Stand Against Impending Disaster FRENCH BANKS Poincare Cabinet in Desperate Last

The new cabinet selected by Raymond Poincare, leading spokesman o French imperialists and chauvinists, combines all wings of the capitalist parties in France and comes to power as a last resort against the falling franc which threatens to bring down in its train the whole superstructure of French capitalist economy. The workers will find the administration of Poincare's government one that may attempt with the connivance of American finance capital, to impose a Dawes plan on France. The visit of Morgan and Mellon A CCORDING to Russell Scott, who of \$1.00, expected to bring in \$12,000 to Europe lends color to this possibility. (Special to The Daily Worker) NEW YORK CITY, July 26. - At noon today between 25,000 and 30,000 striking cloakmakers paraded thru the garment district from Twentyfifth to Fortieth street on Sixth, Seventh and Broadway.

Streaming in from sixteen halls where meetings are held daily, the demonstrators filled the thorofares, with squads of police, mounted and on foot, hemming them in on all sides.

No arrests had been reported at 12:30 p. m. There is a probability that the publicity given to the 300 arrests during last week's parade, followed by the investigation of the clubbing of some twenty I. R. T. strikers, may allow the demonstrations to proi ceed without police interference.

The strike is still growing in power and the cloakmaking industry is com-

## STRUGGLE FOR **CABINET RULE**

Morgan's Hand Behind One of Contenders

(Special to The Daily Worker)

LONDON, July 26 .- It is an open secret among financial circles that the changing fortune of the French franc has been partly caused by a battle between two financial groups, with the Morgan interests behind one of them pushing the fight for the ratification of the Mellon-Berenger agreement.

The London Financial Times pubishes an article hinting that it is only a matter of a short time when interested parties both in France and England will demand an expose of what has been going on in the dark among French politicians and bank-

Two Banking Groups Struggle. The two groups, that of Horace Finlay, director of the Banqe de Paris et Pays Bas, and that of Baron de Rothschild of the Bank of France, have been in a mighty struggle for control of the French government. Each of these are as powerful in their own sphere as Morgan and Rockefeller in the United States, and there are seemingly strong connections between the Rothschild group and the Morgan bank in Wall Street.

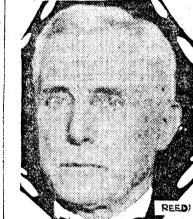

When Herriot overthrew Briand and Caillaux, it was haled as a triumph for Finlay of the Bank of Paris and the Low Countries. It seems equally certain that the overthrow of Herriot in turn and the ascendancy of Poincare, was a triumph for Rothschild, and with him, of the American banking interests intent upon gaining the control of European finances. That Poincare should suddenly announce that he will move for ratification of the debt pact, adds to this

The English Interested. It is somewhat significant that the

'Colonel' Says He Spent Quarter Million

By T. J. O'FLAHERTY

Samuel Insull, dominating personalty in Illinois public utilities and utilitarlan politics, patron of grand opera and other luxuries, was more interested in the election of Frank L. Smith to the senate of the United States than was the candidate himself according to testimony given yesterday by the said candidate, first witness called in the slush fund investigation under the direction of Senator James A. Reed of Missouri, held in Room 653 of the Federal Building.

Not Hot For Purity.

The investigation is being held in the interest of public and political morality and has no ulterior motive. The republican boodle beneficiaries who are holding the wrong end of the pole would be willing to adjourn the battle for purity until after the fall elections-if not forever.

The sessions are held in the famous court from which Judge Wilkerson issued the infamous injunction that helped smash the shopmen's strike in 1922. The injunction was issued at the request of a once well-known attorney-general by the name of

He Dropped Vitriol.

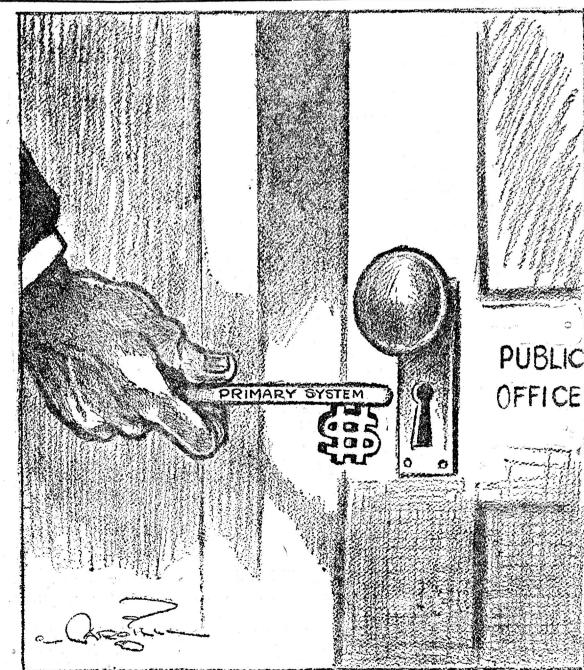

Senator Reed is the Missouri politician that Woodrow Wilson tried to kill-politically. Reed opposed the entrance of the United States into the war. After Wilson went to Paris to get fooled by Clemenceau and Lloyd George, Reed delivered a speech in the senate which was as bitter as the essence of acid.

