

LOCAL PRESS TRYING TO DISCOURAGE GOULD STRIKE

Western New York Papers Try to Get Men to Return to Work at Gould Plant — Armed Guards Attack Strikers — Alleged Violence Looks Like Frame-up.

In spite of lies and bluffs of the Gould Company and the subsidized capitalist press intended to discourage the strikers, they refuse to be fooled and are standing solidly for their principle—the right to organize.

New is the time when the workers of Lancaster and Depew begin to realize that the salvation of the working class can only be achieved by the working class itself. They thought that their local papers would be with them in their fight. That they would pick up sheets such as the Western New York Post and find it standing with them in this crisis, but they have been sadly disillusioned.

The strikers wonder why the truth regarding their struggle is not printed in the daily press. Why, the facts are suppressed altogether or distorted beyond recognition.

When is 6 per cent not 6 per cent? When it's 3 per cent

According to the tale of woe a certain business man who recently went up against a sample of the so-called "real" money of the plutocracy, it would appear that the financial barons had dug up a new wrinkle in the art of high finance.

This Mr. Small, Business Man applied to a certain bank for a loan of \$5,000, the bank refused to loan him the money unless he would accommodate his needs if he would take a loan of \$7,000, draw \$5,000 of it and leave the remaining \$2,000 in the bank to be applied immediately toward the payment of the loan.

Necessity, knows no law, so the proposition by the bank was accepted, \$5,000 in ready cash secured—less the deduction of interest at 6 per cent on \$7,000. By this financial juggling the business man really secured a 5 per cent loan instead of the 6 per cent rate, the laws against usury are set at naught and 6 per cent becomes—practical chicanery.

says that he knows who the men are. He knows a thing or two more which might come out accidentally in court and that is the cause for his outrage at the news of the strike.

From the noise which the subsidized press is making one would almost think that the Gould Coupler works is working along at its normal capacity. Almost that no trainloads of finished parts are being leaving the shop. Seals who have voluntarily quit work have confessed that the big saw which is kept constantly running in the shop through the defective molds, deciding that the job is a failure, breaking up the bum castings and dumping it back into the furnace.

A number of instances of sabotage have been reported which must add to Mr. Hayden's sense of gratification. One man came into the plant, worked a while, then left through the back door, and then walked out. Another disgraced worker left the metal coil of "freeze" in a furnace. Such instances are of daily occurrence. Hayden knows well as the strikers that the men now on the job in the Gould plant are worse than useless. That they are nothing but an expense to the company and will also remain so until the strike is ended the expense indefinitely.

The Gould Company is in desperate straits and will go the limit in order to coax or bully the strikers back to work. A strenuous attack is being made to convince the strikers through the daily press that their cause is hopeless and to work up public opinion to send a job that the people will stand for the bringing of the state militia to force the men from their position.

Several days ago a weird and wonderful episode of Comodore Gould appeared on the streets of Buffalo. Men who know the newspaper business and particularly the character of this prostitute scound, say that the fellow must have cost the Goulds in the neighborhood of 200 dollars. We believe that a conservative estimate. There is space (preferably for sale) in the paper for anything except the truth for the sake of regard to the exploitation of the working class.

CATHOLIC EDITOR AND SCHOOL EXAMINER OPPOSES UNIVERSITY

The editor of the local Roman Catholic "organ," who is also chairman of the board of school examiners, opposes "organically" with a scare to its readers against the establishment of a municipal university.

As an argument against this institution, the editor claims that it would increase an already too high tax rate. In this man who holds a position which should make him the first to favor increased facilities for education, we find him thinking only of the political interest of his church, which fears the broader education of its people.

And think of it, a Catholic paper in this city, in which millions of dollars worth of property owned by that denomination, and upon which no tax is paid, pretends to fear that a university would add to the tax rate!

It looks as if the editor of that sheet places the intelligence of its readers at a low mark when he attempts to fool them so easily.

CO-OPERATIVE FIRE INSURANCE

The German Co-operative Society is organizing all their co-operative fire insurance. All such insurances are now being centralized in their office, which is practically a kind of public office for the benefit of the members. In regard to the great number of policies already taken out, an independent co-operative insurance will certainly be established later, although the present conditions are an improvement upon the former arrangements, since management expenses have been greatly reduced, and compensation is assessed in conjunction with the Co-operative.

TO THE ROCHESTER CONVENTION

The New York State Convention of the Socialist Party will be held in Rochester May 20th and 21st. It will be the largest and best convention ever held by the party in this state.

