it is the king of the party in this state has the movement

BOARD OF ALDERMEN REAL BUSINESS LIKE?

The local Circumlocution Office, which the City Hall sheltered the Board of Aldermen for their weekly gabfest on Monday last week.

Look definite to relate that august body, the sole object of their deliberations of their all, but he didn't object on the ground that the building of high schools is "parliamentary." There was a little more of the same sort of laydown. It wasn't known who is the lowest bidder for this work. But it will give 'em time.

The Technical high school tangle still persists. It is the result of the carpenters' complaint of the violation of the eight-hour ordinance. Colonel Ward, Commissioner of Public Works, took a slam at those same carpenters. He thinks he has any case; that their complaint was only filed to harass the contractor. And the colonel is a friend of labor, as what politician is not—unless election is in fact, the usual is that he is a friend of everybody. He ever blunders the political distinctions wont to apply

BUFFALO SOCIALIST HAS GROWN NUMBER OF PASSENGERS

Elliott C. McDougal Dares to Criticize "Model" Service of International Railway — Who Woke Him Up? — Is It Real or is McDougal Peaked for Business Reasons? — Wants to Limit Number of People That May "Stand" in Street Cars.

The Buffalo Socialist has for many weeks agitated for limiting the number of passengers to be carried on the trolley cars operating in this city. We have published letters showing cars to be unhealthful, and have shown to the people of this city how the International has imposed on the good nature of the inhabitants of Buffalo's great East Side by packing passengers in like cattle, and last week brought out the fact that Mr. Connette was not elected to improve the service but to make profits by reducing expenses and increasing incomes.

We have tried to interest our city officials through this paper, but without success. They are afraid to touch the International. Without the International they cannot be re-elected they believe. So the officials are dead on any matter that would be of interest to the people if it interfered with the interests of any of the big corporations who own and control this city.

The Board of Health woke up for a second, on one job this paper gave it, but it was only a wink at the eye and a return to sweet slumber.

But now we find that there has been a man at arms in our work. One man has been ordered to the point of rebellion over the indignities imposed on our women and children in our model street car service as the Courier called it the other day in a write-up for Internationalism. Let us see what the result is some class, too, at that. He belongs to our so-called aristocracy, is president of two banks, and a regular singer in the choir of the capital exploiters of this great Queen City of the Lakes. His name is Elliott C. McDougal.

In a long letter published in the Evening Times one day last week Mr. McDougal opened up on the International and told some of the truths that this paper has been publishing for many weeks.

We do not know whether the International had seen Mr. McDougal down in some business ventures as he is getting back or not, neither do we care, but we do know that we have to rise in the rotten ventilated cars ever increasing. Crowded in from every side we intend to kick until we change the whole system of affairs to one that will permit of a passenger service run on the basis of profits.

The new near side cars which are the objects of Mr. McDougal's ire are a good job. Remember that the president of the near side car manufacturing company is the former president of the International. Remember that Penny, who quit his good job to take up his new work which is really owed by the same lot, so you see we will not be content with the way they want them or not.

Mr. McDougal says:

"On the 'near-side' cars there are no loose transoms over the side windows of the floor doors that, as a rule, are opened on the front doors. Everyone who travels in these cars knows how cold and bad is the air in them. Very many people will not go to the rear of the 'near-side' cars as, in case the standing room is full, they are afraid it is very hard to get back through the crowd. The danger is danger of being carried out of the car. The International president's near-side cars should be limited by city ordinance, and I am confident will argue that if only door passengers will have to wait in the street until the next car comes.

