FORCE PITTSBURGH TO FEED AND LODGE HUNGER MARCHERS

Geneva Hears U. S.-Japan War Plots

GENEVA, Nov. 24.—All the war elements present in the bitter struggle between United States and Japanese imperialists for supremacy in the Pacific and control over China were further sharpened in the debate on the Manchurian question today, while behind the scenes the efforts were intensified to divert the increasing war danger against the Soviet Union.

Yosuke Matsukata, Japanese spokesman, again quoted liberally from the bloody pages of U. S. imperialism to justify Japan's robber war against the Chinese people. In addition to citing the murderous record of Wall St. imperialism against the peoples of Nicaragua, Cuba, etc., Matsukata cited the attempt by the U. S. government to drown in blood the mass resistance of the Chinese people to American dollar penetration and control during the 1905 boycott against American goods.

Imperialist Slanders In his impudent attempt to deny the Chinese people a voice in the control of their country, Matsukata quoted the characterization by U. S. imperialism of the 1905 boycott as "designed to blackmail concessions" and as "an unwarranted attempt of ignorant people (the Chinese working-class) to assume the functions of government and meddle with international relations." He placed on the same plane the boycott of Japanese goods with the wholesale slaughter of tens of thousands of Chinese people by Japanese bombing planes and troops in Shanghai and Manchuria, declaring the boycott which has affected the pockets of the Japanese capitalists "as bad as military war, if not worse."

Matsukata devoted much of his time to a futile attempt to refute the authenticity of the Japanese Document drawn up by the Japanese imperialists in 1927 and whose program of a robber war against China and war provocation against the Soviet Union is being faithfully carried out in the present period. Matsukata declared the document a forgery, despite the fact that several colleagues of Premier Tanaka have admitted its authenticity. He made no effort to explain the present Japanese adherence to the lines of action laid down by the Tanaka Document, which states:

"In the interests of self-defense and the defense of others (1) Japan cannot remove the difficulties in Eastern Asia, without pursuing a policy of 'blood and iron'... If we wish, in future, to gain control over China, we must crush the United States, i. e., before towards the States as we did during the Russo-Japanese War. In order to conquer China we must first conquer Manchuria and Mongolia." (Page 735).

For War on USSR. "If the Chinese-Eastern Railway belonging to Soviet Russia develops in this district, then our new continental policy will receive a blow which will inevitably bring about conflict with Soviet Russia in the near future. In this case we shall again be obliged to play the role we played in the Russo-Japanese War. The Chinese-Eastern Railway will become ours just as the Southern Manchurian railway became ours and we shall seize Giron, as we seized Darien."

In the light of recent events in Manchuria, comment would be superfluous.

SCOTTSBORO BOYS ARE IN DANGER

Bosses Mobilizing Lynch Gangs NEW YORK.—William Paterson, General Secretary of the International Labor Defense, announced yesterday that the L. D. attorneys were vigorously pushing the fight to have Roy Wright and Eugene Williams released on bail. At the same time, proceedings were started to force the removal of the other seven Scottsboro boys from the death cells in Kilby Prison, Montgomery, Ala.

The lynch bosses, blocked in their attempts to rush the boys forth to the electric chair, are whipping up lynch sentiment through their press and mobilizing lynch gangs to carry through their plans by "other means." It is urgently necessary that the L. D. receive funds at once to carry on the Scottsboro fight. Workers and their organizations, and all elements interested in the fight for the Scottsboro boys, are urged to rush funds at once to the International Labor Defense, 80 East 11th St., New York City.

The National Hunger March demands \$50 Federal winter relief and ten dollars additional for each dependent.

MANY VETS ALREADY IN WASHINGTON

At Least 3,000 Now in Capitol to Demand Bonus Payment

N. Y. VETS MARCH TODAY Roosevelt Continues Fight on Bonus

WASHINGTON, Nov. 24.—While new contingents of veterans throughout the country are starting on the National Bonus March to Washington, large numbers of unattached veterans are drifting into Washington daily to take part in the mass demand at the opening of Congress Dec. 5 for immediate payment of their back wages, known as the bonus and for no out in the compensation to disabled vets. Though exact figures are impossible to obtain, it is believed that at least 3,000 veterans are now in this city. The movement of individual ex-servicemen towards Washington began shortly after they were forced out and attacked and chased out with guns and tear gas on Bloody Thursday, July 28. It has however, taken on a new impetus since the beginning of the preparations for a second national bonus march.

The Veterans' National Rank and File Committee announces it will open headquarters in Washington next week to make preparations for receiving the bonus marchers, for the holding of the bonus march conference, and for organizing the Wash-

On to City Hall Today to Demonstrate for Vets' Relief and Bonus

Veterans of Greater New York, all out for the Relief and Bonus March to City Hall today! The veterans, supported by the unemployed, will present their demands for cash winter relief, food trucks for the bonus marchers to Washington and other demands. The vets will assemble in Union Square at 10 a. m. and arrive at City Hall by 1 p. m. Mayor McKee has promised to be present to receive the delegation of 50 who will present the veterans' demands.

