Efforts are being made by Maj .-General Smith to have the stockade at Schofield Barracks reopened and prisoners sent there instead of to the mainland. To the soldiers in Hawaii, the Schofield stockade is a synenum of hell. Before it was closed, a few years ago, the brutalities perpetrated within its grim walls could be equaled only by going back to the days of the Inquisition

The cruefty of Capt. Hall, the prison officer, would have put Nero to shame. Hall felt secure as he had the support of Gen. Kuhn, then commanding the Hawaiian division. Prisoners were forced to work long hours at the rock pile, using a heavy hammer with a nocked handle so as to cut the hands. They were marched to and from work at double time, forced to stand at attention from supper until bed time, and to get up at four o'clock in the morning.

When a prisoner fainted at work, a bucket of cold water was thrown in his face and when he regained consciousness he had to pick up the heavy hammer and continue with his labor. For those driven to desperation who refused to work under such cruel conditions, a much worse fate was in store. They were sprayed with formaldehyde. One man died as a result of burns from it. Three others lost their sight.

After these conditions had existed for a long time, details reached the war department. This was too much for those accustomed to the milder form of military autocracy found on the mainland. An investigation was held and the stockade closed.

The only punishment for Kuhn was a transfer and a slight reduction in rank. Capt. Hall is said to have been killed by one of his former victims after his return to the mainland.

Rewarded For Murders I believe that a commander in the Red Army guilty of such crimes as those sanctioned by Gen. Kuhn could hope for nothing better than life imprisonment. But an army under the

"I move that the delegates to the Chicago Federation of Labor be instructed to request the Chicago Federation of Labor to condemn the action of the United Garment Workers in scabbing on the Amalgamated Clothing Workers who are on strike."

Reports state that the Federation passed the resolution as a reply to the formal complaint sent Fitzpatrick by cago on July 1st.

Saturday was a busy day, as usual, for the pickets and for their enemies the scabs, tho the latter were so few that great rivalry developed among the strikers to see who could get at a

Scab Missed Teeth

Somewhere between her scabby home and her scabby job, a scab lost her teeth Saturday morning, and altho accompanied by a few cops and a private slugger she rode around the block in an auto for an hour or so, looking for two girl strikers she that might have found her teeth. She was unsuccessful, and so drove off to get some new ones from the dentists.

The St. Louis strikers are taking part in the picketing, singing some songs they cooked up in that city and wearing their buttons "Curlee-We Are Out to Win!" Their enthusiasm was good but not altogether necessary, since the Chicago strikers don't need any inspiration or prodding. Their spirit is high and full of fight and they expect the Amalgamated union to win by their solidarity. The union has reported arrangement for financial re-

Picketing was carried on Saturday until 2 p. m., then only a small committee was left to make sure that if there were any scabs left to sneak out, there would be someone left to welcome them. There was some doubt expressed if there were any scabs left. Five pickets were arrested Saturday, among them Mary Despensa and Dom inick Convers.

Japanese "Big Biz" Well NO WAGE RAISE Schooled in Bandit Lore AND NO STRIKE, of World Imperialism SAID COMMISSION

By J. LOUIS ENGDAHL.

TODAY, the Japanese pour out their grievances against American capitalism thru the medium of the Institute of Pacific Relations ending its meeting at Honolulu, Hawaii. The delegation at the institute for all purposes is official in its character and is in constant touch with the government at Tokio. It is the only delegation that occupies this position.

The Japs want it understood that they are not so much troubled by the exclusion act passed by congress a year ago. They claim this is not the real issue that is fomenting strife between the two countries.

The actual stake is the place of capitalist Japan among the other great capitalist nations, notably the United States, "whatever the Japanese nation stands on an equal footing with western powers or is to be denied fellowship and driven back upon a purely oriental policy and theater of operation," in the words of Yusuke Tsurumi, semi-official spokesman

Tokio has ambitions for world empire and world domination, just as much as Washington. The Japs at the Honolulu conference urge a gentlemen's agreement for the plundering of the world, declaring that if this is not granted the Japs, it will give strength to a new party rising in Nippon that will resort to the sword to win its rightful place in the sun, as it believes.

The Japs give thanks to the United States for having opened it to capitalist "civilization" eighty years ago, in 1846, and not only introducing steam engines, telephones, parliamentarism and laboratories, but also armaments. After three centuries of peace, the Japs now boast of having won three international wars during the last half century, giving her, as she feels, not only supremacy in the Orient, but also the right to a big place in world capitalist councils. Here, for instance, is one of the questions that the Japanese are

"What is the moral difference between the policy of America's extending her dominion over the Caribbean, protecting her capitalists and Latin-American investments, and the policy of Japan in widening her sphere of empire in Asia and supporting her capitalists in their forward-looking enterprises?"

It seems that the Japanese plutocracy has learned too well. It realizes to the full and admits what the "democratic" statesmen of the United States try to hide, that the capitalist state is but an instrument in the hands of the imperialist oppressors.