"Provided the company did not purposely leave passengers in the street in order that their competitors might avoid the repeal of such an ordinance, there is no force in such an argument. The public can see the interest in the matter as its sincerity and weight. What I am impressed upon the public is that the constant effort, daily by the door week by week, and year by year, of a street railway manager is to crowd just as much as possible on the cars, and to let the public all the pressure that they will bear in order to get the interest in the matter as its sincerity and weight. What I am impressed upon the public is that the constant effort, daily by the door week by week, and year by year, of a street railway manager is to crowd just as much as possible on the cars, and to let the public all the pressure that they will bear in order to get the interest in the matter as its sincerity and weight. What I am impressed upon the public is that the constant effort, daily by the door week by week, and year by year, of a street railway manager is to crowd just as much as possible on the cars, and to let the public all the pressure that they will bear in order to get the interest in the matter as its sincerity and weight. Women's Column
 Socialist Party News

Address all Communications to Mrs. C. B. Heacock

SPECIAL MEETING.
 A special meeting of the Women's Club will be held at Franklin Hall on Friday evening, January 24, for the purpose of raffling the hand-made Battenburg table spread held over from the Fall of the Women's Club. The numbers on the spread are especially invited to attend the drawing. A few numbers are still unclaimed, and these can be purchased up to the time of the drawing. The spread will be raffled on the above date, whether the remaining numbers are sold or not.

JOB WOMEN'S DAY.
 At the last meeting of the Women's Club, committees were elected to take charge of the special Women's issue of the Buffalo Socialist. On that occasion the women will have full charge of the issuance of the paper. The committees are as follows: Mrs. Grace Heacock, general chairman; Mrs. Harry Tutthill, Mrs. Theresa Coburn, Mrs. Dora Foster, editorial committee; Mrs. Joseph Moffatt, Mrs. Leonard Perry, Mrs. C. J. Ball, Mrs. Dora Weintraub, Mrs. Chas. H. H. Malloy, Mrs. Elizabeth Roberts and Mrs. Peterson, advertising committee; Mrs. Vera Simon, Mrs. Haines, Mrs. Tutthill, Mrs. Coburn and Mrs. Heacock, circulation committee.
 All of these committees will please note that a joint meeting of all three committees will be held on Friday evening, January 24, at the Headquarters, Franklin Hall.

WHY SHOULD WOMEN VOTE?
 (By John W. Bennett.)
 The skilled fisherman, being his book with the most delicate moral, attractive to the particular class of the busy trier for which he is angling; and the political angler is no less wary. Never have the political angler and the political angler but political and economic subjugation for the women; and never have the Socialists wavered in their resolve to win the political and economic freedom economically free. It is evident from women's helplessness and disfranchisement that the Socialists were not

angling for the political prestige and the women's gain political power for she had neither of these things to give. While president, Mr. Roosevelt enforced the plea of the women of California for his assistance in the direction of suffrage. Truly his attitude in the last campaign shows him to be not only a great hunter, but a fisherman for votes as well. Mr. Roosevelt and his political followers grudgingly fall in line with the economic condition that makes woman's enfranchisement a necessity, while willing to use it to gain temporary political power.

Here are the bald, significant facts: Seven million women have been forced out of the home into industrial labor, and the army of women wage-earners is growing. These women have not only no vote of their own worthy of the name, but their competition for the inalienable right to live has compelled working men to recognize the destructive and demoralizing effects of competition; and there is a growing sympathy sufficiently strong between the helpless workers of both sexes which enables them to notice that neither sex, either, age nor creed are recognized by the employing class in their cannibalistic forays for profits. Hence, the logical and necessary form of action to fight the wrongs of all who suffer as a result of the industrial and political and industrial indiscrimination of the union of all who suffer as a result. Just as woman's labor is a determining factor in the industrial field, so the woman's vote will be a determining factor in the political field, and will be power for itself in politics.

The Socialist Party wants votes for women, no matter how she uses the ballot in her initial exercise of that prerogative. The Socialist knows that the instinctive nature of her mother's love for her children is for their betterment of the child; and when she finds out that there is no economical justice for anybody up to the extent that all are benefited, she will naturally be indignant, with temporary make-shifts and palliatives, but will stand unflinchingly for Socialism.

