# "Hands Across the Sea" Must Be Labor's Slogan Until This War Is Won

By J. LOUIS ENDDAHL.

Today, American workers, in all industries, may be tempted by the siren song of military British labor ready to say, to launch a general strike that will cripple all activity of the capitalist order on the island.

The terrible plight of the coal miners, linked with that of other workers, and the determination to fight it to the finish, has given birth to the Quadruple Alliance, that has great promise of success, where the Triple Alliance of 1919 failed.

With the slogan that the time has come for the British workers to unite with the American workers, the transport workers and the machinists. How the class solidarity of the laboring masses of the world is being cemented the forces of the coal miners, the railwaymen, the transport workers and the machinists.

It is significant that the only objection came from J. H. Thomas of the railwaymen, one of the chiefs in the "socialist" cabinet of the labor premier, J. Ramsay MacDonald.

The British workers can be depended on to take care of their own interests. They were too busy in 1919, a success. These past experiences will help mend any breaches of the Triple Alliance before we get into battle.

The workers have also been taught that they cannot depend on the parliamentarianism of the MacDonald "socialist" type, the only policy fasten the chains a little tighter against labor's limbs.

Thus the British workers are without illusions as to the real nature of the war between themselves and their exploiters. They know it is a class war, a struggle for the revolution in its wake.
