

GERMAN MENNONITES IN U. S. S. R. DISILLUSIONED IN ANTI-SOVIET PROPAGANDA ABOUT EMIGRATION

(Wireless by Improcessors) MOSCOW, Nov. 19.—The intense and widespread anti-Soviet campaign carried on in the bourgeois and socialist press regarding the Soviet citizens of German blood who would—or did—like to emigrate to Canada, is collapsing.

and journeyed to Moscow as the first stage in their emigration to Canada are returning voluntarily to their homes in increasing numbers. This is due to their disillusionment with the promise held out to them that the German authorities would aid them. But the German authorities are making no proper provisions to secure transport to Germany, while the Canadian government shows an unwillingness to accept these immigrants.

NEW TERROR IN MANCHURIA, 700 MORE ARRESTED

German Consul Denied Permit to Assist

(Wireless by Improcessors) MOSCOW, Nov. 19.—There is a new wave of terror against Soviet citizens in Manchuria, authoritative dispatches from Harbin stating that there have been 700 new arrests in the last few days.

The condition of the thousands held in prison are frightful, as may be seen by the many attempts at suicide of those who cannot longer bear the ill-treatment.

'His British Majesty', Says Henderson, Has Not Yielded Mexico

LONDON, Nov. 19.—Just to remind the Yankees on the day U. S. imperialism forced the "election" of Ortiz Rubio as president of Mexico, that British imperialism is not forgetting that part of Latin America, a question was put to Henderson, foreign secretary, in the Commons Monday—about the defaulting bonds of the Mexican external debt.

Henderson replied that "His Majesty's government (that is, the "labor" government) is not in a position to take any steps in regard to these defaults until it is approached in the matter by properly qualified agents of British bondholders, who are, of course, already in collaboration with American bondholders.

LABOR REGIME LAYS BASIS FOR WAR UPON USSR Henderson 'Interprets' Comintern Activity

LONDON, Nov. 19.—Arthur Henderson of the "labor" party and British foreign secretary, informed the House of Commons that the "labor" government regards the Soviet government responsible, under the recent protocol signed by both the British and Soviet government, for propaganda of the Communist International.

The protocol merely provides for confirmation of the terms of the treaty of 1924. There is no provision against the Communist International in the 1924 treaty negotiated by the first "labor" government, since the question of the Communist International could not be raised against the Soviet government unless the anti-Soviet activities of the Second International of which the "labor" government leaders are officials also being questioned.

LABOR PARTY TO ATTACK JOBLESS Thomas Begins With a Blow at Relief

LONDON, Eng., Nov. 15.—J. H. Thomas, Lord Privy Seal, and the "labor" government's wise man on unemployment, yesterday told a gathering of British employers that he disagreed with the "Labor" Party platform—on which MacDonald was elected and Thomas appointed to enforce—concerning unemployment.

Thomas said that he agrees with the employers' idea, which is in effect that unemployed workers simply starve to death. Thomas expressed this by saying he was against unemployment compensation because it, so he says, "is calculated to destroy and sap that independent spirit which built up the British race."

At the same time, the "labor" government of Australia has cabled a request to British laborites to abandon the proposal of sending unemployed British workers to Australia, the British government paying their fare, as there is a great unemployed army in Australia also.

KILLER ADKINS PLACED ON STAND Sheriff Tries to Jail Victims His Shots Miss

he would make the strikers put back the furniture of a seab which they had thrown out of a company house. G. C. Crowley, a local barber, said he heard a striker ask Hoffman: "What are you going to do? They are throwing us out of our houses."

According to Crowley, Hoffman replied, "I am going to do nothing. Why did you let them start?" This testimony, said Hoffman as a restraining influence on the militant workers seems to be part of a general policy to concentrate fire on the rank and file strikers, and save, if possible, the U.T.W. officialdom, which is recognized by many southern mill owners as friendly to the employers.

A change of venue was granted the mill lawyers for the only gunmen out of Sheriff Adkins' gang of 20 that will ever be placed on trial. They are: B. L. Robbins, W. A. Fender, Dave Jarrett, Jim Owens, Charles Tate, Taylor Greene, W. T. Wiggs and Robert Ward.

Big Interests Clash Over Tariff on Sugar

WASHINGTON, Nov. 19.—The Senate, unable to reach any agreement on the sugar schedule of the tariff bill, postponed the matter indefinitely until some agreement can be reached among the senators.

A bitter fight over the tariff schedule on sugar has been made by representatives of sugar manufacturing interests in Louisiana and Colorado on one hand and importers and refiners of Cuban sugar on the other. Millions of dollars have been spent by both sides in an effort to get favorable legislation.

The third issue of "The Hook," official organ of the committee, a four-page mimeographed publication, remarks that they are intended especially for the port of Baltimore but are to be sent to the National Longshoremen's Committee of the League.

IN THE SHOPS

'Keep 'em Humble' Is Slogan of Greenville Mill Bosses

(By a Worker Correspondent) GREENVILLE, S. C. (By Mail).—Three sewing rooms in Greenville, S. C., but this one beats them all. Two floors in an old shabby building. Downstairs the operators and cutters, upstairs the operators, and finishers. About 25 young girls and some old women in all.

We must sit and work our lives away. Snap, snap, snap—four cents a dozen. A good seamstress can only get 40 dozen snaps sewn on in a day. That would only amount to \$1.60 a day. But none stay long enough to get that fast.

Every week we have new girls. Old ones quit, new ones hired. The "sweet" floor lady comes along and puts you on the back. "My, you're doing fine," but won't even tell how much you are working for. Who is she? What is she there for? To watch us, to fill our minds with flattery.

DEATHS OF VARE CONSTRUCTION TOILERS HUSHED

Murder on Job by Co. Is Frequent

(By a Worker Correspondent) PHILADELPHIA (By Mail).—Monday morning, about 9:30, on the Pennsylvania Norristown Line, the Vore Construction Company was conducting work for the electrification of the P. R. R. This same morning the workers were talking about an accident. We asked the timekeeper about the accident and he said that a man was scratched a little.

Some time ago there was a similar case in which a worker was killed by an express on the same line. It was not known until the next day that there even was an accident.

CHEAT CAROLINA TOBACCO FARMER

By GEO. SAUL. WINSTON-SALEM, N. C.—Here, where the R. J. Reynolds and the Brown-Williams tobacco companies exploit 17,000 colored and white workers worse than even the textile workers are exploited, the farmer tobacco raiser fares damned poorly, too, and are fooled, looked down upon and regarded as imbeciles by the bosses.

They say this whether it is the first or the last sales. Near each warehouse is someone with a monkey or a trained dog, which the owner charges the farmer a nickel to see. Photographers beg to take their pictures. Second-hand clothes dealers try to unload upon you. Medicine shows, where "cure-alls" are sold, lose not a moment of the day. "Bargain counters" are numerous.

Had the bosses' court succeeded in railroad Graham he would have been sentenced to 12 months in prison and to a fine of \$500. Except for one small notice, the press in this section suppressed the news of Graham's trial.