Every Socialist in the state would like to attend the gathering and there will be hundreds of Socialists in attendance in addition to the delegates from every part of the state. A special train will bring the Socialists from New York and another special will be run from this city under the auspices of the Buffalo Socialist. The dates for the convention are: Wednesday Day and the following Saturday and Sunday. Everybody can get away these two days.

This will be your opportunity to view the magnificent building of the Rochester Socialists and see the largest Socialist Sunday School, with a membership of over five hundred children. There you will meet and mingle with the Socialists from every part of the state, many of whom you have heard of and all of whom you would like to meet. There undoubtedly will be a parade and a big demonstration. The Rochester special will probably be accompanied by a band. Already the Buffalo Socialists are making preparations for the convention.

AT A MEETING OF THE BOARD OF DIRECTORS OF THE BUFFALO SOCIALIST PUBLISHING COMPANY, HELD LAST PAST, IT WAS DECIDED TO GIVE EVERY SOCIALIST A TRIP TO THE ROCHESTER CONVENTION. THE FARE AND HOTEL EXPENSES TO BE PAID BY THE BUFFALO SOCIALIST.

ARTHUR DALTON OF ENGLAND SPEAKS AT BRANCH FOUR

There will be big doings at Colonial Hall, 288 West Ferry Street, near Grant, Sunday afternoon.

Arthur Dalton of London, England, now touring the state under the auspices of the state committee, will speak at 3 o'clock immediately after the lecture supper will be served. An admission fee of fifteen cents admits one to the lecture and covers the cost of your supper. Lecture and eats all for 15 cents.

This certainly looks good. Come to Branch four, for they are holding the doings, this Sunday afternoon.

JOBLESS MEN CLUBBED BY WESTERN POLICE

San Francisco.—Fights are impending between the unemployed army and the police of Richmond, the manufacturing town near Oakland.

The police are unfortunately expected to camp at Oakland until enough money was raised to pay fares to Sacramento, the police descended on the crowd and the police forcibly compelled the men to take to the road.

General Kelly's army of 1900 men camped within the corporate limits of Richmond. The I. W. W. army, under the leadership of the Kelleys, took a mile north of the Kelley camp on the county boulevard.

Scouts of the Kelley army, hunting fowls, tore down an empty wooden building and also removed the stakes for a railroad line, not recognizing the stakes. The pulling up of the stakes will cost the railroad several thousand dollars for a new survey, it is said.

While removing the outbuilding the police appeared and clubbed many of the men.

WHERE THE NEWS STANDS ON GOULD STRIKE

The Evening News is always on deck whenever a strike is in progress to misrepresent the strikers and assist the employers.

OPPORTUNITY OF A LIFE TIME

Think of it—your fare to Rochester paid from any point in Western New York—hotel accommodations absolutely free to you—and best of all two days in which to meet and get acquainted with your comrades in the movement. Not only the hospitable Rochester comrades with their magnificent organization, their Young People's League, their singing societies and Sunday School; nor only the other Western New York comrades; but also the comrades from all over the state and many from other states can get away these two days.

Many of these comrades have been in the movement; some of them have reached the point where they work here; some so faithfully carried on must now be taken up by the younger men; there; some of them you may never again have the opportunity of meeting. To meet them now, to grasp their hands, to hear the word of cheer; this is the opportunity we are offering you. All you need to do to obtain this trip at no expense is to secure a certain number of subscriptions to the Buffalo Socialist.

WHO ARE ELIGIBLE TO COMPLETE. All our readers in Western New York, residents of Onondaga County and all counties west of Onondaga are eligible for entry in this contest. These counties have been divided into two zones of competition.

The First District includes Cayuga, Erie (including Buffalo), Genesee, Livingston, Monroe, Niagara, Ontario, Orleans, Seneca, Wayne, Wyoming and Yates.

ATTEMPT OF CATHOLICS TO SUPPRESS SOCIALIST PAPER

Send Letters to Business Men Asking Them not to Advertise in Hamilton Socialist — Subjects of Pope Talk About "Un-American" to Get Sympathy of "Non-Catholics."

Hamilton, O.—The Socialists of this city have unearthed a cowardly attempt to crush their local organ, "The Hamilton Socialist." The Butler county federation of Catholic societies has been quietly sending the following letter to business firms that advertise in the Hamilton Socialist:

Dear Sir:—Some thousands of our citizens consider it had policy for business houses to advertise in the revolutionary Socialist newspaper, whose avowed objects are the destruction of our civilization, the destruction of God, country, flag, religion and home.