CORRESPONDENCE

To the Editor Buffalo Socialist:
 Dear Sir:—In a recent issue of the Buffalo Socialist, I saw a picture which highly recommended moving pictures as a great Socialist propaganda movement. As I have been connected with the moving picture business for several years, I have written the writer's ideas. Five dollars to laugh notes we would never picture a labor leader or organizer heavily drunk, threatening his home of his poor sick workmen and leaving a wall of bills with the unfortunate wife—not in these days.

We could produce pictures from real life, showing the actual misery of the proletariat. We could show the slavey women mine workers, homes (or shacks) provided for the industries, or as a contrast the homes of the wealthy movement movements. We have the brains in the Socialist party to furnish plays in abundance, for God knows they would never be short of material. Revolution in machinery could also be shown, with lectures by competent Socialists. About four years ago I worked at a theatre in Niagara Falls, and as a special attraction they put on a play about the Cherry mine and its going through the workshop shaking hands with John Smith, Geo. Jones et al., nor would you see his highest view of the mine, but the mine owners and the mine owners installed proper safety appliances.

He did not mention something like that one time, but was told to cut it out. A Socialist picture house would be a co-operative community in itself. There are a lot of skeptics who have to be shown; they won't read. We could give our patrons positive proof that tons of papers rattled on the ground to keep up prices. You often see pictures of mine disasters, railroad accidents, etc., but there is never a hint as to who the responsible parties are.

Blood and thunder pictures would be of little interest to the Socialist camera man. To instill true love and affection would be our particular aim. Our comedy pictures would be for Valentine's Day. They would consist of wars, soldier parades, cow boys, filling Indians with shot, capitalist pretenses throwing out salt to the full dinner table, workmen joy riding the motor day after and hollering we won.

I often think what fun our children would have in the moving picture show. In conclusion would like to hear from yourself and other comrades some suggestions regarding the moving picture business.

Yours respectfully,
JOE HOPKINS.

THE SOCIALIST STRENGTH

The Socialists of the United States total 910,000 votes in the last election. In Germany the Socialist vote is now 1,238,900, with 110 members in Parliament and hundreds of others in State legislatures.

In France the Socialists polled over a million votes and elected 75 instead of 54 to the Chamber of Deputies—a gain of 200,000 votes. In little Denmark the Socialist vote is 76,012 and 28 out of 114 members of the lower house of Parliament.

In Italy the Socialists have 325,965 votes and 40 delegates to the Chamber of Deputies. In Norway the vote has increased from 7,013 in 1900 to 90,985 in 1909 and since then has been largely unopposed. The party over eight districts, and 15 delegates were elected.

In Austria the Socialists have over one million votes and 84 members of Parliament. In Sweden the vote increased from 55,909 in 1905 to 117,000 in 1911, with 64 members of Parliament.

In Finland 83 of the 200 members of the lower house are Socialists. In Switzerland the Socialists polled 100,000 votes and have the municipal government in 100 out of 1000 municipalities.

In Spain, Portugal, Australia and New Zealand the movement is rapidly gaining ground. In the East, the Chinese revolution, which overthrew the Manchu dynasty, is a Socialist.

That there is a tremendous Socialist sentiment in India which it has been impossible to crystallize and organize because of the persecution of the English government, is the statement of Hemendra Nath Bose, a Brahman, who is now a student at the Northwestern University, Evanston, Ill., in Chicago.

"The persecution of the Socialists and radicals in India is like unto that of Russia," says Bose. "The British government has fought every attempt to educate the people and to give them that today only about 25 per cent of the males and 10 per cent of the females are able to read and write. Those who are able to read and write have been forced to flee the country in order to save their lives. They have gone to other countries and established papers and directed work within the country because of the persecution of the English government, is the statement of Hemendra Nath Bose, a Brahman, who is now a student at the Northwestern University, Evanston, Ill., in Chicago.

SOCIALIST NEWS FROM EVERYWHERE

BUFFALO SOCIALISTS TO MAKE MERRY THIS WINTER.
 Many social events are being planned by the organizations affiliated with Local Buffalo. Dances and cards are on the program. There will be something doing every Saturday evening in the social line either at Franklin Hall or at one of the Branch halls.