(For further details see page 2)

ington vets. The headquarters will be located at 905 "I" St., N. W., and all veterans in Washington are called on to report there where they will receive a real rank and file welcome. While the National Bonus March is rallying new sections of veterans daily, the Congressional Committee on Veterans Affairs is calling a meeting on Dec. 1 to discuss ways and means of depriving the ex-servicemen of most of their bonus and of stopping disability payments to more than 30,000 veterans. This is in line with the campaign being carried on by the bitterly anti-veteran National Economy League and the proposals announced Tuesday by Frank T. Hines, administrator of veterans' affairs.

Roosevelt Continues to Fight Vets. That Governor Roosevelt is continuing to support Hoover's policies by opposing immediate payment of the bonus is clear from reports concerning his four-point program for the coming session of Congress which he worked out with democratic party leaders on his visit to the capitol. This program entirely ignores the question of the bonus.

Nevertheless, the demands for the bonus has assumed such mass proportions that it is certain to be brought up at the next session of Congress. Only a Big National Bonus March and a fighting demonstration of veterans in Washington on Dec. 5 can force Congress to pass a bill giving immediate payment without cutting a cent from disability allowances.

Emergency! Need Trucks for National Hunger Marchers!

NEW YORK.—The New York contingent for the National Hunger March needs trucks to carry it to Washington. All friends and sympathizers are urged to report at once all trucks in good condition that can be loaned or obtained reasonably. The marchers will provide drivers if necessary. Saved from Death

Joseph Orloff, charged with murdering a mine guard, whose life has just been saved by the action of the I.L.D. His union, the U.M.W.A., has refused to take up the case.

PARTIAL VICTORY IN ORLOFF TRIAL

May Give Miner Six Months Jail

MORGANTOWN, W. Va., Nov. 24.—The jury verdict in the Orloff trial is "involuntary manslaughter." The sentence to be handed down on Friday will probably be six months. Miners immediately secured bail of one thousand dollars for Orloff.

While satisfied that this is a partial victory the International Labor Defense will protest the verdict and file an appeal demanding a new trial. The defense is protesting especially the slanderous remarks of the prosecutor who attacked the foreign born. The case of Orloff held on the same charges will come up Friday.

This partial victory, saving a miner from the electric chair, has been due to the immediate mobilization of the I. L. D. The continuation of the fight is necessary in order to free Orloff. The Pittsburgh office of the I. L. D. urges that funds be sent immediately to 606 Lyceum Building in that city to pay for further legal expenses.

READY TO JOIN IN WASHINGTON

Officials Try Force But Fear Masses

WASHINGTON, D. C., Nov. 24.—A conference of Communist Chest agents here last night was informed by their officials that: "unless the quota for relief is raised in the District of Columbia, the unemployed here will join the National Hunger Marchers when they get here."

Yesterday morning, L. H. Ferguson, a war veteran, and Amelia Shelton were arrested while canvassing for housing and funds in preparation for the Hunger March delegation. They were arrested by a member of the Communist Chest on the grounds of soliciting alms. This is an attempt to prevent collecting food and funds for the Hunger Marchers and is in line with the District of Columbia's orders to "discourage" the marchers.

Tuesday night at a city-wide meeting held in preparation of the Hunger March four dicks came in and used every provocative measure to break it up. They did not succeed and were kicked out. A false fire alarm was also turned in; the firemen came into the meeting, but the meeting went on and arrangements were made to carry on the work of the Hunger March.

Berlin Toilers Score Hitler As He Asks for Full Power

BERLIN, Nov. 24.—Thousands of Berlin workers demonstrated in front of Hitler's hotel and the president's palace, shouting "Down with the fascists," "Von Hindenberg, Perish." The workers engaged in a number of fierce struggles with the police, who savagely attacked the demonstrations which were under the leadership of the German Communist Party, the leader of the iron proletarian Red Front against fascism.

PREVENT MOONEY PLEA Workers With Banners Join With Delegates

CINCINNATI, O., Nov. 24.—Large squads of police and detectives were mobilized here today at the request of President Green to prevent the Committee of 25 delegates elected by the Rank and File Conference for Immediate Relief and Unemployment Insurance, holding its first national conference, from entering the convention hall where A. F. of L. officials have spent two days listening to governors, mayors, senators, archbishops, and American legion commanders.

Mooney Representative Barred. Tom Mooney's personal representative was also refused permission to address the convention.

Groups of local workers with banners carrying the unemployment demands accompanied the Rank and File delegation to the Netherland-Flora Hotel where the A. F. of L. convention is taking place.

In spite of all police precautions, Secretary Weinstein of the Rank and File Conference spoke to the workers, who had crowded their way into the fashionable hotel lobby. The final session of the Rank and File Conference was held at Labor Temple Hall following this demonstration. The conference denounced the action of the A. F. of L. bureaucrats and took steps to make their action known to the membership.

Support Hunger March. A delegation was elected to take part in the Hunger March.

Scott, personal representative of Tom Mooney, was greeted enthusiastically by the Rank and File Conference and support was voted for the struggle for the unconditional release of Mooney, the Scotsboro Boys and all class war prisoners led by the International Labor Defense.

The Conference elected a National Committee of 25 representing various industrial and industrial centers. Weinstein of New York was elected secretary, Frank, of Minneapolis, chairman, Masso, of New York vice-chairman.

