Workers Will Celebrate 20th Anniversary of 1905 Revolution and Decembrist Uprising Sunday

On Sunday, Dec. 20, the 20th anniversary of the 1905 Russian revolution and the 100th anniversary of the Decembrist uprising will be celebrated in a number of the larger cities of this country.

In New York the workers will celebrate these two memorable events at the Central and 3rd Avenue Y. The speaker will be James G. Thompson, recently released from Sing Sing, will speak Sunday afternoon.

In Chicago there will be a celebration at the Schoenhoffen Hall, corner Milwaukee and Broadway. J. Louis Engdahl, editor of THE DAILY WORKER, will be one of the speakers.

THE DAILY WORKER issue for Saturday will contain many special and interesting articles commemorating the anniversary of the 1905 Russian revolution and the Decembrist revolt.

The World Court Fight Is On

(Continued from page 1). floor continuously until disposed of—and few believe that it can be disposed of before March.

Surface indications point to a vote at the end of these weeks of oratory that will put the United States into the court on such terms as will emphasize non-adherence to the parent league of nations.

Undaunted by the seeming odds against it, the league of nations is now in a "Batallion of Death" of league days will follow it savagely. The opposition is now in a "Batallion of Death" of league days will follow it savagely.

While conceding that if the vote were this week there would be defeat, it is nevertheless contended that in the weeks of debate ahead sufficient votes to accomplish the league's purpose can be secured.

The opening of the fight was accomplished by demonstrations in Washington which have been followed by similar demonstrations in other parts of the country.

While exerting every ounce of energy toward the achievement of its purpose, it is hoped to adjust the dispute in a peaceful manner.

It is this that the capitalist statesmen do not like; that the Soviet Union should have separate dealings with them, exploiting their differences for its own purpose.

AS WE SEE IT

(Continued from page 1). and instead of recognizing a union he hired a good press agent and transformed himself into a new figure Henry Ford is business man to large proportions. He was making money, but rumor has it that he is ill.

QUDDENLY, Nash saw the light. He is a man who has been responsible for the unpleasantness that open shop golden rules sometimes have to undergo turned out to be a different kind of girl. The end of the picture finds Nash asking his employees to join the Amalgamated Clothing Workers and Hillman telling the same body of workers that the Amalgamated Clothing Workers had the opportunity to cooperate with Nash. Sidney makes it quite clear that Hillman's offer to join the Amalgamated Clothing Workers would be a different kind of girl.

HILLMAN'S speech to Nash's employees is given in full in the current issue of THE DAILY WORKER. It is a speech which is well worth reading. It is a speech which is well worth reading. It is a speech which is well worth reading.

THE Advance boasts that the unionization of the thousands of workers of the garment industry has been accomplished because it was achieved without an industrial conflict. And it is a fact that the unionization of the garment industry has been accomplished because it was achieved without an industrial conflict.

American Labor Learns that the United States Is a Militarist Nation

By J. LOUIS ENGDAHL

TODAY, great interest centers in new attempts at world disarmament. The official invitations to join an armaments conference under the auspices of the league of nations are received by the Soviet government in Moscow, and by President Coolidge for the United States government at Washington.

In announcing its receipt of the league's request that it participate in the proposed gathering, the Soviet government will, no doubt, take occasion to definitely state its position on this question.

Ever since the Bolshevik revolution showed that it was more powerful than all its capitalist foes, Soviet rule has demanded disarmament. George Chicherin, Soviet Minister of Foreign Affairs, who is now in Paris, points out that last year the Soviet Union was willing to enter any conference discussing disarmament problems, and had agreed to the Benes (Czecho-Slovakia) plan for a compact of mutual security.

Chicherin seizes upon this occasion to again restate the Soviet attitude toward the league of nations and the Locarno conference. The nations that talk disarmament are all awaiting the Soviet government's charges against it to a compact for aggression against the Soviet state.

The profit press hails any participation by the Soviet Union in any disarmament conference that may be held as a step close to the league of nations. Chicherin blasts the profit press for its attitude toward the league of nations.

It is this that the capitalist statesmen do not like; that the Soviet Union should have separate dealings with them, exploiting their differences for its own purpose.

