## Who Raid Meeting Objecting to Negroes' Presence HOUSTON, Texas, Oct. 15.—That Benjamin Gitlow, vice-presidential candidate of the Workers (Communist) Party, did not fall into the hands of the kidnapping gang which claimed to have captured him at Phoenix, Ariz, or the night of October 10, became known here last night when Gitlow appeared at the Houston Labor Temple to speak

The terror which began in Phoenix was continued here last night when the Houston police raided the meeting and attempted unsuccessfully to drive the Communist vice-presidential candidate out of the city. Six Houston POLICE AT HOUSTON

HOUSTON, Tex., Oct. 15.—At the last moment before the opening of the mass election campaign rally to be addressed by Ben Gitlow, candidate for vice president of the Workers (Communist) Party of America, the police shut the hall and began to drive the crowd away. A largesized crowd had gathered to listen to the address of Comrade Gitlow, for whose condition grave fears were enter-

tained by the workers. The reason for the unsuccessful attempt to break up the meeting is to be found in the fact that the Party made a special appeal in Houston to have the Negroes attend the meeting. The Central Trades Council, in whose hall the meeting was to be held, clearly stated that

it objected to allowing Negroes to enter the hall. The uniformed gangsters did not succeed, however, in breaking up the meeting. When the Labor Temple shut its doors to the workers, several hundred of them proceeded immediately to the hall of the Workmen's Circle. The police were in despair and then they arrested six of the most active workers in the meeting. Those arrested were Kelly, Lawrence, Croaf, Mark, Priddy and Friedman. Kelly and Marks are out on bail. Their case will come up imme-

diately for a hearing. The workers had expected police interference because there had been organized attacks on all Workers Party election meetings the

last few days throughout the south. DENOUNCES NEGRO PERSECUTION.

The meeting was well attended and showed a splendid spirit. Gitlow made a forceful speech, in which he denounced American imperialism and pointed out the imminent war danger. He condemned sharply persecution of the Negroes and emphasized the need of the workers of all races and colors to fight energetically for the program of the Workers (Communist) Party to secure complete equality for the Negroes in the United States.

Gitlow then made a strong attack on the government authorities and their terrorist agents in attempting to break up the meetings of the Workers Party. He went on to say that it was only the beginning, but that the Communists will hold their meetings despite all

In addition, within the next week the ranks of the striking and locked out workers may grow to a half million, as a conference between work ers in the Ruhr Rhineland and employers, held in Essen on October 12 failed, and the industrialists decided to lock out all the men beginning November 1. Two hundred thousand iron and steel workers are involved, but probably the miners will also be drawn into the conflict.

(By Long Distance Telephone To the Daily Worker.) SAN ANTONIO Texas, Oct. 15 .- As I was about to take a train from San Diego, California, on last Tuesday evening, October 9th, on my way to Phoenix, Ariz., to speak, I received word from William O'Brien, Com-

munist candidate for governor of Arizona, telling me that the police had forbidden the meeting in Phoenix, that the meeting would not be permitted on the Plaza, and that the hall of the Central Trades had been refused us for use for the meeting after all arrangements had been made for me to speak.

O'Brien gave instructions to wait for further word as to whether to proceed to Phoenix and on what date, or whether to go to the next meeting to be held at Tucson. I therefore waited at San Diego. On the night of the 10th, I decided that I had to leave at once for Houston in order to make the meeting there. I learned on my arrival at Houston that the reason I had not received further information at San Diego was that O'Brien had been arrested. On my arrival in Houston, I got in touch with Arizona through the National Office of the Workers (Communist) Party at New York and arranged to go back to speak at Phoenix and Tucson.

Only here in San Antonio did I learn about the miserable plot to kidnap me in Phoenix as revealed in the premature editorial in the Arizona Gazette of Phoenix.

I am determined to go back to Pheenix and to have a meeting there.

ATTEMPT TO STOP SAN ANTONIO MEETING.

