BUILDING TRADES OF PITTSBURGH HAVE MUCH GRIEF

But Two Greek Painters Do Fine Work

PITTSBURGH, Pa.—Despite the iron control, politically and economically maintained by the steel trust in this particular domain, the building trades of Pittsburgh, Pennsylvania, have succeeded in keeping up the average standard of wages and working conditions. Yet a large proportion of the workers employed in the trades are entirely unorganized and the employers are taking no opportunity to undermine the power of the unions.

Trade schools are being conducted under the control of the employers' association in addition to the Technical Institute. The building trades unions have attempted to obtain joint control with the result that these trade schools, but failed, showing conclusively that the object is the same here as elsewhere, to undermine and finally destroy the unions if possible.

Bill Kelly, one of the business agents of the Carpenters Union, runs his organization to suit himself. About 12 years ago he was active in the movement to create the Labor Temple in the city. Funds were collected from the unions and the committee in charge made sure that all locals were visited.

A tag day was held for the benefit of the Labor Temple and funds were collected from various corners of the city, willing to give. It seemed likely that out of the \$100,000 demanded and obtained 60 per cent of the funds collected from the locals as a remuneration for their labor.

Shortly after this settlement had been made a sum was turned over to the building occupation by the unions. One fine morning when the committee arrived at the office to find the sum had been used and the balance of the funds gone and now the unions are being forced to lower the price.

Bill Kelly's prestige did not suffer at all from this little incident, so last week when the carpenters demanded \$1.00 per day, the bosses offered compromise. Bill said he would never accept any compromise and demanded that the fight be carried on. To the surprise of the carpenters themselves they won the fight.

Bill, however, had his ambitions and the bosses put no obstacles in his way. He made his own money and so far, he has not been in his life to do anything for the workers.

There are about 200 Greek painters in Pittsburgh. They had already realized unorganized until lately. They couple of millions of their nation but the principles they believed in led them to fight. Their local union was organized and they are now in a group with a definite program that was not going to stop until all the 200 became members of the union.

NEW PAMPHLET, "WHAT'S WRONG IN THE CARPENTERS' UNION?" EXPOSES HUTCHESON'S CRIMES

The recent history of the corruption, the attempt at ruthless suppression of the independent activity of the United Brotherhood of Carpenters and Joiners has now been made available for the rank and file member, contained in the pamphlet "What's Wrong in the Carpenters' Union?" published by the Progressive Building Trades Workers. Evidence of this corruption is presented through irrefutable facts, staggering to the most credulous mind.

Not Only a Story of Corruption. Yet it is only a story of corruption confined to negative criticism, but it is a story as well of the struggles of the rapidly developing left wing movement to infuse the organization with more militant methods in pursuance of definite concrete objects of betterment of conditions of the working class.

Along with this startling exposure is presented the left wing program for the glaring contrast itself brings out the utter impotency of the present administration. Boldly stated: "Undoubtedly many members of the brotherhood have never heard of the left wing movement."

Hutchinson in New York, during the spring, 1924. The district council in New York was elected and obtained an increase for approximately 14,000 carpenters about \$3.00 per month.

When Hutchinson broke a strike, this so-called agreement was repudiated by the rank and file. Hutchinson repudiated that his agreement was accepted, and when the members of the district council were elected, they repudiated the agreement.

When Hutchinson broke a strike, this so-called agreement was repudiated by the rank and file. Hutchinson repudiated that his agreement was accepted, and when the members of the district council were elected, they repudiated the agreement.

Assuming full authority for the wage negotiations in Chicago, during the summer of 1924, Hutchinson signed an agreement which is a point for point to the minutest details of the contemplated working conditions.

The power of documentary trade union history in this country has become axiomatic. Statistics of wages and working conditions of the various trade unions are hardly available except thru the scant figures submitted at conventions. The official trade union journals are entirely immune to the current within the movement.

The Official Journals are Censored. They are, as a rule, closed to the rank and file and never give anything but the dry-as-dust official version and conception of the movement, sprinkled with a few technical details but never reflecting the actual life of the organizations. The rank and file opposition to the arbitrary rulership maintained by the trade union administration machines find no expression in these journals.

The last elections of international officers in the United Brotherhood of Carpenters and Joiners marked a turning point in the history of this union. For the first time a left wing candidate for general president appeared.