Trotzky Hides from Hostile Thousands of Danish Workers

ESBJERG, Denmark, Nov. 24.—Carrying banners which read: "Long live the Soviet Union.—Down With Trotzky the Traitor!" hundreds of workers paraded through the streets of Esbjerg and demonstrated against Leon Trotzky when he disembarked from the steamer which brought him from Dunkirk, France.

Jobless Spokesmen Smoke Out Roosevelt

Roosevelt turned down the demands and thereby exposed his own election lies.

Class Contrasts and the Hunger March

(Editorial)

HIGH salaries and well-fed labor officials at the A. F. of L. convention in the best hotel in Cincinnati—jobless and destitute workers from all over the United States in the National Hunger March to Washington! Here is the sharp class contrast.

The Cincinnati Enquirer for Nov. 22, in the same issue in which it welcomed the A. F. of L. convention effusively said editorially: "Nothing but hunger and misery and unemphatic reception can await 'hunger marchers' now assembling in various sections of the country for an advance on Washington. . . . The lack of sympathy will arise out of the condition of the unfortunate, but because of their leadership."

Around the issue of compulsory federal unemployment insurance at the expense of the government and the employers there has been taking place a crystallization of class forces which now, because of the increasing pressure of the crisis upon the capitalists and their government, and the growing mass resentment and struggle against hardship and destitution, is becoming more marked.

It is from this standpoint that the unemployment insurance program of the Executive Council of the American Federation of Labor, proposing enactment of unemployment insurance by the separate state legislatures—with the endless delay which this means—must be judged.

A. F. of L. officialdom has been more closely linked with Wall Street government by the recent elections than at any time since the entry of America into the world war under the Wilson administration. Because of this, but mainly because the increasing radicalization of the working class compels the capitalists to use it to a greater extent in betraying the interests of the masses, the American Federation of Labor has enlarged the field of its activities to include a formal advocacy of unemployment insurance. It will become much more active in protecting the interests of the capitalist class as the crisis grows more acute. It is becoming more and more definitely a semi-official department of American imperialist government. This is true not only in the field of unemployment insurance but especially in the preparation of the masses for a new "holy" imperialist war and intervention against the Soviet Union.

This is the fourth winter of the crisis. On one side, stands the convention of the A. F. of L.—the spearhead of the ruling class—driving into the very bowels of the rising tide of working class struggle—attempts, under the direct guidance of the Wall Street government, by its demagogic unemployment insurance program, to stop and strangle the central struggle of the working class against starvation.

On the other side, leading this central and basic struggle for unemployment insurance and immediate cash relief to guarantee at least a minimum of security for the 16,000,000 unemployed, stand the Communist Party, the Unemployed Councils, the Trade Union Unity League, and hundreds of thousands of workers endorsing the demands and taking part in the militant struggle.

The National Hunger March and the conference of rank and file delegates from the A. F. of L. unions supporting the Workers Unemployment Insurance Bill and the Hunger March furnish the sharp class contrast to the treachery by lip service of the A. F. of L. officialdom.

THERE can be no question that millions of workers are deluded by the belief that if they can only manage somehow to keep alive until Roosevelt is inaugurated something will be done to lighten their misery, that "things will get better." Especially is this true of the unemployed membership of the A. F. of L. unions and of the Railway Brotherhoods.

The A. F. of L. Executive Council's proposal for unemployment insurance on a state basis, which means perhaps (without now considering the merits of its detailed proposals) in the dim and distant future, is the answer to their hopes.

Wall Street's new government will not differ from the old—except that instead of being fed on Hooverian optimism with its "prosperity insurance," just around the corner" theme, Roosevelt, with the aid of William Green, will try to feed workers, if they have faith, with hope and contemptible charity while they wait for the well-paid lobbyists of the A. F. of L. to produce unemployment insurance from 48 state legislatures controlled by the bosses and bankers who throw them out on the streets.

That "things will get better" is a fiction. It is a phrase dinned into the ears of workers to dull their resentment against things as they are. "Things" for the working class, in terms of food, clothing, shelter, jobs, get better only where mass struggle forces concessions from the capitalists. There is not the faintest sign that the crisis is being overcome. Right today, the heated discussion over war debts, the growing treasury deficit, the proposals for increased taxes on articles of mass consumption, the ever more open preparations for a large scale war, the lengthening list of "small wars," all show that America and the whole capitalist world are about to be plunged still deeper into the crisis.

CLEVELAND AUTHORITIES GRANT JOBLESS DEMAND FOR CARE OF MARCHERS

Crowd Marches from Funeral of Murdered Negro Worker and Rescues 7 Arrested Leaders

Decatur and Bloomington City Government to Feed Jobless; Great Mass Movement Grows

PITTSBURGH, Pa., Nov. 24.—A delegation of 150 representing the unemployed workers of Pittsburgh wrested from the city council here a promise to feed and lodge the National Hunger Marchers of Columns 1 and 4 when they join here on Dec. 1, and to provide oil and gas for their trucks. The city council also agreed to permit a tag day Saturday to raise funds for other expenses of the marchers. This is the first time in history anything like this happened in Pittsburgh.