By your advertising in such a paper, you are contributing directly with your money to the advancement and aggrandizement of revolutionary Socialism. You are contributing to keep active in our midst, the anarchistic forces that would confound your business if they ever got strong enough to control our political affairs.

Are you aiding the circulation of literature that is making recruits for this avowed purpose of destruction and confiscation, while compelling at the same time, ardent lovers of God, country, flag, and home to spend their money to equip the harm you are unconsciously, perhaps are doing.

The following resolution has been passed by the Butler county federation of Catholic societies, composed of delegates from all the Catholic parishes and from all of the Catholic societies of the city.

Resolved: That business houses, Catholics as well as non-Catholics, be requested not to support either by subscription or advertisement, "The Hamilton Socialist." With regret and astonishment we deplore the fact that the destruction is receiving from some of our business houses, and we can not commend advertisers who patronize newspapers that pursue the un-American and dishonorable practice of stirring up class hatred and religious rancor."

Hope that the above will receive your careful consideration, we are, Yours respectfully, JAS. A. MURPHY, Sec'y.

FRANK J. GREER, Pres. Show Brothers Sidlight. A brilliant sidelight is shown on the honesty of the signers of this letter and their real desire to further the cause of decency and morality by the fact that one of them sent another letter on the same date that this one was mailed to the business men to Fred Hinkel, the Socialist mayor of Hamilton, reading as follows:

"On behalf of the Federated Catholic Societies I congratulate you on your very commendable action toward bettering the morals of the city by ridding it of part of its commercial vice. If I trust you will not stop in the good work so auspiciously commenced until every vestige of this most vicious industry is driven from our midst and its blighting influence driven from our city forever.

WESTERN FEDERATION OF MINERS SENDS SPEAKER TO BUFFALO

Frank Aaltonen, organizer for the Western Federation of Miners, who is charged with a tour of the eastern states, will speak in Buffalo on Saturday, March 14th, at 8 o'clock, at Liberty Hall, corner Wablers and London streets.

He will tell of the strike of the copper miners of Calumet and collect funds for their benefit. The strikers need \$10,000 per month to keep them in order to win the battle and it is the duty of every worker to give them an helping hand.

The Finnish Socialists, under whose auspices Mr. Aaltonen speaks, although few in numbers have collected more money for the strikers than anyone else, and it is desired that a good audience be given the speaker, who is fluent and well-known in the west. Mr. Aaltonen is thoroughly conversant with the strike situation, having been in the Calumet district since the beginning. He will speak in English and Finnish.

45,617 UNEMPLOYED IN CITY OF CHICAGO

Chicago.—The total number of unemployed men in Chicago is 45,617, according to a report made by the census canvass made by the Police Department at the request of the Federal Commission on Industrial Relations. A statement, having been sent to Chief Gleason by Mayor Harrison today by Chief Gleason.

The report of the Municipal Employment Bureau for the month of February shows that positions were obtained for 4,666 men. In addition to this 17,000 men were assigned to work in the different wards of the city. Of these, 725 failed to report. Forty-three of these men were given street car tickets and arrested and 29 were fined.

When governments cannot borrow money, then there will be an end of

BUSINESS AND PROFESSIONAL MEN ENDORSE COMMISSION FORM — LOOK OUT

Aristocracy Hold Matinee at Hotel Statler at Which They Decide What Must be Done — Politicians Fall in Line — No Workers Need Apply.

Last Friday afternoon about 350 of Buffalo's "best citizens" gathered at the Statler Hotel. A luncheon was served, speeches in favor of the commission government were made and a resolution adopted urging Mayor Fuhrman to sign the Malone-Horton charter bill.

The gathering was a great mixture of politicians, reformers and other better-than-most people. Inasmuch as the affair was held in the afternoon it is needless to say that none of the workers were present. They were too busy in the shops earning the wealth which admits of a concave like that at the Statler. The working people of this city comprise about 80 per cent of the voters, and the spectacle of 350 lawyers and business men taking upon themselves the task of deciding for the seventy odd thousand voters of this city is amusing to say the least.

The nature of the business and professional class is to assume that it is in favor of a proposition that the workers must certainly be.

Only a few months since the reformers were loud in demanding a law which would permit of the recall of elected officials; this, by the way, is something the Socialists have been in favor of for many years. Today the Reform and Citizens crowd are standing sponsor for a law which if adopted would place the government of this city entirely in the hands of five men WITH NO RECALL.

