

HUMAN BUTCHERY SHOPS IN MINES OF ANTHRACITE REGION KILL AND CRIPPLE 30,000 MINNERS YEARLY

The story of the ghastly butchery of coal miners in the anthracite is here told by a coal miner, who better than any other can feel and express the horror of killing and crippling a whole army of workers each year in order to fatten the profits of the mine owners. This is the sixth of a short series of articles by Alex Reid, secretary of the International Miners' Committee, who spent some time in the anthracite recently, most of it jail for trying to speak to the miners.

By ALEX REID (Secretary of the Progressive Miners' Committee.) (Article VI.)

No words can picture the awful suffering through the hard coal regions as a result of the terrible accidents occurring in the mining industry. The anthracite mines have well referred to as human butcher shops.

The Growing Movement for International Unity of World's Trade Unions

This is the beginning of a series of articles dealing with the activities of World's Trade Unions. Following questions is one of importance at the present time. Following installments will deal with the International Federation of Free Traders, the International Labor Union and the British Workers and International Trade Union Unity.

By TOM BELL (Secretary of the I. W. O. of America.)

THE trade union movement in every country in the world is at the present time in a question being discussed in every country in the world.

The sentiment for unity of the forces of the working class has always been much to the fore in the labor movement. No laborer ever attempted to split a labor union, and no laborer ever attempted to split a labor union, and no laborer ever attempted to split a labor union, and no laborer ever attempted to split a labor union.

The war of 1914-1918 besides murdering millions of workers and crippling millions more, trampled the basis of the capitalist economic system in Europe. At the same time the forces of production of the United States and Japan were enormously expanded owing to the fact that the United States had become the world's largest industrial power.

Workers of America. Rally Against the Danger of New World Wars! UNITE FOR THE DEFENSE OF THE RUSSIAN WORKERS' REPUBLIC!

AMISTICE DAY! The seventh anniversary of the ending of the last imperialist war, again finds the capitalist class in preparation for new wars. Everywhere we find tremendous preparations for armaments, for military and naval armaments, for armaments—preparations for another blood bath for the workers.

Remember the last war. The capitalists led to the workers with the slogan "war for democracy." But the workers got no democracy. They got a world of misery, of suffering, of death, of blood, of tears, of suffering, of death, of blood, of tears, of suffering, of death, of blood, of tears.

LABOR THROGS PARTICIPATE IN NOV. 7 MEETINGS

Chicago Tailors Defy Storm Saturday

Despite the continuous downpour of rain that the day which later turned into a great thaw, thousands of Chicago workers attended the mass meeting which was held at the Chicago Tailors' Union hall in the Temple Hall, Saturday evening, to celebrate the eighth anniversary of the Russian revolution.

FRED MERRICK GOES TO TRIAL ON NOV. 30TH

Bosses Out to Jail Pittsburgh Communists

PITTSBURGH, Pa., Nov. 4.—Fred Merrick, veteran of the labor movement, and his comrades, the Pittsburgh Communist Party, were taken to jail for their part in the trial of the Pittsburgh Communist Party.

The technical charge against Merrick and his comrades was the distribution of leaflets published by the Pittsburgh Communist Party, which were distributed on May Day, 1923. This was charged as a violation of the Pennsylvania laws which prohibit the distribution of leaflets on the state books by the big business interests.

METAL WORKER VOROSHILOV, NEW COMMISSAR OF WAR AND MARINE

MOSCOW, U. S. S. R., Nov. 8.—A metal worker now commands the Red Army and Navy of Soviet Russia. Clement E. Voroshilov, an energetic commander who has great victories in command of the western front during the years of trial has been chosen the successor of Michael V. Frunze, commissar of war, who recently died.

Voroshilov is 45 years old and attained prominence largely in the same way as did General Rudnev, by effective organization of the Big Five. In 1917 he was the first to start in organizing the counter-revolutionary war waged by Denikin with the assistance of the American money and supplies.

ATTEND PURCELL MEETINGS, SAYS CAP UNION HEAD

Badish Issues Appeal to New York Workers

(Special to The Daily Worker.) NEW YORK, Nov. 8.—In an enthusiastic statement issued by M. Budish, secretary of the International Workers' League Union, he says that he will attend the two big Purcell meetings which will be held in New York on November 17 and 18.

The trade union committee which is organizing these meetings has been completely taken up with the work of the great demand for tickets to hear A. A. Purcell, the president of the Central Organ of Houseless Workers.

New War on Soviets. "The workers of the world who have identified the world with the workers of Russia have taken part in the strike against the 'red' and 'passive' Soviets," declared the committee.