CLEVELAND, Ohio, Nov. 24.—Militant demonstrations at the two police stations here yesterday not only forced the release of seven arrested in a previous demonstration, but acted as the final push to cause the city government to agree to demands that it feed and lodge the National Hunger Marchers of Column 1 when it stops over here the night of Nov. 29.

The seven were arrested at the City Hall demonstration Monday and at a demonstration yesterday before the office of the Charity organization in a Negro section, where an official of the Charity slapped the face of a Negro woman and was beaten by the unemployed workers present.

Federal Crowd Forces Release. A big crowd at the Fullinley mass funeral and protest against the murderous police, marched right from the funeral to two police stations and secured the release of the seven jobless leaders held there.

Edward Fullinley, a young Negro worker, was trying to collect his wages from a store keeper who would not pay, and the store keeper called a policeman, accused Fullinley of trying to rob him, and the policeman shot Fullinley to death.

Tag Days Sat. Sunday! See March Thru!

By Joint Committee for the National Hunger March NEW YORK.—Despite difficulties and terror, the columns of the National Hunger March forge ahead. Workers' delegates from the Far West, traveling in trucks and cars in the bitter cold, weary and hungry, are now approaching the Middle-Western cities. The marchers are showing a heroic example of how in the face of all these difficulties they nevertheless push forward, determined to reach Washington, together with the other delegates from every section of the country to present the demands of the unemployed workers of this country.

Now is Critical Moment. Now is the crucial moment for the National Hunger March. The Wall Street government refuses to lodge and feed the marchers in Washington. Delegates are approaching the mining area where mass starvation exists. Due to the long journey, trucks are breaking down. The marchers must reach Washington on schedule. They must be heard at the opening of Congress to tell the bosses' representatives at the time when they are beginning their deliberations to increase the attack on the masses of workers, and give them assurance of more relief and unemployment insurance.

Our delegates must not be stopped because of lack of finances. So far, as a result of the New York tag days, only a little over \$800 has been raised which is only a small proportion of the money needed to transport, feed and house over 3,000 marchers in Washington and on the way.

WASHINGTON, D. C., Nov. 24.—Armed thugs that surrounded the White House forcibly ejected the children's delegation that came to Washington today to protest against the starvation of workers' children throughout the country and demanding winter relief for the children and unemployed.

The children followed them, declaring that they refused to be left alone, and demanding that they be taken along with their guardians.

The delegation included 150 children, who elected a committee of 31 to present their demands. The delegation also included six adults, comprising nurses, mothers, and a doctor, as well as Gertrude Haessler and Gertrude Morgan of the Young Pioneers.

Workers Back Demonstration

With 100,000 ex-servicemen unemployed in New York City, with thousands of them forced to sleep in subways, cellars, and the miserable shacks of the Hoovervilles and Camp Florence at 78th St., and the Hudson River, today's demonstration, which will be supported by workers throughout the city, especially those unemployed, will show the determination of the ex-servicemen to force the city to grant them relief. The demonstration will also rally the veterans for the National Bonus March to Washington. The New York contingent of the march leaves Tuesday, Nov. 28th.

Mayor McKee has promised to be present when the vets arrive at 1 p.m. through the Board of Estimate which was originally scheduled to meet at that hour, has postponed its meeting till the following Friday in order to dodge the vets. Taxi Drivers Elect Delegates to National Hunger March Dec. 5

This is an example of the terrible misery and privation suffered by taxi drivers on the job. Blacklist, lay-offs and many other petty persecutions make the life of an unemployed driver miserable.

WORKER BURNED IN METAL PLANT

Stencil Washers Face Mass Layoff

NEW YORK—Mary Diaz, 27, a new worker at the Majestic Metal Specialties, 200 Varick St., was seriously burned when the stencil-washing machine, on which she was working, exploded late Wednesday. She was instantly enveloped in flames and ran screaming through the shop to the office. The company refuses to have any sick or accident room for its workers. A short time later the St. Vincent's Ambulance called for her.

17 Cities to Feed and House Marchers

So great is the momentum of the mass movement behind the Hunger March that one city administration after another is compelled to fly in the face of the federal government's request to "discourage" the hunger marchers and to furnish shelter and food for the marching contingents as they pass through their cities.

MORE FARMERS ON WAY TO CAPITOL

Express Solidarity With Jobless

WASHINGTON, D. C., Nov. 24—Endorsement by farmers' mass meetings and farm organizations for the National Farm Relief Conference, continues to arrive. They come even from those organizations whose leaders oppose the conference. The conference meets here Dec. 7-10 and will place demands in congress for moratorium on taxes and farm debts, for real farmers' relief, etc.

Elect N. J. Delegates.

CLINTON, N. J., Nov. 24—Farmers from all over this part of the state met here at the call of the West Jersey Dairy Union, co-operating with the United Farmers' Protective Association, and elected delegates to the National Farm Relief Conference.

Particularly noteworthy was the joint developed by the farmer, Chebarov, who pointed out that in fighting for higher farm prices, lower prices for the city workers should be an object, too. Let the food trust in between cut its profits some, he said.

