

1,500 PICKETS IN SILK STRIKE

Much Unrest in Steel Mills

CONTINUE MASS PICKETING IN SILK WALKOUT

Cops Seek to Exclude Communist Speakers

(Special to The Daily Worker)

PATERSON, N. J., Sept. 25.—Fifteen hundred striking silk workers engaged in one of the best organized picketing demonstrations of the walkout in front of the Gilt Edge Mill, following out the policy of the militants in the labor movement to ignore injunctions in masses.

The police did not dare to arrest any of the pickets at this demonstration, but chief of police Tracey issued an order prohibiting any "outside agitators" to speak, on pain of having the strike hall closed up.

Cop Aims at Communists.

The order is directed solely against the Communist workers who have been of yeoman service to the strikers. More particularly the order is aimed at Harry M. Wicks, who has been very active in the strike and has earned the thanks and approval of the silk workers.

This czarist edict will be fought by the strikers and their committee, and Wicks will continue to speak in spite of the order.

The latest maneuver of the manufacturers is their attempt to obtain warrants for contempt of court against the strike leaders, but the picketing is continuing in spite of it.

Pickets Beaten By Cops.

Pickets have been sent to several "injunction" shops. Near the American Silk company, the police read the riot act to the pickets and broke up their line of about one thousand strikers, beating up several of them. Near the Salzberg shop, another "injunction" mill, nineteen strikers were arrested.

Mass picketing will be continued, it is announced. The relief committee is functioning well and a commissary has been established. Assistance is urgently needed from workers everywhere if the militant silk workers are to achieve their aim of bettering the conditions in the textile industry of Paterson. It is suggested that workers everywhere take up shop collections for the succor of the strikers.

SMUT HOUNDS IN APPEAL TO 'CAL' TO SAVE BUTLER

Phila. Fascist Chief Feels Mayor's Boot

PHILADELPHIA, Sept. 25.—President Coolidge may be asked to intervene in the political feud that is raging between Mayor Freeland C. Kendrick, and Gen. Smedley D. Butler, his director of public safety, by those interested in the general's retention.

Last night a telegram was dispatched to the White House by officials of the law enforcement league, the Klan element, stating that the removal of the general would be a "calamity," and asking the president whether he will "act to avert this calamity" when he comes here tonight to speak at the Carpenter's Hall celebration.

Meanwhile plans are being made by the general's friends to hold a big "town meeting" Monday night at the Academy of Music here as a protest against his dismissal.

GARY PLAN IS TO KEEP HIS SLAVES TAME

Paternalism Is Paying Proposition

By KARL REEVE

(Staff Writer, Daily Worker.)

GARY, Ind., Sept. 25.—The United States Steel corporation, under the management of Elbert H. Gary, president, carries out a paternalistic policy of making the workers believe they are well treated, while at the same time it pays the lowest of wages and extracts the most profits possible out of the workers.

The plan followed for some years by the United Steel Corporation has been to select some phase of the workers' lives.

CHANG DELIVERS SMASHING BLOW TO WU FORCES

Chihli Armies Are in Disorderly Flight

MUKDEN, Manchuria, Sept. 25.—Chang Tso Lin's forces have defeated the Wu Pei Fu troops defending Peking from an attack by his Manchurian forces in several engagements during the last two days, according to a communique issued today from his headquarters here.

The Chihli troops, Gen. Chang asserts are fleeing in retreat before his forces along the Great Wall. He is marching south with Peking as his objective.

General Chang admits having agreed to recognize the Russian-Chinese railways agreement between the Soviet and Peking governments. It is reported that General Chang hesitated to march southward until he was relieved of fear that his march on Peking would be taken advantage of by sympathizers with Soviet Russia.

The Japanese are backing Chang while the British and American capitalists are giving their support to Wu Pei Fu the dictator of Chihli province.

Boycott Bobbing Barbers.

ANDERSON, Ind., Sept. 25.—A boycott against barbers here who have raised their prices for bobbing hair to 75 cents and for trimming an already shorn head, has been established by girls in this city.

HIRAM JOHNSON OF CALIFORNIA MAY VOTE S. P. TICKET THIS YEAR

SAN FRANCISCO, Sept. 25.—Barred from placing an independent ticket of electors on the ballot favoring the LaFollette-Wheeler presidential ticket, supporters of the Wisconsin candidate today announced they would avail themselves of the offer of the socialist ticket to place LaFollette before the voters of California.

CAPITALIST POLITICIANS FEAR REVIVAL OF DAUGHERTY QUIZ WOULD BE TURNING SKUNK LOOSE

WASHINGTON, Sept. 25.—Any chance of the Wheeler-Brookhart senate committee reassembling at this time to resume its probe into the department of justice apparently went aglimmering today.

Senator Henry F. Ashurst, democrat of Arizona, and Senator George H. Moses, republican of New Hampshire, the only members of the committee in the capital, both announced they had no intention of reconvening the committee.

If the committee is called to hear about Gaston B. Means' quasi-reputation of his sensational testimony concerning the Daugherty administration of the department, it will be at the direction of Senator Brookhart, Ashurst said.

PLANT OF MILITANT ORGAN OF GLACE BAY MINERS BURNED DOWN

By JOHN A. MURPHY.

(By Telegram to DAILY WORKER.)

GLACE BAY, Nova Scotia, Canada, Sept. 25.—On the verge of its fourth anniversary of existence and struggle on behalf of the militant labor movement of Glace Bay, the Maritime Labor Herald plant was burned to the ground here, involving a total loss of twenty thousand dollars.

The paper is being printed by an outside concern and an immediate investigation has been called for.

All evidence points to the fact that the crime was committed with malicious intent by local reactionary hirelings as the final shot of the deserting rats who attempted to retaliate for the publicity accorded to them in the last issue of the Herald.

The paper had a brilliant history in the defense of the miners and steel workers against the huge British Empire Steel Corporation, and was the center of inspiration in the brave fight of the members of the United Mine Workers of America against the reactionary leadership of John L. Lewis, and his imported "provisional officers." It also carried on a bitter struggle against the will-o-the-wisp policies of the splitters like Ben Legere of the One Big Union. The tragedy occurs immediately following the announcement by Lewis that he was going to withdraw the provisional officers appointed by him and permit new elections.

The paper had been under the brilliant editorship of Tom Bell, and, later, it was taken over by Jim McLachlan, deposed leader of the miners.

DISMISS HERRIN CITY COURT AS NEW JURY MEETS

MARION, Ill., Sept. 25.—Announcement was made here today that the Herrin city court, where additional riot cases were scheduled to be tried this week, would be adjourned during the session of the grand jury here. Judge Bowen presides over the Herrin city court.

The proceedings of the grand jury were kept secret on instructions of circuit judge D. T. Hartwell. Lieut. Zon Sines, with sixteen men of Company I of Salem, arrived today. They will go guard duty during the grand jury session.

Bulgarian Situation Tense.

BERLIN, Sept. 25.—The strictest censorship apparently has thrown over all news emanating from Bulgaria. All advices are agreed that the civil war situation is becoming more tense daily.

French Bread Goes to Dogs.

PARIS, Sept. 25.—The Matin is vigorously opposing the feeding of white bread to dogs, urging the need of economy because of the poor wheat crop. Bread, because it is cheapest, has been the favorite food for dogs.

CZARIST RULE IS CONTINUED BY HUTCHENSON

Militant Delegate Is Refused Floor

(Special to The Daily Worker)

INDIANAPOLIS, Sept. 25.—Autocratic and arbitrary rulings by William L. Hutchenson, president of the United Brotherhood of Carpenters and Joiners of America, and presiding officer at its convention here, continued to mark the sessions today.

Following a speech by James Duncan, vice-president of the American Federation of Labor, in which he urged that the brotherhood rejoin the building trades department of the federation, one of the progressives, delegate Morris Rosen, New York local 376, made a motion that a committee be elected by the delegates to work out a plan whereby this unity project might be achieved.

Unity Project Squelched. The motion provided for joint representation, consisting of representatives of the carpenters, the sheet metal workers with whom the former have been in jurisdictional controversy, and a committee from the American Federation of Labor.

Hutchenson ruled Rosen out of order and stated that the entire matter would be taken up later thru the regular committee reports. It also developed that the beating up of delegate C. J. Mulcahy, Rhode Island local 632, which brought him a badly injured eye, and alleged to have been accomplished by followers of Hutchenson because Mulcahy was active in organizing an opposition to the old age home, altho he stood for a pension.

Hutchenson Is Autocrat.

The morning session was devoted to the report of the general executive board and again a motion by Delegate Rosen that a committee be elected from the floor to consider the report was ruled out of order by Hutchenson. Rosen attempted to appeal from the decision of the chair, but Hutchenson summarily ordered him to "sit down." The carpenters' czar then proceeded to name the committee himself. Many delegates are beginning to wonder why their locals spent good money to send them to the convention if Hutchenson is going to run the show as he sees fit, without considering the wishes of representatives of the workers who make up the union.

The afternoon session of the convention which has so many pressing problems whose solution will affect the union for the next four years was devoted to having pictures taken of the delegates and officers.

"Bob" May Have to Run on S. P. Ticket in California State

SAN FRANCISCO, Sept. 25.—Leaders of the LaFollette independent campaign in California for the presidency today held a conference to decide whether to place the Wisconsin senator on the November ballot as a socialist or let the California electorate "write in" his name following the action of the California supreme court in ruling that the 13 LaFollette electors have no place on the ballot.

Want More Bull.

TOLEDO, Spain, Sept. 25.—Popular riots have resulted from the edict against bull fighting. Five were arrested when police were called to halt one such demonstration.

TEXTILE WORKERS GIVE OFFICIALS AUTHORITY TO ISSUE STRIKE CALL

(Special to The Daily Worker) MANCHESTER, N. H., Sept. 25.—The Manchester textile council, the local branch of the United Textile Workers of America, today authorized Thomas F. McMahon, president of the latter organization, to call a strike if he sees fit.

Similar action was taken by Pawtuoket, R. I., operators Sunday.

DAWES!

BEGINNING Wednesday, Oct. 1, the DAILY WORKER will run a series of articles on "America and the Dawes Plan."

The Dawes diagnosis will be published in six installments. Jay Lovestone, director of the research-department and member of the Central Executive Committee of the WORKERS PARTY, will analyze the plan and all its implications for the DAILY WORKER readers.

The Dawes Plan is the most complete and dangerous one yet put forward by a national or international group of capitalists for a new imperialist conflict. The scheme as fostered by the American and the leading European financiers involves the fate of the workers of every country.

Don't fail to follow this series regularly. Get your friends in the shops and on the farms to do the same. We promise to make the series interesting and informing.

FILIBUSTER IN DELAY ATTEMPT ON B. & O. PLAN

Machine Waiting for Delegates to Quit

(Special to The Daily Worker)

DETROIT, Mich., Sept. 25.—Last minute desperate attempts are being made by the official machine at the convention of the International Association of Machinists, to delay consideration of the B. & O. plan while the rank and file delegates are here in full force.

The obvious purpose of the delay, which is being accomplished by machine filibustering with all sorts of minor issues, is to cause the rank and file delegates, whose money is giving out, to return home and give the fakers a clear, safe majority.

Rank and Filers Leave.

Already more than twenty delegates have been obliged to leave and the issue is still kept off the floor. Despite this, frenzied attempts are being made by the Johnston bureaucracy to line up every possible delegate in favor of the class co-operation scheme which is playing havoc with the organization.

A fossilized sergeant-at-arms, acting on the instructions of Johnston and Davidson, threatened visitors who were making notes of the convention with ejection from the hall unless they ceased. The fear of an accurate report of what actually happened at this convention is certainly weighing on the minds of the fakers.

The militant delegates are making plans for the consideration of the B. & O. plan at the first moment.

Discuss Ceding Fiume.

VENICE, Sept. 24.—The Italian-Jugoslav conference which will consider the ceding of Fiume to Italy will meet here Oct. 1.

MCANDREW GETS FAKE VOTES TO DOWN TEACHERS

Mass Meeting Called to Launch New Fight

With the help of the votes of three trustees of the Chicago school board whose terms have already expired, Superintendent of Schools William McAndrew has secured the adoption of an amendment to the rules of the board which abridges the right of the teachers to meet and to organize councils as they see fit.

After the refusal of both the committee on rules and the committee on administration to concur in the opinion of the superintendent that under the rules as they stood he was not obliged to call the councils together, McAndrew suddenly changed his tactics and asked for complete revision of the rules.

The revision was granted at the last meeting of the board.

Pack Board Votes.

