TEN THOUSAND DOLLAR FUND TO DEFEAT BIG WAVE OF VIOLENCE AGAINST COMMUNIST NOMINEES

Suppression Can Be Stopped Says Central Committee of Party

Lovestone and Foster Call on Working Class to Respond

In the face of reports from many sections of the United States of a wave of violent and suppressive actions against the Communist election campaign, the National Headquarters of the Workers (Communist) Party, 43 E. 125th St., yesterday issued a ringing call to the working class of America for an immediate fund of \$10,000. NECESSARY TO MEET TERROR.

Jay Lovestone, executive secretary of the Party, yesterday characterized the statement which was issued in making the appeal as "a political document and not a mere routine call for funds.

'We cannot fulfill our duty to the working class in the critical time of this election campaign," Lovestone said, "without fighting every inch of the ground on which the arrogant American capitalist class declares the boasted principles of 'democratic election' do not apply to the Communist working class candidates.

REACH BIG TERRITORY.

"We have shown a strength already which has astonished our enemies. We have reached a territory already exceeding the area that was ever covered before by a party claiming to be, as the Communist Party actually is, the party speaking for the working class.

"This explains the frenzied effort of the bourgeoisie by every 'legal' and 'illegal' means to keep the Workers Party off the ballot and to drive the workers' candidates off the public platform.

"But we are going to meet this attack and defeat it. However, we have never spread over so much territory, never had so many fights on so many fronts, as we have today. Therefore our expenses have been beyond our strength. Additional funds have become a question of life and death to our campaign.

"Therefore our appeal is a political document addressed to the American working class." "A CAPITAL EMERGENCY."

William Z. Foster, Communist candidate for president, who returned to New York yesterday between campaign meetings, told the Daily Worker reporter that the Party meetings at which he spoke in "virgin" fields of the southern states were an experience of tremendous significance.

"One of the outstanding facts," he said, "is that our Workers (Communist) Party is breaking into the 'solid south,' a 'solid' reservoir heretofore of reaction. The police attacks and the extra-legal violence of the ruling class in the attempt to prevent the Communist Party's voice being heard by the enslaved workers, black and white, are a tribute to our Party's attainments in this election. MUST FIGHT.

"But let no one make a mistake-we will attain nothing in this campaign but what we fight for. The appeal of the Central Committee for funds to carry on the campaign must meet immediate and big response. The depletion of our Party resources is in a very material way a weakening of our Party's capacity for action. It is a capital emergency. We must go thru and wind up this campaign with a smashing drive for the support of the masses of the workers.

"I am confident that the workers will respond." The statement of the Central Committee appears in this issue of the Daily Worker, occupying a full page.

Communist Candidates to Speak at Unity Cooperative Mass Meeting in Harlem Tonight

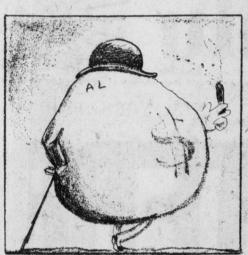

This member of the "Royal Order of Bedsheets" is an ardent defender of 100 per cent Americanism and pure womanhood. His favorite pastimes are burning Negroes and raping their daughters. The reason he exists is because he serves his master by terrorizing the workers of the south into subjection. Truly, he is a profitable investment.

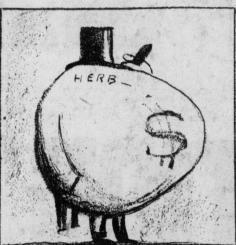

"Show me one of them Comoonists," says this mainstay of American imperialism. His job is smelling out all workers whose ideas do not coincide with capitalist traditions of exploitation and race hatred. Mussolini is his idea of a 100 per cent American. His "fighting" slogan is "Hurrah for the Glory of War." In this way he is very valuable to J, P. M. for the next imperialist bloodbath.

This "guardian of the peace" does not rank so high as his associates, but nevertheless he is indispensable to the bosses in breaking up picket lines and jailing striking workers. The requirements for his job are: Height—8 feet; Weight 250 lbs.; Intelligence—minimum.

This is no one else but the famous gentleman in the Brown Derby, recommended by Tammany Hall for president of the United States. This alone, plus his career as governor of the Empire state, ought to reassure J. P. that he is a safe proposition.

The famous inventor of that slogan. "Eat more spaghetti and save wheat." Evidently he will have a chance to use his "engineering" abilities in the impending imperialist slaughter. His specialization in capitalist efficiency and experience in the last imperialist debauch makes him the most likely candidate.

At the least sign of the workers' fighting spirit, these servants of the master class quake in their political boots for fear of losing their jobs. The platform of the Workers (Communist) Party certainly is a bone in their throats as/seen by the terror inaugurated against the Communist candidates by all the forces of reaction. Down with these lackeys of Wall Street! Vote Communist.

For the Communist Election Campaign --- Against the Capitalist Terror

To Every Member of the Communist Party! To All Working Men and Working Women!

The election campaign has reached its last stage. The capitalist terror against the working class candidates, against the Communist Party, is becoming ever more brutal and ruthless.