HUNGER HEARING IN MOUNT VERNON

Elect Five Delegates for March

MT. VERNON, N. Y.—Mayor Leslie V. Bateman, Commissioner M. D. Stiles, head of the police force, Mrs. Catherine Hermes and Commissioner James D. Connor were found guilty of starving and freezing the unemployed workers of Mt. Vernon, at a workers' mass trial held at 421 South 8th St. The verdict was unanimously voted by the meeting of over 50, including Negro and white, native and foreign-born workers with little children participating.

The meeting was opened by Lucio Filippesco, who had been arrested for distributing leaflets calling the meeting.

Tammany Offers Food Thanksgiving: Clubs Hungry Who Accepted

NEW YORK—Police attacked several thousand starving men, women and children who had come by invitation of the Overseas Democratic Club to its headquarters at 122 West 118th Street Wednesday night, to get free Thanksgiving dinners.

The hungry crowd was disappointed. The promised "Thanksgiving dinners" turned out to be simply another cheap political trick of Tammany Hall. The workers naturally became angry, and their "hosts," called the cops and ordered the attack. Several children were almost crushed during the onslaught of the officers.

"Road to North" is Answer to Capitalist "Forced Labor" Lies

"The Road to the North" Amkino film made by the Soviet Government and now at the Acme Theatre, is the Soviet Union's answer to the flood of capitalist propaganda which represents the Soviet Karelia, Murmansk region as a frozen hell with "exiled peasants" working under the lash, cutting timber and dying like flies.

Lumber camp conditions shown in this film are up to the best established in the American Pacific Northwest in the hey-day of militant union action there. In 1917-18, that means they are the equal of the best ever known in the capitalist world, and about twice as good as anything known now in the capitalist world.

You see the husky lumberjacks eating heavy nourishing meals in a well lighted dining room, amused by radio and lectures as they eat and rest. You see a bed for every man, none of these American three high "muzzle loading" bunks. The rooms are kept clean and the bunks are made by women—evidently the lumberjacks have their women along, and the hideously un-natural semi-monastic life of the lumberjack in the American camps is unknown to them.

The trees are small and some of the dancers, like "high topping" which kill off the American lumberjack are unknown to the Soviet workers. Clothing is heavy and warm. The most modern tools, power saws for "falling" the trees, are in use. The saw mill machinery is modern, and there are safety guards to let the saw mill worker keep his fingers. In American saw-mills a man feeds his fingers one or two at a time into the machinery until he is finally forced to starve with his hands only stumps.

TAG DAYS, SEE MARCH THROUGH

All Out Saturday and Sunday

(CONTINUED FROM PAGE ONE)
mit Hunger to stop this National Hunger March?

Will you permit lack of transportation to delay the marchers, or make it impossible to reach Washington? Will you permit the marchers who are exposed to cold and hunger to remain stranded on the road?

Answer this! Give now! Intensify the collection for funds, food and clothing! Continue the collection Saturday and Sunday, Nov. 26 and 27.

Bring all the money on hand to the office of the Joint Committee at 146 Fifth Ave.
Money in your possession delays the arrangements for trucks for the New York Delegation, delays the renting of a hall in Washington for the convention of the National Hunger March, delays the sending out of funds for the delegates on the road.

See the marchers through to Washington!

A FRANCO-JAPANESE BLOC.

Dispatches from Paris to the bourgeois press portray the Paris press's sympathy with the Japanese case before the League of Nations.

The urgent need for such a loan is evident when we look at the unprecedented Japanese budget with an admitted deficit of one billion yen.

This is where France comes in with billions in gold available and hesitating to invest in disturbed Europe.

The marchers spoke at the meetings of lumberjacks from Washington especially stressing the unity of employed and unemployed workers and the farmers along the way in support of the National Hunger March demands.

The Minneapolis and Milwaukee delegates who are now in the line of march, spoke to those who came from the far Northwest and warned them of the treachery and anti-working class policies of the Farmer Labor party in this region.

BIRMINGHAM, Ala., Nov. 24.—Column 6 of the Hunger March will leave New Orleans on the 28th of November pushing Northeastward through Birmingham, Chattanooga, Asheville and Richmond. At each stop the column will be joined by additional marchers from the mills of the South.

The Police are making attempts to stop the march by arresting workers in New Orleans, railroading the leaders of the unemployed in Birmingham to six months in jail and by re-activating the K.K.K.

Handbills stating, 'The K.K.K. rides again—Beware of the Communists' are being scattered throughout the Negro districts but despite this preparations for the Hunger March are moving ahead and the Southern workers, Negro and white, disillusioned by years of Democratic Party lies and promises will march to Washington demanding immediate winter relief and unemployment insurance.

COLLECT FOOD FOR THE MARCHERS! DON'T LET HUNGER SILENCE THEM!

Go to Grocers, Butchers, Markets, and Get Canned Food, Fruit, Coffee Tea, Cheese

N.Y. Food Workers Organize Flying Squads to Collect—Why Not in Other Cities Too?

With five columns of the National Hunger March converging on Washington from the Pacific coast, south-west and middle-west it became apparent yesterday that the marchers may face a shortage of food on their long weary trek unless the workers all over the country rally to their aid at once.