Three of the trustees voted to support the teachers against the high-handed actions of the superintendent. Of the six who upheld him, one is Hard Hanson, whose term on the school board expired a year and five months ago. The terms of both Julius P. Smietonka and William K. Fellows, who also upheld McAndrew, expired five months ago.

By appointment of new members for the members whose terms have expired, Mayor Dever would have been able to give his aid to the teachers, most of whom followed the lead of the officialdom of the Teachers' Federation in supporting the democratic party in the last local elections. The mayor's office yesterday indicated that no changes will be made for a time.

McAndrew's Despotism.

The prediction of the rank and file teachers that a victory of the superintendent in this matter would be followed by more aggressive action on his part is borne out by the submission by McAndrew to the committee on administration of a resolution empowering the superintendent to force teachers "to attend, without dismissal of any regular classes, meetings called for any school day other than Friday."

If this resolution passes the board, McAndrew's assertion that the time of the teachers is at the disposal of the superintendent during all of the twenty-four hours of the day would have a basis in school law.

The resolution further refers to the "untenable proposition that the Board of Education authorizes the payment of teachers for only the times when they are in the presence of their classes." Implication is made that teachers should be forced to "prepare" for their work without extra compensation.

Teachers' Protest.

Members of the Chicago Teachers' Federation will take up the fight for the rank and file teachers, beginning with the holding of mass meetings this week. Officials of labor bodies of the state are expected to be present.

COMMUNIST TICKET WILL BE ON BALLOT IN STATE OF WISCONSIN

By G. S. SKLAAR.

(Special to The Daily Worker)

MILWAUKEE, Wis., Sept. 25.—Today, we are filing with the secretary of state for Wisconsin petitions for presidential electors, thus qualifying our candidates for president and vice-president of the United States, William Z. Foster and Benjamin Gitlow for a place on the ballot in Wisconsin in the coming elections.

In addition to presidential electors we have also secured signatures for candidates for governor and lieutenant governor. The Workers (Communist) Party is going on the ballot in this stronghold of reformism and LaFolletteism and Bergerism will be challenged in its own lair.

Petitions are being filed with approximately 1,500 signatures for Severi Allane as Workers Party candidate for governor and Charles Kusdas, candidate of the party for lieutenant governor.

AS WE SEE IT

By T. J. O'FLAHERTY.

IT is not surprising that Gaston B. Means should keep his lying machinery well oiled in order to be ready at any moment's notice to work at his favorite trade, that of stool pigeon. Means seems to have thrived in the business. Perhaps the public would not be aware that Means was one of its most respectable wealthy citizens but for his tilt with Harry M. Daugherty and the Coolidge cabinet, an important cog in which is Andrew Mellon. Means had things to say about the way Andrew makes his living. One of the things he said was that the distinguished secretary of the treasury was one of the country's most successful bootleggers.

AFTER Means repudiated his testimony on the witness stand against Harry M. Daugherty and then suggested that he would like to go to work again telling all he knew about Coolidge, Mellon's men in the Internal Revenue department filed a lien on Means' Washington home for income taxes. Mellon claims that the stool pigeon, boon companion of the late president Harding and Daugherty, owes the government \$267,614 in taxes. Means may not be a respectable citizen, but he has made money at his trade.

THE Prince of Wales was given a card in the Web Pressmen's Union of New York. This is not surprising, tho it may hurt the sensibilities of real union men who have respect (Continued on page 5.)

CONTRACTORS DO NOT FANCY LEN AS TREASURER

Crooks Lack Confidence in Each Other

Concerns that sell supplies for the Illinois roads, including the Portland cement sellers, have been asked to contribute to a \$175,000 slush fund which Governor Small is attempting to raise to put over the \$100,000,000 road bond issue in the coming election. The road builders and supply men have refused to turn this money over to Len Small as they do not trust him and are of the opinion that Small is attempting to raise the money to use in his personal campaign.

Large Profits in Roads.

However, the cement sellers have their own publicity organization, the Portland cement association, which they admit will be used in a vigorous campaign to put over the bond issue.

The road building game is productive of a high percentage of profits, and the cement sellers will put thousands of dollars into getting the people to vote for it. A large percentage of the \$100,000,000 bond issue will find its way into the pockets of the contractors and supply men, for the Illinois roads are largely built by unemployed miners, who are forced to work at non-union wages of 30 to 40 cents an hour.

Large Propaganda Fund.

Now that the democratic nominee for governor, Norman L. Jones, has exposed Small's plan to augment his private campaign fund, the governor's aides are promising that the original scheme to turn the money over to the office will be abandoned. This does not mean, however, that hundreds of thousands of dollars will not be expended in propaganda to influence the voters. The contractors are now to handle the huge fund themselves. Soon a flood of propaganda is to be issued urging the people to turn loose the \$100,000,000 so that the contractors can make millions of dollars profit from the shoddy material that goes into the roads and from the cheap non-union labor. All admitted that this fund is being raised. The controversy came about over which group of crooked politicians would be allowed to handle it.

The sand, gravel and equipment concerns that sell supplies for the Illinois roads have agreed, it is reported, to contribute \$75,000 and the remaining \$100,000 is to be donated by the men who get the road building contract. They know it will come back to them from the people of the state many times over.

DUNNE SPEAKS OF PROFINTERN AT T. U. E. L. MEET

Tills of Progress in Union Movement

The Red International of Labor Unions with headquarters in Moscow is no longer a mere propaganda organization, but a powerful factor in the labor union movement of Europe and the leader of great masses in the revolutionary struggles of the workers against capitalism, declared William F. Dunne, editor of the DAILY WORKER and Communist candidate for governor of Illinois, speaking before a meeting of the Trade Union Educational League here on Wednesday evening.

Comrade Dunne has recently returned from Moscow, where he attended the 3rd Congress of the Profintern as a representative of the Trade Union Educational League. He was elected members of the Executive Committee of the R. I. L. U. Dunne was also a delegate to the Fifth Congress of the Communist International, from the Workers Party.

In British Trade Unions.
There is a powerful minority movement growing up through Europe said Comrade Dunne, and even in the British trade union movement, the liar of conservatism, since the Labor government came into office, a sweeping great shift to the left has taken place. The old leaders who secured comfortable berths in the MacDonald government have been replaced by men who are more susceptible to the heavy pressure which the slowly disillusioned masses are bringing to bear on them.

The speaker told of the election of A. J. Cook, left wing trade unionist, to the secretaryship of the miners' union of Britain, one of the most formidable armies of labor in the world. Cook ran for office on an R. I. L. U. program.

Germany and France.

In Germany millions of workers follow the leadership of the Profintern, and in France the division of forces in the trade union movement is about even between Amsterdam and Moscow. There is no country in Europe where the Red International of Labor Unions is not a powerful minority as in actual leadership of the organized masses.

Dunne pictured the bankruptcy of the Amsterdam leaders and the strong left wing growing up inside. So vigorous has this become that at the Vienna congress a resolution was put through instructing the Amsterdam officials to begin negotiations with a view to bringing about a united front of the world trade union movement in one international. Comrade Dunne expressed doubt that this would be accomplished in the near future owing to the sabotage of the reactionary leaders who are hand and glove with the capitalist class and supporters of the capitalist system. But the desire for unity among the masses is so keen that the splitting conspiracy of the yellow socialists will prove their own undoing and will revert to the advantage of the Red International which has already given ample proof that it places the unity of the workers for the struggle against the capitalist as the first item on its agenda.

Storm Gathering.

That the temper of the left wing inside the Amsterdam, while yet somewhat vague, is growing in intensity, was demonstrated, said the speaker, when at the Vienna congress, the English delegates threw consternation into the ranks of the social traitors of Germany by asking, "What about Karl Liebknecht and Rosa Luxemburg?" This question exploded with the force of a giant bomb and had a shattering effect on the nerves of the reactionaries.

Dunne in reporting on the Third Congress of the Red International of Labor Unions said that taken as a whole, the R. I. L. U. has acquired the leadership of the workers of the world since the second congress. "This," he said, "has not come because of agitation, but because of leadership gained by the International."

"The three most important issues taken up by the Third Congress of the R. I. L. U. were: (1) the question of unity in the world trade union movement; (2) the fight against Fascism, and (3) the shop committee idea.

Trade Union Unity.

"The proposal of the R. I. L. U. in regard to the Amsterdam International was for unity, unity not from above but from below. The leaders of the Amsterdam International are in a difficult position, most of its members being members of the capitalist governments as in France and Germany. 'Carry on propaganda inside the Amsterdam International for unity of the Trade Union Movement,' was the instruction to delegates.

"Under the heading of fighting Fascism the biggest issue was unemployment. The unorganized workers, the poorly paid workers and the army of

GARY PLANS TO KEEP SLAVES TAME

(Continued from page 1)
ing or working conditions, start a campaign which yields the company millions of dollars worth of advertising at a small outlay, and at the same time strengthens the grip of the corporation on the lives of the workers and increases the usefulness of the employees to the company.

The Gary School Plan.
Such a plan was followed in the ballyhooing given the Gary school idea, whereby the workers' children were taught semi-skilled trades which would increase their value to the company, when they should have been studying scientific and cultural courses to broaden their intellect. The Gary plan was based on the false capitalist psychology of such psychologists as Professor William McDougall, whose theory of rigid grades of intellect out of which it is hopeless for the average workers to climb, has been discredited. But that did not matter. Gary needed a system which would give him some advertisement and at the same time give him docile slaves, well-trained at an early age to be his vassals in the steel mills. So the campaign for the caste system in the schools was inaugurated.

A Safety First Drive.
The latest campaign of the United States Steel corporation has been a "Safety First" drive, which makes the pretense of having the interests of the workers at heart. Following the spreading of red lettered signs throughout the plant pleading with the men not to get hurt, and the printing of numerous elaborate pamphlets praising themselves for printing these pamphlets, the capitalist newspapers throughout the country began to commend Gary for his beneficence to his employees.

But again in the safety campaign, Gary was doing something which gave his corporation a larger margin of profit, and which cost him little, and which was of no value to his employees.

Gary admits that his paternalism toward his employees and his safety campaign is a business proposition, designed to keep down the class conscious and revolting spirit of the working class. "I want to tell you gentlemen that in my opinion one of the greatest questions for consideration by the capitalists of America today is the question of the treatment of their employees," Gary said in a speech to the iron and steel manufacturers of the country as far back as 1911. "SO AS TO MAKE IT CERTAIN IN THIS COUNTRY THERE WILL NEVER BE ANY EXCUSE FOR THE ADVANCEMENT OF THE IDEAS OF THE ANARCHIST OR SOCIALIST, IF THOSE WHO REPRESENT CAPITAL, THOSE WHO REP-

resent power, will make it absolutely certain that no excuse is offered for attack on the part of the men who are employed they will be doing something for their country worth while."

Later, when Gary's paternalism was in full swing and when he was reaping millions of dollars out of his slaves in war time profits, Gary said, at a meeting of the presidents of the subsidiary companies of the United States Steel corporation in 1919: "Above everything else satisfy your men if you can that your treatment of them is fair and reasonable and generous. Make the steel corporation a good place for them to work and live. Give them playgrounds and parks and schools and churches, pure water to drink, opportunity to keep clean, places of recreation, enjoyment, rest, TREATING THE WHOLE THING AS A BUSINESS PROPOSITION, DRAWING THE LINE SO THAT YOU ARE JUST AND GENEROUS AND AT THE SAME TIME KEEPING YOUR POSITION AND PERMITTING OTHERS TO KEEP THEIRS, RETAINING CONTROL AND MANAGEMENT OF YOUR OWN AFFAIRS, keeping the whole thing in your own hands."

Purely Business.
Gary thus reveals that the paternalism of the United States Steel corporation is a purely business proposition, designed to give the employees just enough consideration to prevent them from demanding a living wage, but giving them consideration only in those things which increase the profits of the company and at the same time buy the steel trust some cheap and valuable advertising. Gary issued orders that money wanted for added safety devices would gladly be advanced by the company to its yarious branches.

But the large number of accidents in the Gary plant continue in spite of the much-heralded safety campaign. The steel corporation is forced to admit these accidents in its own pamphlets. It is worthy of note that statistics on accidents and violent deaths within the Gary mills are not revealed in the safety pamphlets of the company.