The effort is now being made to stop the San Antonio meeting.

A Mr. Hood of the San Antonio post of the American Legion took up the fight to break up our meeting so that I should not be allowed to speak in San Antonio. He appealed to Governor Moody to send troops to escort me out of Texas. But there were some that took up the fight for free speech. Moody then refused to interfere, and Hood backed out. But the American Federation of Labor hall, the Labor Temple, was then shut to us and we hired another hall-Turner Hall. But this also was taken away from us. We have since taken another hall known as the La Gloria Roof Garden. I do not know whether they will break up our meeting or not.

"Tammany Hall has already taken steps, even if unsuccessful, to stop the spread of the working class propaganda of the Workers (Communist) Party among New York workers," the call states, citing the attacks made on Red meetings, and speakers by the Tammany-controlled fascists of Astoria, Brooklyn and elsewhere. At this point he gave in some detail the methods through which the department of commerce headed by himself had "assisted exporters in finding markets." In even greater detail he described how the great imperialist government at Washington "had used its influence against foreign raw goods combines.'

"The lives and property of our citizens abroad shall be protected," he threatened. "But this is not imperialism," he insisted.

Admitting that in at least four occasions, the republican administration had resorted to armed intervention to insure the profits of the big foreign investors, he argued that the previous democratic administration had done so nine times. From this he sought to argue that the U. S. government was becoming less imperialistic evading the obvious fact that the basis for the imperialist invasions had already been laid by previous administrations, hence the fewer number of new attacks.

(EDITOR'S NOTE: -The New York Herald-Tribune actually winted in its earlier editions such a story as is described here.)

From the best information that can be obtained here, the kidnapping plot included the plan to seize Gitlow on the train and to take him to Negales, Ariz., or probably to Mexico. Further steps of the plan are believed to have been to take Gitlow by automobile far into the desert, probably on the Mexican side, where he was to be left to find his way out as best he could. This is in accord with an Arizona tradition which recalls the famous Bisbee deportation case, when more than one thousand workers involved in a labor dispute were deported by force into the desert and left to shift for themselves.

As to what the plans were after reaching Nogales with the prisoner, something is indicated in reports published by several Arizona newspapers.

The Arizona Gazette, of Phoenix, was among the newspapers to which the kidnapping gang gave advance knowledge of the plot. This paper actually went to press with an editorial giving explicit details of the plot written as though it had already been carried through.

JOIN PARTY FORCES.

George J. Saul, Rocky Mountain sub-district organizer of the Colorado state organization of the Workers (Communist) Party, is joining O'Brien in order to strengthen the Party forces in a showdown fight.

It is learned here that the national headquarters of the Workers (Communist) Party has telegraphed City Commissioner Craigs of Phoenix, Arizona, requesting permission for a meeting on the Public Plaza, to be addressed by William O'Brien, George J. Saul and Ben Gitlow. As yet no reply has been received from the city commissioner. The meeting will be held regardless of whether official permission be granted by the city commissioner or not. All preparations are going ahead at full speed.

WORKERS INCENSED. The workers are greatly aroused over the organized campaign to disrupt the Communist election meeting. Tho the Workers (Communist) Party has fully complied with all the technical legal requirements for being on the ballot, government and Ku Kux Klan interference with working class meetings are the order of the day. The workers have not forgotten that this is the state where the Bisbee mass deportation outrage occurred. Arizona is dominated by some of the most notorious open shop copper barons in

WORKERS (COMMUNIST) PARTY

For the Party of the Class Struggle!

For the Workers!

Against the Capitalists!

## Statement of the Communist Party Against Capitalist Terror.

To the Members of the Workers (Communist) Party of America: To all Working Men and Working Women:

Terroristic actions of the official and "unofficial" organs and organizations of the master class are following each other in an ominous way. Every militant struggle of the working class and the Communist Party is answered by the capitalist class and its state power with increasingly ruthless brutality.

