POSTAL OFFICE IS DESERTED
The Postal employees walked out at 2:15 p. m. Friday. After a long session in the afternoon it was decided to order the Postal employees to join the walkout.

Only a Club.
Edward Nickols of the Chicago Federation of Labor addressed the meeting.

Whistle Is Sounded.
Following orders from the union, E. G. Moore, M. J. Paulson sounded the whistle that called out the Postal workers.

POLICEMEN PERSONALLY WITH THE STRIKERS
The policeman at heart is not half so bad as he is painted. In view of the presence of so many officers about the scenes of the strike at the Western Union building, the public seems to have gotten the impression that they all are harsh and deaf to the cause of the strikers.

MAYOR SIGNS CITY CONTRACT
Mayor Busse yesterday signed the Rogers Park water works contract. He stated that in so doing he was guided entirely by the advice of the officials who have the deal in charge, but he made no secret of his opinion that the deal had not benefited itself much by the transaction. An injunction may be issued before the first payment of \$50,000 is made.

JUDGE ON BENCH ARRESTED
(Hy United Press Associations.)
Houston, Tex., Aug. 10.—While Judge H. B. Short was holding court at Center, Tex., a local officer stepped up and interrupted the court proceedings to place the judge under arrest. While he appeared surprised, the judge listened attentively to the officer who read an indictment which had been voted against him on the charge of having killed Dr. Michael Paul.

WHIRLWIND OF STRIKERS—"VICTORY SURE"

VICTORY!!
The one predominant note of the 10 a. m. meeting of striking telegraphers at 275 La Salle Saturday was absolute victory for the men. This opinion came not only from the rank and file, but from high officials of the Western Union Telegraph company.

OFFERED BRIBE.
Likewise, declared that several months before the strike he had been offered an increase to \$125 a month if he would desert the union. Other operators received similar offers.

WOMEN ARE FIRM.
Miss Della Reardon, a striking Postal employee, addressed the gathering.

INFANTRYMAN YATES, AND HOW HE PUTS SOCIALISM INTO THE RANK AND FILE

"I am from the Eleventh United States Infantry," said a tall, redheaded, soldierly looking young man, as he strode up to the editorial rooms of this office.

He Was Fat.
"He was a fat man and fell in a faint at the end of the six blocks. I am not prepared to defend our summary punishment of the criminal, but we gave it to him anyhow."

WOULD BUILD HOME; JAILED
Kenosha, Wis., Aug. 10.—William E. Wilkins, who resides at the Holland hotel in Chicago, was arrested here today on a charge of obtaining money under false pretenses. The police assert that Wilkins collected nearly \$5,000 from various Kenosha business men for the purpose of building a home for disabled soldiers.

Refuse to Remain at Posts and Leave Office High and Dry

The telegraphers' strike was further advanced this morning when fifty check boys in the big offices of the Postal Telegraph company went out because they were requested to handle messages sent by nonunion operators.

(By United Press Associations.)
Boulder, Colo., Aug. 10.—One hundred persons were injured, one of them fatally, a number of houses and several freight cars destroyed when a train of traffic on a railroad was temporarily paralyzed early today when four tons of dynamite on a freight car of the Colorado & Southern railroad exploded.

JAPAN COULD GET PHILIPPINE LOAN

At 2 p. m. Friday, Aug. 9, the following persons were reported to be at work in the main office of the Western Union, Chicago, remaining at their posts and, in the common battle for improved conditions, it is not possible to furnish initials to all the names, so they should not be confused with those now out on strike, whose names are similar:

ESPERANTO AND SOCIALISM

There is no body of people on earth who welcome Esperanto with enthusiasm exceeding that of the Socialists. Our cause knows no boundaries of races, continents or nations. International solidarity demands an international means of expression, which Esperanto gives us. A short time hence, literature printed in one language will be read by a majority of Socialists throughout the world!

THE LATEST DEVELOPMENTS

The vagrancy law is to be used to break the strike on orders from Police Chief Shippy.

The telegraph buildings have been turned into lodging houses. The city of Chicago is buying meals for policemen doing strike duty.

United States Labor Commissioner Charles P. Neill is on his way to Chicago with the view of adjusting the telegraph troubles.

President Russell has informed President Roosevelt that he will order a resumption of work if assured that the government will make an immediate investigation of telegraphic conditions.

The telegraph companies in New York will only serve to spoil the chance. Whether government officials wish to intervene or not, they will be compelled to when the federal service becomes hampered by the strike.

It might help some of the companies to realize that the entire matter is liable to end by the government taking over all telegraph property.

Policeman George O'Connor got into print by making the first strike arrest. The prisoner's name was George Striker. Probably that fact gave the officer his moral strength.

It has been discovered that a string of cots and bedding have appeared mysteriously on the top floor of the Postal building and also develops that the Postal officials are prepared to get a license and go into the lodging house business.

