SOCIALISTS ATTENTION! All members of the Socialist party who are willing to act as marshals in the unemployed parade will please report at 120 Washington street, at 9 a. m., Thursday. This is of the greatest importance and every member who can function should be present at this meeting.

Tribune Lies as Usual The Tribune indulged in its usual vicious lying. It described the meeting of parve delegates as a "mass meeting," thereby seeking to discredit it. "Thirty-four Hoboes in Mass Meeting Vote to Besiege City Hall" is the Tribune's headline. The article says: "The 'army' of the unemployed employed held a mass meeting at 120 Washington street last evening and decided to hold a parade tomorrow afternoon. Thirty-four representatives of the 'army' and the Socialist party were present. The parade, which will be titled 'the march on the city hall,' was scheduled to start at 2 o'clock from Madison street and the lake front.

DECISION KILLS A LABOR UNION (Cleveland, O., Jan. 23.—Judge Phillips in deciding the case against the Amalgamated Glass Workers' union held that the organization was in restraint of trade and ordered its dissolution on the ground of public policy. The petitioners claimed that they were being discriminated against by the blowers and gatherers, who are a majority in the Amalgamated organization.

PUSH NEW CLASS AT WEST POINT Washington, Jan. 23.—Under instructions from President Roosevelt, Secretary of War Taft today issued orders for a meeting of a board of officers immediately in West Point to examine the first class in the United States Military Academy, so that all of those who are qualified may immediately become officers in the army without waiting for the regular period of graduation. Make War Preparations This order, which had been known in advance in army circles for the last month, follows out the general plan of the government today to make war preparations in time of peace. There has never been a period since the civil war when there was such activity in the army and navy. The Japanese naval department presumably does precisely the same thing that the navy department in Washington does every day—that is, to give out officially word that ships arrive at or leave any given port, but it is learned that great military preparations are under way in various parts of the island Kingdom.

THOMAS F. RYAN IS TO RETIRE Richmond, Va., Jan. 23.—The announcement was made here from a reliable source that Thomas F. Ryan, the New York banker, is making preparations to retire from active business life and devote his remaining years to his native state. A million-dollar office at the corner of Broadway and Nassau is also in contemplation by the banker. Plans for both these buildings are believed to be now in the possession of Ryan, who is expected to leave for his home in New York in a few days.

INTEREST FALLS IN SHAW TRIAL

Prisoner's Mother Will End Testimony; Aliens to Take Stand

New York, Jan. 23.—Evelyn Nesbit Thaw having been excused from the witness stand in the trial of her husband, Harry K. Thaw, for the killing of Stanford White, little of sensational interest remains in the trial.

Aliens' Come Next

With these witnesses out of the way there will be, so far as is known, nothing left for the defense to introduce but the testimony of the alienists, who will be depended upon to show that Thaw's actions at the time of the shooting were irrational.

LOS ANGELES EMPLOYMENT AGENCIES TO RESIST LAW

Los Angeles, Cal., Jan. 16.—Proprietors of nearly one hundred employment agencies in this city are girding up their loins for a clash with the prosecuting attorney's office, as a result of the circular sent to each notifying them that if they do not accept registration fees for applicants for positions they will be prosecuted.

Upon seeking legal advice, the employment men hold that they are acting legally in accepting the usual registration fee of \$1 from applicants before the position they seek is actually furnished, and they say they will fight, for it means the very life of their several businesses.

Agencies Get Legal Advice

H. C. Greenhill, manager of the Employers and Employees' Association, 523 Germain building, is one of the first employment men to seek legal advice upon the legality of the threatened action of the prosecuting attorney's office.

There was no policeman present at the time, so Schwier could do nothing, but allow them to go. He immediately notified the police, who are searching for the women.

HATING WORK AS SERVANT, MAY HAVE JUMPED IN LAKE

The police are searching for Alma Larsen, 19 years old, who disappeared from the home of her sister, 1613 Orington avenue, Evanston, on Tuesday, Jan. 14. She was discouraged because she could not find anything to do except housework.

"I will jump into the lake before I will work as a servant girl again," she is said to have told her sister, Myrtle Larsen.

The girl went to Evanston two weeks ago from Milwaukee, Wis., where she had taken a business school course.

HAS KILLED 12; FALLS IN TRAP

Denver, Colo., Jan. 23.—The Republican prints an alleged confession secured by an Italian detective from Antonio Neroni, alias Davoni, charged with the murder of four Italians, three men and one woman, at Florence, O. C. O. The detective is Frank Sandesko of Pueblo, who, according to the story, gained the confidence of Neroni, who is now confined in the county jail at Canon City, by pretending to be a member of the Black Hand society from Pittsburg, Pa.

During the conversation Neroni expressed a desire to belong to the Black Hand, and when Sandesko told him that it was necessary for him to prove that he had committed twelve murders before he could be admitted, Neroni related to him a series of murders he had committed, beginning with the killing of a neighbor who had abused him in Italy when he was 12 years old.