The bosses are carrying out their offensive against the workers on the whole front. The convention of the new National Miners' Union was attacked by the police and by the thugs of the labor bureaucrats. Every sort of terror was used against the striking textile workers in New Bedford. Not less than 800 textile workers have to appear before court under appeals during November. Election campaign meetings of the Communist Party have been broken up during the last few weeks in Ohio and West Virginia. The capitalist machine has been working overtime to keep our Party off the ballot in Nebraska, Montana, and Washington. The Young Workers League office in Los Angeles was raided, their documents seized, and a number of young workers arrested. In Detroit Fascist gangsters killed and wounded militant Italian workers. In Philadelphia, in Pittsburgh, in New York, election meetings of the Workers (Communist) Party are being broken up by the police. Everywhere Communists and workers are jailed.

The latest chapter of official and unofficial gangsterism of the boss class are the events in Phoenix, Arizona, and Houston, Texas. The election meetings of the Communist Party in Phoenix and Houston were raided, our comrades arrested. The capitalist press reveals a sinister plot, concocted by the various organizations of the capitalists with the participation of government organs and reactionary officials of the trade unions to kidnap Benjamin Gitlow, the vice-presidential candidate of the Workers (Communist) Party of America. The vile conspiracy failed. The official and unofficial terrorists were not able to get hold of our Comrade Gitlow, were not able to carry out their infamous machinations. The plot failed, but it was not their fault. It was due to the vigilance of our comrades and to mere accident.

The reactionary plot in Arizona, a state notorious throughout the whole world for the outrageous Bisbee case, where more than 1,200 workers were driven into the desert was revealed by the brazenly frank editorial of the Arizona Gazette, organ of the copper barons' terrorism, expressing the true class nature of the conspiracy and all factors of sham American democracy:

"Citizens of Phoenix, labor union, city officials and the police department made it very plain to Benjamin Gitlow, Communist candidate for the vice-presidency that Phoenix was too American to permit the revolutionary creed of Red Russia to be preached in Phoenix. . . . If a Communist was ever elected, he would utilize the legislative bodies as a forum to mobilize the working class for militant struggle to abolish the present economic and political order."

All factors of capitalist reaction, all "respectable" pillars of the present capitalist society united against the Communist election campaign, "in refusing a place to spread the gospel of World Revolution.

The Ku Klux Klan, which has as its first aim the perpetuation of the mastery of the white capitalists and plantation-owners of the South over the Negro masses, took part in the conspiracy, because the Workers (Communist) Party is the fearless champion of struggle against the oppression of the

The American Legion, that notorious American variety of Fascism which preaches 100 per cent patriotism and spreads the poison of military preparedness, was the organizer of the plot, because it wanted to hit, in the person of Gitlow, the Communist Party, which is the party of true internationalism and carries on a relentless struggle against imperialist war.

The American Federation of Labor bureaucrats, who are the champions of class collaboration with the bosses, gave a helping hand to the outrageous plot, because the Communist Party is the Party of class struggle. stands for the organization of the vast millions of unorganized workers and is the fearless leader of all strike struggles.

The "citizens" of Phoenix, members of the boss class who defend wage slavery, exploitation and oppression of the workers, co-operated in the vile conspiracy, because they know the Communist Party is the deadly enemy of capitalist society and fights for the emancipation of all toilers from wage

The Police Department of Phoenix, the state authorities of Arizona, the so-called "liberal" governor, Hunt; the Department of Justice at Washington, are all part of the united front of the bosses, the American Legion, the Ku Klux Klan and the American Federation of Labor officials, against Communism, because the sole purpose of capitalist state power is the defense of the interests of the bosses against the working class.

All forces of capitalism are united against the workers. All forces of the working class must unite to defend the stalwart leader of the struggles of the working class—the Workers (Communist) Party of America.