Miners' Local Raises Funds for Prisoners

KINCAID, Ill., March 6.—Local Union No. 1807, of the U. M. W. of A. is standing solidly behind the Sacramento Committee, as well as for all other class war prisoners. In spite of the policy among the miners, which is well known the country over, membership fell the necessity of doing more than merely passing a resolution protesting against the destruction of our fellow workers.

PARIS COMMUNE PAGEANT TO BE GREATEST EVER

New York Workers to See Mass Action

NEW YORK, March 5.—For the first time in the history of the revolutionary movement, the Paris Commune pageant has been arranged for the Paris Commune. Judson Square, which housed both Lenin Memorial meetings, and which gave the capitalists something to shiver over, will be the scene of the big Paris Commune celebration on March 16.

THESE COMMUNISTS CLOSE RANKS OF BUILDERS ARMY

N. Y. COMMUNISTS INVITE YOU TO PARTY'S WEEK-END HOUSEWARMING

YOU are herewith cordially invited to visit our new headquarters at 1113 W. Washington St., New York City. The housewarming has been arranged for this Saturday evening, March 7th, Saturday afternoon 2 P. M. March 8th and Sunday evening, March 9th, at 8 P. M. We have made arrangements for a real good time—a fine program including an Italian singer—Mezzini—who will render operatic selections; a charming young Russian will sing folk songs; a well known concertist will play; interpretive as well as 50th dancing will be featured. Of course, there will be an orchestra for social dancing and possibly a ballata orchestra. Many other surprises are in store for you. Indeed—this celebration is more than a single housewarming—the realization of a better home for our movement in this district, the getting together the quality of comrades and a fine program, besides, and need there be any further inducement for you comrades to come along with your friends Saturday or Sunday? Your new home is worth seeing, and since it belongs to you we will only charge you the price of privilege. Fraternally yours, Headquarters Committee, Charles Krumbien, Joseph Brady and Jack Jamposky.

Steel Trust Slaves Fail to Buy All Stock Offered Them

NEW YORK, March 5.—The employees of the United States Steel Corporation failed to subscribe for the full amount of stock offered them, it was announced at the company's stock office here. The employees are offered 100,000 shares of common stock each year, but this time only 82,948 shares, 29,476 shares bought the stock. This is the first time in several years that the employees have refused to buy the company's stock.

Machinery for Relief of Irish Famine Sufferers

(Continued from page 1) The famine situation is growing in seriousness and that the Free State government is suppressing the news. The west of Ireland was taken to British rule and is today the backbone of the opposition to the Free State government. The party advocates fought the landowners for generations and are now bitterly opposed to the Free State government. The party is in the hands of its present day, but the hands of government of Poland have outside the party in organizing the workers and peasants of those countries. Heads of the DAILY WORKER willing to assist in raising money for the famine victims should communicate with T. J. W I G K S SPEAKS TODAY ON 'GERMANY OF TODAY' AT NEW YORK OPEN FORUM

NEW YORK, March 5.—W. I. G. K. S. will speak on "Germany of Today" at the Brownsville open forum of the Workers' Communist Party, 170 1/2 Street, New York, N. Y., on Sunday, March 8, at 8 P. M. The death of Marx has brought Germany again into the limelight of European and international politics, and it is important for the workers to understand the present situation. Comrade Wicks is an able and well informed speaker, and you will find his address highly interesting and instructive.

Workers Party Meets Abramovich Attkin in Omaha, Nebraska

OMAHA, Neb., March 5.—Local branch of the Workers Party is becoming ever a strong in Omaha. The party is holding a meeting on the 11th. Messrs. Hoffman, secretary of the Workers Party of the United States, will speak at the Labor Forum, Thursday evening, March 12. The newly organized club of Jewish working class women is sponsoring this meeting, which is a guarantee of its success. In an effort to counteract the effect of the work carried on by the Workers Party, the "right wing socialist" party is having the counter-revolutionary party, Abramovich, for a "lecture" in Omaha. If they carry out their present plans they will have all the Jewish business men of the city present to show Abramovich how "different" they are in Omaha. While in Omaha, Holman will tell the Jewish people here the truth about this Abramovich, both at the mass meeting and also at a banquet which is being arranged in his honor. GALA MOVIE SHOW IN MILWAUKEE