They do, however, declare that, "Hand labor causes nearly one half of all accidents." In this way they try to place the blame for their accident and death rate upon "hand labor," and attempt to shift the responsibility from their shoulders, where it rightfully belongs. They further admit that they have not decreased accidents to any appreciable extent in spite of all their "safety" blustering, and try to excuse themselves for the accidents by declaring in Safety Bulletin No. 10: "A majority of these accidents cannot be controlled by safety devices and appliances."

unemployed are the recruiting grounds of the Fascist elements because they reach the discouraged and hungry worker who will easily fall prey to anything that offers immediate relief. Real concentrated work should be done among the unemployed and unorganized workers in every country.

Building Shop Committees.

"The third big task of the R. I. L. U. was the immediate inauguration of the shop committee plan. The shop committee it was agreed at the congress, offers the most efficient opportunity for propaganda in the trade unions. Here in the United States there is a splendid field for the shop committee idea and it will, if properly conducted, solve the many serious problems confronting the trade unions. The R. I. L. U. expects us to throw ourselves into the work of shop committees."

Dunne Declared that we in America

have no reason to be ashamed of the American section of the R. I. L. U. as represented by the Trade Union Educational League.

Foster's Leadership.

"The leadership of the American section of the Red International of Labor Unions—and I am now speaking of Comrade William Z. Foster—compares favorably with that of any other affiliated section, and I have no doubt that if the members of the Trade Union Educational League give the same hearty support to the movement in the future that they have done in the past, the results will be gratifying." Several questions were asked the speaker at the conclusion of his address.

Arno Swaback, district organizer, addressed the meeting on the importance of securing signatures to place the state ticket on the ballot.

WORKERS RALLY TO COMMUNISTS

Pledge Aid to Foster-Gitlow Campaign

Five hundred Jewish working men and women answered the call of the Foster-Gitlow Jewish conference of Chicago for a mass meeting of Jewish workers at Workers Lyceum to perfect plans for the Communist campaign.

A ringing call to action by Comrades M. Schuchter, William F. Dunne and Alexander Bittelman brought a campaign contribution of \$100.25, with promises of further financial aid as soon as the campaign organization is perfected.

Militants Attend.
Campaign work will be carried on thru the Workmen's Circle, and thru the left wings of trade unions. Union members who attended the meeting were divided into groups for work among their fellow-militants in the shops. The unions represented were: Amalgamated Clothing Workers of America, International Ladies' Garment Workers' Union, unions in the building trades, unions in the metal trades, Cap and Millinery Workers, Butcher Workmen, Barbers.

Comrade M. Schuchter, who acted as chairman of the meeting, told his audience that any hopes for economic improvement, placed in men like Robert LaFollette, are utterly groundless.

LaFollette Like Ramsay.
"The LaFollette movement in this country may be compared to the movement in England of which MacDonald is the head. Both are based on the support of the petty bourgeoisie. Neither believes in changing the present order. Neither believes in class war."

"It is a serious mistake to imagine that the big capitalists do not believe in class war. On the contrary, they are always waging the class war."

Comrade William Dunne, who has just returned from Moscow, was greeted with thunderous applause.

"The workers of the whole world are watching the workers of America in their first Communist campaign. We have a wonderful opportunity this fall to disseminate Communist propaganda. Our best efforts will be required to put our candidates across, for in America there are more restrictions on the voting privilege than in any other 'democratic' country."

"The straw vote, taken in the shops last week, shows an encouraging growth of militant sentiment among the workmen and women."

S. P. Betrayed.
Comrade Bittelman, speaking in Yiddish, went into further detail on the subject of the LaFollette illusion, explaining the part which the socialist party is playing in the betrayal of the working class.

Hundreds of copies of the DAILY WORKER, the Young Worker and the Freiheit were sold at the door of the hall.

"Cal" Dodges Again.

WASHINGTON, Sept. 25.—President Coolidge is not disposed to take any action in the case of General Smedley Butler in Philadelphia, it was stated officially at the White House today.

Primarily, it was said at the White House, the Butler case is one of local Philadelphia politics in which Coolidge does not care to become involved.

Join the Workers Party!

PHILADELPHIA Party Activities

Philadelphia party activities show great headway during September.

Our Foster meeting, at which over 2,000 workers were present, was a demonstration of what our party can do when it gets on the job.

The campaign for new members has reached the mark of 40 for this month including a new Italian branch. Two other inactive branches have reorganized and are functioning satisfactorily.

30,000 party platforms have been distributed to date and 30,000 more are on the way. The campaign committee has set 100,000 for Philadelphia and is making detailed arrangements for a 30,000 issue of the Philadelphia Edition of the DAILY WORKER for the Gitlow meeting for October 24.

Our open air meetings are growing in size and number and the literature sales meetings have been climbing upwards. The following open air meetings are arranged for this week:

Friday, Sept. 26.

Marshall and Grand Ave.

30th St. and Huntington Ave.

Saturday, Sept. 27.

42nd St. and Ledy Ave.

Orleans St. and Kensington Ave.

Hope St. and Allegheny Ave.

40th and Poplar Ave.

5th and Rittner Sts.

The enlarged industrial committee has outlined the policies and activities for the Fall and Winter with all reasons to believe they will be carried out. The Central English branch at a fully attended meeting elected all new officers and rolled up its sleeves for some real work.

The educational committee is making plans to conduct a school and an Open Forum.

A general membership meeting is called for Wednesday, October 2, for the purpose of discussing the report and the decisions of the 5th Congress of the Communist International. The meeting will take place at 221 York Ave. Distribution of party platforms will follow the meeting.

British Coal Miners to Give MacDonald Their Views on Dawes Plan

By J. LOUIS ENGBAHL.

TODAY, the rank and file of British labor is discussing the problems to come before the annual conference of the Labor Party, to be held in London, Oct. 7. This is the first national Labor Party gathering since J. Ramsay MacDonald became premier. It will give a large number of rank and file delegates, from the trade unions and from the branches of the Labor Party and the Independent Labor Party, an opportunity to say what they think of MacDonald's government. What many of them will say, according to reports, will not be very complimentary to MacDonald.

In the United States the big political parties gather once every four years, to frame a platform and nominate a candidate for president. The platform is made so that the party can ride successfully into office. It is not even intended that the platform promises should be carried out. The candidate is usually a compromise to secure party harmony and keep capitalism's political forces intact.

After the convention is over the delegates are sent home to wait for another four years to roll by. Coolidge did not report to the Cleveland republican convention any more than did LaFollette to his own gathering in the same city. They dictated their desires to the assembled delegates and expected to be obeyed without question.

MacDonald would like to do the same in England. But the British Labor Party affords a little expression of opinion. It is at least the semblance of a forum for the discussion of British labor's problems.

MacDonald, like a lot of other "labor" representatives, when they get power, adopt the Coolidge attitude. Instead of carrying out working class policies, in the interests of the workers who had put him in power, he held to the capitalist democratic fraud that he "represents all the people."

This attitude gets a "labor" politician into many tight places, especially when he is responsible to an organization like the British Labor Party.

Thus we find the "labor" premier, MacDonald, refusing to meet with a deputation of coal miners, to discuss the situation caused by the Morgan-Dawes plan. MacDonald turned down the coal miners in the best style of Lloyd George and Asquith, the capitalist premiers before him. With the Labor Party Conference looming big, however, MacDonald changed his mind, and decided on a hearing with the miners Oct. 1.

These British coal miners feel that the slave owner's whip that is laid across the backs of the German working class is going to hit them, too. The 10 and the 12-hour day in Germany, at low wages, under the Dawes plan, turning out cheap coal, that can be bought and sold in the British market by British profiteers, at great profit to themselves, means increasing unemployment among the British miners.

These miners want to tell Premier MacDonald that there are 26,000 unemployed coal diggers in the Northumberland and Durham fields alone. MacDonald helped Morgan, Mellon, Hughes and Lamont put over the Dawes plan. The British workers are opposed to it. M. Tomsy, head of the Russian Trade Unions, told the British Trade Union Congress recently, what the Russian workers thought about it. There doesn't seem to be so very much difference of opinion between the Russian and the British workers about this Wall Street plot against all European labor.

That should be an interesting conference between the delegation of the coal miners and Premier MacDonald, Oct. 1, less than a week before the opening of the Labor Party Conference.

The coal diggers demand the nationalization of the mines. That is the first big issue on the agenda of the Oct. 7th gathering. The miners will want to know why MacDonald, the "labor" premier has not moved in this direction. It is also demanded that the government take over the electric power supply.

Then there is the resolution that the British Labor Party affiliate with the Communist International.

There are "labor" politicians in the British Labor Party, just as there are herds of political careerists attached to the LaFollette movement, in this country, that make war upon the Communists. These politicians have so far prevented the British Communist Party from winning affiliation with the Labor Party.

But the war upon the Communists within the British labor movement, has not solved the problems of the British workers, any more than the attack of Gompers and LaFollette on Communists in the United States has presented the workers and farmers of this country with a solution of their problems. The struggle under capitalism against the employers' dictatorship continues just the same. It will continue just as long as that dictatorship continues; until it is displaced with the rule of the workers.

MacDonald may think that the Dawes plan is a big step towards world peace. But that only shows that his mind as well as his services has been captured by the British ruling class. Perhaps it never needed capturing. But MacDonald has paraded as a socialist for years, as a believer in the class struggle of the workers against capitalism, as an enemy of capitalist wars. And it was for this reason that he, rather than Arthur Henderson, open collaborator with capitalism, ex-minister in the King's war government, became the premier.

Millions of British workers still harbor the illusion that the MacDonald "labor" government will get them something; just as some American workers indulge in the nightmare that LaFollette is going to find an oasis for them in the capitalist desert.

Every act of the MacDonald government is opening the eyes of British workers, wider and wider.

When MacDonald at first refused to receive the delegation of coal miners, he added thousands of workers to the Communist ranks. His defense of his "labor" government at the forth-coming Labor Party Conference will still further disgust new thousands in Great Britain, just as the regime of the "socialist," Ebert, in Germany, has added millions to the German Communist army.

The British Communist Party need not worry so much about affiliation with the British Labor Party, if it can win the masses of the British workers to affiliate with it. That is the drift at the present time within the ranks of British labor.

EXPOSE UNITED FRONT AGAINST STEEL WORKERS

Gary Organizes to Halt Unionization

The organization of the Chamber of Commerce, the newspapers, and city officials of Gary, Indiana, in the interests of the United States Steel corporation to keep the steel workers from organizing, was told at an open air meeting Wednesday night, at the corner of 32nd and Halsted Street by Karl Reeve, reporter for the DAILY WORKER.

Reeve told of the latest effort of the steel workers in Gary to organize at their mass meeting last night in Turner Hall, and declared that the workers must unite with their class politically under the banner of Communism, and become active workers for amalgamation in their union as the only effective means of fighting the organized forces of capitalism.

Gary Bait.

"The workers of Gary do not know that the Chamber of Commerce of that town has issued a pamphlet to attract manufacturers to settle in Gary, offering as an inducement that there is a plentiful supply of high grade female labor available, whose average wage is 25 cents an hour," Reeve told the crowd.

He told how the mayor had refused to investigate the recent explosion of a blast furnace in Gary which killed several men, and how the Gary Post-Tribune, forming a united front with the United States Steel corporation, is daily coming out with lies about prosperity and plenty of employment when hundreds of workers are looking for jobs every day in the steel mills.

Reeve denounced the Gary school plan, re-named the platoon school system, because it trains the children to be good steel trust slaves when they should be getting a scientific and cultural education. He declared that the profits of the United States Steel corporation in 1923 were \$108,707,064 and the average wage of the employees at that time was only \$5.83, showing that the workers produce all wealth and the employers of labor reap all the profits.

Hits Defense Day.

Victor Zokaitis took up a good collection at this meeting, and many DAILY WORKERS and books were sold, including "Russia in 1924," by William Z. Foster and "The LaFollette Illusion," by Jay Lovestone. Comrade Zokaitis told the crowd the real meaning of the recent national defense day, which was not, he declared, to honor General Pershing, but a stunt of the capitalists to prepare the workers for the next war. He pleaded for the establishment in this country of a workers' and farmers' government such as has been established in Soviet Russia.

A large and successful street meeting was also held at the corner of Roosevelt and Marshfield, with George Maurer as the principal speaker. Comrade Maurer took up a collection of several dollars, sold many books and over 30 DAILY WORKERS.

The following street meetings will be held by the Workers Party:

Friday, Sept. 26, 1924.

Lawrence and Sawyer—Auspices of Irving Park branches, Workers Party and Y. W. L. Speakers: Pete Herd and George Maurer.

Wilton and Belmont—Auspices of North Side Y. W. L. Branch. Speakers: D. E. Earley and Karl Reeve.

North Ave. and Fairfield—Auspices of North West English Branch W. P. Speakers: J. Manley and Ida Dalies.