Workers, comrades! You must understand the Communist Party is attacked only because it fights for the interests of the workers. The government is breaking up our election meetings. The small czars of the reactionary states are trying to keep our Party off the ballot because we Communists are exposing the true nature of capitalist democracy, because in the present tense international situation we are fighting the war plans of the United States government, because we denounce and fight U.S. military interven-

tion in Nicaragua. Comrades, workers, we must draw the lessons from the concentrated attack of the capitalist class and its government against the workers, against the Communists. The breaking up of the Communist election campaign, the cutting off of the propaganda for the platform of the only working-class party of this country means throwing overboard the last pretext of the much-

Leftward Tendencies. The attitude of the All-Canadian Congress of Labor toward the A. F. of L. and its branches in Canada was clearly expressed in an article which recently appeared in its official organ under the heading "The A. F. of L. and American Imperialism."

By Fred Ellis

The press reports an attack made by the police and 200 fascists on the Conference of miners in Pittsburgh.

EFORE the war, street dealers and railway stalls in the cities of Europe sold small volumes with gaily colored bindings: "The Adventures of the Famous American Detective Pinkerton."

These "adventures" had of course nothing in common with truth. But the "famous detective" himself did exist. He died in 1924, but his disciples still live.

The "Business" of Police.

The activities of Pinkerton and his followers are strikingly and definitely characteristic of contemp-America, or, more strictly speaking, of the United States of North America. In the United States, where "money making" is the object of everything, the police too form a kind of branch of indus-

Numerous police undertakings (socalled offices), on the same footing as the police, are engaged, not by any means in the investigation of criminal cases, as we are made to believe of Pinkerton in his "adventures" but form one of the main pillars supporting the American bourgeoisie in its combat against the labor movement.

These offices furnish the employers with agents and provocateurs for spying on "suspicious" workers in their factories. They undertake the murder of the revolutionists most dangerous to the capitalists: the workers' leaders. When great strikes break out, they provide the employers with bands of armed men, drawn from the hooligan class, and ready to commit deeds of the utmost violence against the strikers. These same offices organize special bands of armed roughs for reaking up meetings, workers' gatherings, and conferences.

vaunted capitalist democracy of the bosses, exposes this democracy in its whole snameless nakedness as a capitalist dictatorship. Comrades, the capitalists and their government are fighting the Com-

munist Party, because our party is growing, is sinking its roots deep among the masses, and is becoming a serious factor in the political life of the country. The break-up of our election meetings, the attempts to keep our ticket off the ballot, the plot against our vice-presidential candidate is the answer of capitalist reaction to Passaic, to the miners' strike, to the heroic struggle in New Bedford, to the world-wide Sacco and Vanzetti campaign, to the organization of the new militant trade unions, to our national nominating convention, to our platform of the class struggle, to our uncompromising election

The organ of the copper-barons' terrorism, "The Arizona Gazette," is right when it states: "If a Communist was ever elected he would utilize the legislative bodies as a forum to mobilize the working class for a militant struggle to abolish the present economic and political order.

Our whole election campaign serves only one aim: mobilization of the working class for militant struggles!

The capitalist newspaper is right; All of our struggles aim to achieve only one goal; the abolition of the present capitalist economic and political order of exploitation and oppression!

Members of the Communist Party! Close your ranks! Wage the election campaign with redoubled energy! We have to answer the terror of the master class with intensified election struggle by the Communist Party.

More than ever we have to carry on the most energetic struggle against an imperialist war!

More than ever we have to fight tooth and nail for free speech, propaganda and assemblage for the working class! We must resist the organized terrorism of the American Legion and

the Ku Klux Klan with the organized defense of the working class. The Workers (Communist) Party of America calls upon all Party mem-

bers and the working class as a whole to organize for self-defense, to build a powerful organization of "workers' defense corps" for the purpose of protecting our rights of speech and assembly. We state boldly and frankly: We will fight for these rights at all costs.

Today we need money and we need it immediately! Our Party must have im-. mediately not less than ten thousand dollars to intensify the election struggle, to fight against capitalist reaction; to organize and spread everywhere workers' defense corps.