The showing of "The Beauty and the Bolshevik" at the Baber Theatre in Milwaukee, Wis., will be a proud and happy occasion for the workers of Milwaukee. The theatre is one of the finest in the city and the committee in charge has been studying the best presentation methods of the leading theatres and is translating them into working class terms. In the place of the stiffly starched mannish ushers by which cunning money men try to give their patrons the illusion of superiority, there will be friendly young workers and girls in uniform, who will greet the audience to their seats. Of course, there will be costume Army uniforms. The energetic committee in charge has left nothing undone to assure a crowd. Thousands of invitations have been mailed to sympathetic friends and the number of people who will be present is expected to be in the thousands. The measure of success is usually in direct proportion to the hard work put into the arrangements. On this basis the Milwaukee show should be very successful indeed. To Your Working Class Movements. "The Beauty and the Bolshevik" will be shown in the following cities: Neffs, Ohio, March 20. San Francisco, Calif., March 21. Los Angeles, Calif., April 3. Tacoma, Wash., April 18. Union Oil Syndicate Reports Sale of 75,000 Tons of Oil to France

MOSCOW, March 5.—The Union Oil Syndicate reports the conclusion of a contract for the sale of 26,000 tons of crude oil to the French Ministry of Navy. This deal is acclaimed with great satisfaction by the business circles of Moscow, as they hold optimistic views on the prospects of developing the exportation of Soviet oil to France. This is our first big deal with the French government, says Mr. Lomov, chairman of the Oil Syndicate told a Rosta correspondent, "and in many respects it is more important to us than if we had just sold double the quantity to the Standard Oil or the Shell Co. 'We are confident' concluded the head of the Russian Syndicate, "that the supplying of the French market with Soviet crude oil will gradually become a permanent and more extensive nature."

Find Work Among Miners at Orient and Dowell

Mossava J. Olin goes in Jewell and showed how contradictory was his opinion as to the best way to handle the situation at a recent visit with the Impresario of the miners. He said: "I have had no success in my work here. I have much faith in the working class. If the working class fails us we are lost."

Acting in Oil Work

Whiting, Indiana, District No. 8 Workers Party is also taking up shop nuclei questions and discussed the question at the last city central committee. However, in order to clarify all of the members, the city central committee called a membership meeting for Thursday, March 5, and asked for a district speaker.

Reach Miners at Orient

A shop nucleus in Orient, Ill. is functioning well as indicated from the report of the District No. 8 Workers Party as follows: Our shop nucleus meets very regularly with good attendance. At our last meeting we accepted a new member, subject the approval of the city central committee. We also took up the child labor campaign with United Mine Workers of America, Local 302, with success, also the Sacco-Vanzetti defense campaign. The local elected a committee to arrange for a mass meeting in West Frankfort and also to interview other local groups to cooperate with us.

Fomenting Race War in Washington, D. C.

The story of the organized move to segregate the Negro population of Washington, D. C., which we published yesterday, shows that most of those who breathe the poisonous atmosphere of the nation's capital have learned nothing from the race wars that have broken out from time to time under the shadow of the capitol's dome.

As usual, the real estate sharks, an element whose close connection with the underworld has never been given the publicity it deserves, are the moving spirits in a campaign that can result only in bloodshed. The Negroes are being forced north to the same historical fate that sent white workers of white workers westward to the now vanished frontier—pressure of population, persecution and industrial development—economic and political pressure.

The Negroes are here. They, unlike the European immigrants, did not make the choice of location. They cannot be placed on reservations like the few hundred thousand Indians, neither can they be deported like foreign immigrants who put the interests of the working class ahead of loyalty to the oppressors and their state.

It is useless, of course, to urge upon the middle-class groups who look upon the Negro as an enemy for the most mental tasks, inferior to the noble Nordic prince-people, the only way of solving the race problem, i. e. accepting the Negro as an equal and treating him as such. Segregation is a prima facie evidence of hostility to the Negro, as an individual and as a race. It will intensify the friction by creating in the whites an intolerable attitude of superiority and in the Negroes a justifiable resentment which will and does find expression in spite of lynching, burnings, denial of social, political and economic equality.

Our social system is, of course, in the hands of parasites, but that is no reason why even in a stronghold of their like Washington, matters in which the lives and happiness of thousands are involved, should be left to the sinister control of "realtors" whose idea of the solution of the race problem is to patronize Negro prostitutes, "to change their luck" while always referring to the Negro masses as "those black bastards."