Local unions in every town where the strike has taken place have declared for a 15 per cent increase of the wage scale and the same scale for women as for men.

The department of justice in the federal government may have to consult the Sherman anti-trust law in the end and learn just what is meant by "conspiracy in restraint of trade."

Superintendent Capon of the Postal company must have a secret. He has issued an order that important commercial messages will be received at the main office hereafter subject to no delay.

Superintendent Cook of the Western Union has made the statement that he will have 200 men at work in the operating room. The question is, does he mean operators?

General Manager E. J. Nally of the Postal has stated that the operators have done an unthinking, unskillful, unwarrantable and unwise thing by striking, and he has ordered that double salary and free meals shall be given to operators who have abstained from these sins.

Two consignments of strike breakers are known to have arrived in the city from the east. What's the use of getting 'em from the east while Hinky Dink's is so crowded?

The manager of the Western Union remains firm. He says that any will hold conferences or meet any representatives of the union. He was asked if he would meet President Gompers of the American Federation of Labor when he arrives in Chicago.

The lack of wire facilities will mean an enormous loss to the board of trade men and the brokers. A "bam-fatter" who said he was an operator brought from the Erie tried to work the strikers for some easy money Saturday night.

Demands are to be made today on the brokers who have leased wires to the Associated Press that if a minimum scale of \$35 a week is not agreed upon by 7:30 this evening they may go to Fox lake.

President Small is expected to arrive in the city Wednesday. The capitalist papers have hinted at dissension in the strikers' ranks, but the strikers have not as yet seen it.

WILL ASK GOVERNMENT TO SEIZE TELEGRAPH LINES

Secretary Russell of the commercial telegraph companies is now in conference with the attorneys of the union, preparing, it is said, to ask the federal government to seize the properties of the Western Union and Postal Telegraph companies, providing the strike continues to spread, under the terms of a federal statute giving the government power to take over the properties of telegraph companies as a matter of public expediency when the companies are unable to operate them.

The law which the unions declare gives the government complete jurisdiction of the situation was an amendment to the act of August 1, 1888. It provides that if any telegraph company shall fail "in whole or part to operate its lines and transmit messages for the public, then any person, company, corporation or contracting telegraph company may apply for relief

The Iron Range Strike; Some Incidents of the Great Battle

By F. D. Freeman.

(Mail Correspondence.) Gordon, Wis., Aug. 8.—There is one thing sure: If the Western Federation of Miners on the Iron range can't see where some of the steel trust funds are being spent while reading the Du-

When we see the daily press sold out in that manner for the moment it makes one's heart sick. Every thing sacrificed for money. But it is well; it shows us a few on whom we cannot depend, and I can tell you some of us will remember and are remembering right now. It is such lies and misrepresentations which makes me redouble my efforts to push out our own papers, on which we can depend. The papers made great ado over the pile of poles burned at Mountain Iron. Instead of there being the great number burned, but the papers claim, it was a small

It is claimed that two brakemen in the employ of the Oliver Mining company set fire to the posts, after which they skipped the country. The posts were on the property of the Oliver Mining company, at a point where it was not possible for the strikers to have gotten without being seen at that time of the day, between 12 and 1 o'clock, during the noon hour. They had twelve watchers on nights and six on days, four hour shifts, at this place, were sacrificed for money. Every thing sacrificed for money. But it is well; it shows us a few on whom we cannot depend, and I can tell you some of us will remember and are remembering right now.

At the Stephens mine another attempt was made to set fire to property and thus reflect on the strikers. It was made by placing lighted candles between piles of logs, so they would catch on fire after the men were away, but this was discovered by our employees, who extinguished the fire and reported it to the union.

Men were instructed at every meeting not to drink or quarrel or carry any weapon. Appealed to Governor. The union men appealed to the governor, asking that all saloons on the range be closed during the strike. They succeeded in getting them closed in Mountain Iron.

Any union man caught drinking in that place, if not drinking more than one glass of liquor, was fined \$3 the next week's allowance. During my stay of about two weeks on the range I never heard one threat of violence, but, on the other hand, I heard them exhorting not only against violence, but not to allow any of the company's property to be destroyed. But about the leading hotels I heard many threats of violence and in a couple of places saw the worst kind of drunkenness and debauchery by young

demands are to be made today on the brokers who have leased wires to the Associated Press that if a minimum scale of \$35 a week is not agreed upon by 7:30 this evening they may go to Fox lake. President Small is expected to arrive in the city Wednesday.

The capitalist papers have hinted at dissension in the strikers' ranks, but the strikers have not as yet seen it. Secretary Russell has termed Superintendent Capon's letter to the strikers, bidding them stand for double pay, a mistake. Capon thought he was dealing with cowards, whereas there are so many in the union ranks.