. The fate of nations has often been decided by the smile of a dissolute woman, he said, or something like that. Those who know Paris will understand what the senator was talki 1; about. And it is directed by capitalist politicians whose last thought is to destroy the system on which they prosper. The democratic and republican parties of Illinois are struggling for

the United States senatorial plum. The republicans have nominated Frank L. Smith and the democrats

have named George E. Brennan. Both parties had a primary contest and this is where the senate

investigating committee butts in. The big news broke at the first session of the committee. No matter what is revealed in the future this is what every worker should paste

In his hat: SAMUEL INSULL, PUBLIC UTILITY MAGNATE, CONTRIBUTED

\$100,000 TO FRANK L. SMITH'S CAMPAIGN FUND AND \$15,000 TO THE CAMPAIGN FUND OF GEORGE L. BRENNAN, SMITH'S RIVAL. It is not out of place to mention that Frank L. Smith was chairman of the public utilities commission of the state of Illinois.

There is a sharp lesson in this for the American workers if they only take it. Here we have the man insuli, who dominates the public utility services of illinois contributing to the campaign expenses of both senatorial aspirants. What did he spend the money for? Because he knew that no matter which of the two won he would not loose. Evidently he prefers Smith to Brennan. But otherwise he is impartial.

Those who pay the piper call the tune. Those who supply the capitalist candidates with the sinews of war can walk into their senatorial offices afterwards, put their feet on the senatorial office desks and tell the solons what they want.

Yet the workers continue to rely for assistance on capitalist parties. And labor misleaders like Walker, Farrington, Olander and Fitzpatrick act the flunkey to those capitalist politicians, while they pretend to rep-

Walker's name was mentioned by Senator Caraway as one of the beneficiaries of the alleged Smith slush fund. Walker wanted to take the stand. Perhaps the Smith caucus demanded this of him. When the first session adjourned. Walker approached the committee table and talked to LaFollette. The latter suggested to Mr. Walker that ed him in the campaign. Smith their committee was looking for facts and dld not start the investigation because of anything Caraway said about Walker or Walker that of Caraway.

## French Now Realize the Real Purpose Behind the MEXICAN STATE Coming of "the Yanks"

By J. LOUIS ENGDAHL.

FOR the third time within recent years the French are joining in a reception to "The Yanks." as they have learned to dub all Americans.

The first time was in 1917 when a million or more of American youth were rushed to France and into the trenches, presumably, as the French thought, to aid them defeat the Germans. They were welcomed.

Then the second time the late President Woodrow Wilson sailed with his retinue and his "14 points," but since he permitted the French politicians to frame the Versailles peace, his coming was overlooked.

Now for the third time the French witness a new invasion of their country. But now only for the first time do they realize the significance of the first two invasions by "The Yanks," as the advance guard of the international bankers of Wall Street arrives. The reception given these visitors is not so welcome. In fact it is quite hostile.

Day after day the newspapers published the casualty lists containing the names of the dead among the first arrivals in France. They were "heroes" to France, at the time, but now mock funeral ceremonies are being held at their graves in Paris. They died only for Morgan.

Wilson's "14 points" were but camouflage for Colonel E. M. House. Wall Street's agent, who always stood at Wilson's side advising him how to diplomatize for the dollar. even as he has done for the two succeeding republican presidents, Harding and Coolidge, down to the present time.

After the nine years of preparation by these two previous dollar crusades into Europe, the unmasked agents of Wall Street now make their appearance. Here they are:

J. Pierpont Morgan, Jr., himself son and heir of the founder of the House of Morgan, credited with being the head of world finance. Andrew J. Mellon, secretary of the

United States treasury, Pittsburgh banker and acclaimed the third richest man in the world, coming next to Rockefeller and Ford.

Charles Steele, one of the partners of J. Pierpont Morgan & Co. S. Gilbert Parker, American agent

general of reparations under the Dawes plan. Benjamin Strong, governor of the

Federal Reserve Bank of New York. In addition there is a retinue not only of lesser financiers from Wall Street, but also of small-fry political agents from the government at Washington, who have found it convenient to have "vacations" in Europe at the present time.

This little coterie is not as numerous as the aggregation of "Yanks" that went over in 1917, nor is it as communicative as the Wilson expedition in 1919, but it is the most powerful. viet Republics, when they came into power, in November, 1917, told the workers of the rest of Europe and of the world. But sufficient numbers of them, at that time, would not listen and thru united action make countries.

anti-American feeling was shown in the demonstration of the crippled war veterans in Paris, protesting against the terms of the Mellon-Berenger arrangement for the settlement of the French war debt, most of which was incurred after the war to bolster French militarism and carry on the imperialist attack against the Soviet Union.

There is a statue of George Washington in Paris holding aloft a mighty sword. One of the French war veterans drew a caricature of the statue, with the American dollar sign pinioned on the sword. That's a great change from the time that Benjamin Franklin came to France seeking sympathy and support for the first American revolution.

An echo comes from Italy with the fascist organ, Il Tevere, declaring that:

Americans are sowing to the right and left hatred and a desire for vengeance. The right to enslave a whole continent is not to be secured even on the battlefield, with risk of life. They must think it can be acquired behind the teller's window of a bank, manipulating loans at so much per cent.

"The Americans have their eyes full of figures. Their ears are absorbed with the clicking of adding machines. They have a knife up their sleeves, namely, their most powerful dollar, which can crush 20 Europeans. They live in a state of superb obliviousness which is astonishing and offensive.

"We cannot foresee the future, but we can read in the hearts of the men of this old Europe, written in letters of blood, condemnation of that certain slavery which has the dollar as its symbol."