EUROPEAN LABOR SWINGS TO LEFT IN ELECTIONS

Communists Make Big Advances

By LEN DE CAUX. BERLIN.—(FP)—A general swing to the left through Europe is seen as the result of recent elections in Great Britain, Germany, Latvia, Lithuania, Belgium and Czechoslovakia. Not only have the workingmen's parties in these countries made big gains, but the Communist parties in particular have made the most remarkable strides.

Communist Poll Million Votes. In Czechoslovakia the Communist Party polled close to a million votes and proved the second strongest party for the momentary party, according to estimates, for the returns are not complete, increasing its percentage of the vote from 27 to 42 at the time of writing. In Berlin municipal elections the Communist party received 25 per cent of the vote, and now have 41 representatives instead of 29 in Latvia, where the Communist party is illegal and could not put up any candidates, the left Social Democrats made the biggest gains, increasing the list with 32 members out of a house of 109.

In Great Britain the November municipal elections, the list with 32 members out of a house of 109. In Great Britain the November municipal elections, the list with 32 members out of a house of 109.

The Social Democrats in Germany increased their strength in the municipalities of the Reichstag, but were outdistanced by the working-class parties. According to latest figures, the Social Democrats received 25 per cent of the vote in the parliamentary elections in Czechoslovakia, however, the Social Democrats received 25 to 29 members and the German Social Democrats 29.

Communist Gains. In the Belgian municipal elections the Communist party received 25 per cent of the vote, and now have 41 representatives instead of 29 in Latvia, where the Communist party is illegal and could not put up any candidates, the left Social Democrats made the biggest gains, increasing the list with 32 members out of a house of 109.

Cuban Rulers Are Out to Crush the Organized Workers

(Continued from page 1). on the part of the Cuban government has placed him, instead, protest is necessary.

All workers are urged to attend next Sunday's mass meeting at North Beach, the right party has been organized under the joint auspices of the United States section of the A. F. of M. and the United States League and International Labor Defense. The meeting is set for 7:30 p. m. Although the date has been changed, all demonstrators should arrive on time. The meeting will be held at North Beach, the right party has been organized under the joint auspices of the United States section of the A. F. of M. and the United States League and International Labor Defense.

Attack Labor Unions. The Communist Party has organized a campaign in Cuba. Labor unions throughout the island are being attacked by the Cuban government. The National University is threatened with being closed down because the students support the cause of workers and denounce the subservience of the government to American imperialism.

Anti-imperialist protest meetings similar to the one in Chicago, held by the Communist Party, will be held in other cities of the United States. How Kautsky, secretary of International Labor Defense, has organized branches of the organization to cooperate with the A. F. of M. and the United States League and International Labor Defense.

It will help to give our own brother a job by THE DAILY WORKER.

The Y. M. C. A. is a club for good boys who want to have fun.

But you will learn something else about it in the Magazine Supplement of THE DAILY WORKER this Saturday from the pen of HARRY GANNES.

World Court Paves the Way for War

Events now inspiring Europe clearly reveal the predatory character of the league of nations and the world court as interrelated instruments of imperialism. Turkey has severed diplomatic relations with the kingdom of Iraq as a result of the award of Mosul to Iraq by the league of nations. Britain holds the mandate over Iraq, hence is bound to defend the territory. The severing of diplomatic relations by Iraq is tantamount to a declaration of war against Great Britain.

Britain has been trying for years to smash the power of Turkey in order to obtain control of all that territory formerly part of the Ottoman empire that lies between the Mediterranean and India. The world struggle for Mosul furnished another incentive for conflict with Turkey. The steps toward this new thrust of world war are clearly defined. After the war Britain obtained a four year mandate over Iraq and claimed that Mosul, said to be rich in oil, was a part of the mandated area. The Turks have never recognized this claim. Now that the world court has ruled in favor of Britain, Turkey is expected to extend it for 25 years provided it includes Mosul. In an effort to obtain a semblance of legal sanction for its pillaging of Mosul, Britain referred the matter to the council of the league of nations. Turkey challenged the right of the league to fix its boundaries. Therefore Britain took the case to the world court for a decision as to whether or not she had the right to determine the boundaries of the mandated territory. Britain was playing safe for at the sixth assembly of the league she gained control of it. The world court is not a body that stands above the league, but it is a creature of the league. Its judges are paid out of the league treasury and they do the bidding of the league at all times. As was to be expected the decision was that the league had the authority to fix the disputed boundaries. Turkey announced that she would not recognize any decision of the league that gave Mosul to England.