Roosevelt and Homan—Auspices of Jewish Branch, Douglas Park, W. P. Speakers: Al Schapp and Bill Kruse.

Saturday, Sept. 27.

34th and Halsted—Auspices of Lithuanian W. P. Branch. Speakers: John Hanvey and Pete Herd.

North Ave. and Orchard—Hungarian Branch W. P. and Karl Liebknecht Y. W. L. Branch. Speakers: L. Engdahl and others.

114th Place and Michigan—Pullman Section, Workers Party. Speakers: Frank Buckley and others.

30th and State Sts.—South Side Branch, W. P. Speakers: Gordon Owens and D. E. Earley.

Division and Washtenaw—Auspices of North West Jewish Branch, W. P. Speakers: A. Wagenknecht, Geo. Maurer.

Roosevelt and St. Louis—Auspices of West Side Y. W. L. Branch. Speakers: Manuel Gomez and others.

Milwaukee and Paulina—Auspices of Polish Branch, W. P. Speakers in English and Polish.

Chicago Police Swap Bullets As Moonshine Fans Martial Ardor

Two city detectives are wounded, one probably fatally, as a result of a pistol duel with two patrolmen here last night. The victims are Frank Sperry and Patrick Lee. While off duty, they are said to have driven their automobile into another machine, the driver of which started to protest with them. In answer they are said to have leaped out with draw revolvers just as patrolman Leo Treon and Edward Tyrell appeared on the scene. The detectives started to drive away and opened fire when the patrolmen ordered them to halt. A revolver battle followed. Both detectives, police say, were intoxicated.

BRITISH LABOR GOVERNMENT IN WAR ON CHINA

British Warships Force Chinese Executions

The great capitalist powers of the world are engaged in a struggle with each other over the exploitation of China, at the expense of the Chinese people.

Since the civil war started the DAILY WORKER has explained the true inwardness of the struggle, pointing out, that behind the warring tuchuns and generals were the capitalist powers, deluging China in blood in order to be in a better position to grab off the spoils.

Urge Aid to Sun Yat Sen. The Communist International issued a proclamation calling on the workers of the world to come to the assistance of the bleeding Chinese workers and peasants under the leadership of Sun Yat Sen, radical leader of Southern China, the only province in China where the workers have the right to organize.

The British Communist Party took steps to rally the workers of Britain behind the Communist International which is leading the proletarian fight in defense of the people of China. The following manifesto issued by the British Communists will aid our readers to better understand the momentous conflict raging in China, the parties involved and the alignment of the great capitalist powers:

British Communist Manifesto.

"There is civil war in China. The papers tell us that the governor of the province of Che-Kiang is fighting the governor of Kiang-Su. The latter is supported by the Peking government and by Wu-Pei-Fu, one of China's biggest would-be Napoleons. The former is supported by Wu-Pei-Fu's mortal enemy, Marshal Chang-Tso-Lin, the governor of Mongolia. And the allies are sending their warships and landing their marines to restore order.

"What is the meaning of the civil war? Why do generals fight one another in China? A quarrel between rival generals—what does it matter to the British workers? It matters this—that the Chinese civil war is only a reflection of the struggle between the allied imperialists for world domination. For behind Wu-Pei-Fu, the dictator of Peking, stands Anglo-American imperialism; it finances him, it supplies him with munitions, it booms him in the British and American press. Behind Chang-Tso-Lin, the dictator of Mongolia, stands Japanese imperialism, which supplies him with money and munitions.

"The rival 'armies' of forcibly-recruited Chinese peasantry are only pawns in the game—the game for the prize of China's markets and China's cheap labor. It is a game that began a long time ago, while China was still ruled by emperors. Just as they did in Egypt and Turkey, British, French, and American capitalists lend money to incompetent despots in order first to corrupt them and then to maintain their rotten power. When the Chinese revolution took place in 1911, British and American capital bribed one set of generals, Japanese another set; they overthrew the first revolutionary government, and have kept China for thirteen years in a state of chaos and disruption.

"The time is now ripe for the allies to 'restore order'—by dividing the country up amongst themselves. In parts of China, where the allies have established their own rule already, the Chinese workers and peasants have tasted the sweets of British government. Several incidents during the last three months have opened their eyes.

"A Chinese soldier, Li-Yu-An, was given hundreds of strokes with a bamboo for walking in a district reserved for foreigners. Enraged, he struck three foreigners in the street. A British court tried him, and gave him four years and ten days' imprisonment. But when a British subject, Westbury, violently assaulted a Chinese customs official in the execution of his duty, the same court inflicted a penalty of twenty-five dollars fine, twenty-five dollars damages, and costs.

"Again, an American merchant, Halley, interfered with some dockers on strike at a port on the river Yang-Tse-Kiang, and was knocked (or fell) into the water and drowned. A British gunboat, the 'Cockchafer,' hastened to the scene, and the captain, under pain of immediate bombardment

THE POWER COLUMN

Twice every week—this column uncovers to your view the motive power behind the DAILY WORKER. Here for the interest and inspiration of every reader—and especially the DAILY WORKER agents and committees—are tried and proven suggestions and accomplishments to drive the DAILY WORKER to further conquests.

Here is POWER—the power of brain and effort of men and women of the working class who not only believe—but ACT!

DURING the past month there has been an increase in subscriptions received. Bundle orders have grown in response to the demand at campaign meetings. Both the far from satisfactory have proven an increase to the POWER driving "The National Labor Daily." And both have been overshadowed by the Special Local Campaign Editions on which the presses are being kept busy with increasing demand.

This week Special Local Editions are going to Toledo, Ohio (two thousand), Detroit, Mich. (five thousand), and New York (ten thousand). Local New York received the first edition of 14,000 for the Gitlow meeting. It proved such a success financially and in good work both for the DAILY WORKER and the local that this week sees an additional issue of 10,000 going out to precede the Cannon meeting of October 2. Beside this the largest single order yet made—50,000—will go to New York for the Foster meeting in October.

A lively campaign drive aided by these Special Editions is one reason for the fact that Local New York has led all cities in subscriptions secured during the past month. That the Special Editions printed for different cities with their own front page has proven a success can be seen by this list of orders made:

New York	74,000	(3 Editions—24,000 already shipped)
Philadelphia	30,000	(possibly 50,000)
Milwaukee	20,000	(State Edition)
Lake Co., Ind.	15,000	(Steel District—Gary, South Bend etc.)
Chicago	10,000	
Detroit	5,000	(Shipped—3 more editions to follow)
Pittsburgh	3,000	
Los Angeles	2,000	
Toledo	2,000	(Shipped)
Erie	2,000	(Shipped)
Denver	3,000	

Besides these orders definitely made, arrangements are being completed with other live locals who are availing themselves of this splendid opportunity for building up their organization and putting a real kick into their campaign. Lack of funds can prove no deterrent to any local not as yet having ordered. Advertising, leaflets etc. that are a poor substitute for the Special Local Edition to advertise a meeting cost more to print. Rates have been purposely kept low. The returns to the DAILY WORKER from these issues must repay for the efforts made to make them a success.

Comrade Shklar of Milwaukee who has helped put that city on the map with a State Edition of 20,000 (half going to Milwaukee and the balance to Racine, Kenosha, Superior and other towns in the backyard of LaFollette and Vic Berger) was not satisfied with this accomplishment. Going on a trip thru the Steel District of Lake County, Ind., including Gary, South Bend and other towns his report to the local comrades on the possibilities of the Special Edition brought an order for 15,000 which is now in preparation.

At no place where consideration has been given to this edition have the comrades failed to grasp the opportunity presented. Here is POWER—effective dynamic power not only to build up the DAILY WORKER but to make your campaign meetings a success, to give added drive to your local campaign—to BUILD your local as well.

of the city, forced the civil and military authorities to give Hailey a public funeral, and to execute without trial or delay of any kind two leading members of the strike committee. And when the Chinese government protested, the minister in Peking of MacDonald's "labor government" refused to give satisfaction, and instead demanded further punishment of the strikers!

"The time is ripe, we have said. More than that—the time for the allies is now or never. For a new power is rising to challenge them—the power of the revolutionary workers, peasants, and middle classes, organized in the Kuo-Ming-Tang, or National Revolutionary Party, under the leadership of the veteran socialist, Sun-Yat-Sen. At his capital in Canton, the great port in South China, he has for many years carried on a hitherto invincible fight against counter-revolutionary foreign imperialism, and in this fight he has had to rely more and more on the workers and peasants. Canton is the only part of China where the trade unions and the socialists can work legally.

"The allies have long tried to get rid of him by sending first one general then another; but always their attempt has been foiled by their mutual jealousies and rivalries. Even today their rival puppets, Wu-Pei-Fu and Chang-Tso-Lin, are locked in struggle; but whoever wins, whether the outcome is a despotism financed by Japanese or Anglo-American capitalism, the survivor will have to fight Sun-Yat-Sen, the representative of the Chinese people, the ally of Soviet Russia, the spokesman of the workers' and peasants' will to be free of all capitalist rule, Chinese or foreign.

"True, Sun-Yat-Sen has weighed up his chances. He sees that Japanese imperialism is the weaker. If it wins, its own domestic troubles are too great to enable it to eat up China. Therefore he may support Chang-Tso-Lin. And therefore the British "labor" government, under the dictation

of the British, French, and American bankers, is organizing a Fascist movement in Canton, just as they did in Soviet Russia.

"The story has already appeared in the Herald. Let us recall its main facts. Last May the Chinese merchants, bankers, and capitalist elements held a congress, at which they decided to organize volunteers—of course, only "to defend property." To-day there are 27,000 of them, all armed with rifles imported from the British colonies at Hong Kong and Shanghai. Their leader is Chen-Lin-Pak, for fifteen years representative of the British-owned Shanghai and Hongkong bank, director of the ten largest native banks, with a capital of 200 million dollars.

"When Sun-Yat-Sen seized their last consignment of rifles, they revolted. When the workers of Canton formed workers' guards, and began to move against the merchants' quarter, the British consul threatened that British warships would bombard the city. British Sepoys have been told off to protect Chen-Lin-Pak's property!

"The result so far has been to prevent Sun from marching against Wu-Pei-Fu. His position, and with him that of Chinese labor and Chinese democracy, is critical. They are faced with the prospect of seeing Chang-Tso-Lin defeated, Anglo-American capital victorious in the north, and then joining hands with the Canton Fascists to stamp out the labor movement in blood, reestablish autocracy, and make China safe for the British bankers. And the "labor" government is playing its part—relying on the alleged indifference of the British workers to foreign affairs.

"What can be done? The Chinese workers have formed a "Society for fighting imperialism"; the Russian Trade Union Congress has formed a "Hands Off China" committee, in which tens of thousands of workers are enrolling. This is the path we must take. The workers' organizations, the labor leaders, all who are "honest" in their claim to defend labor and democracy, must defeat the capitalists—and their puppet MacDonald. Hands Off China! Down with the Chinese Fascists! Defend the Chinese Revolution! With these watchwords let us force the "labor government" to remember its duty to fulfill its pledges of peace by withdrawing all support from the counter-revolution in China.

"Hands off the Chinese revolution."

Join the Workers Party!

THE CAMPAIGN FUND CAMPAIGN! Collecting campaign funds means agitation for communism.

DEATH SENTENCE OF TERRORIST IS COMMUTED

Savinkoff Was Agent of Allied Powers

(By Rosta News Agency.)

MOSCOW (By Mail).—Boris Savinkoff, a leading member of the Social Revolutionary party, who was sentenced to death for his crimes against the Soviet Republic, crimes which included attempts at the assassination of Lenin, Trotsky and other Soviet chiefs, had the sentence commuted to ten years imprisonment and finally to a complete pardon.

Savinkoff, Russian terrorist and leading agent of the Allied governments in their war against Soviet Russia, recently visited his native country in disguise and under an assumed name but was captured by the Soviet police and brought before a military tribunal.

On the 23rd of August, Savinkoff was served with the act of accusation, and within seventy-two hours, his trial was opened in the Military Collegium of the Supreme Court.

The announcement of Savinkoff's arrest created a sensation not alone in Russia, but throughout Europe as he was perhaps the most prominent agent of the British and other governments in their conspiracies to stir up civil war in Russia, since 1917.

Public opinion in the capital and throughout the Soviet Republics is following with unabated attention the case of Boris Savinkoff, which has revealed a striking picture of the close connections between the white counter-revolutionary movement and foreign intervention and support against the Soviet, a connection which was known, of course, but as to the actual proportions of which was difficult to have an exact idea.