These European attacks on Wall Street and Washington serve an excellent purpose in that they reveal to the American worker and farmer the real nature of their masses boasted "democratic" government and exposes to view the financial power that dominates it. Only American labor uniting with European labor can overthrow this dollar tyranny that seeks to enslave all man-

## POWER SHOWN ON STREETS BRINGS **BOSSES TO TIME**

Garment Workers Win 150 Applications

NEW YORK, July 26.-A week of rapid fire activity in the cloakmakers strike of 40,000 is promised beginning this morning when 20,000 pickets will make a show of strength in the gar ment zone under police escort. This will be directly in contrast to the poli icy of wholesale arrests previously pursued during Monday morning mass picketing demonstrations. The union threatened to pay no more fines and fill the jails.

Negotiate With 150 Shops. Coincident with the public demons strations, the work of settling, on union terms, with some of the most prominent manufacturers and jobbers will begin at the Cadillac Hotel under the direction of Salvatore Ninfo, chair man of the strike settlement commis tee. To date 150 applications for set tlement have been received, a good number from members of the indus trial council of the Cloak and Sui

Manufacturers' Association. Settling independently of the industrial council is likely to mean exput sion of these firms from the manu facturers' association. The union de mands include a guarantee of minimum of 36 weeks' work per year a 40-hour week, an increase of 1 per cent in wages and, most impos tant, limitation and registering of the number of contractors per jobber.

Mass Meetings.

Tuesday and Wednesday a series of mass meetings covering Manhattan Brooklyn and the Bronx will be held at various strike halls holding an aver age of 1,000 strikers per hall. Prom inent labor leaders will address thes gatherings.

Friday, the union will defend itseld against the application for a perman nent injunction made by the bosses thru the so-called "Mutual Aid" esson ciation of designers.

"Mutual Aid" Like Company Union. Adolph Schock, manager of the United Designers, Local No. 45 of the I. L. G. W. U. yesterday replied to allegations made in the manufacturers affidavits supporting their plea for an injunction. The employers had charged that the union had no real designers as members and therefore had no right to seek non-uinon designers as

members. Scheck, in reply, declared; "The pretensions of the industrial council that only their employes are the real designers is a joke. In reality, their designers are merely copyists of models imported from Paris every season. The designers (union) who work in the American Clock and Suit Association and independent shops and for jobbers must make original creations since they get no models from Paris to copy. Union designers make 80 per cent of the cloaks. Eighty-five per cent of the designers in the union had previously been members of the Mutual Aid Society, but seeing the futility of trying to secure improved conditions thru it, they quit the organization and joined the union

It is not too much of an expense for them to send a special fitter to fit the gowns for those customers living at some of the nearer points. This expense of sending a fitter often amounts to several hundreds of dollars. Must Organize.

It will be up to the workers of this shop to better their conditions as another department of the same shop There is a ladies' tailoring department in the "Thorn" shop, where 27 workers are employed. They are well organized and all belong to the union. They have obtained union conditions, a 44-hour week, a minimum scale of \$50 a week, equal division of work in slack time, and no discharge after one week's trial. Of course, it was not by the good will of the concern that the workers improved their conditions to this extent. It was by the organized fight of the workers. In the department where the workers are unorganized they must accept what it pleases the boss to give them, and in some cases this is less than they give their dogs.

For instance, a worker of the "Thorn" shop was sick. After handling dyed materials he contracted an exzema on his hands and was unable to work for many months. Yet, altho he was directly injured by his work, Mrs. Thorn, the owner of the shop, was not concerned about him and his starving family. When her little puppy was sick she gave him to an animal sanitarium, where she paid \$80 a week for many months until he was

### THE LABOR PRESS

The Amalgamated Journal, Official organ of the Amalgamated Association of Iron, Steel and Tin Workers. Published weekly-24 pages-Illustrated.

JOW in its twenty-seventh volume, The Amalgamated Journal shows the deadening influence of the present policy of the union. It is almost completely lifeless and its first page often carries a notice to members to keep at work under the "continuous agreement" clause while a new scale

Most of its news material is secured from the International Labor News Service and is a mixture of the "non-partisan" political policy and "pure"

TT devotes much attention to sessions of the interstate commerce commission dealing with freight rates. It appears from the general tone of the paper, which by the way is almost entirely devoid of straightforward editorial expression, confining itself to "current comments," that the paper is someimes in favor of decreases and at others for increases, depending upon the attitude of the steel companies employing union members. THE Amalgamated Journal, because it publishes much material sent out

by the Brookwood Labor College, the league for industrial democracy and the Civil Liberties Union, gives an impression of a leaning towards the progressive element which is not borne out by the internal situation in the union. In the same issue with the attack of the executive council of the A. F. of L. on the trade union delegation to Soviet Russia is found "The One hundred and sixty trade union | Fight for Sacco and Vanzetti," by Art Shields, Federated Press writer, rerganizations in 22 states and British | published from the Labor Defender. The Papcun case also is included in the published press service of the Civil Liberties Union.

THE British coal strike, the case for Filipino and Mexican independence are dealt with sympathetically if not clearly.

A co-operative section uses the news service sent out by Albert Coyle editor of the Locomotive Engineers Journal.