'AMALGAMATED' TRIMPHS OVER INTERNATIONAL TAILORING CO. IN CHICAGO AND NEW YORK CITY

After 10 weeks of bitter struggle the strike of the Amalgamated Clothing Workers Union against the International Tailoring Co. in Chicago and New York City has won a complete victory for the union.

The announcement of the end of the strike was made by the International Tailoring Co. in Chicago and New York City, and Green Street, yesterday afternoon where great numbers of members of the Amalgamated had gathered to celebrate their victory.

The terms of settlement were decided on after a three-day conference in the Vanderbilt Hotel in New York City where a committee representing the Amalgamated Clothing Workers' general executive board, with Jacob L. Bais, president of the International Tailoring company.

All members of the United Garment Workers' Union, who have acted the part of strikebreakers, have been fired and no one will be on the job the morning of November 17.

Tried to Leave Town. In Chicago the workers will be working in full force for the first day as the company will have been the machinery which it first to Rock Island and Motin, in the hope of establishing a new strike fund.

The news of the union winning the strike has been returned for a day or so before the strike was called off. A ball settlement had not as yet been reached.

The Hod Carriers' Hall where the meeting was held, was a meeting mass of young strikers, in the hope of establishing a new strike fund.

The subject which Mr. Purcell will discuss is of vital importance to the workers the world over and no one knows this better than Mr. Purcell who stands at the head of the world's largest labor union.

Every worker who is able to attend the meeting should do so. The meeting is arranged by the International Federation of Free Traders.

AGAINST CAPITALIST WARS!

DECLARING that the new international trade unions must be charged had ever benefited the working class, some of the world's leading labor leaders have issued a statement.

The hardest blow to the world's leading labor leaders has been the declaration that the new international trade unions must be charged had ever benefited the working class.

CHICAGO TRADE UNIONISTS GETS ENTHUSIASTIC RESPONSE

Chicago workers assembled in the Wicker Park and North Side Turner halls, enthusiastically greeted Albert A. Purcell, fraternal delegate of the British Trade Union Congress to the American Federation of Labor, who addressed a meeting of over 22,000 trades union workers affiliated with the International Federation of Trade Unions in the struggle against international capitalism.

Both meetings were held under the auspices of a local Purcell Trade Union Commission. The meeting at the Wicker Park movement now on foot to unite the workers of all lands into one international trade union body.

John A. Johnson, of Chicago, who is secretary of the International Workers' Union, acted as chairman of the Wicker Park hall meeting.

Louis Koch, chairman of District No. 6 (Chicago) International Association of Machinists, was chairman at the North Side Turner Hall gathering.

The resolutions approved drew attention from the floor to make the Purcell Trade Union Commission the main body for the promotion of international trade unionism.

Similar committees are being set up in other cities by Purcell.

After a few introductory words, Purcell declared that he had been invited to come to Chicago by the speaker of the evening.

Workers Labor Divided. Purcell began by stating that he was proud of this opportunity to meet with the workers of Chicago in behalf of world trade unionism.

The Versailles treaty, Purcell said, has not only split national geographic groups, but has also split national groups and there has been great dissatisfaction in many centers.

He denounced the campaign of vilification which the capitalist press has entered into against the meeting.

He stressed the campaign of vilification which the capitalist press has entered into against the meeting.

Purcell declared that it was no coincidence that he was invited to come to Chicago to try to bring the Russian workers and the International Federation of Trade Unions together.

After he had shown the need for unity in these nations he dwelt on the Russian Revolution.

Lewis Fails to Reply to the Open Letter Sent Him by the Progressive Miners

By J. LOUIS ENDAHL.

TODAY, President Coolidge, writing his message for the session of congress that convenes next month, declares he will have nothing to say demanding action in the anthracite coal strike situation.

That means that Washington like Wall Street is satisfied with the 'above shop' campaign.

On the one hand the miners' funds are running low. The bitter cold of winter is already here.

The profit party is on the side of the coal barons and helps place the blame for the continuation of the strike on the miners.

That results in demands for the ending of the strike. Time presses against the strikers.

On the other hand: The price of the dwindling anthracite stocks on hand mounts higher.

Since the "Strikebreaker" Coolidge administration is the ally of the mine barons, it therefore joins in the waiting game. It does nothing. All that can be done for the mine owners has been done.

The militancy of the coal miners has been neutralized to some extent by capitalist financiers.

Since the "Strikebreaker" Coolidge administration is the ally of the mine barons, it therefore joins in the waiting game. It does nothing. All that can be done for the mine owners has been done.

There are laws galore upon the statute books that keep the coal miners in submission.

When laws stand in the way of the mine owners' profits, like the anti-union ordinances, they are set aside and made inoperative.