Big business is spending millions publicly and tens of millions under cover to finance both of its political parties. Even the Socialist Party, the party of small business, is receiving its crumbs from the table of the rich.

Thirty-five million copies of the boss press are vomiting each and every day their capitalist poison, their anti-Communist bias. Even the ocialist Party and its preacher candidate receive their daily morsels of "respectable publicity."

The election campaign of the Communist Party serves only one goal: the mobilization of the masses of workers against the master class. The aim of the Communist candidates is not to grab offices but to spread the propaganda of the class struggle, to expose the celebrated American capitalist democracy in all its ugly nakedness as a

The Communist Party is already on the ballot in 34 states. Our speakers and organizers have penetrated such new sections of the working class as had never before heard the teachings of Communism. The election campaign of our Party, the propaganda of our candidates is penetrating the "Solid South." The Negroes, the most oppressed section of the American masses, are beginning to see the Communist Party as their fearless champion, as their spokesman against white oppression. During the whole course of the election campaign the major capitalist parties, and likewise their small brother, the Socialist Party, have faithfully kept the "gentleman's agreement" to maintain a deadly silence on the Negro question. The election campaign of the Communist Party in the South violated this aristocratic 'gentleman's agreement" in the most plebian, most revolutionary way. For the first time since the Civil War there now appears in the South political party which declares its struggle for the liberation of the

The election campaign of the Communist Party is first of all a relentless struggle against imperialist war. The agencies of the ruling class, as also the American Federation of Labor, are making increasingly active propaganda for the imperialist war. The socialist party is a partner to the capitalist war conspiracy. Only the Communist Party is fighting imperialist war; only we are trying to spread anti-militarist propaganda among the military forces. Our anti-war literature is being distributed in scores of thousands of copies throughout the whole country.

The master class is beginning to realize that the Communist Party is a new factor in the political life of the country. For the first time in the history of this country there appears a really revolutionary party of the working class, a party which conducts its election campaign not for parliamentary gains but for revolutionary

The growing wave of capitalist terror against the Communist Party is nothing but the receipt for our uncompromising revolutionary election campaign. In 1919-20 the post-war terror against the Communists was a sign of our weakness. In 1928 the increasing terror against us is a symptom of our growing strength.

The state apparatus is trying to force our Party off the ballot. In several states we are still engaged in a struggle to put the Hammer and Sickle on the election ticket. The Communist campaign prociegs are broken up everywhere. Our candidates, speakers and organizers are going to jail by scores. Leading Communists are being jailed in the southern states, because they appear as the champions of the Negro people. Communist rank-and-filers are dragged before courts, because they are the most courageous leaders in every strike, on every picket-line. Members of our Party and of our brave Young Workers (Communist) League are being imprisoned, beaten up, tortured in jail for the distribution of anti-militarist, anti-war leaflets. Communist Party headquarters are being raided, Communist Party organizers are being arrested, because our Party is the only party of proletarian class struggle in this country. The socialist party enjoys the complete protection of capitalist law. Not a single meeting of the socialist party has been raided, not a single speaker or organizer of the socialist party has been jailed throughout the whole election campaign. The master class is not afraid of the socialist party. Rather it gives a helping hand to its willing errandboy, and is not stingy with occasional little trips for prompt and efficient service.

Comrades, workers! We are in the midst of a big struggle. We must now increase our activities ten-fold, hundred-fold. Our greatest weakness is lack of funds. Despite all the sacrifices of our members and the workers generally, who have always contributed most generously to the campaign of our Party, we are now faced with the grave danger of being unable to consummate our big election struggle and our fight against the capitalist terror because of shortage of

Trenton is a city with a popula-tion of about 130,000 people. According to a local capitalist paper which investigated the local unemployment situation last winter, normally about 27,000 workers of this number are productive workers. Last winter, according to this statement, there were only 23,000 productive workers. Over two and a half million dollars have already been donated to the democratic campaign fund, and more to the republican fund. These donations represent investments of captains of industry which are calculated to bring in heavy returns. Workers, too, must invest in their party. Workers must contribute all they can to the fight our Party is waging against the po-

For the Party of the Class Struggle!

Against the Capitalists!

For the Workers!

Resist the Capitalist Terror

The final stage of the 1928 election campaign is marked by the unleashing of the most ruthless capitalist terror against the working class. The past week has been marked by so many attacks against the election campaign of the Workers (Communist) Party that the mere recital of them reads like the narrative of a year's ordinary de-

As the campaign draws to a close a veritable avalanche of money is turned into the campaign funds of the old parties and their supporting organs: the capitalist press, the radio, the pulpit, the moving picture industries. Every conceivable means of publicity is utilized to the limit for the purpose of spreading the poison virus of capitalist illusions. Besides the funds spent directly through open channels there are countless subterranean forces mobilized against the campaign of the Party of the class struggle -the Party of the Hammer and Sickle-the Party of working class revolution.

The American Legion, the Ku Klux Klan, the catholic hooligans of the Knights of Columbus, the gangsters, the gunmen, the thugs of every variety are mobilized against the Party of the working class. Election time is the period in which the whole riff-raff of · capitalist society, the very scum of the earth, is openly bought to defend the interests of the upper strata of capitalist society.