Much space is given to the utterances of "friends of labor" in congress and the senate and an article by Matthew Woll, boosting "labor" life in elected to the executive committees surance is found next to a bulletin sent out by the Federal Council of the

Gary and the Bethlehem Steel company are made the target of attack ary because of his defense of the open shop, Bethlehem Steel on account of its graded sick and death benefit policy which is termed "a typical illusration of the devices resorted to by modern American corporations to tie the workers to their jobs much as the feudal serfs of the middle ages were tied to the land.'

IT is very evident that the Amalgamated Journal prefers material which has the approval of some middle class social or religious organization. It makes a practice of playing up the denunciation of flagrant evils like unemployment, occupational diseases, etc., made by teachers, professional men

and politicians. The impression given by this journal is one of general hopelessness and discouragement due probably to the weak position of the union whose organ it is-11,000 members in the whole steel industry.

TT carries approximately six pages of advertising from banks, grocery, meat, clothing and furniture stores, cigar stores, drug stores, doctors and lentists, jewelers, etc.

The letters from the membership show that its outlook is that of the San Francisco ower middle class, often featuring the fact that some member has gone nto business for himself. Occasionally however a letter appears taking issue with some misstatement about Soviet Russia or the left wing.

Confused conservatism is the main feature of this journal.

F. X. Martel, president of the Detroit ance of less than the union scale has Pederation of Labor outlined the inportance of having a union in the trade and offered the full co-operation and assistance of the Detroit Federad's % tion of Labor.

Most of the men work as meat cutters in the retail shops of Hamtramck and Detroit. The hours vary from 70 to 80 hours per week and the wages rarely exceed \$40 a week.

After a discussion it was decided to form a local elect temporary officers and negotiate with the International Union for a charter. Thirty members paid \$2 each for the

### Korean Floods Destroy 40 Houses, Many Lost

TOKIO, July 26-More than 400 houses were demolfshed by floods in Onai Korea in the province of Chusei, according to dispatches received here today. It is feared that there will be many casualties.

Inhabitants of Seishu were forced to fice to the hills when the Biko river overflowed and inundated 200 houses. the reports said. Lack of food and water for those who were forced to desert their homes is thought to be a serious menace to their safety.

The raging waters have undermined numerous bridges and railway service in the stricken sectors is virtually stopped, the dispatches stated. The Kanko river, traversing Seoul, is a seething torrent, altho as yet it has not overflown its banks.

# SUMMING UP THE

A total of 282,895 points were secured in the campaign rep resenting a total of 2,829 YEARLY SUBS altho many more short term subs were sent.

1,022 books of RED CARTOONS were shipped as premiums to workers securing 100 points.

93 busts of LENIN, the work of the noted young proletarian sculptor, G. Piccoli, of Milwaukee, were shipped to workers securing 500 points or better.

#### DISTRICTS

DISTRICT 8 (Chicago), home city of The DAILY WORKER, should have been a leader in the campaign. Bigger and with a larger labor movement than DISTRICT 7 (Detroit) they only got a few more points and reached only about half the quota of District 7.

DISTRICT 5 (Pittsburgh) and DISTRICT 6 (Cleveland) worked under similar conditions, yet District 5 did almost TWICE as well as District 6.

DISTRICT 2 (New York) could have had TWO candidates to Mos cow if they got only 90 more yearly subs.

DISTRICT 9 (Minnesota) did not have a city going over 26 per cent and made the poorest showing in the country.

#### CITIES

LOS ANGELES, Cal., got 26,000 points, San Francisco got 3,400 points. These cities are about equal in size and labor movement Draw your own conclusions.

EAST PITTSBURGH, Pa.-(John Kasper) scored more points than the whole city of Cleveland, Toledo, Buffalo, Kansas City, St. Louis, Milwaukee, St. Paul and even PHILADELPHIA!

DETROIT, Mich., made a very good showing getting over 20,000 points. That's keeping up the old tradition of always being one of the best DAILY WORKER cities in the country.

NEW YORK, N. Y., did as well in percentage as Detroit. But with the big labor movement they have their showing is "not so

CHICAGO, Ill., got less points than Detroit, reaching only 21 per cent of their quota. This unusually poor showing is the reason the district gets no candidate to Moscow.

NEFFS and CINCINNATI, Ohio, with 66 and 56 per cent held the district up to where it landed.

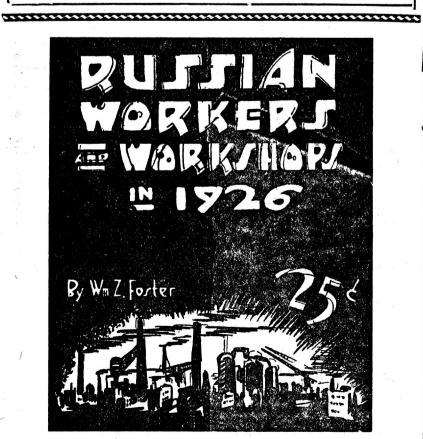

PORTLAND and SEATTLE with 33 and 22 per cent showed poorly. ELIZABETH, N. J., and STAMFORD, Conn., did a good job.

ST. PAUL, Minn., the highest city in the poorest district, made a very good effort and if others did as well there would have been a different story to tell.

BERLIN, July 26.-The Reichsbanner, a powerful semi-military republican organization, is demanding permission to equip its members with arms. The demand is based on the rivals, the fascists and nationalists, organized into bands and totaling 500,000 members, was bearing small arms and using them in street battles.