WHAT SOCIALISTS WANT.

We are constantly asked to explain the philosophy of Socialism in a few short, simple words that can be read in a few minutes and easily understood.

This is impossible. Socialism is an elaborate system of thought that touches every phase of human life. It has a literature of tens of thousands of volumes. Men who have spent years on single phases of Socialist philosophy have still not exhausted its depths.

The same thing is true of every great system of thought. None can be understood in a moment. There is no royal road to knowledge.

Yet there are certain fundamental principles of every philosophy and science which are so simple that anyone can understand them. The same thing is true of Socialism; its basic principles can be stated in plain, simple words.

First let us state some plain facts. Indeed, nearly all there is to Socialism, as to science in general, is a system of arrangement of certain facts.

Men are working today with wonderfully productive machines. The modern automotive transport a thousand times as much each hour as an ox-team could move a mound. The child tending a battery of Northrup magazine looms weaves miles where the old hand-loom worker wore feet.

The steam-thresher turns out car loads of grain where the man with the fall thrashed bushels.

This is the story that meets us everywhere.

With relation to these wonderful machines the members of society are divided into two classes—those who OWN and those who DO NOT OWN the machines.

The class that owns the machines do not need to work. Its members, like the owners of the great Marshall Field estate, may be wards of a court. They may be insane, infirm, in jail. This does not interfere with their ownership. The class of owners need not do any work, yet its income flows in.

This is because of the existence of the other class—the class that DOES NOT OWN anything.

This non-owning class cannot live unless it can use the privately owned tools. Its members cannot even set foot on the earth unless they use the land that belongs to the owning class.

They cannot live unless they produce wealth. In order to produce wealth they must use the land and machines of the owning class.

For the opportunity to use the property of the possessing class long enough each day to produce a subsistence for himself, the proletarian worker agrees to keep on producing wealth with these wonderfully productive machines all day.

The portion which he creates for himself and is allowed to keep is called WAGES. All the remainder flows into the pockets of the possessing class as RENT, DIVIDENDS AND PROFITS.

In return for this the owners do nothing but hang on to their legal titles. This possession enables them to lay tribute upon the organizing, directing, managing labor as well as upon the most unskilled manual toil.

The Socialists point out that since no function is performed by these owners it would be easy for the workers collectively to hold these titles. The workers could not well appoint themselves the owners of the titles as the capitalists can appoint banks, corporations and trust companies for that purpose.

Since it is only this private, legal title that prevents the proletarian working class from gaining access to the wonderfully productive machines, and using them to produce wealth for the producers, when once the title was transferred to the working class government, then all could use the tools and land and retain the product.

The present title is a law-made one. It can be annulled by changing the law. The workers can make use of their overwhelming political majority to take control of the government and to transfer the title of the means by which wealth is produced and distributed from the idle, owning class to the working, proletarian class.

Finally, the present private ownership, the collective ownership to be established by the victorious Socialist working class will not be EXCLUSIVE but INCLUSIVE.

There will be none shut out from ownership. All will be owners and all will be users.

THIS IS WHAT THE SOCIALIST PARTY IS SEEKING TO ACCOMPLISH.

SOCIALIST LITERATURE

The Daily Socialist, dealing as it does with each day's happenings from the viewpoint of the working class, can not repeat over and over the first principles of Socialism, nor can it go into a discussion of the theoretical problems on which Socialists differ among themselves, in the application of Socialist principles to the rapidly changing world of capitalism.

Yet all this is necessary to one who would be a clear-headed Socialist, and we have made an arrangement for supplying it to our readers at the slightest possible cost.

The Pocket Library of Socialism is a series of six books, each complete in itself, each explaining in a different way the elements of Socialism, or the relation of Socialism to some definite problem, such as agriculture, trade unions, the family, the liquor traffic, religion, ethics, etc. These books are by many different authors and are written from many points of view, yet they all in a general way represent the opinions usually held by the members of the Socialist party of America. Separately they sell for five cents each, while the complete set sells for \$1.00. A bill is describing these and other books will be mailed on request.

The International Socialist Review has for seven years and a half been recognized as the leading exponent of Socialist thought in the United States. Its publishers have plans for the coming year which will make the Review as interesting as ever to scholars and more interesting to laborers. It will give each month 64 pages of new ideas from some of the ablest Socialist writers of America and Europe. \$1.00 a year.

The subscription price of the Daily alone is \$2.00 a year, the Review \$1.00 a year. We will send both to one address in the United States, outside Chicago one year for \$2.25, or six months for \$1.15.

Or for \$3.00 we will send both periodicals a year, and will also mail sixty Socialist books, no two alike, which sell separately for five cents each. A list of the books will be found in our Socialist Book Bulletin, mailed free on request.
