

EMPLOYMENT OFF 10 PER CENT FROM FIGURE OF 1923

Vehicles, with Iron and Steel, Lead

By LELAND OLDS (Extract from Industrial Employment)

No improvement in the employment situation is shown in the employment report for November, 1924.

The general level of employment shows in the department's index is about 13 per cent lower than the average for 1923.

The situation is shown by industrial groups as follows: In the iron and steel industry decreases as compared with Nov. 1923.

Under vehicles the automobile industry shows a reduction of 18.1 per cent in the number employed and 14.4 per cent in wages.

The report also shows that in November these industries taken as a whole are operating with only 87 per cent of their normal full force of employees.

CZECHO-SLOVAK EDOR'S SHEL FOR DEPORTATION

New Offensive Is Waged Against Workers

NEW YORK, Jan. 8.—The capitalist government is tireless in its attacks on the workers of the country.

The latest attack is the arrest of Emanuel Valjauer, editor of the Czechoslovakian revolutionary paper, "Comrade Valjauer."

Valjauer is also a splendid speaker and active propagandist for labor. The government determined to suppress the revolutionary movement in this country.

Valjauer showed why the Russian workers and peasants were opposed to the capitalist regime.

He showed that the methods that the capitalists use to oppress the workers are the same as those used by the capitalist class.

THE STORY OF KARL LIEBKNECHT

L. R. B. Our young comrades always like to hear the stories of the great men and women who have fought for the cause of the workers.

It is very natural that Karl Liebknecht should have, from the very beginning, been interested in the working class and the workers are forced to live.

When Karl Liebknecht had been arrested and was in prison, he was put into prison for a year.

The Lenin Memorial Meetings

The Lenin memorial meeting, to be held on Sunday afternoon, February 1, at Madison Square Garden, New York, with similar meetings over the whole nation, will be the answer of America's workers to the black stream of lies pouring from the press against Soviet Russia.

Herbert Hoover, who was highly instrumental in overthrowing the Soviet government of Hungary in favor of the present fascist regime, sings a hymn of praise to the prosperity of all countries except Russia and China, the only two countries which have refused to bow to the mandates of international capital.

But the workers of the world understand these attacks on the Soviet Republic. They understand that Soviet Russia today stands as the mightiest bulwark against all countries except the United States which the employing class desires to let loose.

Blood on Cappellini's Hands

It is fool enough to know of the hundreds of deaths of coal miners resulting from preventable "accidents" due to the fault of the coal operators of this country, a slaughter which stains every lump of coal with the blood of the workers.

The Pennsylvania cocks—the "coal and iron police"—are a murderous brood. They have a reputation for just such assassinations. But they would never undertake them unless the coal operators had ordered it.

The miners of the anthracite region will do well to clench their fists for struggle, and to find a way to stop assassination of their comrades without yielding to the provocative acts of the assassins.

The "Front Factory" Falls

The busybodies, reformers, liberals and socialist fraternalists in New York are disconcerted. "Mr. Zero" has been ordered out of the church. Great gods of tears for the unemployed will doubtless course the cheeks of many a phillistine as he—or she—will wipe away teardrops to keep it from falling into the desert while the lecturer at the civic club expatiates on the decadence of christianity.

This is how it came about: An enterprising and forward-looking hombre with a bent for religion and a record of working valiantly to get every spare worker into the trenches during the war, became, after the war, suddenly a religious leader.

Having an eye for publicity, he advertised himself for sale as a slave, tried to auction unemployed workers off a block, and after attracting attention from the press as "Mr. Zero," he used the proceeds of the sale of human kindness to provide a sort of Gorky's "Night's Lodging," this soup and stale bread for the homeless and jobless.

Not that we object to these miserable victims of capitalism getting something to eat and a place to stay. But the presence of the milk of human kindness to eat, and the flop on the hard church benches, even the polished by pious parrots, the equivalent of a real bed in a real home? The Communist believes that the jobless worker is entitled to more than a crust and a shift for the night on a pine plank.

This begging at back doors is a relic of slavery. This going, hat in hand, to long-faced hypocrite, ministers and churchmen, merchant and banker, clinging for thin soup and stale bread is not the thing for a class which built the world of industry and now stands homeless and starving, held back from revolt only by lack of organization which makes each individual fear the priest and the police more than the corner. No! The Communist has a better plan.

The Communist and Financial Chronicle announces with unbecoming glee that fully 20 per cent of the 190,000 cotton mill operatives in New England are working under reduced wage scales as a result of the wage cutting movement after the election of President Coolidge.

The textile workers have had to struggle thru the slack period as best they could and are now facing a further reduction in their incomes. They will find in the statement of the Workers' (Communist) Party in the text industry that they are doing well which they can combat most effectively the new attack on their living standards that makes the Commercial and Financial Chronicle so jubilant.

Mussolini claims he has disarmed all his enemies, but the red specter of Communism keeps him awake nights just the same. Evidently Mussolini doesn't believe the claims he makes.

Ruthenberg is in prison, but that doesn't make capitalism feel any more comfortable.