BRANCH TWO WILL MOVE TO BETTER QUARTERS.
 Branch Two in the Riverside district, which has been meeting in a small hall, Spear and Tonawanda streets, will shortly move to larger and more commodious quarters.

DOINGS OF BRANCH 4.
 Colonial Hall, Corner of Ferry and Grant Streets, Will Be Busy Place From Now Until Spring.
 Sunday, January 26, 4 p. m.—Lecture and discussion. Subject, "Superior Brains."
 Saturday evening, February 1, Grand Ball. Benefit Local Buffalo Building Fund. Admission 50 cents.
 Sunday, February 2, 4 p. m.—Debate. Branch 4 Team vs. Branch 3 Team. Subject, "Resolved, That the Socialist Movement has Done More for the National Progressive Party than any other Political Party."
 Sunday, February 9, 4 p. m.—Debate. Branch 4 Team vs. North Tonawanda Team. Subject, "Resolved, That Government Ownership is a Step in the Direction of Socialism."
 Sunday, February 16, 4 p. m.—The subject of discussion for this debate has not yet been determined.

Sunday, February 23, 3:30 p. m.—On this date begins the famous Socialist Lyceum Course. Speakers of National prominence will appear on five successive Sundays in Colonial Hall. Admission to the full course, 50 cents, at the rate of 10 cents per lecture. In addition, each purchaser of the course ticket will receive a coupon good for 50 cents worth of Socialist books or papers. With this coupon, for example, you get the Buffalo Socialist weekly for six months, greater for one year, or the new "Over Ameringer of Oklahoma." Subject, "The Socialist Challenge."
 Sunday, March 2, 3:30 p. m.—Rev. George W. Cooke, speaker. Subject, "What is Socialism?"
 Sunday, March 9, 3:30 p. m.—Ella Reeve Hill, member of the Roosevelt Trust Investigation Commission, speaker. Subject, "The Class Conflict."
 Sunday, March 16, 3:30 p. m.—Emil Seidel, famous Socialist Mayor of Milwaukee, speaker. Subject, "What Socialism Means."
 Sunday, March 23, 3:30 p. m.—George H. Goebel, speaker. Subject, "The Socialist Movement."

REGULAR BUSINESS MEETING OF BRANCH 4.
 Every Sunday at 3:30, except on the Lyceum Course, when business meetings will begin at 3 p. m. All meetings are FREE—except the Lyceum Course, and the Dance of February.

JOSEPH BOURKE RETURNS.
 Comrade Joseph Bourke, custodian of Franklin Hall who has been confined at the Marine Hospital for the past two weeks, has resumed his duties. There was great rejoicing when Comrade Bourke entered the headquarters last Monday morning. He is in good shape and ready to put in some good weeks for Socialism.

BRANCH SIX TAKES LYCEUM COURSE.
 Branch Six, in the Lovejoy district, has taken a National Socialist Lyceum Course, and they will make good.

Three Lyceum courses will be held in Buffalo this winter. The lectures will be held under the auspices of the following branches: Branch One, Branches Two and Four and Branch Six.

BRANCHES 3 AND 4 PREPARING FOR DEBATE.
 Resolved: "That the Socialist Movement has more to fear from the National Progressive Party than from any other political party," is the subject for a debate between Branches 3 and 4, which will take place at Colonial Hall, Ferry street, near Grant, on Sunday afternoon February 2nd. There is every indication that this debate will be very interesting, as both sides expect to put up a good argument.

WHAT SOCIALISTS MEAN BY REVOLUTION
 (By Fred D. Warren.)
 Some people nurse the idea that the socialists mean to spill blood when they accomplish the revolution. Nothing is further from the truth. The socialists are strongly opposed to war and bloodshed. We belong to the working class, the class that does the fighting, the class that has done a thousand times the bloody field of battle to gratify the lust and greed of the master class, but of falsehood and trickery made us believe that we were fighting for principle.

