CITY MOVES TO POSTPONE FARE RAISE BY I. R. T.

Announce Deal On to Purchase B.-M.T.

Three temporary injunctions were issued yesterday restraining the Interborough Rapid Transit Company from introducing a 7 cent fare on its lines. Any one of these might suffice if allowed to develop and grow

The New York State Transit Commission rejected the plea of the Inter-borough for permission to make the increase which the Interborough had earlier applied for.

Interborough filed in the United States District Court a suit against the city, the Transit Commission, the Manhattan Railway Company and William A. Prendergast of the metropolitan division of the Department of Public Service, in which it seeks relief from the "confiscatory" restrictions of the contract under which it operates the lines, especially the 5 cent fare provision.

Untermyer Retracts.

And if these three major events were not yet enough for one day, Mr. Untermyer, he of many words, issued several characteristically long statements in which he disavowed all the mean things which it has been supposed he has said against the officers of the I. R. T.

The Interborough was first to rush into court by filing a lengthy complaint in printed form in the Federal Court. By bringing suit in the federal rather than in the state courts the Interborough hopes to secure the advantage over the city.

In the complaints attached, the Interborough prays for relief from the row for important Party work; "acts of desperation" by the city, referring to "inflammatory appeals' which it charges city officials and particularly Mr. Untermyer has made against it. "No alternative," it says, "has been left to the Interborough Company but to place itself within (Continued on Page Five)

PITTSBURGH, Feb. 14.-The arrest of thirty-eight men, women and young girls who picketed the Jones and Laughlin mine at Daisytown last week failed to unfavorably affect the determination of the striking coal diggers to violate the injunctions Engineer to Discuss against mass picketing.

The thirty-eight were taken before squire Schwards, a Vesta coal company flunkey, who was willing to do his masters a favor, but since the "yellow dogs" were unable to prove that the pickets violated traffic regulations or were disturbing the peace, the company squire was compelled to turn them loose.

BAR PROPOSAL IS SHOWN AS DRIVE **AGAINST WORKERS**

Launch Campaign to Protest Move

Labor forces which for several veeks have been making preparations for a united campaign of protest against the Woll-Cohen-American Bar Association anti-strike law, will tonight get their drive under way at a huge mass meeting at Manhattan Lyceum, 66 E. 4th St.

A call to the whole labor movement with the triple slogan: "Defend your unions," "Defend your right to strike," "Defend your right to organize," has been issued by the Trade Union Educational League which is in the forefront of the fight to arouse the labor movement to the menace of the proposed anti-strike bill.

If the workers do not act promptly and in mass numbers, he said, a law Drive for New Readers will be put over which will be the sentatives, Nye said.

> 166,175 Workers Are Affected by Cuts

WASHINGTON, Feb. 14. - The niners in the Durham fields will suffer a wage cut of 24 per cent on March 1st, according to a cable received by the Department of Commerce from its London office. The reduction will be particularly severe in view of the already low wages of British miners.

The Executive Committee of the British Miners Federation is planning to send a protest to the Government according to the information received here. A. J. Cook, secretary of the Federation, has been the leading figure on the executive in the fight against wage cuts.

The reduction in the Durham fields comes on the heels of a 25 per cent wage slash in the Northumberland district. The total number of miners employed in both fields, according to figures made public last September, was 166,175.

The minority labor leaders had pointed to the recent wage cuts in many of the major industries of Great Britain as indicative of the insincerity of the "industrial peace" proposals made by capitalists like Sir Pacific flight scheduled for next sumdelegation, which is led by the Wall Alfred Mond and trade union leaders mer. VILE CONDITIONS OF LABOR IN BIG **DETROIT FACTORY**

Negro and White Help Exploited in Va.

(By a Worker Correspondent)

DETROIT, (By Mail) .- The Chrysler corporation, one of the large automobile concerns of Detroit, cares nothing for the poor slaves who toil in its plants. The arrangement of time clocks is haphazard, 7 time clocks being crowded into a room far too small, to accomodate that number. This causes much crowding, when some 3000 people leave the plant, mostly between 4:30 and 5:30

Toilets, what few there are, are kept clean enough, but there are only about half enough. There are two on each floor, one at each end of a room, at least 400 feet long. Each will accommodate not more than 10 people, and some 200 workers work on each floor.

Drinking fountains are not pro- cake, very rarely served, sometimes vided in sufficent numbers, there be- of a Sunday afternoon. ing only three fountains on each Some times, especially after eating lunch you must wait at least 10 minutes, to get a drink of water.

The most noticeable lack of convenience, is the poor washing facilities, one wash basin only, being provided for the 200 men, working on my floor. This basin has only 3 faucets on each side. By crowding up, about 14 to 16 men can wash up at the same time. Deems Taylor Discusses Russian Folk-Music

DEEMS TAYLOR, music critic and composer played, sang, and talked about Russian folk-songs b fore two thousand enthusiastic listeners, many of them Russians, Monday afternoon at the Russian exposition at 110 West 57th Street. He gave a long list of composers who have utilized Russian folk melodies in their serious works, naming particularly Tchaikowsky, Moussorgsky, Rimsky-Korsakoff and Beethoven.

