Bryan's Record Teaches Workers and Farmers to Build Own Class Power

By J. LOUIS ENDOHAL

TODAY, preparations are being made for the burial of William Register who helped to cover up the blood in Arlington National Cemetery...

It is said that this was Bryan's wish. The wish typifies the American employer... exploit the public which might place him in public power or prominence.

Charles N. Wheeler, of the Hearst newspapers, launch a fight of the most he was preparing... campaign to promote progress...

Bryan's right to be buried in Arlington cemetery grew out of the fact that this man of god, who claimed loyalty to the ten commandments...

Again the Nebraska "commoner," who was secretary of state, called for Bryan to be buried in Arlington National Cemetery...

An effort is being made now to lift Bryan to the pedestal of a hero... "free silver," government ownership, a fake pacifism...

In Bryan's drive for the White House, he trekked along his own chosen road with stopping places at "free silver," government ownership...

The Official Report of the Russian Revolution

The official report of the British Trade Union Delegation to Soviet Russia, including trade union leaders and experts who travelled to every section and observed every phase of Soviet life.

A most complete report, with graphic charts and maps covering Politics, Finance, Army, Justice, Education, Trade Unions, Wages--by a Non-Communist, impartial and objective body of British Labor.

WM. F. DUNNE Editor of the Daily Worker says: "The British Trade Union Delegation to Soviet Russia in a unanimous report has told the world in Russian Revolution in language that trade unionists can understand."

It is a great study, with history and present matters in language of workers and peasants marching towards Communist revolution.

Revolutionary Russian and stubborn, slow-moving Britain both call to the American worker from the pages of the British Delegation report.