The Japs feel that they have a primary right to the Orient as their sphere of influence, believing that the United States should confine itself to its own western hemisphere. But when the American fleet left Chinese waters and sailed down into Manila Bay, in 1898, and won the first battle of the Spanish-American War, not in West Indian waters, but in the far-off Philippines, the war clouds sailing the stars and stripes began to loom on Japan's horizon. And they have been coming closer ever since.

The pacifists gathered in the Honolulu talkfest were bluntly told that "there is a large and powerful party in Japan that confidently expects the United States to challenge Japan's economic advance on the mainland of Asia as a hostile move," and that means war.

There is only one power in the United States and Japan that can halt the inevitable slaughter, and that is the joint power of the workers and poor farmers of these two countries. Against the imperialist rivalries of both countries there must rise the irresistible solidarity of the toiling masses of both countries, rising in both countries to displace the contending capitalist dictatorships with their own co-operating Proletarian Dictatorships. There is room for but one flag in the Pacific, as in all the other oceans over the earth. That is the Red Flag of Communism.

2.—The operators asserted that if wages were advanced the cost of coal would go up; that the public is "tired of high coal prices" and want the price to go down; that they "are so poor they can't afford to pay the hard coal miners more money because of the competition the anthrafacturers of oils, coke and electric-

JAPANESE IMPERIALIST DIPLOMAT HANDS OUT HOKUM TO STUDENTS; KOREA AND CHINA HIS SUBJECTS

(By Student Correspondent)

"Our policy toward China is one of strict non-interference. We are conerned to protect our rights and interests in China, but in common with the ther powers we wish to extend every aid to uplift and regenerate not only the Chinese, but also the Koreans. It is doubtful whether the annexation of Korea was good for the Japanese, but it was certainly the best thing for the Koreans. Thru our benevolent rule we guarantee them security of life and

With such hypocritical twaddle about the altruism and benevolence of Japanese imperialism toward her weaker neighbors, Count Soyeshima dealt with his subject, "Japan's Policy in the Far East" in a lecture delivered delivered under the auspices of the + Harris Memorial Foundation at the

University of Chicago, July 9. Just a Past Mistake

When charged in the questions, after the lecture, to explain Japan's lending of money and supplying of arms to two different factions of the Chinese, and to justify the massacring and devastating of the Koreans to put down their rebellion, his most benevolent highness could only plead that these were mistakes of the past.

Never again would Japan act toward China or Korea in any but the most kindly and disinterested attitude of helpfulness. Yet he admitted that Japan's interests in China must be protected, and there is only one way to protect imperialistic interests in an unwilling country; Japan has in the past, and will undoubtedly in the future take that way-which is the way called duress, and means force, bombardment, killing.

Should Be Grateful to Oppressors

The count is of the opinion, too, that the Koreans, far from resenting their bloody annexation by the Japanese, should feel the deepest gratitude, because think of the horrible fate which would have befallen them if Czarist Russia instead of Japan had annexed them, and they had been inherited by the Union of Socialist Soviet Repub-

The count did not explain just what was so undesirable about the position of autonomous republics enjoyed by the Kurds, Kirgiz, Azerbaidjans, and many other Asiatic peoples, under which status the Koreans, too, might now be thriving.

"Of Course" We Don't Know! When called thru a question to give some proof of his bland assumption that Japan in keeping Korea out of the Soviet Union had saved them from some horrible fate, the glib nobleman matched his ridicolous idealization of Japan's foreign policy with an equally crude and even more false representa-

tion of the iniquity of the Communist regime in Russia

His statements that "of course you all know that the government of Rusare starving, and that they are living under the worst tyranny the world has ever known" was accepted only by those persons in the audience who. expressing admiration for the count's wonderful "fairness," rode rapidly away in their limousines. The students, who were in the large majority quite evidently knew better.

NEW YORK, July 12 .- The decision of the appellate division, that the amendment under which the home rule act and other statutes were passed is illegal, will cost Mayor Hylan, if it stands, not only his busses but many other of his pet projects which were written into law by virtue of

the amendment. One of the laws passed was the notorious taxi police law, which gave to Police Commissioner Enright, the power to control the taxicab industry in this city. This law was passed, altho all the taxicab drivers had held meetings and protested against the passage of the law.

Obrien charged that if the law was passed that the open shop Yellow Taxi Corporation would be the sole beneficiary of the new law and offered to show proof that the police department had been showering the yellows with all kinds of favors in the past and that if the law was passed the independent taxi cab drivers would be discriminated against.

As to the "political mind," a little patience and the devil take it. The whole question is to understand what the enemy will do since we cannot go to him. Possibly, he may continue to attack us, now at one point, now at another; this would be perpetual warfare. Or, we might be able to meet him on his own ground by an agreement with the other powers, and that would be a tremendous undertaking. Marshal Entirely Agrees With Gov't.

Don't let the people in Paris ask the Marshal to do what Primo de Rivera announced he was going to do, for we might say, is something, in the interest of our relations with Spain, and be placed on that we should forget. Keep me informed that we should forget.