When the socialists say we believe in revolution disputes had to be settled by the rifle and bayonet, the cannon and sword. We had not yet learned to question the motives of those who brought on the wars. Neither had we learned that there is no essential difference between wholesale murder and single handed murder so far as morals are concerned.

Revolution signifies "a turning over." It means "a fundamental change in the government."
 When the socialists capture this government by the ballot then the revolution, the change which is now taking place in the minds of the people, will be enacted into law.

That the Socialism will be established by legal and orderly processes.
 The Young Men's Socialist League, consisting of all wards in the city, meets every 21st and 4th Sunday of the month at Columbus Temple, 1271 Genesee and Kehr Streets, at 3 o'clock.

A valuable prize will be given each month to the comrade who has spent the most money with our advertising.

WAR - WHAT FOR?

Capitalists want wars. Politicians declare wars. Preachers pray for victories in wars. WORKINGMEN fight the wars. If the masters want blood let them cut their own throats. Let those who want "great victories" go to the firing line and get them. If war is good enough to pray for, it is good enough to go to - up close where steel flashes, bones snap and blood spurts. They say "War is Hell" Well, then, let those who want hell, go to hell.

HATS OFF TO BUFFALO.
 The third agreement has just been published from Buffalo, New York. Three different branches are now putting on the lecture course there, in three different parts of the city. This means that the entire city will be dissected by the subject of Socialism by next Spring—Party Builder.

FROM SIBERIA.
 The Berlin, Germany, "Vorwärts" publishes the following letter, which was intended for the Conference of the German Party at Chemnitz in September, but has only just arrived, transmitted by a Socialist woman who has escaped from Siberia:
 "Orligna, Kiren, Government Irkutsk."
 "We, banished Social Democrats, send our greetings from the Siberian desert to the Chemnitz Conference of our German Comrades. Our heartfelt wish is that the enormous growth of the party in the German proletariat may continue with the same gigantic step as hitherto. May this growing power be a sign to the international bourgeoisie that they may begin to appreciate when their dominion will fall into ruin."
 "With greetings and good wishes."
 This is signed by eleven Socialists in exile.

ALL FOR DEBS.
 In the State of Washington there is a town called Roy. It has 41 voters, and when the votes were counted it was found that just 41 votes had cast for Debs and Seidel.

MOBE WAYS THAN ONE.
 The capitalist politicians of Ohio seem to have been using every endeavor to suppress the Socialists. Their last effort was to stifle Socialist lectures in Oldham by closing all halls of the speakers, and it was decided to hold a meeting at the home of one of the Socialists. The Socialists of Oldham have decided to build an Opera house and hall of their own. Nothing can stop the forward march.

SPEAKERS' CLUB BOOSTING BUFFALO SOCIALIST
 The most enthusiastic meeting of the Buffalo Club was held last Monday evening. Addresses were made by Comrades Cooke and King.
 Mr. Fred Morage was present and took exception to the remarks of some of the speakers, and it was decided to invite him to address the class next Monday, January 27th.
 An interesting discussion is anticipated for the next meeting. These meetings are open to the public. An interesting part of the evening's proceedings was an appeal by Comrade Robinson for the Buffalo Socialist, which resulted in the purchase of 50 shares of stock and a subscription of five dollars from the class.

WHAT SOCIALISTS MEAN BY REVOLUTION
 (By Fred D. Warren.)
 Some people nurse the idea that the socialists mean to spill blood when they accomplish the revolution. Nothing is further from the truth. The socialists are strongly opposed to war and bloodshed. We belong to the working class, the class that does the fighting, the class that has done a thousand times the bloody field of battle to gratify the lust and greed of the master class, but of falsehood and trickery made us believe that we were fighting for principle.

When the socialists say we believe in revolution disputes had to be settled by the rifle and bayonet, the cannon and sword. We had not yet learned to question the motives of those who brought on the wars. Neither had we learned that there is no essential difference between wholesale murder and single handed murder so far as morals are concerned.