Government Refuses. While the government has thus far refused to allow the permit, experts claim that it has no right to deny the use of small arms to clubs for drilling The government has said it fears the inter-allied military commission will object.

New Law.

The Reichstag is now preparing a new law governing weapons, and it is understood that it contains provisions that will allow organizations to provide their members with small-caliber arms.

The Reichsbanner called for arms when, in Thuringia, the government was asked to disarm the nationalists The government found itself power less to do so and consequently advised the Reichsbanner members to arm themselves also.

#### California Wins National Sub Campaign

#### NEW YORK WINS TRIP TO MOSCOW

California will send a candidate of its own choosing to Moscow This state, District 13 in the campaign divisions. beat all sections of the country in the third annual subscription campaign of The DAILY WORKER, coming in first among fifteen districts into which the country wis divided,

with a clear advantage of 21 per cent over its nearest competitor, Eastern Pennsylvania.

The work accomplished by the California Builders of our Press is a distinct achievement truly to be proud of. Not only has California won the National Contest, but Los Angeles, center of the Drive activities, reached nearly 150 per cent of its quota, coming in third among all cities in the country. This achievement has great merit. Los Angeles, a city with a small labor movement and not a great industrial center, has done comparatively better than New York, Chicago, Pittsburgh and other cities industrially developed and with a strong labor movement.

#### THE BUILDERS WHO DID THE JOB.

The oustanding genius of the accomplishment was Paul C. Reiss. His was the direction as DAILY WORKER AGENT for Los Angeles, and his was also the INDIVIDUAL ACCOMPLISHMENT with a total of 21,260 points to his credit. This is nearly two-thirds of the total!

Frank Spector of Los Angeles gave invaluable assistance with a total of 3,460 points; Chas. Bayles of San Jose 980; A. Segal, San Francisco 705 and Masha Gusoff of San Francisco, 555.

#### Organizer of Builders.

The success of Comrade Reiss has been due not only to his individual efforts, but also combined efforts of the Los Angeles Builders' Club organized thru efforts mainly of Comrade Reiss. Here is further proof of what Builders' Clubs can do for our press.

### PENNSYLVANIA SECOND IN THE RACE.

John Kasper Alone Wins Moscow Banner,

Eastern Pennsylvania did the job well. Reaching slightly over fifty per ent of the quota they have unusual merits to their credit. Wm. Scarville. DAILY WORKER Agent for Pittsburgh who directed the activities of this district, alone secured 8,380 points and with the help of a number of unusual individual performances, placed his district second among fifteen in the

#### THE RECORD OF JOHN KASPER

The whole district did comparatively well. Many workers' accomplishments which the movement, has much to thank them for. But the one great performance of the whole campaign and all the districts has been the record of John Kasper of East Pittsburgh. He got busy late in the campaign to get subs. But by his OWN EFFORT, this Builder secured nearly FOUR TIMES the quota of his own city, getting 593 per cent with a total of 8,895 points.

#### WINS BANNER FROM MOSCOW

The BANNER from the Communist Party of Moscow, honor emblem to the city winning the greatest achievement of the campaign goes to East Pittsburgh and Comrade John Kasper. His record gives East Pittsburgh a lead of nearly 800 per cent better than his NEAREST competitor, MIAMI, FLORIDA.

### DENVER COMES IN THIRD.

Denver, Colorado, went over its quota with 112 per cent bringing ita district into third place and third in campaign honors.

They did a fine job. Just a wee bit more pressure and they could have give the honor to New York of choosing one delegate to accom-

#### TWO CANDIDATES WILL GO TO MOSCOW.

New York Wins Prize Honor.

New York and New Jersey, under the capable guidance of Eastern Representative of The DAILY WORKER, L. E. Katterfeld, finished fifth in the campaign with a total of over 71,000 points. The rules of the campaign allowing a candidate for the trip to Moscow with every 40,000 points in addition to the winner give the honor to New York of choosing one delegate t accompany the California winner to Moscow.

#### HOW THE VOTING WILL BE DONE.

California-New York-Take Notice!

Names of all voters and the points to their credit will be published. Voting blanks will then be sent to each. Instructions, lists of leading candidates, etc., will be sent to all so you can cast your ballot for YOUR CHOICE. Judges, NOT CONNECTED WITH THE DAILY WORKER MANAGEMENT will announce winners after the ballots are counted.

#### MIAMI WINS BANNER FROM BERLIN.

To the comrades in Miami, a few loyal, devoted revolutionary workers goes the distinction of winning second highest city honors. Securing 156 per cent of their quota they have won the banner from the Communist Party of Berlin. This signal honor is a pleasure to award in a city where a few individuals, thru their strenuous efforts in a state famous for its backwardness, have been able to make this splendid contribution to the American revolutionary Labor Movement.

#### COMRADE COHEN FROM PEORIA.

Comrade Max Cohen is a young worker. An energetic young worker, giving time and thought and energy to the Movement. Alone, this comrade secured enuf points to bring his city fifth among all in the country in accomplishment for Our Press and he ORGANIZED A BRANCH OF THE YOUNG WORKERS LEAGUE WHILE DOING IT! Here is an example of what can be done by ONE BUILDER of our Movement with intelligent effort.