To illustrate the epic songs of Russia, Taylor sang to his own accompaniment, "The Legend of the Young Nightingale," which he said Rimsky-Korsakoff had embodied in his opera "Sadko." "The Conscript's Return," used by Beethoven in the finale to his Strong Quartet in F Major, was given as typical of the songs of bandits.

"No other nation has such an immense body of folk-songs," said Taylor. "There are fully ten thousand in in Siberia, the Caucasus, etc. In no Theatre, will direct two more plays of the findings of the second delegation. closely to the day's occupations. No ers. Taylor's talk was followed by a song recital by Dora Rose, soprano, whose program included "The DETROIT, (By Mail)-Exploited Soldier's Bride," by Rachmaninoff; in a most brutal manner by the "Slumber Song," by Gretchaninoff; which the English writer stated that legislative committee of the Brother-

Defending Radio Stoolpigeonism in the Name of Debs---The Latest Infamy of Socialist Party Leaders

"Free speech for stoolpigeons in institutions paid for by workers" is the latest slogan of The New Leader, official organ of the socialist party.

WEVD, the radio station erected to the memory of Gene Debs, allowed one J. R. O'Brien to defend the conquest of Nicaragua thru its broadcasting apparatus recently and The New Leader for February 11 compliments the management and remarks:

"The station is living up to its claim that all opinions can be expressed through it and it is the only station in this country of which this can be said."

O'Brien is a professional stoolpigeon and agent-provocateur of the lowest type. The New Leader claims that he spoke for the American Legion and if this is so it means only that O'Brien has attached himself to this fascist organization because it offers him an opportunity to get its backing for his stoolpigeon activities.

In 1920-21 O'Brien was acting as a police informer among the Irish Republicans and in such organizations of revolutionary workers as Irish American Labor League. At the height of the prosecutions which followed the Palmer raids and during the crisis created by the Wall Street explosion and the attempt of William J. Burns to use it for new persecutions, O'Brien was connected with and speaking for such anti-labor organizations as the Constitutional Defense League, the National Security League, etc. O'Brien was shricking for the jailing and deportation of all workers who did not accept the mass arrests and the open shop drive as a blessing.

O'Brien also maintained close connections with Harold Lord Varney, the miserable degenerate who left the I. W. W., became gether for hours in the bread-lines day in New York and other cities a government spy and who specialized in turning over Irish and that grow longer with each passing throughout the country. In times of Hindu revolutionists to the British authorities.

From time to time O'Brien has tried to set himself up in that passes for coffee. business as the head of an independent stoolpigeon agency but these attempts apparently were not successful since he always turns up as the agent of some established anti-working-class spy and propaganda agency.

The body of Debs, the grand old fighter who was hounded by stoolpigeons to the day of his death, must have turned over in his grave as the voice of a professional provocateur went out from the First Street, just one block from the lion or two must have been added station which bears his name. Many crimes have been committed office of The DAILY WORKER. In the name of free speech but this latest action of the socialist of the drive like the since these figures were gathered. But figures alone can never depict the party bureaucracy is not only a crime against the working class but an insult to the memory of Debs and to every working class fighter living and dead.

By what process of reasoning does The New Leader arrive he conclusion that to allow a known stoolpigeon to use the at the conclusion that to allow a known stoolpigeon to use the Debs radio station to defend the rape of Nicaragua and the mass ously gnawed the crust of garbage, while the breadlines grow ever to preach class hatred; that the capimurder of Nicaraguans by Wall Street imperialism is a service gulped a cup of black liquid and to the masses who must make war against imperialist war?

From every other station in the United States (with the possible exception of the station of the Chicago Federation of Labor) go speeches upholding Wall Street and its Government in their bloody imperialistic Nicaraguan adventure. If the Debs station is anything else than a camouflaged adjunct of the imperialist propaganda apparatus it is its duty to announce that no them stood, they had no place to go. of dollars in platinum, diamond and by that capitalist class through the into the class-conscious labor movedefense of American invasion of Nicaragua will be permitted thru They had guessed wrong in their plaits channels. It is not the task of working-class institutions in The other bread-lines were closed; war situations to prove a devotion to free speech in the abstract they could not again try to obtain but to use to their capacity their power to counteract the flood of relief from the line until the next day, imperialist propaganda.

The people who bears the name of the revolutionist who served three years in tified the police that closing time was Atlanta for his opposition to imperialist war.

This will clinch meagre crust might result in demonstill further their claim to be "the only sincere advocates of free strations that would be highly un- that comparison no further.

