State Saves One Through Decision of Judge—Orchard Has His "Picture Taken" Wears Diamonds

(Appeal to Reason Bureau Special to Chicago Daily Socialist.) Boise, Idaho, May 22.—With eleven jurors in the box, court adjourned the Haywood case until Thursday afternoon to permit Sheriff Hodgins to summon another venire of sixty men, the regular and special panels having been exhausted in an attempt to secure a jury.

Each side exercised six of the ten peremptory challenges; they are entitled to and there is one vacant seat, making nine men that must yet qualify in order to complete the jury, assuming that both sides will use all the peremptories they are privileged to use.

7 Men Needed. In that event not more than seven additional men will have to qualify. Before adjourning Judge Orick Cole was excited on account of ill health, the attorneys on both sides agreeing to the order of the court.

Juror A. P. Burns likewise asked to be excused on account of physical disability, but his case was deferred until Thursday. Juror Daniel Clark made a similar request, stating as his reason that his business interests would suffer should he remain on the jury.

Fisher Fired. John Fisher, the farmer whom Darrow successfully contradicted in an examination, was peremptorily discharged by the defense. Five talesmen were grilled before one was found acceptable to the state to take his place.

BRITISH COLUMBIA PARLIAMENT CLOSES

Few Socialist Members Exercise Great Influence On Legislation

(Vancouver, B. C., May 22.—The session of the provincial parliament has closed, leaving the Socialists to boast a record in legislative work. The revolutionary members have always been present and have carefully scrutinized every measure, no matter from which side it came, with a view to making some change that might better even in a small degree the lot of the workingmen.

An Active Solon. Hawthornthwaite has been keen, aggressive, vigorous and vigilant as ever. Parker Williams, by his combination of humor and sincerity, has done much to disarm criticism and has succeeded in gaining the ear of the house in a way that enabled him to do a great deal of work.

Eight-Hour Bill. The greatest triumph of the Socialists during the past session was the unopposed passing of the eight-hour bill for smelters. This bill had been defeated in two previous sessions.

Attack Government. During the session the Socialists attacked the government for entering into negotiations with the Salvation Army for the purpose of getting the latter to bring into the country immigrants to act as strikebreakers.

The School Board

Busse is trying to kick out the radicals in the Chicago School Board. He will probably succeed in doing it. The forces that are behind him make the laws and have little respect for their product.

Contrast this with the way in which big business goes to work. Busse gets into power and proceeds without hesitation to carry out the wishes of his masters.

This last job may prove a little tough, as he will there touch the edge of something that is just as ruthless and revolutionary as big business—the labor movement.

Whenever the capitalist class meets the organized working class there is something doing. The workers are the natural antithesis of the capitalist.

Inciting To Riot

Two days after the great parade the press of Chicago awoke to its existence. They had "played it down" and lied about it in their news columns, but editorially it became a terrible menace.

The Chronicle is doing better than usual. There were only two falsehoods about Socialism in its editorial columns Wednesday.

THE CONTROVERSY BY WILLIAM L. BENESSI

(A Fable—With Apologies to Nobody.) Once upon a time a number of slaves forced by the stern law of necessity were brought together, and by their co-operative labor they had produced an abundant store of wealth in the shape of necessities and luxuries.

stretching himself: "my country stretches from the north to the south poles, and if we had a little more vodka and rublevich, the slave—I mean the Slav race, (he said correcting himself), "would conquer the world."

The Hibernal and the Vermontian had drawn their knives and were glaring at each other, while the Ravitian was punching the slant-eyed slave from Cathay.

No one knows how long the strenuous controversy would have lasted but for the fact that it began to rain—at least the slaves thought so, as each one scurried away to seek some shelter.

"Judge Made Law" or, American Depotism of 1907

In the Declaration of Independence, which was the corner-stone of the foundation of our government, we have this stated, viz.: "That to secure the rights of life, liberty and the pursuit of happiness governments are instituted among men, deriving their just powers from the consent of the governed; that whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it."