It was amusing to watch the gyrations of sundry bluecoated functionaries who made up the special details that were sent to quell the turbulent uprising at the Western Union building yesterday.

Of the 150 officers that appeared on the scene, nine-tenths were raw recruits that had never worn a uniform before. They were stationed in pairs along the walls of the building at intervals of about twenty feet. Their orders were to "move 'em along."

For about a half hour after they had been placed it seemed as though the men were glued to the pavement. Gazing about in innocent bewilderment, each sought bravely to get his bearings. Finally they would get an illuminating glimpse of the older men getting in their work and timidly the recruits got busy with:

"Please move on, fellows; I don't like to bother you, but you know what the orders is." Then gradually the timidity was buried and the repertoire sounded something like this:

"Come on now, youse gu's can't be stalling around here. Get busy." Several operators appeared in the street during the strike and forenoon, but most of the huge crowd that filled the block was made up of curious sightseers. The crowds were good to the poor policemen and it is probable that the latter don't know yet what a fine circus they made.

SHEA OUSTED FROM HIS TEAMSTERS' UNION JOB Boston, Mass., Aug. 10.—Cornelius P. Shea, who has led the International Association of Teamsters through many hard-fought campaigns, was ousted from the office of president of the union by a vote of 194 to 94. Secretary-Treasurer Thomas E. Hughes of Boston was re-elected by a vote of 116 to 58. Other officers chosen are:

NO CONTRACTS AND NO ARBITRATION

President John Fitzpatrick of the Chicago federation, at the mass meeting of telegraphers yesterday, enunciated two new labor principles which, he urged, should be applied to all industrial disputes. These were: 1. Opposition to contracts with employers. He said these contracts tied the hands of union labor and always were to the advantage of "the enemy."

These are the principles that govern the Western Federation of Miners in all its dealings with employers. Henry D. Durkin, assistant manager of city operators, made the proposition to go into the executive committee's committee to wait upon brokers and ask them to co-operate with the strikers to the extent of seeing President Roosevelt and others in high places to assist in bringing the telegraph companies to time.

Proceedings were begun yesterday against the tobacco trust by the National Cigar Store, of which E. D. Powers is president. The complaint alleges that by unfair methods the trust has been long seeking to crush out the business of competitors. Powers' complaint among the charges in Powers' action is that the use of the name National Cigar Store, company is injurious to his business, and he asks for an injunction restraining the trust from proceeding under it.

Chicago leased wire operators today made an attempt to get the president of the New York local to have operators cease sending quotations. He was informed that the men were "scabbing" on their brothers in the Chicago field. They assert that the brokers' operators should not in any way assist the Western Union in selling its chestnuts out of the fire. The effort was partially successful and if the strike continues for a short time will certainly result in paralyzing brokerage wires.

When Haywood was going through the office of the Chicago Daily Socialist and inspecting the plant, he remained longest beside the big press in the basement. He walked around it and after studying it for some time said: "The working class of Chicago should realize that here they have an ally. This is what they need, and if they get behind this press and support it they can have a paper of their own that will be as big and powerful as any other newspaper. They can own this. They can control it and use it for their own interests."

Our National Spies! First Complete Exposure of the Pinkerton Detective Agency! A Book that Will Help to Save the Lives of Moyer, Haywood and Pettibone! Secret Letters and Documents of a Colossal Spy Bureau That Conspires to Murder. IT IS PROVEN THAT THE PINKERTON AGENCY IS NOTHING MORE OR LESS THAN A TRAITOR FACTORY. THAT EVERY PINKERTON LABOR DETECTIVE IS A TRAITOR TO HIS BROTHERS, AND THAT A MAN WHO FOR A SMALL MONEY CONSIDERATION IS FALSE TO HIS BROTHERS-IN-WORK IN TIME OF PEACE, WILL NOT SCRUPLE TO SELL HIS BROTHERS-IN-ARMS IN TIME OF WAR. IT IS PROVEN ON EVIDENCE THAT THE PINKERTON DETECTIVE AGENCY approves and favors POLITICAL REACTION and breaks State and national laws with the greatest sang-froid. A FINANCIAL STATEMENT PROVES THAT IF THE PINKERTON DETECTIVE AGENCY DEPENDED for success upon BROTTING and DETECTIVE WORK, THEY WOULD HAVE TO GO OUT OF BUSINESS. IT IS SHOWN THAT THIS AGENCY MERELY PRETENDS to serve capital, but that in reality its work is harmful to the interests of both employers and employees, and only creates a state of public mind which but too often results in strikes and lock-outs, bringing heavy financial loss to capital, and wretchedness to labor. A CHEAP EDITION OF THE BOOK IS NOW READY AND WILL RETAIL AT 25 CENTS PER COPY.