## N. Y. WORKERS TO MEET IN MEMORY OF DZERZHINSKY

NEW YORK, July 26. - The revolutionary and militant workers of New York will gather at Central Opera House, 67th St. and 3rd Ave. on Thursday July 29th to pay their tribute to the memory of Felix Dzerzhinsky, chairman of the Supreme Economic Council of the Soviet Union, and formerly head of the Cheka who died of heart disease and overwork a few days ago.

Close To Lenin.

Felix Dzerzhinsky was one of the group of the oldest and tried Bolsheviks. He belonged to the old guard. He was one of the closest followers of

Dzerzhinsky always tackled the most difficult tasks of the revolution and his friends and also his enemies had to admit that he carried out his tasks well. When the counter revolution was the danger of the hour, Dzerzhinsy, as head of the Cheka, tackled the job of putting down the counter revolution. When the Soviet Union was finally enabled to pay more attention to the building up of the industries of the country, again he headed that work as the head of the Supreme Economic Council.

Revolutionary Spirit.

Felix Dzerzhinsky was the incarnation of the real revolutionary spirit. Even his enemies admit that he was a man of knowledge, strength, and devotion to the cause, a man of self-

Prominent Speakers.

Every militant worker should come to the Central Opera House on Tuesday July 29th and pay honor to this great revolutionary and builder of the workers' republic. Wm. F. Dunne, Ben Gitlow and M. J. Olgin are among the speakers. Admission will be 25 cents to defray the expense of the meeting.

Boston To Hold Memorial Celebration For Dzerzhinsky.

BOSTON, July 26. — On Wednesday evening, July 28th Boston will hold a memorial celebration for Felix E. Dzerzhinsky, president of the Supreme Economic Council of the Union of Socialist Soviet Republics, who died a few days ago. Speakers will address the meeting in English, Russian and Polish. All workers are invited to be present. The celebration will be held at the Russian Club, 93 Staniford St., Boston, Mass.

## ON TO A HALF MILLION!

Distribute a half million copies of the pamphlet, "The Workers (Communist) Party-What It Stands For, Why Every Worker Should Join" by the end of this year.

### TELL THE WORKERS WHAT YOUR PARTY STANDS FOR! TELL HALF A MILLION WORKERS!

Something for Every Party Member to Do.

TO THE MEMBERS OF ALL SHOP AND STREET NUCLEI:

Dear Comrades:-The party is organizing the most extensive PROPAGANDA and MEMBERSHIP DRIVE it has so far undertaken. There is SOMETHING FOR EVERY MEMBER TO DO in this drive, and SOMETHING EVERY MEMBER CAN DO.

The first stage of this drive is to TELL A HALF MILLION WORK-ERS WHAT THE WORKERS (COMMUNIST) PARTY STANDS FOR AND WHY WORKERS SHOULD JOIN.

Comrade C. E. Ruthenberg, general secretary of the party, has written, for this purpose, a simple, direct statement of the fundamental principles of Communism and the immediate program which the party is supporting in the labor movement. The title of this 16-page pamphlet, Illustrated with five striking cartoons, is:

THE WORKERS (COMMUNIST) PARTY—WHAT IT STANDS FOR-WHY WORKERS SHOULD JOIN

Every party member must be mobilized to help secure a circulation of a HALF MILLION of these pamphlets. This is how it can be

By printing a large quantity of these pamphlets, the national office is able to furnish them to the party units at 21/2 cents each. Each nucleus should endeavor to have every member subscribe for 20 of these pamphlets at once, for which he will pay 50 cents. The pamphlet should be sold to the workers. Circulate the enclosed list among your members immediately and send in the order @ 21/2c. Sell @ 5c.

The nucleus should deliver 20 copies of the pamphlet to each member to sell in his shop, to the members of his trade union, to the members of his fraternal organization, to his friends, and wherever the workers gather. IT WILL BE EASY TO GET A NICKEL FOR THIS ATTRACTIVE ILLUSTRATED PAMPHLET. When the 20 pamphlets are sold, the member will have back his 50c and 50c additional. The profit should be turned in to the nucleus secretary and more pamphlets ordered, to secure additional circulation.

THIS IS SOMETHING FOR EVERY PARTY MEMBER TO DO, AND SOMETHING WHICH EVERY MEMBER CAN DO. NO MEMBER SHOULD BE EXCUSED FROM THIS CAMPAIGN.

The distribution of a HALF MILLION of these pamphlets will be a big achievement for our party. It will tell the workers who receive them what we are fighting for. It should enable us to draw TEN THOUSAND NEW MEMBERS INTO THE PARTY IN THE MEM-BERSHIP CAMPAIGN WHICH THE PARTY IS CONDUCTING.

Comrades! Give the campaign to circulate a HALF MILLION copies of this pamphlet your energetic support. Mobilize every mem-

#### Where Is Russia Going?

cent by the state."

WE have previously shown how, if the Industrial Workers of the World were given full charge of a revolution in the United States, with the same strength of numbers as has the Communist Party of Soviet Russia today, it would have to go absolutely contrary to its present anarchist advisers and establish a government of the armed proletariat to suppress by force the remnants of capitalist power. But with this done or in the doing the struggle to establish a communal society would only have started.

