APPLIANCE COMPANY USES GUNMEN GUARDS FOR SCABS IN STRIKE AT CICERO FACTORY

The strike at the Edison Electric Appliance Company, 52nd and 19th streets, which is conducted by the Sheet Metal Workers' Local No. 116 to force this notorious open shop concern to pay a living wage to the union skill workers, and a number of men are coming out every day and joining the ranks of the strikers.

The company is using all the usual methods of intimidation in order to break the strike, the result of which so far has been to strengthen the solidarity among the strikers who are determined to carry on this fight to the bitter end. Over 50 of the most skilled mechanics are out and only a few spineless weaklings have stabbed their fellow workers in the back and are working under police protection.

AS WE SEE IT BY T. J. O'FLANERY

THE New York Times recently published a lengthy and stupid editorial based on articles by Moscow correspondents which painted a horrible, exaggerated picture of thousands of ill-clad and half-starved workers who inhabit the streets of that city at night. Of course the organs of the CIO also selected this filthy misery to be the basis of their propaganda which is trying to bait the schools, newspapers of Communists. Yet, in recent issues of the Times we see several pages of space devoted to the "1900 model" case in New York and a terrible picture of poverty and destitution in the capitalist countries in the world. This is even more stupid than we think it is. It shows all the American workers are blind to the efforts to strengthen the working class government in Russia.

THE labor movement recognizes in Russia the only way by any means to escape the capitalist trap. It is the only way to escape the economic crisis which is afflicting the short-lived capitalist system. It is the only way to escape the economic crisis which is afflicting the short-lived capitalist system. It is the only way to escape the economic crisis which is afflicting the short-lived capitalist system.

LEONARD WOOD, MILITARY DICTATOR, VETOES PHILIPPINE BUDGET BILL

MANILA, P. I., Dec. 13.—The military dictatorship of Wall Street imperialism, personified in Governor General Leonard Wood, again acted in defiance of the desires of the representative body of the Philippine people by vetoing the bill passed by the recent legislature creating a budget bureau by the insular administration.

While such a measure is hailed as a great forward step in America by Dictator Wood's open republicanism party, in his statement giving his excuse for arbitrarily vetoing the bill, Wood says that it would curtail the existing powers of the general governor (Wood himself) in the insular auditor.

British Navy Watches Turkey

BRITAIN has entered into an agreement with Greece providing for the establishment of formidable naval bases in the Aegean and the Dardanelles. The agreement has been signed by the British and Greek governments. The agreement has been signed by the British and Greek governments. The agreement has been signed by the British and Greek governments.

USE POLICE AGAINST FEELING OF THE ELECTIONS IN THE AMALGAMATED CLOTHING WORKERS' UNION IN CHICAGO

The Elections in the Amalgamated Clothing Workers' Union in Chicago Statement by the Trade Union Educational League Section of the Amalgamated Clothing Workers of America.

MANY vital problems of the rank and file workers are involved in the elections of the Amalgamated Clothing Workers' local unions to be held beginning Tuesday, Dec. 15. The question of who shall occupy the offices for the coming term is important only to the extent of guaranteeing that the correct policies and tactics will be pursued which will bring to the militancy of the union and build it into an ever stronger instrument of struggle for the workers.

pledged to fight for the program of the following measures: 1. Genuine unemployment insurance. 2. Freedom of the unorganized. 3. Organization of minority expression and reinstatement of members expelled for holding such views. 4. Amalgamation of all needle trades unions. 5. Foreign delinquency system. 6. A labor party based upon trade unions. 7. International trade union unity. 8. Against wage cuts in form of readjustments or otherwise. 9. Against expulsion of members holding opposition views. 10. Against slugging and terrorist tactics.

L. G. W. CONVENTION DELEGATES DRIVEN FROM HALL AS THISERS ARE BEATEN UP AND ARRESTED

PHILADELPHIA, Pa., Dec. 13.—Police drove the visitors to the International Ladies' Garment Workers' hall Saturday before the afternoon session began. A number of visitors were arrested and some subjected to a beating, wielded by Smalley Butler's bluecoats. The use of police has been hinted at by Sigman in the morning session when he threatened the use of "special officers" to exclude visitors.

The forcible clearing of the hall by a charge of police men meted out the machine to the workers. The part of the machine which was most exposed at this convention, that it was part of a deliberate scheme to provoke a split and thus blame the left wing for the disruption can hardly be doubted by anyone not allied with the Sigmanites.

A. C. W. CALLS AN ELECTION FOR CHICAGO Nathan Green Running Against Sam Levin

The Chicago joint board of the Amalgamated Clothing Workers has announced for the annual election of officers and delegates to the convention. These will be held for three successive years on Wednesday, Dec. 16, and Thursday, Dec. 17, 1926.