The decision of the league in favor of Britain was accompanied by the usual financial savings. The first decisive step toward Iraq is already taken. Britain will maneuver for a few days, or possibly weeks, while concluding its preparations for war, then conducting intrigues in Europe and Asia in an effort to align as many powers as possible against Turkey.

This situation is instructive for Communists and the working class in general as it throws into relief the nature of the world court and other devices for creating alliances under the pretext of guaranteeing peace are in reality but preparations for new wars.

Lenin, in his keen analysis of imperialism, revealed the nature of such institutions as the league of nations and the world court. "Peace alliances prepare wars and in turn grow out of war, mutually conditioning themselves upon each other, and producing the change from peaceful struggle to armed struggle and vice versa."

The Union Wreckers

Reactionary labor officials always strive to break the unions which they are supposed to defend. They want them to fall into the hands of the left wing. Communists have long known that before the trade unions are won they will be weakened and brought to the verge of ruin by the reactionaries. Knowing the enemy's purpose we are able more effectively to combat it. Wednesday's performance of the Sigman machine at the convention of the International Ladies' Garment Workers' Union in Philadelphia again vindicates our position.

In a desperate effort to eliminate the left wing, after his array of paper delegates and his fake majority had been exposed, Sigman begged about a condition verging upon a split. But the same determination to obliterate the left that characterized the long fight of the three big locals in New York again characterized this consummation.

Socialist Follows Bankers

Mr. Victor L. Berger, socialist congressman from Milwaukee, introduced a joint resolution in favor of recognition of Russia, following the Borchgrevink resolution. Victor says that since the bankers and business men favor recognition, it must be evidence that the Soviet government is here to stay, at least for a considerable time. The socialist leaders in the old world, Victor Berger, who strives to carry out their policies here, follow the lead of the bankers. The fact that workers have long ago demanded Soviet recognition did not seem to impress Victor as long as the bankers.

This month of November seems to show a slight recession in production and a grade as a whole, from the month of October. In comparison to November of last year, however, it continues the upward tendency of production which has been maintained during 1925. Profits continued to be announced in unprecedented numbers, and the production of iron and steel is expected to continue upward in the next few months.

Month	Production	Per cent of 1924
November, 1925	124,846 tons	100%
November, 1924	144,196 tons	115.4%

The American Iron and Steel Institute reports production of steel in tons for November 125,424 as against 136,735 tons, compared with October 127,345 tons, and November, 1924 125,424 tons, and October, 1924 125,424 tons, 121.19 tons. In daily average production, with percentage of change, this gives the following comparison:

Month	Production	Per cent of 1924
November, 1925	4,252.92	100%
November, 1924	3,500.28	82.3%

Production of iron and steel in November, 1925, was 124,846 tons, compared with 144,196 tons in November, 1924, and 125,424 tons in October, 1925. In daily average production, with percentage of change, this gives the following comparison:

Month	Production	Per cent of 1924
November, 1925	4,252.92	100%
November, 1924	3,500.28	82.3%

Production of iron and steel in November, 1925, was 124,846 tons, compared with 144,196 tons in November, 1924, and 125,424 tons in October, 1925. In daily average production, with percentage of change, this gives the following comparison:

Month	Production	Per cent of 1924
November, 1925	4,252.92	100%
November, 1924	3,500.28	82.3%

Production of iron and steel in November, 1925, was 124,846 tons, compared with 144,196 tons in November, 1924, and 125,424 tons in October, 1925. In daily average production, with percentage of change, this gives the following comparison:

Month	Production	Per cent of 1924
November, 1925	4,252.92	100%
November, 1924	3,500.28	82.3%

Production of iron and steel in November, 1925, was 124,846 tons, compared with 144,196 tons in November, 1924, and 125,424 tons in October, 1925. In daily average production, with percentage of change, this gives the following comparison:

Month	Production	Per cent of 1924

Month	Production	Per cent of 1924
November, 1925	4,252.92	100%
November, 1924	3,500.28	82.3%