The right of way given to O'Brien, the professional stoolpigeon, by a radio station which claims to have a workingclass character, for the purpose of strengthening Wall Street's war program, is a nauseating incident but no accident. It is an infallible indication of what is to be expected from the socialist from the elegant shops a few blocks party leadership as the war plans of American imperialism mature and the masses begin to mobilize for struggle against them.

Masking themselves with pacifist and democratic phrases these socialist leaders will act as agents of the imperialist war machine. The O'Brien incident and the shameless defense of their action by The New Leader occurs while only a "little" imperialist sion. So almost simultaneously with war is in progress. But as is the case with the army and navy of imperialism in Nicaragua, the "little" war is preliminary training for a big one. The recent exercise in radio stoolpigeonism by the socialist party leaders while this "little" war goes on is a settingup exercise to fit them for more ambitious efforts when the big breadline, careful always to prevent war breaks out.

The Debs station must either be rescued from the hands of shadow of the "L," trying to find nual dog show of the Westminister less than the \$38.15 per week which The Debs station must either be rescued from the hands of feet along the Bowery, under the Propaganda outpost.

Stoolpigeonism in the name of Debs should arouse those workers who still accept the leadership of the socialist party to stern protest against the use of the glorious Debs tradition by socialist party bureaucrats against the interests of the working other thousands who still manage of the socialist party bureaucrats against the interests of the working of the socialist party bureaucrats against the interests of the working of the socialist party bureaucrats against the interests of the working other thousands who still manage of the socialist party bureaucrats against the interests of the working of the socialist party bureaucrats against the interests of the working of the socialist party bureaucrats against the interests of the working of the socialist party bureaucrats against the interests of the working of the socialist party bureaucrats against the interests of the working of the socialist party bureaucrats against the interests of the working of the socialist party bureaucrats against the interests of the working of the socialist party bureaucrats against the interests of the working of the socialist party bureaucrats against the interests of the working of the socialist party bureaucrats against the interests of the working of the socialist party bureaucrats against the interests of the working of the socialist party bureaucrats against the interests of the working of the socialist party of the socialist party bureaucrats against the interest of the socialist party of the socialist party of five in Philadelphia has number being in the less than \$20 a dogs are objects of special care, because they must become mothers of a socialist party of the sociali

Not only are the poor "really poor" but there are millions more than is ever indicated by the welfare workers. There is in the United States no government social insurance, unemployment insurance, sick insurance, maternity insurance, etc., whose work compels the collection of the mass of statistical data so necessary for an accurate estimate of the extent of actual poverty.

Furthermore, the individualism still rampant in the American working class, the remnants of the tradition that poverty in America is the fault of the poverty-stricken themselves, the dominant tendency to assign shiftlessness and laxness as the primary causes of poverty-a theory carefully nurtured in the columns of the capitalist press, the movies, the schools, etc.—all impel the average worker suffering from the effects of capitalism in this respect to conceal his misery rather than apply for and accept charity.

The belief in the unshakable stability of American capitalism, the idea that America is still a land of boundless opportunity-a survival of the free land epoch and the period of tremendous industrial expansion-all tend to make the poverty-stricken masses in the United States suffer in silence. Occasionally revolt breaks out but it is still correct to say that unemployment has as yet produced no great upheavals in the United States and Coxey's army is treated as a subject for ridicule. Neither has the fact that millions of American workers and their families are living at or below the subsistence level produced a really great mass movement.

The weight of tradition is one reason. Another is that among this section of the population there is the minimum of organization.

All this must be changed. The collapse of the permanent prosperity myth after so much emphasis put on it by the paid publicists of capitalism including the official labor leadership, will lay the foundations for revolts of this bitterly exploited section of the masses. Unaided and without some political clarity being infused they will fritter out into nothingness

can be drawn easily. Struggle on the basis of remedying the miserable conditions under which the lowest paid workers live-struggle for higher wages, against high rents and high prices-can be organized.

Demands for the establishment of the various forms of state social insurance can be raised and the campaign for a labor party as an important medium for securing these reforms carried on effectively.

There is another important angle to the work among the masses living at or below subsistence level: It is that in raising the demands for certain forms of government insurance a blow is struck at the class cooperation policies of the capitalists and their agents. The lack of existence of these palliative measures and the refusal of the official labor leadership to make a fight for them, allows the capitalists, with their welfare schemes and forms of social insurance, to appear as philanthropists, as though they were giving the workers something-over and above their ac-

The "full dinner pail" slogan can still be used by the capitalist political parties and with some modifica-tions is still used as in the days of Mark Hanna. It is our task to take advantage of the weakening of the permanent prosperity idea to direct the resentment of the poverty-strick-en millions towards the capitalist class and its government. To do this successfully we must expose the daily curse that capitalism is in the lives of the working class and show that only by struggle can even the most fla-grant evils be eradicated. Struggle around elementary issues of this kind will give the most exploited workers the training and experience for greatagainst imperialism.