Information reaching the office of the Joint Committee for Support of the National Hunger March indicated today that food supply in all columns is barely sufficient. Column five which started yesterday from Houston, Texas, sent the following wire to the office of the Joint Committee in New York:

'We're off. Food and transportation O.K. so far. Wire word on food arrangements at Kansas City.' 'Unless the workers and particularly the working class housewives of the nation begin systematic and diligent food collecting at once the health and fighting spirit of the Hunger March delegations may suffer,' the Joint Committee declared today in a statement urging immediate action to cope with the food problem.

'Answer the Boss Government! The Hoover government and local state officials all over the country are doing everything they can to hinder the march. We must be prepared,' the statement said, 'to take complete care of the 3,000 jobless and 1,000 ex-servicemen marchers in any emergency. Above all, we must be able to feed them and feed them well.'

All the energies and spirit of the marchers will be taxed by their struggle in Washington to force winter relief and unemployment insurance from congress. They must not find their strength exhausted at the end of their long, arduous journey. 'Wholesome food and plenty of it is vitally important.'

All workers were again urged in the statement to ask their grocers, butchers and other food dealers to contribute canned milk, canned fruits and vegetables, canned beans, cheese, and preserved meats and any other items that will keep.

Such collections should be held in readiness for the Hunger March contingents as they arrive in the various cities along their lines of march. Put them in charge of the local committees.

NEW YORK.—Two 'flying squad' soliciting committees have been elected by the Food Workers Industrial Union to speed up New York food collections for the National Hunger March. The committees, composed of seven members each, representing the two departments of the union, are concentrating in territories mapped in advance.

Both committees started their first solicitation tours yesterday. 'Meanwhile the Joint Committee for Support of the National Hunger March urged workers and housewives not to wait for the organization of committees in their own localities but to 'go out and get it yourselves.'

'Committees for food collections,' the Joint Committee said are desirable wherever they can be organized without any special meetings or other effort. Such committees will no doubt be exceptional. The workers as a whole, however, must not wait for organized groups. Go to your own grocer and butcher or both. Tell him about the Hunger March. Make him come across by winning his sympathy for the Hunger Marchers and for the demands they intend to make on congress.

Canned goods, fruit, which is not easily perishable, coffee, sugar, canned milk, canned beans, cheese, preserved meats are the chief food items needed. In New York all food collected should be rushed immediately to one of the four central receiving stations which have been established for storing the food. These are: Concoops store, 2700 Bronx Park East (Allen Ave.); Food Workers Industrial Union, 4 W. 18th St.; Workers International Relief, 146 5th Ave.; Workers Center, 35 E. 12th St. (in store on street level).

For large quantities of food in or near New York which cannot be transported by one person, a Workers International Relief truck can be summoned by telephoning Chelsea 3-9561.

We are calling upon the masses to support the Hunger march against your illegal tactics and hold you and the landlords and steel barons whose agents you are responsible for any violence.'

Jobs are Organizing RICHMOND, Va., Nov. 24.—The Unemployed Council here is growing fast, and holding regular meetings attended by hundreds. It calls a general mass meeting on Friday to ratify the 25 to 30 National Hunger March delegates already elected.

appropriated \$25 for food for the marchers. City Furnishes Lunch. DECATUR, Ill., Nov. 24.—The jobless here demanded and the city government agreed to furnish lunch to the marchers when they go through here Nov. 26.

These Victories Mean Something. This national hunger march is reaping already some of the victories won during the year since the last march by the diligent organization of unemployed councils, building of united fronts of employed and unemployed workers for militant struggle for local relief and a general strengthening of the power of the jobless to wring concessions from the city governments.

Yesterday and the day before three more city governments were forced by the pressure of local jobless workers to open halls, and appropriate money to feed and lodge the National Marchers when they arrive. These cities are Cleveland, on the line of march of Column 1, and Decatur and Bloomington on the line of march of Column 4. They, in addition to other cities: Toledo, Terre Haute, Baltimore and others, previously reported.

Answer to Washington. The significance of these victories is enhanced by the fact that the District of Columbia Commissioners sent telegrams some ten days ago to all state governors and mayors of 14 large cities asking them to do everything to 'discourage' the marchers. Such tactics are nothing where the jobless have organized and have shown that they can fight.

Need Full Support. There must be more of this; The National Marchers make demands for the whole working class and particularly for the sixteen million jobless. They demand \$50,000 federal winter relief in addition to local relief and unemployment insurance at the expense of the employers and the government, not of the workers.

Build the united front committees to lead a great struggle in every city for these and demands for local relief! Pass resolutions denouncing the authorities in Peoria, Ill., and in Birmingham, Ala., for their attempts to obstruct the march! All workers out on the streets Dec. 6 in mass demonstration to support the demands of the National Hunger March! The marchers reach Washington Dec. 4, meet in national conference Dec. 5, and present the demands to congress Dec. 6.

Columns March Onward. The National Hunger March sweeps onward now on four main routes since Column 2 and 3 have merged: About a hundred delegates of this column are marching eastward from Denver today into the great wheat plains of Kansas. Some 25 more are on their way through northern Texas and the oil fields of Oklahoma, forming Column 5, which will merge with two and three at Kansas City, Saturday.