There is a great opportunity for the Communists in Washington to make the revolutionary position on the race question clear to both black and white workers.

The medical profession should take a great interest in Mussolini's influenza. It is the only case on record caused by overindulgence in murder.

Making a Mussolini

General Dawes did his stuff yesterday in the best sandville hoodlum style that is the kind of thing that goes big with the boys who read the headlines and the sport pages, the great American decorator.

We hope that none of our readers will think that we are hostile to the great Dawes because we live in his home town, but we say again he is the white haired pecked by Wall Street for the 1928 race and that he is right now the real boss of the White House.

The "quiet dignity" picture of Coolidge created by clever publicity men went well in the last campaign, but to the red blooded American there was something lacking. The rotarians and kwanzises like the lady that whomp it up, and the noisy general gives them what they like.

This is the only country in the world where a proven bank crook without the sense that an all more provider is said to have given grace, by the use of a deformed pipe and a loud voice, could become a popular hero. His attack on the senate, which ignores all of the most fundamental faults of that body, will arouse great popular acclaim. It would bring loud cheers from all the lobbied interests if it had been made by Doctor Cook. The senate is about as popular as the bubonic plague and even General Dawes has the wit to know that.

It is said that the inaugural address of the general is the sensation of Washington and we have no doubt that it is. We said recently that Cal would run a poor second when Dawes reached the capital for the very good reason that Cal is "some thing the cat brought in" and the process of "giminating him" is about to begin.

What we are witnessing is the creation of an American Mussolini. Let us not forget that in addition to being the slavery expert of the House of Morgan, Dawes is also head of the Minny Mine Co. in Austria, an oil millionaire and labor hater.

With the cooperation of the red light journalists we will soon be another victim of the Republic from labor unions, the closed shop, vengeance of the almighty and Holiness.

Every day get a "snub" for the DAILY WORKER and a member for the Workers Party.

"The Leader" Explains

Why the Milwaukee Leader. For years it has been neglecting the class struggle for "Honesty in government" and now the chamberlains of the German socialist party minister to the wants of capitalism—German and anti—have gone and spilled the contents of their receptacles all over the landscape. The resulting odor is too much even for socialists who could smell the blood of Liebknecht and Luxemburg and hundreds of Communist workers without a qualm.

The Milwaukee Leader in good—its way. It has been hypocritical so long that it has long ago lost any sense of decency and it therefore sees nothing incongruous in saying: "The socialist party the world over seeks to breed a social democracy in place of the present individual selfishness. It needs leaders that deny self, that devote their lives to the noble ideal of human brotherhood, that espouse no reward for this work save that of the artist creating the best and that cannot be BRIBED, bullied or misled."

The emphasis is ours. The Leader explains that all the corruption in the German socialist party is due to the fact that the socialist party of Holland once let a banker carry a message for it to Ebert. This banker thus came in contact with the German socialists and seduced them.

Well, how can you go well in the lounging rooms of Milwaukee's "socialist" policemen, but it will hardly be credited by the workers. The responsible socialist ministers of Germany sold everything they could lay their hands on to the big capitalists and pocket the proceeds. Minor officials of the Soviet government who did similar things on a smaller scale were shot and this has been one of the chief indictments of the social-democratic government.

Well, how can you not say they were so excited over this effective method of dealing with social traitors. The Communist press is interested in the corruption of the democracy's leaders and its interest in it can be used to show the working class what a rotten gang they are. The taking of bribes by the socialist ministers in a capitalist government is a small matter compared with the out-letting of the land, the land ownership and military the whole Second International by international capitalism.

It is this kind of bribe taking that we are interested in and this is the charge we have made and proven against these red cross workers of the terror bands of capitalism.

From MacDonald and his hound capitalist angel to the banker, Barman, the whole bourgeoisie created by the Second International is engaged in seducing the workers away from still following them into the slave pens of world capitalism.

The Milwaukee Leader recommends the calling of a "party congress" of the Second International. It is a waste of effort. The only way to purge the Second International is to blot out in the fire of social revolution, and this will be done.