Revolution signifies "a turning over." It means "a fundamental change in the government."
 When the socialists capture this government by the ballot then the revolution, the change which is now taking place in the minds of the people, will be enacted into law.

That the Socialism will be established by legal and orderly processes.
 The Young Men's Socialist League, consisting of all wards in the city, meets every 21st and 4th Sunday of the month at Columbus Temple, 1271 Genesee and Kehr Streets, at 3 o'clock.

A valuable prize will be given each month to the comrade who has spent the most money with our advertising.

WAR - WHAT FOR?
 Capitalists want wars. Politicians declare wars. Preachers pray for victories in wars. WORKINGMEN fight the wars. If the masters want blood let them cut their own throats. Let those who want "great victories" go to the firing line and get them. If war is good enough to pray for, it is good enough to go to - up close where steel flashes, bones snap and blood spurts. They say "War is Hell" Well, then, let those who want hell, go to hell.

WAR - WHAT FOR?
 By GEORGE R. KIRKPATRICK
 is a handsome, gold stamped, high grade, cloth bound, double-backed book, printed in open type on high quality paper, 8 1/2 inches in size. The book contains: 356 pages; 19 chapters; 23 interestingly illustrated full-page pictures (15 colored half-tones).

Don't Talk Socialism
 without first studying it, or you will only do more harm than good. You will not understand and explain the real difference between Socialism and Rooseveltism without reading some of the best Socialistic literature. We have a complete set of Socialistic literature, including the book, "The Socialists," by E. M. Kohler, and "The Socialists," by E. M. Kohler, and "The Socialists," by E. M. Kohler. Send 20 cents for a list of the books and magazines. Write today. CHARLES H. KEER & CO., 118 W. Main St., Chicago.

PAINTERS, Decorators and Paper Hangers Local 43 meets every Friday at 8 P. M. at Schwartz's Labor Hall, corner Goodell and Washington streets, and 1271 Genesee Street. 209 7th St. St. Paul, F. Schindler, Secy. 56 Fox Street.

TOM FITTON—Dyer and Cleaner, Ladies' and Gents' Garments, Hoyt Street, near Potomac Avenue.

LADIES OF TURN VEREIN TO HAVE MASQUERADE BALL
 The annual masquerade ball of the Ladies' Section of the Columbia Turnverein will take place at Turn Hall, 1261 Genesee Street, on Saturday evening, January 25th. A big crowd and a good time is expected.
 Central Branch Sunday School every Sunday morning at Franklin Hall, 52 West Eagle Street at 10:30 o'clock.
 Branch One Sunday School every Sunday morning at Leland's Hall, Bailey and Walden avenues at 10:30 o'clock.

PUBLISHED WEEKLY BY THE BUFFALO SOCIALIST PUBLISHING COMPANY... 52 W. Eagle Street, 3rd floor... MARTIN HERRER, President... HENRY TUTTILL, Sec. Gen.

Entered as second-class matter June 5, 1912, at the post office at Buffalo, New York, under the Act of March 3, 1879

ANTI-BUTCHERY PROPAGANDA The French government is all of a flutter because of the anti-militarist propaganda of the Syndicalists of that country.

The capitalists are quite right in their feeling. The French workmen will not go out and murder the workmen of other countries at command.

The same propaganda is going on in Germany and Austria and England and the United States. The governments of all countries are horror-stricken at the idea of workmen refusing to shoulder the mantle of the bayonet.

The workers of the world have begun to wonder why it is that the preachers who pray for victories, the great editors who shout for wars, the bankers who finance wars, and the politicians who declare wars are never found among the mangled heaps of human flesh steaming in gore on the battle-fields.

They are beginning to wonder why, if war is good enough for the masters to declare and to pay for and to finance, it is not good enough to go to the front where the shells are bursting and splinters and arms and legs are hurled into the air.

Well, the class of the world is getting tired of being the goat which supplies all of the food for the cannon, and when it is all over, coming home to pay the taxes caused by the war.