It is not at all strange that our Party has Theen attacked in the South. We have for the garfirst time invaded that territory with a direct appeal to the racial and class interests of the Negro masses, the most exploited section of American society. Nor is it surr prising that our meetings should be suppressed and our candidates arrested in Wilmington, Delaware, the dynasty of the Du-Pont powder and chemical trust, on this identical Negro issue. Wretchedly paid, horribly exploited Negro labor is depended upon to keep the wheels of the munitions plants turning. The Party that strikes at the powder and chemical trust strikes at the very heart of imperialist war preparations. Nor is it at all extraordinary that the railroad interests, the grain trust and the packinghouse trust should unite to prevent our Party

going on the ballot in many states where the impoverished farmers are showing increasing signs of revolt.

In face of the terror organized against us on every side, the Workers (Communist) Party has given an excellent account of itself in this campaign. But, results thus far have not been accomplished without an enormous expenditure of money and energy. The situation has developed to such proportions and the demands are so great that, in order for the campaign to continue, it is absolutely imperative that funds be instantly rushed to our national campaign headquarters.

Money is urgently needed NOW; at this moment; in order that the campaign of the class struggle may be waged to the end.

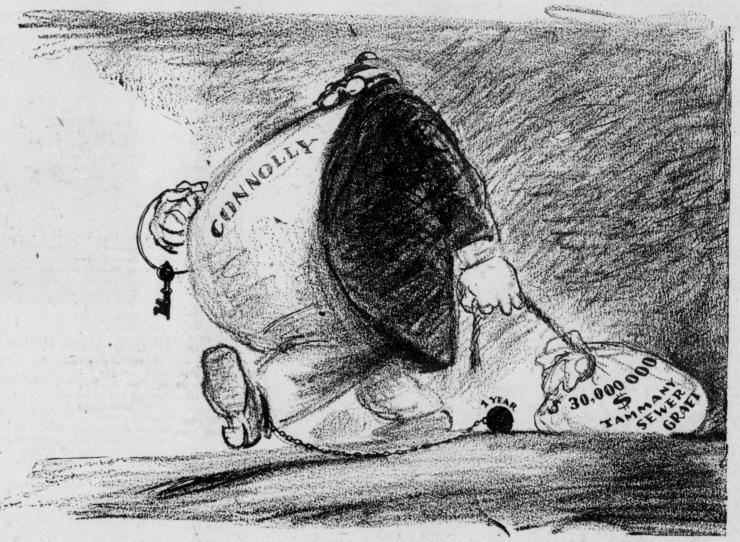

Our readers know us for what we have done in the class struggles of the American working class the past few years. We have borne the brunt of every fight whether it be in the mines, the needle industry, textiles, traction, or elsewhere.

The one thing that is of paramount importance to the working class in this campaign is the fact that for the first time the Workers (Communist) Party is a vital factor in the political life of the country. It would be the most shameful conclusion of all our efforts if we were unable to meet the increasing demands for unrelenting resistance to the capitalist terror only because of a shortage of funds. It is true we can never expect to compete with the capitalist parties in raising funds. We do not need to. Where they need millions upon millions to bribe and corrupt the electorate, to pollute the air with the sophistry of the Hoovers, the Smiths, the Thomases, we need only sufficient to enable us to carry on our campaign among the oppressed and exploited masses.

Let every reader of the Daily Worker immediately rush funds to our national campaign headquarters so that the last three weeks may be marked by an ever increasing defiance to the forces of reaction and terror. Let every individual contribute as much as possible and also induce labor, fraternal, cooperatives and other working class organizations to make quick contributions.

This is an emergency situation that requires emergency action.

U. S., Britain Struggle In Latin America

By Fred Ellis

(Continued.)

At the last Pan-American Congress at Havana, a project for a Pan-American railway, and a highway which would connect New York with Buenos Aires, was adopted Each Latin American country will have to build its part of the line financed of course, by the United States. Almost the whole stretch be-tween New York and the Panama Canal can at present be travelled by railway except a short distance in Southern Mexico and Guatemala. The building of this railroad connection through Colombia, Peru and Bolivia is contemplated. This will be connected with the Argentine system. It is interesting that of all countries Argentina, alone, which is still to some extent under British influence, was quite hostile to this plan, though it would have the least expense in this project, as it has a considerable railroad system to all its frontiers with Paraguay, Bolivia

Americans Build Roads.

Though this plan, the materialization of which is not expected within less than ten years, may be delayed considerably more, American engineers supervise everywhere the building of good automobile roads. American trucks and passenger omnibus connections are already functioning in some parts and are quicker and cheaper than railways. They are already competing with local railway systems. An important move against the

British-owned communication system in Colombia, between the coast and the capital Bogota, is nearing its completion. Up to this time the travel from the sea-coast to Bogota was made possible only by the British-owned railways and Naviga-tion Company, which owns the railway line from the port and railway terminal of Cartagena, to the river but with those ribbons there will be Magdalena River.