Under the proposed charter the legislative power of the city shall be vested in a board to be known and styled as "The Council of the City of Buffalo." The council shall consist of five men, the Mayor and four council members, whose terms shall be for four years. The present common council, composed of aldermen and councilmen, will be abolished and all the present elective positions, such as the city treasurer, assessors and others would be appointed by the commission of five.

It has been remarked that it is much easier to legislate a law than to enforce it. The proposed charter rules the citizens of Buffalo of the right to elect their own officers.

Are the people of this city too ignorant and vicious to enjoy the right of self-government?

The crowd which gathered at the Statler certainly so regard the fellow-citizens. The people by the proposed charter are robbed even of the right to elect their own city treasurer, an charge of the millions collected through taxation and assessment; are robbed of the right to elect the assessors. Who do you suppose the commission of five will be? An answer to this question will be a commission of five dukes who will be masters of the city WITH NO RECALL.

SOCIALIST ARRESTED FOR EXPOSING POLICE

Arrested for criminal libel on charges preferred by the entire police force, the editor of the Canton Socialist, published at Canton, Ill., was placed under a bond of \$500. The complaint is based on an article printed in one of the recent issues, stating that policemen frequent resorts of the city. In one instance, three of them entered a resort, and the inmates informed other men in the place that they had to entertain the police.

SPANISH CARPENTERS STRIKE

The carpenters have been locked out in Barcelona, Spain, for some days. The 3,000 workers have joined them so that over 14,000 workers are up in arms against the combined employers. In order to break down the resistance of the employers, the Wood Workers' Federation has decided that all wood workers in the building trades should work their dues. The workers there are 14,000 workers either on strike or locked out.

SOCIALIST STIRS UP HORNET'S NEST

Robert J. Wheeler, Socialist councillor of Allentown, Pa., has issued an open letter to the press, directly charging that the police and the city administration are in alliance with the thugs and the slum element in general. He declares that the respectable citizens are terrorized by this gang until they dare not protest.

He has announced his intention of holding a public meeting at which he will ventilate the whole situation, and demand a reform and an improvement in office. It is generally agreed that his charges are justified and public indignation is running high.

It is significant that at the election where Wheeler was elected the Catholic church brought out a lawyer from New York, to attack the Socialists on the ground of "free love" and immorality, and to help the slum element elect the present officials.

PARIS BANK CLERKS ORGANIZE

The Parisian bank employes have entered upon a vigorous movement. Their demands for the observance of the legal weekly rest-day, holiday, hours of service, payment of overtime, free Saturday afternoon, and an improvement in wages have been submitted to all banks.

Up to the present, ten banks have joined the representatives of the Bank Officers' Organization. This organization, which includes a goodly portion of the 25,000 of the bank employes in Paris, is devoted to fight for the recognition of their demands with all its might, and is preparing for a general strike. Demonstrations will, in the first place, be instituted with the assistance of the Trades Union Federation, with which organization it is affiliated, and Parliament will be called upon to intervene.

UNEMPLOYED INVADING CHURCHES IN N. Y. CITY

The adventures and experiences of Frank Tannenbaum and his hungry army of unemployed men in New York City during the last ten days has spurred the kept press to devote more space and attention to the problem of the hour than anything else that has occurred in the market of labor for many weeks. Scathing editorials and special articles are being published throughout the land, denouncing "Tannenbaumism" as the greatest menace of the age and something that should be immediately throttled and annihilated. And to this sentiment the clergy respond with a hearty "amen."

An Unusual Sight. The spectacle of several hundred workmen entering a church edified is such a rare occurrence that when Tannenbaum and his starving followers entered the Saint Aliphan Roman Catholic Church, the priest, the Rev. J. G. Schneider, nearly had a hemorrhage, and those present were thrown into a state of confusion. The workmen were sent dispatches. "Women screamed when they saw the intruders, who, paying little attention to this, quickly occupied seats well in front." There we have it in plain English. The work-ingmen of today is looked upon as an intruder when he enters the church in his hour of extremity. And yet there are still a number of unappreciated and unappreciated men who maintain that they should welcome the poor as well as the rich.

Doors Locked by Detectives. The "managers," as the kept press do them, were "locking" the church "sacred" edifice than that the doors

EAST SIDE LABOR LYCEUM

The first social evening of the East Side Labor Lyceum will be a ball to be given Tuesday evening, March 23rd.

Your attention is called to the Band School Study Class, which is being conducted by the East Side Labor Lyceum.