The Chicago Tribune's jazz-beatnik "Socialist" in Russia a future heaven capitalist. The Socialist government is driven to complete and abject surrender. The wish is surely father to the thought. This accounts for the refusal of the United States to recognize the Soviet government. The above-mentioned "Socialist" undoubtedly come true if the capitalists and their yellow socialist allies succeed in overthrowing the proletarian dictatorship.

Indiana Operators Come In

The latest news of the open shop drive against the United Mine Workers of America is that the Indiana operators will take part in the conference on March 17.

The Illinois operators look sympathetically at the purposes of the gathering, but so far have not announced their intention of participating. With Kansas, western Pennsylvania and Ohio lined up, the operators are making active preparations being made which are of a nature that capitalist press has evidently been ordered not to reveal, it is apparent that the coal operators mean business.

The slack season in coal mining is near and there has been terrible unemployment for more than a year in most of the unionized fields. The coal barons have a lot of finance that they have accumulated for union fighting purposes and which they see ready now to spend.

With Coolidge and Dawes in Washington, they feel sure that any weakness on their side will be more than offset by the unusual energy in which the federal government will play its usual role of strikebreaker.

The western Pennsylvania operators, or at least the largest of them, have said that they will close their mines for some time and then open up on an open shop basis. This will probably be the plan followed by operators in other states.

They expect to starve the miners out. There is enough fighting spirit and reserve force in the United Mine Workers to defeat the coal barons if it is mobilized. In the coming struggle the members of the Workers (Communist) Party and the Trade Union Educational League will be the rallying center for the militants. Their program is the only one that offers hope for the miners.

Coal Miners: Fight the Open Shop!

THE central executive committee of the Workers (Communist) Party has issued the following statement in support of the coal miners' association: "The United Mine Workers of America."

To the United Mine Workers of America, the members of the organized labor movement and the unorganized workers: "The most powerful coal barons of western Pennsylvania and Kansas have said frankly that they will break the Jacksonville agreement with the United Mine Workers of America and have called a conference to organize war on the union."

Owing mines to the non-union West, Virginia and Kentucky fields, these enemies alike of organized labor who should have a more forceful hypocritical excuse than non-union competition forces them to reduce wages and worsen working conditions.

THE coal barons of western Pennsylvania, Ohio and Kansas state that their plan is the open shop, that is, Indiana and Illinois they have the whole-hearted support of the coal owners. The movement if it is to have any opportunity for a declaration of war.

The Workers (Communist) Party of America says to the coal miners that they have been chosen again, as they were in 1921, to lead the fight against a new open shop offensive which will be directed against the whole labor movement if it is not repulsed militantly.

Like the textile workers the coal miners are the most non-union of the Dawes plan here in America. The election of Coolidge (supported by the open shop) has increased the domination of the United Mine Workers of America has given aid and comfort to the open shop movement in America. Coolidge, as representative of the Wall Street and the whole group of finance and industrial capital.

at which it symbolizes, is opposed to the open shop. The coal barons will get the full support of the Coolidge government because they and their kind own it.

They will try to reduce the American miners to the same living standard as the German miners. The Dawes plan is internationally directed against the work of the coal miners.

Y. W. L. Nucleus Leading Strike in New York Shop

NEW YORK, March 5.—For a long time the firm of Greenbaum & Uphoff, located at 202 E. 100th St., has been operating an open shop. A few well paid mechanics and the rest young workers were "learning" the trade and receiving wages in many cases less than \$10 a week, made up in overtime pay.

Turn the agitation and activity of these members in the shop, the workers demanded a raise in salary, and improvement in the conditions of work. This was followed by the firing of some of the workers and the employment of new "learners."

The Y. W. L. members became active and succeeded in bringing about a strike which tied up the factory.

Upon the initiative of the Workers (Communist) Party of Rochester, a Sacco-Vanzetti protest meeting was held on Feb. 25. Sixty-four workers participated. After some negotiations the hall of the Amalgamated Clothing Workers was used as the meeting place.

Placing the interest of the gathering above all other considerations, Comrade Sussman withdrew as chairman. Sussman was selected and the meeting was held. All of which shows that the workers are not only active but also are forgoing.

broken the "sacred contracts." It maintains that all agreements with the capitalists are only scraps of paper which it nulls the purposes of the robber class to break them.

THE coal miners are the best of the labor movement. If their union can be destroyed or seriously weakened the capitalists will have an easy time with the rest of the union.
