Conservatism in Negro Harlem

By WILLIAM L. PATTERSON. A Russian diplomat in the foreign service of Nicholas, the late but little lamented czar, was assigned to the Russian embassy in Washington, D. C.

"Oh, no," replied the senator, laughing, then more seriously, "they are really conservative." The Russian rode very quietly for some time, then as though to himself, he half whispered, "My God, what have they got to conserve!"

High Rents. The high rents that landlords, white and colored, have been able to extract by reason of the segregation and consequent limited housing facilities available to Negroes has forced colored tenants in order to meet the excessive and oppressive rents and so escape the marshall's dispossession to fill their homes with lodgers.

Russell Scott (above) pleaded insanity in a murder trial, and the court ordered him hanged. He hanged himself, and the court now decides he was insane.

ANTI-LABOR RECORD OF TAMMANY HALL AS WELL AS REPUBLICANS PROVE NEED FOR A LABOR PARTY

Many of the workers of New York City and New York State are convinced that the republican party is their enemy, but have the illusion that Tammany Hall, the democratic party, is vitally interested in them. Are not Alfred Smith and Jimmie Walker friends of the people, friends of the working man? Any one who takes the trouble to study the record of the democratic party will see that there is no difference between it and the republican party insofar as fighting for labor's interest is concerned.

for labor, the other against. The latter charge is proved on black and white. Both Strike-Breakers. Then what happens. The other candidates seeking nomination come out with their "dynamite." Their leader broadcasts a leaflet. The opponent leader is frank. He admits he's a strikebreaker. In fact he is now in the strikebreaking game. But what about the backer of the first two candidates? That backer, Michael J. Reilly, leader of the 8th Assembly District Regular Democratic Club, hired him, DeVito, to do the strikebreaking job. Michael J. Reilly was in the employ of the Rouleston Co. and was in charge of breaking the strike.

HUTCHENSON, PRESIDENT OF CARPENTERS' UNION, BARS LEFT WINGERS FROM BEING CANDIDATES

Twelve hundred members of former local 376 of the Brotherhood of Carpenters and Joiners of America, which has been dissolved, cannot run for an indefinite period for any office in the Brotherhood of Carpenters, according to a ruling of William L. Hutchenson, International President. The 1,200 have been transferred to other locals. Joseph Lapidus appealed against Hutchenson's decision, but his appeal was not sustained by the G. E. E. Local 376 was a left wing local and supported one of its members, M. Rosen, against Hutchenson for president of the Brotherhood of Carpenters in the last election. Rosen polled 12,000 votes.

Then he turned on the next neighbor and said: 'I hit you, I hit you for sure if you no go in.' She screamed and said: 'Wait, wait, I got lots of time to go in.' And there was an old lady on the porch at that house, and she hollered: 'C'mon, you son-of-a-bitch, d'you think I'm scared of you. You going to beat me like that!' Then he run across the ditch and get up there and hollers, 'Wait, you son-of-a-bitch, or I'll get you too!' And she say: 'Good for you to chase people, you getting \$10 every day for it,' and she wasn't going in for him."

STATE TROOPERS CRASH IN DOORS OF MINERS AND CLUB THEIR WIVES

(Continued from Page One) when the speaker attacked the coming attempt of the coal operators and their like to drive the workers into war again as in 1917, and declared the miners' war was the war against the coal operators and their servants, the state troopers, he had the whole meeting enthusiastically with him.

fighting spirit and force them back to work on an open-shop basis. The troopers employed in Renton and other camps act under the direct orders of the company in very much the same way as the coal and iron police used in other sections of the district. About the only difference is that the troopers possess horses, so that they can trample people as well as beat them up, like the coal and iron police, and are, if possible more viciously brutal than the latter.

Then he slammed me one over the hips and he pushed me—'Go in, go in, before I hit you another one.' And I was saying, 'Please, please don't hit me.' Then he said, 'What, what,' and he come through the screen door with his mace, and he hit me in the chest. Oh, how it hurt me, it hurt me yet! The comrades enthusiastically accepted the unity declaration and unanimously adopted a resolution endorsing the unity declaration, accepting the report of Herberg and pledging to do all in their power to put the tasks as outlined in the N. CORRECTION IN ADDRESS OF NATIONAL OFFICE

The National Office of the Workers (Communist) Party was originally reported to have been moved to 33 East 125th street, New York City. This address is incorrect. The correct address of the National Office is 43 East 125th street, New York City. All comrades should make note of the change because much mail is going astray as a result of the incorrect address. All mail intended for the National Office should be addressed: Workers Party, 43 East 125th street, New York City.

THE allied propaganda machine made a big fuss about the execution of the British spy, Edith Cavell, during the war. While posing as a nurse, this woman was actively engaged seeking information of German army movements in Belgium for the British.

THE French executed women spies, or suspected spies during the war. So did the British. So did the rest of the imperialist murderers. The French turned the machine guns on trench-falls of soldiers suspected of dissatisfaction. It was war and human lives mean little when the interests of capitalist powers are at stake.

WHETHER the United States ever has a war or not we need a large navy, says Secretary Wilbur, if for no other reason than to contribute to the muscle and soul development of sailors and marines.
