Morgan Picks Agent to Chain German Labor to His Dawes Scheme

By J. LOUIS ENGDAHL

ToDAY, the Coolidge clique in Weshington considers sending a "business man" as the next samesador to Berlin. Just as if every American ambassador, or manufactured and the spokesman of American big business. The German and the spokesman of American big business. The German must have special qualities, and so charles Dewey Hilles who has had a post graduate training in both Washington and Wall Street, is being prominently mentioned for the Job.

Hilles will have his hands full when he arrives in Berlin. The German workers will keep Hilles busy. This is seen in the unrest among the coal miners and the growing strike on the unrest among the coal miners and the growing strike on the city. Tierponn't.

""."J. Pierpont."

Hiles was an assistant secretary of state under President Taft, later becoming secretary to this same "Bill the Fat" during the closing days of his regime in the White House. His loyalty to the present chief justice of the supreme court, and to the rougant reaction in the republican party in the days before the opening "Alphe world war, made Hilles chairman of the relative opening "Alphe world war, made Hilles chairman of the reaction of the Parker of the special party of the special party of the same become a director in the Liberty National Roll of System Vork, He also holds a directoriship in the anti-union Ottis Electrocompany, Recently Hilles has been specializing in activities with firms having an international character, which makes him no doubt additionally acceptable for the most ticklish post that Wall Street has to offer at the present time.

Wall Street has to offer at the present time.

The only other man mentioned for the job at Berlin is Jacob Gond Schurman, a long time ago president of Cornell University, one of America's most obedient 'goose-step' educational institutions. Since it is Wall Street's ambition to colonlatize not only Germany, but all of Western Europe, not to mention the Pinion of Savet Socialist Republics, if such a thing were possible, Schurman also has good qualities for the job. As long ago as 1826, immediately after, the Spanish-American imperialment on the limbs of the Filipinon, just freed by an attrustic United States from Spanish oppression. Schurman was president of the Limbs of the Filipinon, just freed by an attrustic United States from Spanish oppression. Schurman was president of the Filipinos, bave remained enakaved to Wall Street rule ever since. Schurman was also promoted. He is now American minister to China, where his main job is keeping an "open door" for the almighty dollar to the whole orient. This includes strength of the presidence of foreign imperialism. But compared to his success in the Philipines, Schurman's usual report from China is, not so good.

The workers and poor farmers of this country must get

The workers and poor farmers of this country must get better acquainted with the doings of these pokennen of dollar will go to Berlin to lighten the places plan on the whole Germa nation, which means the German working class. Already the effects of German slave labor are being felt in other countries especially in England and Belgium, where the army of men-physel, in the coal mines, for instance, grows as German labor is forced to bear its increased burden. In fact, the same results are already beginning to make their appearance in the Unite States.

When Hilles or Schurman go abroad as Morgan's henchu they become the enemies, not only of the German or Chinese we ers, but also of the whole American working class. It is possible to degrade the workers of Germany and China, we out also increasing the guidensness of American capitatism

home.

The German workers, more and more, are resisting the Morgan Dawes plane. Let American workers and poor farmers echo their struggle by organiting against Morgan and Dawes rate home. While German and Chinese labor are winning victories against dollard diplo macy in their countries, let labor in the United States plan and work to crush it here.

Remington Portable

Take any user's advice

Anyone who uses a Remington Portable will tell you how indispensable it is.

It makes writing swifter—likewise easier. And—without any reflection on your penmanship—it makes reading easier. Compart—fits in a case only four inches high. Easy to pick up and carry around, or tuck away in a desk drawer. Convenient—can be used anywhere—on your lap, if you wish.

Complete—with four-row keyboard, like the big ma-chines, and other "big machine" conveniences.

Price, complete with case, \$60. Easy payment terms if desired