Boris Savinkoff had been a leading member of the Socialist Revolutionary Party, a believer in terror and an active participant of a number of daring attempts against the lives of high officials and dignitaries of the Tsarist regime, and among them against Home Minister Plehve in Petersburg and Grand Duke Sergius in Moscow.

Pleading Guilty.

Savinkoff's trial opened on the 27th inst. To the question whether he is pleading guilty the accused answered in the affirmative without any hesitation. He then went on to give frank evidence dwelling on all the details and stating that he was now utterly disappointed in and disgusted with all the counter-revolutionary groups, that he despised them now and had lost faith in the sincerity of the interventionists and, finally, that he recognized that all his own anti-Soviet activities had been mistaken, while right was on the side of revolution.

Savinkoff told the court in detail about his many negotiations with Messrs. Millerand, Poincare, Noulens, Lloyd George, Churchill, Maszarik, Pilsudski and others, having met some of them in Paris and London, where he represented Kolchak and Denikin. Thru personal contact he had come to the conviction that the "Allies" aimed but at weakening Russia and benefiting by the counter-revolutionary movements in their own selfish interests. As for Russian emigrants abroad, Savinkoff gave vivid pictures of the moral decomposition and decay prevailing among them.

Intervention a Failure.

It was in the spring, 1923, that the accused, according to his statement, saw finally that intervention was no longer possible that all counter-revolutionary attempts were doomed to

WORKERS LYCEUM TO BE SCENE OF A MOST UNUSUAL EVENING

There is really no reason why you shouldn't attend it, you know. And don't pretend that you don't know to what we refer. You know darn well that we mean the Communist cabaret that is being given by the North Side branch of the Young Workers League tomorrow night, Sept. 27, at the Workers Lyceum, which, as is well known, is situated at 2733 Hirsch Blvd.

We'll admit that you don't know the surprises that are going to be pulled off there, and by cricky, we don't propose to tell them to you now. Suffice it to say to the wise seekers for revolutionary amusement that the entertainment that will be got up by the Communist lads and lassies is unprecedented in the history of the socialists of the radical movement. Heaven and hell have been moved in order to secure adept talent and after much effort it was done. The stage is set. Cough up your dough and spend a night as you never spent it before.

A word to the wise should be sufficient. The length of this word is for those who are not wise and have to be told. Come in huge masses!

failure and that international recognition of the Soviet power was bound to come.

The last words of the accused were that having spent many years in Tsarist prisons and in exile, he had lost touch with the popular masses, whose mood and feelings he no longer understood. This, he says, explains why "an old revolutionary, who took part in tens of attempts against Tsarist ministers, later committed the most abominable crimes against his people and motherland, being one of those most responsible for the latter's bloody ordeal."

Issued Statement

The accused concluded his evidence by the following statement: "In the face of the people's representatives, I Savinkoff, declare that I erred, that I recognize the Soviet power, and I tell to all the emigrants who love the Russian people that they must recognize the Soviet power. It is harder for me to make such a statement than to listen to your verdict.

"This conviction that the people is with you I acquired not here, in the court, but a year ago—in Paris. And I returned to Russia, for I did not believe in what other people told about you. I am ready to hear the sentence of death and ask for no leniency. Your revolutionary conscience will remind you that I have been a revolutionary."

The sentence was declared after three hours' conference of the judges. Boris Savinkoff has been sentenced to capital punishment. However, taking into consideration the statements of the accused, the tribunal has decided to ask the supreme organs for re-trial.

Death Sentence Commuted.

The Central Executive Committee of the U. S. S. R. has satisfied the request of the Military Court and has commuted the death verdict to a sentence of ten years' prison. In the motives put forth for this decision, it is explained that since the court, which tried Savinkoff, was able to establish that the accused has given up struggle against the Soviet power and since he himself has stated that he is ready to serve loyally and honestly the toiling people under the leadership of the power established by the October Revolution, the application of the death sentence is not called for by the interests of preserving the revolutionary order. The proletarian masses cannot be actuated by motives of vengeance.

Vote Communist This Time!

THE CAMPAIGN FUND CAMPAIGN! Ten dollars from you means leaflets to 5,000 workers.

I see the Legionnaires has met and give their appetite a whet for frequent portions, more and more, of wars and battles, blood and gore.

They took a awful vicious fling at folks who try to do a thing to make old Woodrow's promise good that wars should cease, as all wars should.

In language that was quite uncouth they hit at movement of the Youth, as if youth's only aim should be to die for the security of fat old bankers' oil concessions and Pierpont Morgan's world possessions. That youth should like to live a life that's free from fratricidal strife, makes Legion men to rave and graqn and spit out epileptic foam.

The Legion, having had its fill of Woodrow's democratic pill, would like to stuff the same dose down the throats of all the boys in town.

It's strange that those who failed to

die back up Woodrow Wilson's lie, that conscripts must be shipped to France to break forever old Mar's lance, should shake a very warlike fist like any Wall Street jingoist. It seems as if the Legion lacks gas-masks to ward off the attacks of our financial pirate crew who mix imperialist stew. Perhaps the boys who really fell would have a different tale to tell. But khaki lads who got as far as training camps give me a jar. What they can't tell of war themselves would fill a Harvard five-foot shelf. Give 'em a little running start and they will beat N. Bonepart, and put up a most awful bluff that Caesar didn't know his stuff.

If Legion men wanta fight, I move we take 'em some dark night, and turn 'em loose in some built-pen where they can "win the war" agen. Then let each battered sunuvarun just figure out how much he won.

THE OTHER SIDE

THE Chicago Tribune is a fighting, aggressive newspaper. It is frankly for the interests of the Capitalist class. But in a burst of fairness (?) it devotes very often a part of its editorial page to "The Other Side."

HERE it presents the viewpoint of interests opposed to theirs. Since the opposite interest is that of the workingman the Chicago Tribune consistently chooses the articles and editorials of the DAILY WORKER to present "The Other Side."

THE Chicago Tribune recognizes the leading paper in the world of Labor presenting the views of the worker and defending his interest.

If you work for a living your interests are on "The Other Side." You'll find them well defended in the pages of

PRINCE GETS CARD IN PRESSMEN'S UNION BY GRACE OF BERRY'S GANG

(By The Federated Press)

NEW YORK, Sept. 25.—By starting the press of the Herald-Tribune, the Prince of Wales served a speedy apprenticeship and was qualified for election to the Printing Pressmen's and Assistants' union, Local No. 25, as an honorary member. H. R. H. The Prince of Wales, reads engraved union card No. 01, is qualified as journeyman, honorary member at large, of the union of which Major George L. Berry is international president. David Boyle and Joseph C. Orr are the local secretaries who issued the prince's working card.

Special New York Communist Campaign Page of THE DAILY WORKER

WORKERS PARTY TO BE ON NEW YORK BALLOT

Organization Mobilized for Final Drive

By JOSEPH MANLEY.
Due to extraordinary efforts being put forth by the Dist. 2 organization in all probability the Workers Party and its candidates will be on the ballot in New York state.

To successfully accomplish this great aim, 20,000 signatures, 100 in each county, all of them sworn to before a notary public, must be collected and filed by the date of Oct. 5.

Party Mobilized.
The district organization has mobilized the entire party throughout the state for the accomplishment of this task. The district and local organization in New York has risen to this election struggle, as never before. A complete program of action covering the entire period of the election campaign has been mapped out. Every phase of the campaign is being considered and will be dealt with.

To conduct this political struggle and spread thru it a maximum amount of Communist propaganda and influence, various committees have been organized. The Facts and Publicity Committee was organized. Its purposes are:

1. To furnish publicity to the Party Press covering all activities during the election campaign.
2. Publicity for the capitalist press, locally.
3. To furnish material for special campaign issues of party papers.
4. To furnish material and draw up leaflets for general distribution among unions and at mass meetings.
5. Circular letters to trade unions appealing for support in the campaign.
6. Arranging meetings for speakers.
7. Meeting with committees and party speakers to explain methods and tactics, and to discuss policy.
8. Research—clipping, filing of important campaign information.

Finance Committee Formed.
A Finance Committee has also been formed, whose duties are:

1. The circularization of party branches.
2. The circularization of unions.
3. The circularization of fraternal organizations.
4. The circularization of individuals for larger donations.
5. Shop collections campaign.
6. Tag Day in October.
7. Campaign meetings and street collections.
8. Publicity work, with financial ends in view.

Work to be done on above plan:
a. Follow up letter to branches.
b. Subscription lists to branches.
2. a. Unions to be visited.
b. Auxiliary campaign committees to be formed in local unions.
3. a. Conferences of our party members connected with fraternal organizations, to be held by language groupings.

A speakers' committee has been organized, which has full charge of all campaign meetings—meetings in halls, and meetings on the street. Special attention is being paid to the street meetings. As many as twenty speakers have been mobilized. Platforms, and even trucks, have been drawn in to this service and on special "red" nights, as many as sixteen of these meetings will be held.

A principle object of the street meetings is to make them serve as feelers to the special meetings scheduled for halls.

W. P. Only Revolutionary Party.
With the complete bankruptcy of the socialist party in New York, the above program will go far towards getting the revolutionary message of Communism to the workers of this state. The Workers Party participates in the New York election campaign as the only revolutionary party.

If New York succeeds in collecting this great number of signatures in order to get on the ballot, it will be indeed, a victory for Communism.

Gitlow Backs Shop Drive

BENJAMIN GITLOW, candidate for vice-president on the Workers Party ticket has given his hearty endorsement to the shop drive conducted by the Workers Party Campaign Committee of New York to secure the support of the rank and file workers in the shops for the Workers Party in the election campaign. Ben Gitlow, who is a clothing worker by trade and has a first hand acquaintance with conditions in the New York shops, expressed the opinion that the exploited workers will give solid support to the Workers Party and will refuse to go along with the yellow trade union bureaucrats headed by Gompers in support of the false Messiah, LaFollette. The workers, in Gitlow's opinion, will not allow themselves to be deceived by the high sounding appeals of the labor bureaucrats and will give little or no support to the candidacy of LaFollette.

Gitlow's statement follows:
"The workers will not let themselves be deceived again by so-called progressives with their high-sounding phrases and empty promises. They have had their lessons with progressives like Bryan, Roosevelt and Wilson. LaFollette is no different. He stands for the same fake trust-busting program.

"LaFollette in office will not fight the trusts. He will fight the workers. The only party which deserves the support of every class-conscious militant worker is the Workers Party, the party of Communism, the party of uncompromising class struggle, the party of revolution, working towards the workers' and farmers' government. The Workers Party which leads the fight against the bosses—which is foremost in the Farmer-Labor Party movement, will surely receive the financial support of the rank and file workers in the shops. The Workers Party has no bankers to finance its campaign. It depends on the workers for the money needed to spread the message of Communism in this country."

The shop drive is progressing favorably. So far \$3,000 have been pledged by the various leagues in the Trade Union Educational League. The T. U. E. L. leagues of every trade in this city are holding meetings and conferences for the purpose of raising finances for the Workers Party campaign. Among the leagues already in action are the cap-makers, dressmakers, the Amalgamated Clothing Workers, cloak makers, metal workers, building trades, furriers. Indications are that the shop drive, which lasts from Sept. 21st to Oct. 6th, will draw tens of thousands of workers into the political campaign on the side of the Communists.

THOUSANDS OF CRANE COMPANY EMPLOYEES MEET AND TALK WITH DAILY WORKER STRAW VOTE SQUAD

At six o'clock in the morning the DAILY WORKER Straw Vote Squad arrived in front of the Crane Company manufacturing plant yesterday at Kedzie and 39th Street and handed out the ballots to the men as they arrived and entered the buildings. Altho the ballots were handed out rapidly and there were a large number of people handing them out the rush at the last minute was so great it was impossible to talk to the men to explain the purpose of the vote.

A large number of vote getters including new volunteers returned to the Crane plant in the afternoon when the men left their work and at that time it was possible to talk with some of the workers and get their votes.

Men Look Tired.
The Crane company, a large machine manufacturing plant employing over 5000 men, occupies several red stone buildings that look out onto vast lawns of neatly kept grass. One wonders why the buildings were set in so far from the sidewalks. Perhaps so that no one walking on the street and even standing on the other side of the sidewalk could see the men at their work.

There are three entrances thru which the men pour into the factory at 7 o'clock every morning and from which they emerge at 4:15 every afternoon. The mad rush to punch the clock on time in the morning is later followed by a listless stream pouring out of the building and heading for cars and elevators. Fatigue is visibly written all over the faces and bearing of the men as they listlessly drag themselves home. There must be a terrific grind under up-to-date efficiency schemes in that dungeon that looks so dressed up from the exterior to pour out in the late afternoon such a mass of lifeless, expressionless humanity.