The East Side Labor Lyceum, as you perhaps already know, was organized for the purpose of getting funds to erect a suitable building.

When completed, will have a large hall to be used for lectures, moving picture plays, etc.

If you have any children, don't fail to send them to the School of Social Science.

Buffalo Socialist will invade Rochester

The Buffalo Socialist is going after subscribers in Rochester, and at the Colonial Theater, Sunday, March 15th.

Comrade Barnard will call the attention of those who attend his lectures in Rochester to the fact that his discourses in the theater there will be repeated regularly in the city of Buffalo.

A particularly attractive offer will be made in connection with this subscription campaign.

Comrade Barnard, before his lecture here, will introduce this important Buffalo Socialist work.

Six month subscriptions to The Buffalo Socialist will be accepted at the rate of 50 cents each.

Bring the cash with you, and get the benefit of Barnard's repeated lectures.

Our friends are informed that the increase in price for raising this state 1,500 per cent in the past ten years.

What do you think of it? Does your boss provide you with two residences?

EXPERIMENT OF MODERN SCHOOL OF SOCIAL SCIENCE

A musical and literary entertainment will mark the opening of the Modern School of Social Science which will be given under the auspices of the Jewish March 8 P. on Sunday evening, March 15th.

This will be the initial appearance of the pupils of the school and the children to school where musical and dramatic entertainments.

With all the moral and economical problems that face every home of the working class, with all the struggles through which we must pass in order to reach the better life, certain facts stand before us.

Since our school has just opened the children greatly encourage the children to school where musical and dramatic entertainments.

What the Catholic Church opposes

In the Buffalo Express of February 25th, there was an interview with the Rev. C. B. Bubenheim which read as follows:

"The time has come for someone to assume the exceedingly unpleasant duty of arousing public opinion against the Roman Catholic Church, which if it was not organized by the Socialists, has at last been fostered by them.

It seems ridiculous for a priest of the Roman Catholic Church to be especially a priest with such a name as Bubenheim, to call anything an American.

The Ency. Britannica. "Socialism is that policy or theory which aims at the bettering of the condition of the masses by the action of the central democratic authority a better distribution, and in due subordination thereto a better production of wealth than now prevails."

The American, 1913. "The word is used to designate a co-operative social organization where the means for the production and distribution of wealth are the collective property of the working class, while the goods which are to be consumed become the private property of the individual workers."

Webster's New International Dictionary. "Socialism—A political and economic theory which advocates the social reorganization, the essential feature of which is governmental control of economic activities, to the end that competition shall give way to co-operation and that the opportunities of life and the rewards of labor shall be equitably apportioned."

Century Dictionary, 1913. "Any theory or system of social organization which advocates, entirely or in great part, the individual effort and competition in which modern society rests, and substitute for it co-operative activity, would introduce a more perfect and equal distribution of the products of labor, and would make land and capital, as the instruments and means of production the joint possession of the members of the community."

Standard Dictionary, 1913. "A state of society based on the public or collective ownership of the main instruments of wealth production (land, means of transportation, and modern machinery) and on democratic management of the industries by the community for the benefit of its members."

Rev. Bubenheim claims that the accomplishment of these ideal aims be fulfilled unless the Roman Catholic Church is first destroyed.

Science, in every branch, has been compelled to fight (and has conquered) the claims of the church.

Happily, Sociology is heir to the labors of the giants who toiled in the fields of physical and biological science.

SALVATION SAMMONS SAYS SOCIALISM SHOULD BE SPEEDILY SUPPRESSED

Thinks the Roman Catholic Church the best of all worlds.

"Major" Sammons, chief spokesman of the Salvation Army, and the one who testified in court under oath that he believed in doing things by "hook and crook."

It was to be expected that the "Major" would not be forthcoming in his testimony after the publication of the article in last week's Socialist, which was written to refute the scurrilous attack which appeared in the paper.

When the "Major" was called upon by a friend of the Buffalo Socialist to ascertain his more recent views of things in general and charity graft in particular, he was in a very communicative mood and would have talked all day if the interviewer had not pleaded for a recess.

UNEMPLOYED INVADING CHURCHES IN N. Y. CITY

Continued from page 1. were looked upon them by the detectives who had followed the workmen as they marched in an orderly procession from Rutgers Square to the church.

In chronicling the events in which Tammenbaum seemed to have been the leading figure, the subsidized newspapers have made much of the fact that he is only twenty-one years of age, but if actions count for anything in estimating the worth of an individual, then we must conclude that Frank Tammenbaum is made of good material.