Most of the industrial machinery would be destroyed in warfare, whole armies of technicians would desert production or remain only to sabotage. A fair-sized part of the population during such troublesome times would not be charmed by any pretty pictures of the future, but would demand regular meals—and serve as counter-revolutionists if they didn't

THE I. W. W. would find, in such a L case, that there is a transition period between capitalism and Communism. It might find, for example, that instead of socializing the agricultural industry over night, it would have to make peace with the ten or twelve million farms, so that they would send food and not counter-revolutionary armies to the cities. If the city workers could have that assurance of peace, they might have more time and energy for rebuilding ruined factories, railways, mines and mills, which—in the measure they were socialized-would represent that much advance away from capitalism and toward Communism. Any retrogression would have to be guarded against by the centralized workers' government, upheld by the armed proletariat.

We restate our proposition. If the I. W. W. had such a situation on its hands and wished to succeed, it would have to recognize that the revolution is a process of some duration, only begun by forcing the capitalists out of governmental power. It would do all the things, in short, that it allows anarchists within the I. W. W. to attack the Russian workers for doing.

We see, therefore, that when the anarchists launch an attack they are attacking the I. W. W. also, along with the whole working class. It was quite typical that the anarchist article which appeared in the I. W. W. press deliberately distorted the words of Kamenev, spoken at the 14th conference of the Russian Communist

A RGUING against those who said that Soviet Russia was in danger of going back to capitalism, and pointing out that the direction of development was consistently toward Communism, Kamenev said:

"Our state industries are really enterprises of the socialist-consistent type, because they represent the ownership of the working class."

Because Kamenev added that, "we have not yet an industry that is completely socialist," the anarchist writer in the I. W. W. press clearly distorts Kamenev's words when he asserts that everything in Soviet production is "in no respect socialistic." Of course this is done to get the I. W. W. members to swallow the propaganda that no transition period is necessary in a revolution, and that the Soviet Union has "reverted to the capitalist system." Union and to refuse to publish rea-

WHAT HAS GONE BEFORE.

WHAT HAS GONE BEFORE.

J. Arnold Ross, oil operator, formerly Jim Ross, teamster, is unsuccessful in signing a lease with property holders at Beach City, Cal., because of intrigues of other operators and quarrels among the holders. While he is at Beach City, Bunny, his thirteen-year-old son, meets Paul Watkins, slightly older. Paul has run away from home. His father is a poor rancher in the San Elido Valley who is a "Holy Roller." Paul goes away to make his living on the road and Bunny goes about learning the oil business from his Dad who is bringing in a well at Prospect Hill. Dad was working hard and Bunny suggests a quali hunting trip to the San Elido Valley. Dad agrees and shortly they arrive at the Watkins ranch and pitch their camp. In hunting for quall they find oil oozing out of the ground and Dad wheedles the sale of the ranch out of old Watkins and also arranges to secretly purchase adjacent lands. Paul's little sister, Ruth, and Bunny become friends. Bunny starts to high school at Beach City. With plenty of money and social standing he enters into the life of the school. His Dad warns him of dangers, tobacco, drink and women—a little bashfully on the latter. He falls in love with another student, Rose Taintor. In the meantime Dad's oil business grows rapidly. He misses Bunny who can go only seldom now on trips with him. A Mr. Bandy, who owns a big tract next to the Watkins ranch, gets suspicious and raises his price per acre.

The greater part of the civilized world had gone to war, The newspapers which Dad and Bunny read turned themselves into posters, with streamer-heads all the way across the page, telling every day of battles and campaigns in which thousands, and perhaps tens of thousands of men had lost their lives. To people in California, so peaceful and prosperous, this was a tale quently yields more than 20 per cent of "old, unhappy far-off things," impossible to make real to yourself. America had officially declared neutrality; which meant that in the "current events" class, where Bunny learned what was going on in the world, the teacher was expected to deal with the war objectively, and to rebuke any child who expressed a partisanship offensive to any other child. To business men like Dad it meant that they would make money out of both sides; they would sell to the Allies direct, and they would sell to the Central powers by way of agents in Holland and Scandinavia, and they would raise a howl when the British tried to stop this by the blockade.

The price of "gas" of course began to mount immediately. It seemed to Bunny a rather dreadful thing that Dad's millions should be multiplied out of the collective agony of the rest of the world; but Dad said that was rubbish, it wasn't his fault that people in Europe insisted on fighting, and if they wanted things he had to sell, they would pay him the market price. When speculators came to him, showing how he, with his big supply, of cash, could make a quick turn-over, buying shoes, or ships, or sealing-wax, or other articles of combat, Dad would reply that he knew one business, which was oil, and he had made his way in life by sticking to what he knew. When representatives of the warring powers invited him to sign contracts to deliver oil, he would answer that nothing gave him more pleasure than to sign such contracts; but they must change their European bonds into good American dollars, and pay him with these latter. He would offer to take them to the little roadside restaurant where they could see the sign: "We have an arrangement with our bank; the bank does not sell soup, and we do not cash checks."

On the basis of his father's reputation for unlimited resources and invincible integrity, Bunny had been chosen treasurer of the freshman football team, a position of grave responsibility, which entitled him to sit on the side-lines and help the cheer-leaders. While on the other side of the world men were staggering about in darkness and mud and snow, blind with fatigue, or with their eyes shot out, or their entrails dragging in the dirt, the sun would be shining in California, and Bunny would be facing a crowd of one or two thousand school children, lined up on benches and shrieking in unison: "Rah, rah, rah, slippery, slam!-wallibazoo, bazim, bazam! Beach City." He would come home radiant with barely enough voice left to tell the score; and Aunt Emma would sit beaming—he was being like other boys, and the Ross family was taking its position in society.