Production of iron and steel in November, 1925, was 124,846 tons, compared with 144,196 tons in November, 1924, and 125,424 tons in October, 1925. In daily average production, with percentage of change, this gives the following comparison:

October 1925 1924
Exports \$376,000,000 \$310,751,608
Imports 492,200,000 527,171,163
Total 868,200,000 \$837,923,339
First 10 Mo. of 1925 1924
Total \$1,644,644,039 \$1,930,022,222
Exports 2,045,127,227 2,351,022,227
Imports 1,400,000,000 1,400,000,000
Total \$1,444,812,726 \$1,432,226,026
Exports 2,045,127,227 2,351,022,227
Imports 1,400,000,000 1,400,000,000
Total \$1,444,812,726 \$1,432,226,026

Construction from now on will not proceed for meeting a war shortage, but will be a more normal development resulting from the growing needs and the growing prosperity of the country.

In our opinion the evidence supports the claim that there is a wide margin of speculation in present building; this speculative activity cannot long continue to hinder general conditions, but must itself find support in more solid advances in other industries before it can be sustained.

The State of Trade. Distribution of commodities, as shown in the present labor report of the Commerce Department, reflects the general advance of production in America. The factors working toward a decline in the present labor report of expansion.

Foreign Trade and Investment. From September to October, the deficit trade is registered in the figures for October 1925 in this month's report. The figures for October and for the first ten months are:

Changes in wage rates that are taking place are quite generally downward. In spite of the increase of production and the smaller increase of employment, the material necessary to army is more and more being brought to play for wage-cutting campaigns.

Total weekly earnings show a slight increase due to more fulltime operation, lengthening of hours, and overtime. Thus the Massachusetts Department of Labor, Bulletin No. 20, reports average weekly earnings for September as \$21.14, while for October the figure is \$24.59.

November weekly earnings in Illinois industries (Bulletin of Department of Labor, Dec. 9) averaged \$28.66. This is higher than at any time for the past three years, but does not indicate higher wage rates, but longer hours of employment. The increase in number employed was only seven-tenths of one percent, which leaves thousands of workers unemployed. The state employment bureau reports 126 applicants for each 100 vacancies.

While production has been expanding at a high abnormal rate, the employment of labor has not followed the same course. The increased production has been accomplished by a intensification of labor. This fact is shown by the following figures, which show the index for employment based on 1923 while that of production is based on 1913 (therefore the absolute figures are not comparable) yet the degree of change shown by the two sets of figures are valid for comparison. The figures are:

Month	Production	Sept. Oct.
1925	122 125 122	122 122
1924	122 125 122	122 122

The Red Versus the Black Agrarian International

THE Red versus the Black Agrarian International. The struggle between the two international organizations in every country. The Red Agrarian International, as well as industrial workers, are all in the same line against their oppression. The article is a plea for the Red Agrarian International to create agricultural groups in the parliaments, uniting the representatives of agricultural and kindred interests in every country. The article shows the way. The concluding statement follows:

WHEREVER mass agricultural organizations exist it is necessary to start a campaign for their affiliation to the Red Agrarian International. While the landlords, with the aid of industrial and financial capital and also of the state, are setting into motion the agricultural cooperative organizations, we cannot afford to remain idle. It will be our business to create the Red Agrarian International, to form in them groups and to carry on the extension of the influence of the Red Agrarian International. The article shows the way. The concluding statement follows:

WHILE the peasant organizations and kindred associations exist we must create them and get them to join immediately the Red Agrarian International. The article shows the way. The concluding statement follows:

ANSWER COOLIDGE!

Distribute the Party Manifesto Outlining the Workers' Program Against Coolidge's Capitalist Program.

THE party has printed in an attractive four-page leaflet the manifesto of the Central Executive Committee analyzing President Coolidge's message from the workers' standpoint. This leaflet should be distributed in millions of copies among the workers and selected farmers of the country. Every unit of the Workers' Party should immediately order a supply of these leaflets and distribute them in the trade unions and other workers' organizations.

USE THIS ORDER BLANK
Workers' Party of America,
1113 W. Washington Blvd.,
Chicago, Illinois.
Dear Comrades: Enclosed you will find \$_____ for which please send _____ copies of the manifesto of the Central Executive Committee on the Workers' Party entitled "Coolidge's Challenge to Labor."