TEXTILE BOSSES SLASH WAGES TO STARVATION LINE

Reaction Strikes at Fall River Poors

Fall River, Mass., Jan. 8.—The 11-Fall River cotton manufacturers have announced a 10 per cent wage reduction for their operatives to go into effect Jan. 12. No promise is made that the workers will get more than a 10 per cent wage cut.

Local unions affiliated with the American Federation of Textile Operatives, and the announcement that Comrade Peter Simon, who is secretary of the local union, stand before the capitalist court, the arrest of Comrade Leo, editor of the Fibre, Hunsatan cotton manufacturing city of New Bedford where the American Federation of Textile Operatives is also functioning.

The announcement of the Fall River manufacturers is in action taken by leading cotton concerns of New England this fall and early winter. Cuts averaging 10 per cent have been forced on Lawrence mills at Manchester, New Hampshire; in the Everett mill in Lawrence, Mass.; in the Lowell mills in the numerous mills of the Massachusetts and N. H. R. Knight companies in Lowell, Mass.; in the Maine mills and in many small concerns in the several New England States.

Fall River—Poverty has suffered more from the textile depression than those in any other textile center. The Fall River mill workers are on bread and soup for the most part, the end of goods most recently produced in the textile mills.

Waiting in Prison Leaves Its Imprint On Sacco-Vanzetti

Looking at the photographs of Sacco and Vanzetti when they first were imprisoned almost five years ago and at the photographs of them today, one is struck by the story of preservation of intellect more than by any words can depict.

The photographs bring to mind the fresh, energetic, young Sacco, a poetic and philosophic Vanzetti in the face of the one who looks old, suffering and dejected. In the face of the soft, kindly Vanzetti we read the story of the Red Union, the two young fighters for their class, in those few but long years of waiting in prison, the shadow of the rulers of the opposing class, the capitalists.

Textile Wage Cuts

The Commercial and Financial Chronicle announces with unbecoming glee that fully 20 per cent of the 190,000 cotton mill operatives in New England are working under reduced wage scales as a result of the wage cutting movement after the election of President Coolidge.

The textile workers have had to struggle thru the slack period as best they could and are now facing a further reduction in their incomes. They will find in the statement of the Workers' (Communist) Party in the text industry that they are doing well which they can combat most effectively the new attack on their living standards that makes the Commercial and Financial Chronicle so jubilant.

The liveliest thing in the spring almanac elections in Chicago will be the bunch of Communist candidates endorsed by the Workers' Party. They also will carry on a real battle against the bipartisanship of the capitalist candidates.

Mussolini claims he has disarmed all his enemies, but the red specter of Communism keeps him awake nights just the same. Evidently Mussolini doesn't believe the claims he makes.

JOINT BAZAAR OF INTERNATIONAL WORKERS' AID AND LABOR DEFENSE COUNCIL MAKING FINE HEADWAY

NEW YORK CITY, Jan. 8.—The arrangements of the International Workers' Aid and the Labor Defense Council for the joint bazaar, which is to take place at the Lyceum, 56th St. and 3rd Ave. from Feb. 11 to 14, are progressing with great vigor.

The renewed attacks on the revolutionaries in Europe and India, the arrests and brutal treatment of the revolutionary workers in Romania, Esthonia, Lithuania and Germany, the attacks on the militant peasantry in Jugoslavia—are awakening the solidarity of the workers of the world. The conviction of Comrade Nathan Berg, secretary of the Workers' (Communist) Party, and the announcement that Comrade Peter Simon, who is secretary of the local union, stand before the capitalist court, the arrest of Comrade Leo, editor of the Fibre, Hunsatan cotton manufacturing city of New Bedford where the American Federation of Textile Operatives is also functioning.

The following branches of the Workers' Party will have booths: Harlem, Williamsburg, English branch, New York; Manhattan, Scotch-Irish, Bronx section of the party, Hungarian branches, Russian Downtown branch, English Downtown branch, Greek and Armenian branches, together, English Westside branch, books and literature fund, American party, Russian art booth, containing hand-woven linen and hand embroidery.

The Lubanians branches are circulating a pamphlet showing that America is not a free country, and that they are not maintained in habitable space for more than thirty-five years, while Italy and stone blocks last from 10 to 150 years.

The steel houses are, are claim to be made more cheap to maintain than brick and stone houses, and as they last only 35 years, the union has quite a talking point in the fact that it takes to build houses extend nearly 40 years, and the houses would be collapsed long before their life span paid for, according to this theory.

The steel houses are erected on concrete foundations, which the framework is set. This is covered with sheets of steel plate lined with asbestos and the inside walls are made of a composition like American wall boards, or stamped sheet steel.

No trade union, no workers' organization, no sympathizer has left to do more to help the workers in this huge success. The fate of innumerable revolutionary workers in Europe and elsewhere is before them. Large sums of money are necessary for the work set aside for the bazaar. Get contributions from labor organizations and sympathizers.

7,000 COTTON GOODS WORKERS GET 10 PER CENT WAGE REDUCTION

HARTFORD, Conn., Jan. 8.—Seven thousand more cotton goods workers are to be affected by the wage-cutting movement of the American Textile Manufacturers' Institute, beginning Jan. 12. Here the remaining are Rhode Island and Massachusetts workers.