Many for Foster.
The count on this vote will be given in the next issue of the DAILY WORKER. The men came out late and the little groups that formed around the vote getters stood around in groups and discussed the votes, the DAILY WORKER and the presidential campaign.

The inspiring thing about the afternoon's visit was the group of workers who adhered to the Communist understanding of the campaign and who expressed themselves all the way with William Z. Foster.

Of course, there were the usual large number under the LaFollette illusion who believe that they are going to vote for a workers' government, just as in the other plants visited. These workers entered into discussion with the vote getters and they will be reached again when comrades will follow up the straw

BUFFALO W. C. OUT IN FAVOR OF WM. FOSTER

Gives Its Endorsement to Communist Nominee

(Special to the DAILY WORKER) BUFFALO, N. Y., Sept. 25.—

A general membership meeting of the Workmen's Circle, which was called by the city committee in the Labor Lyceum, Sunday, passed a resolution by an overwhelming vote to endorse Foster and Gitlow.

This general membership meeting was called for the purpose of discussing the presidential candidates in the coming elections. A. M. Green, the secretary of the city committee, pointed out that the Workmen's Circle in its declaration of principles calls upon the members to support those candidates that stand on the class struggle.

S. P. and W. P. There.
After a few members had spoken the chairman announced that there were representatives of the Socialist Party who wish the floor on the subject. It was agreed that both representatives of the Workers Party and the Socialist Party be given an opportunity to present their programs.

Mrs. Esther Friedman of New York City, representing the Socialist Party, asked that the members of the Workmen's Circle support LaFollette because that movement represented a revolt on the part of the workers and farmers in this country against the capitalist class. She also pointed out that the Socialist Party when it has entered the LaFollette movement, did not give up its "revolutionary principles" but is working for the formation of a Farmer-Labor Party. She also said that while her sentiments are for Foster and Gitlow, she has entered the LaFollette movement because it has the support of the A. F. of L.

Speaks For Foster.
Joseph Siminoff representing the Workers Party, analyzed the economic and political situation in this country since the close of the world war. He pointed out that due to the centralization of wealth and the war burden upon the shoulders of the petit-bourgeoisie and also the wages for the industrial workers result in a revolt against the two old capitalist parties.

While the Workers Party was attempting to crystallize the revolt of the industrial workers and the exploited farmers into a Farmer-Labor Party, LaFollette and the so-called progressives and the co-operation of the Socialist Party betrayed the Farmer-Labor Party movement by sabotaging the St. Paul convention which was called for the expressed purpose of forming a Farmer-Labor Party.

In answer to the "revolutionary principles" of the Socialist Party, Siminoff pointed to the Social Democrats of Russia, who are today the leaders of the counter-revolutionary movement against the Soviet government of Russia. Also to the Social Democrats of Germany, England and France who are today serving the interests of the capitalist class in an official capacity. Also to the Socialist Party of America, who are today part and parcel of the LaFollette petit-bourgeois movement and yet maintain the "revolutionary principles" that Hillquit and Berger & Co. have long thrown to the wayside.

The meeting by an overwhelming vote denounced the "revolutionary principles" of LaFollette, Hillquit, Gompers & Co. and has enthusiastically endorsed Foster and Gitlow and the program for which they stand.

Powers Threaten Chang.
PEKING, Sept. 25.—The foreign powers were reported this afternoon to have notified Chang Tso-Lin, commander of the Manchurian army, that he will be held responsible for damage to foreign property bombed outside fortified areas.

TED ROOSEVELT WILL TOTE G. O. P. BANNER IN N. Y.

NEW YORK, Sept. 25.—Theodore Roosevelt, assistant secretary of the navy was nominated today on the first ballot as the G. O. P. gubernatorial candidate on the republican party ticket.

A spectacular fight is expected between Roosevelt and Al Smith who is willing to accept the leadership of the democratic forces. While Roosevelt cannot hold a candle to Al as a campaigner, he has the so-called Roosevelt tradition behind him, and the support of the Ku Klux Klan.

Stuck to His Job.
Roosevelt was given a job in the navy department in order to win the favor of the Roosevelt admirers for the present administration. The oil scandal hit young Teddy a hard wallop, but he stuck to his job like glue, tho his boss, Denby, hit the long, long trail to Detroit.

It appears that Teddy, Jr.'s, principal occupation while holding down his job was landing well-paying sinecures for his relatives. His brother Archie was given a vice-presidency of an oil company by Harry Sinclair, the oil king, about the time that magnate succeeded in getting Teapot Dome from the navy department.

Acted as Chaperon.
None of the Roosevelt family have any outstanding ability. Sinclair's vice-president was only an errand boy tho he got \$15,000 a year for purchasing tickets whenever his boss took an ocean voyage. Another Roosevelt was vice-president of a steamship company. The Roosevelt name was good for advertising purposes.

Al's Grin Widens.
It is rumored that Al Smith is smiling more sweetly than usual over the prospect of spilling oil on the Roosevelt scion.

The fortunes of the socialist candidate, the Reverend Norman Thomas, are not expected to be improved by the Smith candidacy. Al will have the support of the Tammany labor leaders who control the C. P. P. A. in New York. It is noted that on the day before Smith decided to accept the nomination for governor he dined with Sammy Gompers. The socialists are grinding their teeth with disappointment over the prospect of losing thousands of juicy votes.

COMMUNIST STREET MEETING IS BROKEN UP BY POLICEMAN IN "SOCIALIST" CITY OF MILWAUKEE

MILWAUKEE, Wis., Sept. 25.—The street meeting addressed by Comrade Ella Reeve Bloor here last Wednesday night was broken up by seven policemen, and Comrade Bloor was arrested and taken to the station house, despite the protests of her large audience.

The police sergeant, a former member of the socialist party, claimed to Comrade Bloor that discrimination against the Communists was not intended, but Comrade Bloor pointed out to him that all the newspapers reported large republican soap box meetings, and the former socialist had not molested the Coolidgeites who were holding meetings close by.

Comrade Bloor was kept at the station house until 9:30, when the former socialist, unable to trump up a charge against her, reluctantly let Comrade Bloor go. She will speak again in Milwaukee Saturday evening, at the corner of Third and Prairie Streets.

"JIMMIE HIGGINS" GETS DAILY WORKER FRESH EVERY DAY FOR YOU

Readers of the DAILY WORKER in New York City will always find the very latest issue of the paper at Jimmy Higgin's Book Shop, at 127 University Place, near 15th Street. The Jimmy Higgin's Book Shop carries a complete line of Communist literature and papers. It also has a complete line of all the best contemporary literature.

Jimmy Higgin's Book Shop is not only a book store, it is a delightful little shop where you are sure to meet interesting people. You can browse around among the bookshelves or enter into discussions to your hearts content. A trip to the Jimmy Higgin's Book Shop will always bring you in contact with authors, editors, poets, students of present-day events and comrades. Drop in on "Jimmy Higgin's" every chance you get—it will be an inspiration to keep abreast of the times and you will enjoy your visit. Get the habit, New York comrades. It is a good one.

Big Meetings Speed Communist Fight in Harlem Section, N. Y.

NEW YORK City, Sept. 25.—The Harlem Section of the Workers Party Local New York is actively engaged in the election campaign. Ten to fourteen open air meetings a week are being held. The meetings at 110th St. and Fifth Avenue are among the best attended meetings of the whole city. One meeting held at that corner on Saturday evening, Sept. 20, was a typical one.

The candidate for the 17th assembly District, William W. Weinstein, treated the crowd to a speech lasting more than an hour, a speech that swayed the crowd to outbursts of applause, a thing which is not usual in street meetings, where the people are skeptical and want to be shown.

The crowd was wholeheartedly with the speaker, and the hecklers did not receive much sympathy from the audience. Laughter greeted the quick sallies of wit, as William Weinstein gave his telling answers to the one or two persistent hecklers who thought they could rattle the speaker. One heckler said that he belonged to an independent union and that he supported LaFollette.

But upon inquiry it turned out that he was a member of the Architectural Iron Workers, who had endorsed Foster and Gitlow and had condemned LaFollette. The heckler did not come back for more.

Julia Stuart Poyntz, who is running for congress in the 20th Congressional district in Harlem, also addressed a large and enthusiastic crowd the evening of Sept. 12, which was Defense Day.

She showed that the Communists were the only ones who would lead the workers to a real fight against imperialism and war. The Harlem Section is doing its level best to spread the message of Communism in Harlem and to elect the candidates, Julia Stuart Poyntz to congress and William Weinstein to the New York state assembly.

Meetings are held on many corners, such as 103rd St. and Lex, 106 St. and Mad., 115 St. and Mad., 110 St. and Fifth, 116 St. and Lenox, 125 St. and Fifth. Workers Party literature and the DAILY WORKER are being distributed in great quantities. Big campaign signs have been hung up at advantageous points where the attention of thousands of passersby is attracted. The section has ordered 75,000 campaign leaflets for distribution from house to house on Sept. 28. New members are coming into the Workers Party as a result of the open air meetings.

Still At Large.
CEDAR RAPIDS, Ia., Sept. 25.—Two men, who escaped from the custody of a guard after they had been discovered in a mail car attached to the eastbound continental limited of the Northwestern railroad at Boone, were still at large today altho posses combed this district for them thruout the night.

DEM. BOSS UNDER OBSERVATION; SHOULD HAVE BEEN DONE BEFORE

BOSTON, Sept. 25.—Tom Taggart, democratic national committeeman and Indiana political leader, is threatened with appendicitis and was today "under observation" at the Phillips House, an exclusive branch of the Massachusetts general hospital here.

Taggart was stricken while at his summer home at Hyannis Port, on the cape. His wife and daughter are here, awaiting the verdict of the physicians.

New York Workers Party Campaign Speeding Up

By HARRY WINITZKY, Campaign Manager, Workers Party, District No. 2.

THE Workers Party election campaign is well on its way here. Thirty or more street meetings are held every week where our speakers bring the message of the Workers Party to thousands of workers who come to listen and feel peevish if the meetings are adjourned before midnight. The response of the audiences and the questions put to our speakers, all indicate the growing realization that the socialist party has deserted the workers, and that the Workers Party

is their champion.
In a few days the final dates for a series of RED NIGHTS will be announced. The RED NIGHTS will be held in the Congressional Districts where we have candidates. They will include the 12th, 13th, 14th, 20th and 23rd New York as well as the 7th and 10th Brooklyn. On these nights all the speakers of the entire city will invade the particular Congressional District where the RED NIGHT is being held. It is estimated that on these nights there will be from twenty to twenty-five meetings in the district.
Plans are also ready for a series of house-to-house canvasses and the

distribution of literature from house to house. These will be started as soon as we are thru with the filing of petitions.
Many special issues dealing with the campaign in this district have already been published. These included issues of the Freiheit and the DAILY WORKER. On October 19 there will be a special Foster issue of the DAILY WORKER, which will be distributed, 100,000 in number, for the Foster meeting which will be held here at the New Star Casino on this date. There will also be another meeting with Foster at another large hall in Brooklyn, Arcadia Hall, on the same

date.
To carry on all these activities and to further intensify our activities as the campaign develops, will require a great deal of finances. Subscription lists have been sent out to the members of the party, the Young Workers League and the Trade Union Educational League. Requests for support have also been sent to many labor organizations. Comrades must get busy with the lists and send money in immediately to the Campaign Committee, 210 E. 12th St. Our comrades in the unions must also see that our request is taken up and fight for the support of the Communist campaign.

THE BEAUTY AND THE BOLSHIEVIK

The Great Feature Film from Soviet Russia
MADE IN CO-OPERATION WITH THE RED ARMY
will be

Shown Again in New York City Beginning First Week of October

Watch Press for Place and Date.

HEARST'S SCABBY SEATTLE RAG TO BE PUT ON TRIAL

Girl Was Worked Eleven Hours in Day

SEATTLE, Sept. 25.—Six jurors will decide Oct. 9 whether William Randolph Hearst's non-union Seattle daily is within the law in working women linotype operators 11 hours a day.

Oh, Piffle. The Hearst daily admits the long shift but pleads that a newspaper is not a "mechanical establishment" and therefore not within the scope of the 8-hour law.

French Society Urges Recognition of Soviet Russia

(By Rosta.)

MOSCOW, Aug. 29. (By mail.)—The society of New Franco-Russian Friendship has elected Mr. Herriot as honorary president of the society.