Let those who want war furnish the corpses. Certainly the working class has no excuse for butchering the workmen of other countries.

The greatest word in the working class language is "Solidarity."

You won't go far wrong if you have suspicions of any one who is praised by the capitalist papers.

Are your Socialist books mouldering in your library, or are they traveling about your neighborhood carrying the message to other workers? Get them busy TODAY!

If you want to understand the Boy Scout movement, do not fail to read "War—What For," by George R. Kirkpatrick, given with two yearly subscriptions to the Buffalo Socialist.

What have I done this day to promote the cause of Socialism? Ask yourself this question every day, and count that day lost which shows nothing done for the great cause of human brotherhood.

Sam Gompers says there are 57 varieties of Socialism. He's wrong. There is only one kind of Socialism. However, there are about 57,000,000 varieties of Socialists in the world, and the number is still increasing.

Books are barred by the new Parrel Post law. Too many Socialist books being circulated to suit the masters. Besides, it would conflict with the Express companies' plans if the government were to compete in this profitable business of carrying books.

MEETING THE DEMAND Did you ever notice the increasing number of articles, editorials and fiction tales, mostly concerning Socialism which the magazines have begun to print? Are you surprised? You needn't be.

One such idea is that the Socialist movement has not only come to stay, but that it is going to keep things considerably stirred up while it is here.

So, being up against it, as the phrase is, the magazine publishers have made the best of it and are rushing to the fore with Socialist articles and editorials and news-items and stories.

Local Buffalo has sensed the situation, and at the last City Convention, the Propaganda Committee devoted practically all of its attention to recommendations along the line of educational lectures and printed matter.

Read the solid Socialist classics—Kautsky's "Class Struggle," Labriola's "Materialist Conception of History," Dietzgen's "Philosophical Essays," Plekhanov's "Socialism and Democracy," and Engel's "Communist Manifesto," and get your friends to read them, both inside and outside the Party.

Your education as a Socialist is all too incomplete if you are content without mastering the splendid classics of this greatest of all world movements.

Local Buffalo has sensed the situation, and at the last City Convention, the Propaganda Committee devoted practically all of its attention to recommendations along the line of educational lectures and printed matter.

DO YOU?

Those who regard this world as a testing-place for human souls can have neither any reason nor any desire for seeing it altered, because, according to their belief, it is just as Providence intended it to be in order to answer the purpose for which it was created.

Some of the Comrades have gotten into the way of telling their wives every time they are late to supper, "Oh, I met Frank Cassidy, and he kept me down town."

A STRANGE FACE. Comrade Upton cast a glance on Branch on the occasion of the annual meeting. He got a greeting like that accorded a long-lost brother just returned from China.

THE HEAVENLY TWINS. Comrades Mrs. Molly and Mrs. Perry are coming to be known as the Heavenly Twins of Branch 3, Benson: Mrs. Perry is heavenly, and Mrs. Molly did as much work as a pair of twins at the Fair.

THE JOB HENRY WANTS. Comrade Henry Schlabig says that the wear and tear of hard work is being going to get to him, and he is not good enough to go to the front where the shells are bursting and splinters and arms and legs are hurled into the air.

ALL SCABS LOOK ALIKE. Comrade Archie Henderson wears a cold, stony glitter in his eyes when he talks of scabs. They all look alike to Archie, whether they are scabbing on the A. F. L., I. W. W., Working Party, or any other type of working class organization.

ALL IN ONE ACT. F. Cattell (Confidentially)—"Say, Paddy, why is it you Irish eat fish on Fridays?"

WHEN YOU BUY WINE. Comrade Battistoni says that when it comes to wine, a coming label means times over a multitude of sins. If you want any tips on wine, (not how to drink it, but how to get your money's worth while buying it), go to one of the Battistoni brothers.

A COMRADE'S INVENTION. Comrade I. R. Taylor is building up a fine business with his coming label. He has had some of his barbers are inclined to be quite enthusiastic over them.