The Christmas holidays came: and Dad was working too hard, everybody declared; and Bunny said, "Let's go after quail!" ficials to publish attacks on the Soviet It wasn't so hard to pull him loose now, for they had their own game-preserve—it sounded most magnificent, and it would obviously be a great waste not to use it. So they packed up their camping outfit, and drove to Paradise, and pitched their tent under the live oak tree; and there was the ranch, and the Watkins family, the same as before, except that the row of children was a couple of inches taller, and the girls each had a new dress to to cover their growing brown legs. Things were a whole lot easier with the family, since they had an income of fifteen dollars a month from the bank, instead of an outgo of ten dollars.

Well, Dad and Bunny went after the quail and got a bagful: and incidentally they examined the streak of oil, now grown dry and hard, and covered with sand and dust. They went back to camp and had a good feed, and then came Ruth, to get their soiled dishes; she was taking Eli's place, she explained, because Eli had been called to attend Mrs. Puffer, that was ill with pains in her head. Eli had been doing a power of good with his healing, it had made a great stir, and people were coming from all over to have him lay hands on them. Bunny asked if Ruth had heard from Paul, and she answered that he had come to see her a couple of months ago, and was getting along all right.

She seemed a little shy, and Bunny thought it might be on account of Dad lying there listening, so he strolled back to the house with her, and on the way Ruth confided to him that Paul had brought her a book to read, to show her she didn't have to believe the Bible if she didn't want to; and Pap had caught her with that book, and he had took it away and threw it in the fire and had whaled her good.

Bunny was horrified. "You mean he beat you?" And Ruth nodded; she meant that. "What did he use?" cried Bunny, and she answered that he had used a strap off'n the harness. "And did he hurt you?" She answered that he had hurt right smart, it had been a week afore she was able to sit down. She was a little surprised at his indignation, for it didn't seem to her out of the way that a girl almost sixteen years old should be"whaled" by her Pap; he meant it for her good, he thought it was his duty to save her soul from hell-fire. And Bunny could see that Ruth wasn't sure but her Pap might be right.

#### They Are Learning to Think

Hearst's afternoon Chicago sheet reprinted a picture from the New Masses which represented the British workers standing as one in the general strike called to aid the miners.

The editorial comment made by the capitalist sheet on the One interesting development that trade unions, there is one thing we must realize, however, and that is picture could not have been more stupid even had it been written labor movement in the last few years that the trade union bureaucracy by Arthur Brisbane. Perhaps it was.

The Hearst paper went on to say that the British workers stood 1920, by the Brotherhood of Locomo- vice to the members, except to put as one "for a little while." Trouble is they did not think before tive Engineers, in Cleveland, Ohio, the large amount of union funds in they decided to hold up forty million Britishers. Then after they and the Mount Vernon Savings Bank, their own banks. went on strike, their leaders began to think with the result that the by the Machinists, in Washington, D. C. men realized how foolish they were and returned to work.

Now for the facts:

It is true that the British workers only stood together for a deal of curiosity on the part of stateslittle while, but they stood together for a longer time than ever be- men and bankers, and some skepticfore and they would not have returned to work if their leaders had not betrayed the miners by calling off the strike. And the workers over thirty labor banks in operation did not think they acted foolishly in dictating "to a nation of forty in the United States with a capital of million of Britishers." On the contrary the great majority of those over \$150,000,000, and are increasing who went on strike are proud of the general strike, much to the that within a very few years there chagrin of their right wing leaders and the capitalists in general, will be labor banks in every city in who want to discredit the strike weapon.

The Hearst editorial goes on to say that the most dangerous THE left wing in the labor movement of labor are those that "deceive working men" and do not enemies of labor are those that "deceive working men" and do not tell them the truth. The nation is one great body in which all the capitalist bankers cannot wipe have their rights. British labor went on strike against the whole them out, neither can the left wing. nation. ## THE DAILY WORKER Stalin Reviews the British General Strike WITH THE STAFF

The British capitalists and the conservative party, as the course of the strike revealed, appeared on the whole more experienced, better organized and more determined, and therefore stronger than the British workers and their leaders, the general council and the so-called labor

O The British capitalists and the conservative party met the tremendous social conflict completely prepared and in full armour, whereas the leaders of the British labor movement were taken unexpectedly by surprise by the lock-out of the mine owners, having undertaken no preparatory work, or nearly none, expressing their conviction only a week before the conflict, that there would be no

THE speech of Comrade Stalin on "The British Strike" will be published in three installments. It divides naturally in three parts-1. The causes of the British strike. 2. The reasons for the collapse of the general strike and 3. The lessons of the strike.

The latter section contains some inferences drawn bu Comrade Stalin relative to the important tasks of the British workingclass, the Communist Party and the workingclass as

## Lesson from Farmer

OACOMA, S. Dak., July 26. - Mr. Ballantyne, agent of the United States department of justice or injustice as he himself called it, confronted farmer Hanson at his place six miles east of Reliance, S. Dak. with copies of The United Farmer, a paper published at Bismark, N. D. in the interest of the exploited farmers of the north-west asking him if he was the author of certain articles published in it over his name, and threatened him with deportation unless he desisted from publishing any more such articles.

The agent not being satisfied with bluffing started to use slurring and there are no union mines in the state man unions of young Spartacans are insulting language, Hanson ordered him off the place. He succeeded in chasing the agent off the farm but lost a shirt sleeve in the encounter.
