501 SOLDIERS in battle. And when the command came to forward march, 487 did and 501 did not. Funny army!

The Workers Party faces a serious task. The life of the party, of the revolutionary movement is at stake.

Some Arabs visited London some years ago. Their eyes turned as big as cups when they saw the magic of the water faucets.

As useless as a faucet in the Sahara—that's THE DAILY WORKER without the support of every branch and member and sympathizer.

As a member of a party branch, it becomes your bounden duty to make the job of insuring our daily complete.

The speaker also advised that the legislature of New York, like all other similar bodies, is composed of the same old-fashioned, narrow-minded, and fear-the-fear of the vote labor voters who control the decision of the referendum.

In the state of Massachusetts where the amendment was defeated by a terrific majority, the defeat of the referendum was not surprising.

Massachusetts is the center of the textile industry. It was in that state that the industry had its inception in this country.

In the northern states where the legislature are openly voters in the matter. Many of the drive in Massachusetts was an organization known as the "national committee for rejection of the 20th amendment."

AUTO-WORKERS BEGIN MICHIGAN LABOR'S PROTEST

Pledge Support to Labor Defense Council

(Special to the Daily Worker) Detroit, Mich., Jan. 19.—The workers of Michigan are not parties to the conspiracy of the capitalist government to starve and suffocate the laborers of Michigan.

Whereas the state supreme court of Michigan has upheld the conviction of C. E. Ruthenberg for "assembling with the Communists in an opinion which calls for the overthrow of ideas and is a denial of free speech and assembly, and which evades the issue by its evasive arguments, the defense showed that there was not even a violation of the state law since the defense was by the defendant in the way of a work act of advocacy, and C. E. Ruthenberg was not the author of the law.

Whereas the solidarity of the entire working class is essential to its welfare and requires that those in the forefront of the struggle must especially be helped in their struggle.

BUILDERS AT WORK

Builders of Their Own Newspaper.

LAST week saw the appearance of THE BUILDER, official organ of the Builders of the Labor Movement—a monthly miniature newspaper published for those who are devoting their efforts to build the DAILY WORKER.

This little newspaper, growing to comrades doing the important organizational work of getting the best expression of Communism in our press to the workers inside of our party to Bolshevize it—and to workers outside of the party to add additional strength to our ranks—will be sent to all city and branch agents and to all BUILDERS of the movement who had secured new subs during the Bricklayers' campaign in October.

THE BUILDER is a practical organization paper to mold into a more efficient machine all active members of our party and other workers outside of it who are giving their efforts to the DAILY WORKER.

WE WILL GLADLY MAIL ANY WORKER A COPY ON REQUEST.

St. Louis Labor Condemns Framing of Railway Clerk

ST. LOUIS, Jan. 19.—The Central Trades and Labor Union of St. Louis, demands reinstatement of Tom. E. Kaiser, a railway mail clerk who was discharged on vague charges of "disloyalty and antagonism to the post-office department." Kaiser was chairman of the St. Louis postal employees committee in behalf of the recently killed postal wage strike. The labor organization declared that Kaiser's discharge came as a penalty for his efforts and that it was intended as a warning to other postoffice employees who might be inclined to express better pay.

To Mark Another Step in History!

The Labor Movement today is a product of the class struggle. Its ultimate goal is to assume control. But, the Labor Movement—to assume power—must of necessity have developed to a high stage of organization, theoretical knowledge and will to power.

To all these requirements, the DAILY WORKER is a great contributing factor—and when you build it—the simple task of securing at least one new subscriber you are building the Revolutionary Labor Movement into a movement marking history another, greater step in history.

This brick will make a valuable addition to such a monument.