Over a hundred delegates of Column 1 have burst through the police terror raging against them in Minneapolis, and were to reach Chicago to stop over last night. Yesterday morning some 60 marchers of Column 4 left Davenport, Ohio and were reported near Peoria, scheduled as a stop over point. The Peoria city administration is making threats of violence against them, and Peoria jobless were mobbing yesterday to defend the marchers.

Column 7 starts Saturday from Buffalo. Column 6 starts Sunday from New Orleans and the same day Column 8 starts from Boston. On Monday, Column 9 will be on its way north from Miami, Florida.

A committee has gone to the city hall to demand food and shelter for the marchers of Columns 8 and 9 from New Orleans and Florida, which will meet and spend the night here Dec. 3rd.

For National Hunger March expenses, the International Workers Order has guaranteed \$25 for expenses and a committee is approaching about 70 labor and fraternal organizations, Negro and white, here to gain support.

Preparations are made for a mass meeting either in the park or in the City Auditorium, to greet the marchers of Columns 6 and 9. A public hearing on starvation conditions was held Tuesday. Rose Worts, one of the members of the Needle Trades Workers Industrial Union, will speak to the needle trades workers of Boston on the National Hunger March. Comrade Worts will bring the greetings of the New York needle workers

Cleveland All Set to Tumble Detroit in Sub Competition

CLEVELAND, (by Mail)—With ten cities participating in the drive, Cleveland has challenged Detroit district to a speed competition in raising their respective quotas of Daily Worker Saturday, 8:30 subs.

'We will complete our quota of 1,750 subs first and will send a delegate to the Soviet Union! The Cleveland workers insist. An early answer is expected from Detroit. Besides the various sections within Cleveland proper, the following cities and towns will be working in the effort to beat Detroit: Youngstown, Erie, Akron, Canton, Columbus, Dayton, Cincinnati, Toledo and Lorain.

Follow Up the Scottsboro Victory!

THE tremendous demands of the white and Negro toilers resounding from every corner of the world, started the legal massacre of the nine Scottsboro boys. The hangman's hand has been halted, but it still hankers for its victims. The Supreme Court decision forced by the gigantic and powerful revolutionary movement of millions of toilers throughout the world is a tremendous victory for the entire working class—Negro and white. But it does not yet mean that the fight for the unconditional release of the nine Scottsboro boys is over.

The Negro and white masses must be under no illusions. Reliance on the "fairness and justice" of the Alabama lynch courts will only help to tighten the hangman's noose around the necks of the innocent boys—it will not save them. The counter-revolutionary front extending from the imperialist butchers to their servile agents in the ranks of the Negro and white masses—the socialists and Negro reformists—are energetically working to stifle the indignation and wrath of the masses in their attempts to carry through under cover of "justice, rights and equality" this bloody murder.

The Scottsboro case has helped to crystallize in an undecided manner the revolutionary ferment in the ranks of the Negro masses. The Scottsboro case has proved the efficacy, before the eyes of millions, of revolutionary methods of struggle as against reformist capitulation to the white ruling class. The deepening discontent and political awakening of the Negro toilers has found expression in mass support for the Scottsboro boys, as a step forward in the entire struggle for Negro liberation. The Scottsboro case has welded strong links in the chain of unity of white and Negro toilers against the white, vicious, barbarous system of national oppression, of which this brazen frame-up is but a single expression.

But the work cannot rest here. There is danger of a possible slackening down in this mass struggle now that the Supreme Court has rendered its decision. This danger is even greater today than before. This must be overcome! Decisive measures must be taken NOW, without a moment's delay, to utilize this recent victory in the struggle for the Scottsboro boys, to raise to new heights the mass action for their complete freedom. We must completely wipe out the tendency to limit the struggle only to the forces already in and around the International Labor Defense and the revolutionary mass organizations. New masses must be drawn into the movement.

This important partial victory in the battle for the complete release of the Negro lads offers a splendid opportunity through which to penetrate even the most backward sections of the masses of Negro and white toilers—those masses who have never before been stirred to action. We must develop in the ranks of the widest sections of the oppressed toilers the consciousness and determination that they, themselves, on their own initiative, must widen the base of the movement, in the neighborhoods, in the factories, in the ranks of the unemployed, in the reformist organizations. Everywhere to develop such forms of organization as will rally the broadest sections of the white and Negro masses in working class solidarity, to defeat the united forces of reaction in their attempts to murder the boys.

The united front Scottsboro conference in every locality must take on new life and vitality. Where such conferences have gone out of existence they should be immediately revived and begin to function not in a narrow circle but reaching out to new elements, particularly penetrating the Negro reformist organizations and A. F. of L. units. Through the building up of the Scottsboro Defense Committee in the neighborhoods, factories, schools, new adherents can be won for the defense of the Scottsboro boys.

THE further struggle for the release of the Scottsboro boys must be concretely linked up with the struggle against the whole system of mob violence and lynch terror. The workers, and especially the white workers, must react with more decisiveness and determination to every act of discrimination, every act of repression of Negro toiler and connect this struggle with the Scottsboro case.

Major attention must be given to penetrating the South in the struggle for the Scottsboro boys. The decision of the Supreme Court hands the boys back to the same lynchers and slave drivers who condemned them to death. It is therefore right here, above all, where the national oppression of the Negro people takes on the sharpest forms, that the vigilance of this lynchline. The base exists in the rapidly developing mass struggles for unemployment relief and against the terror which makes possible real determined mass action on the part of the Southern toilers for the release of the boys.