In another statement, issued by the society, the latter sharply criticizes the anti-Soviet policy of Rumania in Bessarabia, pointing out that the terror practised by the local Rumanian authorities has provoked hatred against that country among the Bessarabian population yearning to join the Union of Soviet Republics.

WANTED—Comrades, men and women, earn extra money, spare time, send stamp for particulars. S. Cruden, Box 65, Xenia, Ohio.

THE WISE MR. WISE

FEATURED on the first page of the Federation News of Sept. 13, the successor to the New Majority since the return to the Gompers' camp of the once irreconcilable Fitzpatrick and Nockels of the Chicago Federation of Labor—is an attack on William Z. Foster and the Workers (Communist) Party of America, to which the name of Joseph A. Wise is attached.

The article can be divided into two parts—one accusing William Z. Foster and the Workers (Communist) Party of aiding and abetting the election campaign of Charles G. Dawes and his followers and in general, disrupting the labor movement, the other inferring that the printing plant and headquarters of the Workers (Communist) Party are the property of William Z. Foster and that the money to pay for the same came from some source other than the supporters of the Communists in the United States.

To dispose of the first criticism, it is enough to say that the Communists know there is no difference between capitalist politicians, so far as the working class is concerned, on the slate of one or the other of the two capitalist parties. The Communists stand for a class party of the workers and farmers; their efforts for the last two years have been devoted to building such a party and they consider the support of capitalist politicians, no matter what their promises, as outright betrayal of the interests of the working class.

Regarding the second question raised by Joseph A. Wise—the DAILY WORKER printing plant and the ownership thereof—it is only necessary to cite the fact that \$71,000 was raised by the Workers (Communist) Party of America for the purpose of establishing a daily paper in a campaign that lasted for months, the itemized receipts of which were published weekly in the Weekly Worker, the forerunner of the daily.

Inasmuch as Joseph A. Wise is an employee—a linotype operator of the DAILY WORKER Publishing Company, and has been such since the plant began operations, he is, doubtless, familiar with these facts which he chose, for purposes obvious in his article, to ignore.

The charges made by Joseph A. Wise are serious ones. He speaks of the "illogical, jesuitical reasoning of a Communist"; he characterizes as "futile webs of sophistry" the statements of William Z. Foster published on page one of the Aug. 30th issue of the DAILY WORKER; he calls Foster the "greatest mountebank, charlatan and faker that ever raised his voice in the halls of the American labor movement"; he brands as "intellectual renegade Americans" certain other members of the Workers (Communist) Party whom he does not name; he is certain, he says, that

Foster's name will be placed side by side with that of Benedict Arnold. If Joseph A. Wise, the "lowly rank and file trade unionist" who boasts of his enlistment in the army that made the world safe for the House of Morgan with the aid of Brigadier-General Charles G. Dawes, his brother-in-law, is so concerned about the iniquitous role played by the Communists, the question arises concerning the assistance rendered by him in spreading what he refers to in such bitter terms, i. e. the propaganda of the Communists contained in each issue of the DAILY WORKER.

Joseph A. Wise draws \$58.05 per week as a linotype operator in the DAILY WORKER composing room and up-to-date he has never, upon receiving his check, manifested any curiosity as to the source of the funds with which he is paid.

It might be well to say here that Joseph A. Wise, previous to his employment by the DAILY WORKER, has spent most of his life in the composing rooms of capitalist sheets and that nowhere in the archives of the labor movement is there any record of his indulging in specific criticism of the capitalist papers in whose service he was.

Two reasons for this lifetime of silence concerning the misdeeds of the capitalists can be gleaned from his recent attack on William Z. Foster and the Communists. First, Joseph A. Wise is a believer in capitalism; so much so, that he is proud of his record of defending it as a member of its armed forces. In the second place, he knows that anything approaching in venom his attack on the Communists, made on a capitalist newspaper, would be met with instant discharge. The Communists, however, are the target of attack on the part of every hanger-on of American capitalism.

AS WE SEE IT

By T. J. O'FLAHERTY.

(Continued from Page 1.) For their organizations. It should be remembered however, that George L. Berry, president of the International Pressmen's Union is the real boss of that union. The local members should not be blamed too harshly. Berry has broken more than one strike called by the New York pressmen and with the aid of stool pigeons, forced the men back to work after bringing in scabs to man the presses. Giving a card to a Prince is not the worst thing that notorious faker has done.

GENERAL Foch, the French butcher, is also honorary member of an American trade union, the bricklayers, I believe, and His Honorable Fatness "Bill Taft" was given a card in the Hodcarriers' Union. Perhaps Coolidge might yet organize a Strikebreakers' Union and make a fortune selling membership cards at Secretary of Labor Davis did organizing the Loyal Order of the Moose. It would not be surprising if Samuel Gompers gave Coolidge a charter if he ever organizes such a union. He helped break the strike that made Calvin famous.

THE Chinese situation is getting clearer every day. The names are not showing any improvement but we venture to predict that before the capitalists get thru with China you will be able to read the signs on your laundry checks. The linguistic difficulties do not bother our master class. In a manifesto which appears today in this paper, the British Communist Party shows who's who in the scrimmage. Our bewhiskered friend Charles Evans Hughes is backing up Wu Pei Fu as we have already stated, and so is the Ramsay MacDonald government, while Japan is behind the Manchurian war lord, General Chang. Sun Yat Sen, the leader of Southern China, stands for progress and the rights of the workers. We are rooting for Sun Yat Sen.

THE spies and agents provocateur of the British government were never busier than at this moment. We find them causing trouble in Persia, financing revolts against the Emir of Afghanistan, plotting rebellions in Georgia and trying to embroil Turkey against Soviet Russia. British agents are also busy in China. The British imperialists realize that Soviet Russia is the only great power that stands between the exploited peoples of the Orient and the capitalist robbers who own the British Empire, hence the plottings. But Soviet Russia has a good information system and most of the plots get nipped in the bud and likewise the plotters.

THE NEW LEADER, official organ of the Independent Labor Party of Britain, makes a vicious attack on A. J. Cook, new secretary of the Miners' Federation of Great Britain, because of his fight on the Dawes plan and because of the miners' demand for an increase in wages without considering its effect on other industries. The New Leader is a mouth-

piece of the Labor government as the London Daily Herald is the organ of the Trade Union Congress. The I. L. P. organ regrets that the miners under Cook did not take the same broad view of things as they did in the early days of the war under other leadership, when their leaders declared that they would not seek an increase in wages if the workers in other industries could be restrained from making demands, while the "country was in danger."

PERHAPS some of our readers think that we are too hard on the leaders of the British Labor Party. In fact, one reader who considers himself more or less of a Communist, objected to putting Ramsay MacDonald, the beneficiary of Sir Alexander Grant, in the same category as Albert B. Fall, one of the leading grafters in the Harding cabinet and receiver of the Doheny satchel. But when the official organ of the British socialists openly take up the cudgels for the Dawes plan and denounce the miners' leaders for opposing it, it appears to us that anybody who could defend such action, belongs with Coolidge and Dawes. That worthy pair could not be more concerned about the interests of the capitalists than the socialists.

FRANCE is having trouble with her subjects in Guadeloupe, an island in the Caribbean Sea. Two bombs were recently set off near the prison where a Negro deputy and "agitator" was imprisoned. Note that every man or woman who stands up for freedom is given the title of "agitator" by the capitalist press. But it is a title that every rebel should be proud of. Liberals sometimes pay tribute to the benevolence of French colonial rule. Bosh! French rule is no different to the rule of any other exploiting nation, neither is its purpose any different.

COOLIDGE is staying on the job in Washington these days, his press agent tells us. He prefers to clean his desk of correspondence that tell the world what he thinks. We have no doubt but the president finds easier chores around the mahogany desk than chasing an elusive idea around his brain. His thots are slow, yet hard to grasp.

WILL TEST SOLON'S CIDER. WASHINGTON, Sept. 25.—Investigation of the cider party of representative John P. Hill, republican, of Maryland, was placed in the hands of United States Attorney Woodcock of Baltimore, by the department of justice today. Mrs. Mabel Willebrandt, assistant attorney general, in charge of prohibition activities, said that the United States attorney at Baltimore was authorized to take what action he sees fit.

TOO MUCH GAS. SPENCER, Mass., Sept. 25.—Frederick E. Partington, founder of the National Park seminary for girls in Washington, and several other schools, was found dead in the bath room at the E. Jones residence here where he and his wife were visiting. Death was due to accidental gas poisoning, according to a report of medical examiner Deland of Warren.

UNCLE WIGGILY'S TRICKS. "I'm going out, Your lunch is in the ice box." "I know I'm absent-minded, but she spoke of a box."

A LAUGH FOR THE CHILDREN. "It doesn't seem to be here." "What box did you say, Janie?"

COOLIDGE FARM LOAN PLAN GOOD FOR FINANCIERS

Works Havoc with North Western Farmers

FULLERTON, N. Dak., Sept. 25.—Ten per cent, compounded semi-annually, is the seat of the pain in the northwestern states, according to a Dickey county farmer whose forehead is plowed into deep furrows by mortgage worries. Nearly all farmers in this region, both tenants and owners, are paying 10 per cent interest compounded semi-annually to some money-lender or other. If they don't pay, it is because a sheriff's sale of their land or goods writes the last chapter on their farming. A local lawyer estimates that 50 per cent of the owners in this section will give up their holdings to banks this year.

BANKERS FEEL FINE. Bankers are declared the principal beneficiaries of President Coolidge's farm loan scheme. In some cases it is manipulated so that the bank gets government money at 6 per cent and immediately relays to the farmer at 10 per cent. Crops are not bad but proceeds gravitate to the moneylender.

Prison Labor Foe Will Go to Senate From S. Carolina

CHARLESTON, S. C., Sept. 25.—Cole L. Blease, former governor of South Carolina, who was nominated for the U. S. senate by more than 2,000 majority in the second or runoff primary, stands elected since he will have no competition in the purely formal November elections.

Blease came under fire during his administration as governor for turning out a large number of prisoners from the state prison, when he refused to let a prison contract firm exploit them. He claimed that the majority of them did not belong in prison anyhow and that many of the grafters ought to be in.

During several strikes Blease refused to furnish state troops for protecting strikebreakers. When asked to protect a carload of strikebreakers he ran the car into the penitentiary, saying that they would get completely adequate protection there.

Ottawa's Fashion Plate Show Will Greet the Prince

OTTAWA, Ont., Sept. 25.—The fashionable stratum of the Canadian capitol was buzzing today with speculation upon the American girls and women who will be invited to the ball to be given in the government house here on the night of October 17 for the Prince of Wales. Governor-General and Lady Byng are to be the hosts. It is known that his royal highness would not be at all displeased to see among the guests some of the persons of the fashionable set he met during his recent holiday at Syosset, Long Island. Wales will spend October 16, and 18 in Ottawa on his return trip from his ranch at High River.

WHITE MEN JUMP REDSKIN CLAIMS UP IN VICTORIA

The Old, Old Story is Retold Again

(By Federated Press) VICTORIA, B. C., Sept. 25.—The Kitwancool Indians have been compelled to give way to the steady encroachments of the white man. In a formal notice issued by the government of British Columbia the chiefs of the tribe are warned that they must not molest white people, or prevent them from entering their tribal reserve in northern British Columbia. The Kitwancool Indians had certain of their reserve lands "jumped" during the land boom some years ago and later the government issued titles to the white interlopers without consulting the Indians. This rankled the tribe so much that the provincial government was forced to take possession of some of the alienated lands to hold "in trust." The Indians were always suspicious of the stewardship of the government and these fears have been confirmed by the order issued to the tribe which gives the white "land-jumpers" the tracts formerly owned by the tribe. That's What They Tell 'em. Following the warning to the Kitwancool chiefs the Indian commissioner stated that were there any further molestation of whites police action would follow. Thus marks another step in the vanishing of the red man before Christian civilization. Russians Postpone Play. On account of the affair to be given Saturday, Sept. 27, for the benefit of the DAILY WORKER, the Society for Technical Aid to Soviet Russia has postponed its performance to Saturday, Oct. 4. A Russian play, "The Devil's Kitchen," in four acts, will be given by the Society at 1902 W. Division St.

AUTOCRAT DECREE MUZZLES POSTAL WORKER'S FAMILY

Washington Says They Can't Enter Politics

WASHINGTON, Sept. 25.—Alarmed by the indignation which has swept the ranks of the nation's postal workers following Calvin Coolidge's veto of their pay raise national Republican leaders are broadcasting an order to all postmasters not only forbidding government employes from mixing in politics, but including their wives, fathers, mothers and all members of the family. The postal men's wage increase, which passed both houses of congress by big majorities, had received the support of chambers of commerce and employers throuth the country.