The officers to be elected include the general manager of the Joint Board, the secretary, the treasurer, the business agent at large and two representatives of the rank and file. The election will be held on Wednesday, Dec. 16, and Thursday, Dec. 17, 1926.

THE COOLIDGE METHOD

Mathew Green is wholly supported by the left wing because he respects its policies and is pledged to fight for the program of the following measures: 1. Genuine unemployment insurance. 2. Freedom of the unorganized. 3. Organization of minority expression and reinstatement of members expelled for holding such views.

PEKING TEACHERS CALL ON WORKERS FOR ASSISTANCE

MOSCOW, U. S. S. R. (By Mail)—The working youth delegation consisting of 13 Germans and two Belgians, the Soviet and the American workers' delegations, representatives of the German and French workers' leagues and representatives of the teachers' union in Peking, who took place in Moscow, took part in the celebrations on the occasion of the eighth anniversary of the October Revolution, (November 7). The delegation consisted of the following: revolutionary Canton government and the Communist Party with General Chang Shin at the head took part in the special celebration of the Moscow Soviet and the Moscow Trade Union Council together with delegates from the German and French workers' leagues and from the present in the country.

NO LEGAL LABOR DELEGATION PLEDGES RUSSIAN WORKERS TO TRADE UNION UNITY

MOSCOW, U. S. R. (By Mail)—The Norwegian workers' delegation which is the Union of Socialist Workers Republics and is now leaving for Norway, in a declaration issued just before they left the Soviet Union pledge themselves to work in harmony with the Anglo-Russian committee to bring about world trade union unity.

In the declaration they point out the trade unions of Russia are the most democratic in the world and that they have a deciding voice in the management of the affairs of the government.

Received Full Cooperation.—The Norwegian workers' delegation consisting of 13 delegates were sent on a special political mission to the Norwegian working class movement elected on the basis of the decision of the Norwegian Trade Union Congress, wishes to express its hearty thanks for the fraternal hospitality which it has received. We delegates visited many towns and districts, saw various factories and industrial plants, workers' clubs, schools, hospitals and sanatoria. We have had numerous discussions with union officials and Soviet representatives, these treated us as friends and comrades and gave us every possible assistance in visiting the institutions by us; they also gave us all possible information upon the working conditions and upon the construction of their organizations.

The Norwegian delegation has received the following conclusions from its visit in the Soviet Union: "1. All organs of the Soviet power are working in harmony together with the trade unions, political and cooperative organizations of the working class in the building up of the economic power which was destroyed by the civil war and the process of reconstruction is developing rapidly and with the utmost energy in all corners. We have seen that the workers whom we met without exception display interest in the reconstruction of industry and that we met all their friends and comrades. In this connection the standard of life in the working class is rising.

Trade Unions Greatly Expanded.—The Russian working class and peasantry have carried out the tremendous task of taking the power into their own hands. They have successfully maintained this power against all the enemies of the Soviet Union. "We have seen that the last task, that of building up a socialist society, has been brought possibly nearer to its solution. This work has been recently begun, but already production is increasing, and sports and amusements are being carried on systematically and everywhere there is a firm determination to create order and regulate it in the economic and social life. "As regards the capitalist countries, finance and industrial capital is all-powerful and controls the economic and political life of the world. In the Soviet Union, workers and peasants are at the helm and are carrying out the heroic work for the improvement of the condition of the working class. They have seen definite work in the raising of the standard of production. New machines are being installed, new factories being built, the process

CHRIST OR MAHOMET AN EXCUSE OF GOING WAR OVER MUSLIM OIL WELLS

GENEVA, Dec. 13.—Strucous efforts at mediation in the Mosul dispute are in progress. The British, French, British, Turkish foreign ministers are working to bring about a settlement. The British government has offered to leave for Ankara, has decided to send a special mission to Ankara to keep in touch with mediation efforts.

The Turkish delegation has been in touch with the British delegation and there has been an exchange of views on the possibility of the Turkish government's taking over the control of the Mosul oil fields. If no agreement is reached there will be a possibility of a civil war. England will propagandize the western world as to the motives of the "heathen" Turks are abusing China.

To Build Own Tractors.—During the coming year we expect to import 15,000 tractors and produce 2,000 in our own factories. Eventually we hope that the tractors will be replaced by tractors made in huge factories by workers instead of by capitalists.

In discussing why the Soviet will speed 125,000 tractors the red army and navy during the coming year, he declares: "Conspiracies to Blame.—We were not surprised by an attempt to prevent the Soviet Union from not try to interfere in our life. We are not holding sessions in Europe, then we might use this \$200,000,000 of credit for the purchase of tractors. But even with this handicap we are producing more tractors than any other country in the world.

From the twentythree trade union delegates who are working in the oil fields of the Mosul, the work of the All-Russian Trade Union Council which is carried on through the Anglo-Russian Unity Commission.

From Sweden.—The Swedish Labor Delegation to Soviet Russia.