BRANCH 7'S HARD LUCK. Comrade Morris Brody is talking of going back to his old home in Cleveland, because he is having longings for Branch Seven, to lose one good organizer after another in quick succession.

HOLDING THE FORT. Comrade Jones still holds the fort as the only newslander in Buffalo who is game enough to fill his windows with Socialist periodicals. Drop into his place and get a good lesson in how to do anything in the way of a Socialist periodical. It's a safe bet that he's got it.

"HERO" AT CLOSE RANGE. Comrade Binckel, of Branch Four, who was formerly a member of the 13th Regular Infantry, and fought with them

at the battle of San Juan Hill, says that he saw "Hero" Roosevelt right after the negro troops had saved the Rough Riders on Kettle Hill, and the sight of the strutting braggart made him so sick that he has been strong since.

THE USES OF HEADS. Henry Schlabig says there are other good ways to use a head outside of merely using it as a leading place for hair. For instance, as a skating-rink for flies, eh, Harry?

WATCH IT GROW. Sam Leary has also joined the "Young Sam's" Socialist League. The girls were all of a flutter when they heard of it and saw age, 21, on the application. Sam never attended a party yet where there was anyone who felt any younger. And there is made a just old as he feels.

"THIS'LL GREESE YOU. If you ever get discouraged at the outlook for the Socialist movement, just ask Comrades Bangert, Ehrenfried, Pitcock or some other one of the "old guard" about the days when Local Four found a little old back room plenty big enough! Then compare those conditions with the present time, when the big Broadway Arsenal is sometimes crowded with protesters for us, when we all get together.

OH YOU PROSPERITY! Comrade Martin says that the glorious reign of prosperity of which the capitalists are so fond of telling hasn't hurt the annual winter crop of hard-luck stories down along the water-front.

HE'S A CHAMPION. A few more subgetters like Comrade Arthur Opler, and the Buffalo Socialist ranks will be complete. Arthur Opler is always on the job, and anyone who gets by him without subscribing for the Buffalo Socialist is pretty nearly a hopeless case.

LABOR AND PERSONALITY Labor is a blessing, but man has managed to regard it as a burden and a curse. If it had not been for labor, man would still be living in a cave and eating his adversary raw.

Labor has created civilization and made it possible for millions to live in comfort where before a few thousands of savages were scarcely able to eat out a miserable existence.

Labor has enabled the brain man to develop and thereby furnished the means to man to become a creator of tools and instruments, of social institutions and ideals which opened to him an intellectual world and enhanced the significance of the old, the material.

There is no higher thought possible without labor; every thought is the product of somebody's exertion, and every practical thought expresses some action, some deed, some work done or to be done. To do a piece of work properly means to set in motion your thinking apparatus and stimulate it to the production of suitable thought combinations.

THE BUFFALO SOCIALIST

It appears that, in addition to spring upon the working girls, and determining to the satisfaction of their bosses, just before the new split street should be offered in every church which supports the sacred doctrine of trustful uplift.

"GUIDING THE SCHOOLS. The Chamber of Commerce has had it all arranged with the board of education to "guide" the vocational education scheme by which the Buffalo schools are to be turned into slave-training pens for the masters.

Don't crowd, gentlemen! The school board has a way to get plenty of them, so that none of the employers need pay for the training of his victim, but can get them, ready-made from the local schools. Just imagine the feelings of the school board when they see a week for trained saleswomen!

NEAR PRESS WORK. Canningly seizing upon a report of the Executive Committee of the American Federation of Labor which suggests that the Boy Scouts be not denounced, he has threatened that organization have turned the report into a story for the newspaper which purports to be an indictment of the murder-training school by the Federation of Labor.

FLAUN BILL AGAIN. Plain Bill Sulzer continues his plan to bring Albany with all his old-time enthusiasm. At last accounts, he has been photographed 3,764 times in various "characteristic" attitudes and every time the cameras flash they say there's nothing like getting your picture taken in your old clothes to line up the farmer vote.