Stir the Shops!

The very best place to carry on a working class campaign is in the shops and factories where the workers gather to earn their living. It is there that minds are open to the measures, parties and candidates that stand for concrete solutions of the problems of bread and butter facing the working class. It is in the shops that the workers will see most clearly, for example, the difference between Foster, the union organizer and fighter for the workers, and LaFollette, the lawyer and fighter for the middle class. (Editorial Daily Worker.) THE ABOVE "HITS THE NAIL" on the head. Nothing could be added to that. It's up to you reader, to do everything physically possible to place

THESE PAMPHLETS in the hands of the workers you work together with in shops and factories. Sell them everywhere. Now is the time. The LaFollette Illusion—As revealed in an Analysis of the Political Role of Senator LaFollette, by Jay Lovestone. Single copy.....15c Parties and Issues in the Election Campaign—By Alexander Bittelman. Questions and answers, how the different parties view the conditions affecting the working class. It's a gem. No worker should go to the polls this year without first reading this pamphlet.....10c Unemployment—Why It Occurs and How to Fight It, by Earl R. Browder. This pamphlet deals with the most important issue before the workers today.....5c In lots of 5 or more at 35 per cent discount. Place your orders at once. The Textile Crisis

A serious crisis is brewing in the textile industry. It appears that the cotton mill barons have decided that the time is appropriate for a general wage cut ranging from ten to twenty per cent.

Present indications tend to lead one to believe that the textile overlords will attempt to repeat their move of 1921. Then, the manufacturers tried to set the pace in wage reductions.

The textile workers should lose little time in preparing for a fight to the finish. The workers in the other industries must be prepared to take every step to assure the textile workers unstinted support in their struggle against wage reductions.

There is no possible, tangible excuse for the proposed big cut in the already too low wages of the cotton mill workers. Thru the use of increased machinery per worker, to the extent of nearly twenty-five per cent, the manufacturers have increased their profits in recent years.

In the last strike the textile workers put up a magnificent battle. Their resistance took the bosses by surprise. We feel sure that with the aid of the workmen of other industries, the New England mill hands will decisively trounce the vicious alignment of dollar and bayonet.

British Unemployment Rising

The latest official British employment figures indicate a further decline in the number engaged in industry for the month of August as compared with July.

It is true, the increase in unemployment was small, but the significance is far more portentous than the figures would show. The MacDonald government has taken no positive effective steps to alleviate the condition of the unemployed workers.

The MacDonald government did not dare even irritate the surface of the tough hide of British capital. The MacDonald government would not even consider disturbing the profits and property of the British employers.

The mounting unemployment figures in Great Britain are also barometric in another sense. Unemployment is rising in Poland, Sweden, and Italy.

Of all the original, active belligerent countries, Great Britain has shown the most marked industrial improvement since the armistice. The critical unemployment situation in this country is a painful index to the blighting effect of the imperialist war on the working and living conditions of the European masses.

There must be something terribly wrong in the editorial or news department of the Chicago Tribune. Its Sunday edition carried no news of the big rebellion against the Soviets in Georgia.

Government Fairness

The Pennsylvania Railroad has long been an avowed enemy of organized labor. Without doubt this road is the most "hard boiled" of all the systems which resisted the continuation of a union among the railway workers after the end of the war.

Time and again this railroad has defied every government order which masks under the pretense of fairness in labor disputes. The Pennsylvania even went so far as to turn a cold shoulder to the late President Harding who, in turn, was forced to manifest publicly his disapproval of its too blunt and patently rough-shod labor tactics.

It seems as if we are about to be treated to another dose of government fairness in a controversy between the workers and the Pennsylvania System. The Order of Railway Telegraphers has been in a struggle with the powerful Pennsylvania for union recognition.

It is on this basis that the picked strikebreakers, under the thumb of chairman Ben Hooper, have ordered a secret ballot to determine whether the bona-fide union or the fake union has the majority support on the Pennsylvania System.

The attempt of the Railroad Board to secure a so-called fair vote is only a skillfully camouflaged maneuver to prevent the workers from hitting back at the Pennsylvania System. The telegraphers are talking strike. They are preparing to lock horns with the Pennsylvania magnates.

The New York Campaign

New York is now the scene of a lively campaign. The Tammany forces, having been deserted by many of their labor followers, are pinning their hopes on the re-nomination of Al Smith. The reactionary republicans are bending every effort to have that second-rater, Theodore Roosevelt, enter the lists against the democratic white hope on the basis of the prestige his family name carries.

The Communists are also waging an energetic campaign. The first Communist task is to get on the ballot. In the Empire State the workers are hindered in the exercise of their political rights by technical barriers of a most complex and complicated sort limiting the suffrage rights thru a high requirement of endorsing signatures.

But this victory can come only if the Communists, the class conscious workers, and all the supporters of and sympathizers with the political and economic aspirations of the working class will get together to secure the necessary number of signatures. Once the Workers Party succeeds in winning its place on the ballot, the Communists will be in a position to engage in a real political campaign against that motley army of enemies of the workers, against the exploiters, the LaFollette-Tammany alliance, and the latter's socialist fig-leaf.

The mass meeting to be addressed by the Communist candidate for governor, James P. Cannon, Oct. 2, should be turned into a victory meeting to celebrate the success of placing the Communists on the ballot in the Empire State of the Union.

The national office of the socialist party is worrying lest the organization may not be able to take advantage of the fact that after the election the LaFollette clubs will dissolve "Since victory is already achieved." We venture to predict that after the election there won't even be enough of the socialist party for the national office to send its press service piffle to.

The Central Labor Union of Indianapolis gave a vote of commendation to the Prince of Wales for accepting a life membership card in the Web Pressmen's Union of New York. While this sentiment dominates the American labor movement, Calvin Coolidge is justified in believing that the capitalist system is safe.

It is reported that Calvin Coolidge may go to the country as soon as his campaign managers succeed in perfecting a mechanical device that will make up for his lack of personality, his mental bankruptcy and his deficiency in oratorical gifts. An invisible mask is also suggested. Perhaps the K. K. K. might help him out with a hood.

Every day get a "sub" for the DAILY WORKER and a member for the Workers Party

Japs War on the Corean Revolutionists

(The following appeal to us for assistance, material and moral, coming from Corean Comrades should receive our utmost consideration. It reveals the almost incredible cruelty inflicted upon the revolutionists of Corea by the Japanese government. This appeal was sent to the DAILY WORKER from Moscow, Russia, thru the Fifth Congress of Communist International.)

COMRADE WORKERS: You very probably have very little conception of the terrible conditions in which your brother workers of Corea are living at the present time under the heel of the brutal Japanese imperialists.

Thirteen years have elapsed since Japan annexed Corea, and during this period everything has been done to convert the millions of this country into slaves, and erase all traces of their own independence and squeeze the last drop of blood from the Corean workers. Corea became the colony of the most rapacious capitalists who began to enslave the country, and subject the people to intense trials and poverty.

This state of affairs was bound to call forth attempts of resistance from the workers of Corea. The war for national liberation took the acute form of armed uprisings, revolts and partisan struggles under these conditions of the colonial hegemony of the bourgeoisie.

Japanese oppression called forth a revolutionary movement and created revolutionaries, for by extracting the natural riches of the country and creating the elements of industry, the Japanese created their grave-diggers: the proletariat, and at the same time its vanguard: Communist organizations. At the present time, the Japanese imperialists with a handful of Japanophile Corean bourgeoisie are confronted with the fierce hatred of fifteen million slaves who are anxiously awaiting the signal for the struggle for liberation.

Revolution stands like a spectre before the eyes of the Japanese imperialists. The Japanese bourgeoisie feels the ground under its feet is

shaking just as in the recent earthquake. But the fear of this spectre of revolution is greater than the fear of any possible earthquake, and hence the Japanese are trying every measure of the vilest oppression and repression to ward off the coming revolution. In September of last year when the earth was still heaving from the earthquake, they organized wholesale exterminations, programs, whipping and shooting of the Corean workers and the Japanese Communists. The prisons are being packed to overflowing with the workers and Commu-

nists. In these black holes the fighters for the cause of the proletariat are tortured and murdered under the most incredible conditions. Immediate moral and material help is necessary to help the fight of the Corean workers and peasants. They must know that they are working in the cause of the world proletariat when they are fighting against their own capitalists in Corea. They must be assured that they are not alone in their struggle, that innumerable millions of workers, fighters and brothers are behind them and do not forget

them even tho they are no longer in their ranks. Workers: Organize aid for the Corean revolutionaries! Send your contributions for the Corean political prisoners thru the I. R. A. the organization of International Red Aid and solidarity. Show the capitalist world the strength and unity of the international proletarian ranks. With revolutionary greetings, The Delegation of the Corean Communist Party to the Fifth Congress of the Communist International.

THE TRINITY OF MORGAN

HE KEEPS LAFOLLETTE IN RESERVE. Wall Street's Trinity Church has both republican and democratic leaders in its fold. Either Davis or Coolidge for President will satisfy them.

SAVE PIETRO NIGRA FROM MUSSOLINI! For a United Front Against Fascist Assassins

WHEN Jacob Tori, an Italian boy who was gathered up with other members of the I. W. W. during the war and imprisoned at Leavenworth, was released, he was straight-away deported to the land of Mussolini and his Fascist murder gangs. Tori has never since been heard from. The capitalist government of Coolidge and his "Labor" Secretary for Deportation, Mr. Davis, stands as an accomplice to the murderous regime of Mussolini and Rossoni.

Today, Pietro Nigra, another Italian revolutionary member of the I. W. W., also a Leavenworth victim, is scheduled on Nov. 18 to be taken in custody by the decree of capitalist courts in violent disregard of the "sacred" constitution and of rights of Italian citizens under the existing Italian-American treaties—to follow Tori into the bloody jaws of Fascism. This monster never fails to do murder when its victim is as helpless as Tori was and as Pietro Nigra will be, handcuffed and shipped at the mercy of Fascist crews on Italian ships. The prisoner is reported, sometimes, to have "jumped overboard." Or, he "disappears," while manacled, between the gangplank and his Italian village birthplace.

It is the duty of every worker and workers' organization, individually and collectively, to raise a voice of indignant protest at the complicity of the capitalist government of Coolidge and Davis in the murder of deported Italian workers. The bones of nine thousand workers, murdered by Mussolini's Fascists, strew the class war battlefields of Italy. These workers, revolutionists, for the most part adherents of the Communist International and Red International of Labor Unions, are dead because they upheld the interests of the workers. Mussolini is generous to the grave-diggers. He will gladly add Pietro Nigra to the lot with which he hopes to outdo Thiers of the Paris Commune. Especially if he can hide the deed from public exposure.

But—in the shops and factories, in the camps and mills—and in their union halls—workers of America must raise their voices in protest, and by letter and formal resolution addressed to the "Secretary of Labor" Davis, Washington, D. C., demand that Pietro Nigra be not sent to his death in Fascist Italy.

The Red International Affiliation Committee points out that this illustrates how necessary to the I. W. W. is close relationship with the other revolutionary unions of the world in the Red International of Labor Unions. The Red International Affiliation Committee not only urges American workers to do all in their power to stop this threatening deportation, but it pledges its best efforts thru its international connections to cause the Italian proletariat to warn the Mussolini government that it will be held accountable for the safety of Pietro Nigra should the capitalist government of America deport him to Italy.

THE RED INTERNATIONAL AFFILIATION COMMITTEE, By: Harrison George, Chairman, Mike Novak, H. R. Richards.

DEMOCRATS AND REPUBLICANS HIT BY NEGRO LEADER

Charges Plan to Keep Negro Voteless

NEW YORK, Sept. 25.—A scathing attack on the republican and democratic parties as enemies of the Negro race is made in the October Crisis by James Weldon Johnson, secretary National Association for the Advancement of Colored People. He charges that the two old parties have formed a gentlemen's agreement to keep the 12,000,000 Negroes in American as a political nonentity. Johnson accuses the republican machines in the southern states of assenting to the disfranchisement of 4,500,000 Negroes to maintain their monopoly of federal patronage. The republican party in the south, he says, is nothing but an office holding oligarchy.

A Gentlemen's Agreement. The white democrats in the south control the state offices; the white republicans the federal offices. It is a gentlemen's agreement against the Negro masses.

Smash this gentlemen's agreement, urges Johnson to the Negroes who can vote.