You have the material for it in this letter, in the article by Vincent (the Illustration of the 16th), and in a "cartridge-box" chat with Seguy or Vincent. TO SETTLE IN RUSSIA

1. The Fight for Release of Class ? War Prisoners.

THE fight for the release of the I imprisoned fighters for the cause of labor is one of the most important problems on the agenda of the Allies Get Millions from Germany. American Labor movement. Every worker in prison for the "crime" of many has already paid the allies loyalty to his class represents a victory for the capitalist exploiters and an injury to the workers. The continued confinement of so large a number of the most conscious elements of the working class without any real protest against it, is of itself a sign of weakness in the labor movement. The indifference and neglect which characterizes too large a section of the labor movement in regard to this burning question is a great danger to the movement as a whole. It encourages the exploiters of labor and their subverted "legal" and "illegal" agencies of persecution to go ever farther with their methods of terror, while, at the same time, it weakens the morale of the workers.

It must be recorded, to the shame of the labor movement that Mooney and Billings, victims of the most atrocious frame-up in all labor history, still languish in prison. "Better America" Order Declines Apace

LOS ANGELES, July 12.-The year ended June 30, 1925, showed a marked ter America Federation, which has its headquarters in Los Angeles and advertises that "it operates in 38 states." Figures indicate a decline of 41 per cent as compared with the preceding

Because of the unfavorable showing, the organization is frantically seeking funds. It is carrying on frenzied advertising, urging on prospective subscribers the need of contributweekly "news letters" almost concede the speedy overthrow of the government by the Reds.

The \$5,000 in prizes recently given to boy orators by the federation for lauding the constitution brought in many times the amount in free advertising through the Los Angeles dailies but did not bring in subscriptions to correspond. Heads of the organization act as the they feel that they have yet to get their money's worth out of the \$5,000 given away.

Causes of the Falling Off. If the coming year goes like the past, the federation will have cause to lament the building slump of 1924, the expansion of the ku klux klan in southern California and the election of Coolidge. These three events caused the trouble. The building depression closed the purses of many subscribers. H. E. Haldeman, son of Harry M. Haldeman, head of the federation, took charge of the K. K. in Los Angeles county and increased klan membership at the cost of the rival order. When Coolidge, supported by the B. A. F., was elected by a prodigious majority, many subscribrs reasoned that all danger of radicalism was over and that there was no use contributing any more to the federation.

The worst blow was the expansion of the K. K. K. This took thousands of \$1, \$2, and \$5 a month subscribers away. It also established the identity of the B. A. F. and K. K. K. as Siamese twin vipers. With Father Halde man as head of the former and Son in the ranks of labor that won for Haldeman of the latter, the two orthem frame-ups and perversions of ders tooked like one family affair. How About Language Papers?

The American Communist movement is a balanced one. It is equipped to the needs of the American workers-among which are foreign speaking elements of many languages.

Communist equipment, Communist tools for building are at hand. The DAILY WORKER, official organ of the Workers (Communist) Party is not the only one. Many others exist, good Communist dallies, weeklies and monthlies in many languages. All these are fighting the workers battles, all are good Communist tools for Communist Builders to use for reaching the foreign born workers.

The DAILY WORKER has repeatedly brought this fact to the attention of Communist Builders: thru special sub blanks, thru the "Tool Box" (of which over thirty thousand were distrbiuted) thru the present catalogue of good books for workers "From The Source of All Communist Literature", thru repeated references in the DAILY WORKER, and by word of mouth thru every organizer ever sent out by the DAILY WORKER-not to mention thru the machinery of DAILY WORKER agents thruout the country.

And yet this is not enough. Never can too much be said for the language press of the Communist movement whenever the DAILY WORKER is spoken about.

Send for the List!

If you haven't a catalogue-or a list of the Communist foreign language papers (and sub prices!) send in to the DAILY WORKER for it at once. A special list and the catalogue in which this list also appears will be sent to you without charge.

A generation ago the banks lent growers \$200 on the \$400-acres security. Interest at 6 per cent amounted to \$12 per year. With oranges selling at \$1.20 per box, it took 10 boxes to pay fhe interest. Producing 250 boxes to the acre, growers advanced their prices to \$1.25 per box. The burden was simply passed on to the

Life insurance became interested. Growers were convinced that they should carry enough insurance to cover mortgages so that in event of their deaths their families could save the groves. They paid \$8 per year to cover the \$200 insurance. Again they raised the price of oranges and passed the burden on to the consumers. With the price of the product raised \$25 per acre, for the benefit of banks and insurance companies, it naturally followed that the growers valued the land to correspond, increasing the price \$250 per acre. This suited banks as it gave them a larger margin of safety on loans.

On the \$650 valuation operations were repeated. Banks lent \$325 on the acre at \$20 a year interest. Insurers issued policies at \$14 per year. Growers raised prices 15 cents a box creased \$34 per acre per annum the land value was inflated \$340, to \$990 per acre.

Only three more operations were necessary to bring the land values up to \$3,500 an acre, \$500 short of where they are now said to be.

A few years ago banks charged growers 8, 10 and 12 per cent interest, clinching their control of the orange industry. Their interest rate at B. A. F. spent from \$150,000 to \$150.