Let the voice of the working class be heard stronger than ever, with the demand: Unconditional freedom for the Scottsboro Boys!

COMMUNIST CENTER IN BALTIMORE DESTROYED BY "MYSTERIOUS" FIRE

BALTIMORE, Nov. 24.—Late Monday night the Baltimore Communist Party headquarters were practically destroyed by fire of mysterious origin. The fire alarm was turned on about two hours after the last comrade had left the headquarters, locking the doors behind him. The fire inspectors have been unable to determine the cause of the fire, outside of guessing that it was started by crossed wires.

The government (Nanking) forces have ceased attempts to advance. The Communists are assisted by farmers, thus seriously complicating the problem.

PARTY LIFE Some Questions on the Bonus March to Wash.

By SOL HARPER THE Second Bonus March is now organized and increasing numbers of marchers brings to the forefront some of the lessons of the past. In the first march, there was underestimation of the number of veterans who would march to Washington. Some claimed that only a few hundred would go to Washington. Others said two or three thousand. Others placed the number up into the tens of thousands.

In the present march there arises other factors, such as: (a) The yearly drifting of veterans to Washington where they have made in the past individual demands upon the congressmen and senators who they were duped into voting for.

(b) Large numbers of disabled veterans have gone to Washington at the opening of Congress to see if they can get something done for them by the Central Office of the United States Veterans Bureau.

(c) Other Veterans sought civil service jobs with help of "their" congressmen and tried to get direct help from the Rehabilitation Section of the Veterans Bureau.

(d) The Veterans of other wars applied to the United States Pension Bureau (which has now been consolidated under Hines of the Veterans Administration).

(f) Other groups of Veterans went to Washington trying to get into the hospitals in the Capital. PLACE DEMANDS DEC. 5 All of these groups of Veterans are marching to Washington this time to join in the Big Bonus Payment Demand to be made on Congress December 5, and those hundreds of veterans who have already hopped freights, and hitchhiked to Washington are now determined not to again let the banks be made as before from office to office, place to place and department to department. They are determined to go to the Headquarters of the Rank and File Committee, located at 905 Eye Street, N.W., where they will again form their country-wide supported Rank and File Committee and make a united front demand for the Payment of the Bonus! For NO reduction in the Disability Pay of the disabled veterans!

Milwaukee, the "Pride" of the Socialist Party

By I. AMTER THE Socialist Party boasts of its achievements in Milwaukee. They told us during the election campaign about Milwaukee's fine sewer, the municipal treasury, the relief system. The capitalist papers and journals were loud in praise of Milwaukee. This "socialist" city was held up as a model of what could be accomplished in any city of the country. If this could be done in Milwaukee, then why not in New York? If Milwaukee could effect such progress, why not adopt Milwaukee methods in the other cities of the United States? As a result, while recently running as candidate for Mayor of New York, Hillquit could correctly say that the election of a Socialist mayor would not produce any "revolutionary changes" in New York.

And how right he was! Hillquit did not talk about the mass hunger in Milwaukee, the brutal slugging of the unemployed by the Socialist Mayor Hoan's socialist police. He said nothing about forced labor in Milwaukee, the cutting of the city employees' wages and the miserable conditions and wages in the mills in Milwaukee. This the Communists told the workers—only to be contradicted by the Socialists.

MILWAUKEE'S STARVING CHILDREN Many times out of their own mouths, the Socialists convict themselves. In the New Leader (Socialist party organ) issue of November 19, 1932, we read the following:

"Children Kept From School By Lack of Proper Clothing." "MILWAUKEE, Wis.—Reports made to the Milwaukee county board's committee on institutions revealed that many children are kept from schools because of lack of clothing. Hitherto the board has limited its distribution of clothing to shoes.

"Children in my district are so ragged they cannot be sent to school," said Socialist Supervisor Robert Buech. "We have a compulsory education law, but poverty has become so acute, that children are out of school because they do not have enough rags to cover them. Private relief agencies say they can no longer furnish clothing because of lack of funds. So it would appear that it is up to the country to take action.

"Socialist Mayor M. V. Baxter, of West Allis, confirmed Buech's statement that private agencies are unable to provide clothing. "My office is directly over the West Allis headquarters of the Family Welfare Association," the mayor said, "and I know they are unable to supply enough clothing. "There are hundreds of families

in my city who lack the means to secure clothing for their children. The depression has lasted so long that all of their reserves are exhausted." (Emphasis ours.) This is taken bodily from the official Socialist organ. "Children in rags," "children kept out of school for want of clothing," "Children 'have not enough rags to cover them' or no money."

Why should the capitalists fear such "socialism"? They have the same brand of "socialism" in operation in the other cities at the present time. CAN BUY RIOT GUNS But let us not forget that in this city of Milwaukee, where "poverty has become so acute," and the children "have not enough rags to cover them," the city has a treasury and was able to buy riot guns with which to shoot down the workers who fight against poverty. It was the illustrious Socialist Sheriff Benson who boasted of the high power machine guns with which he equipped his socialist deputies to murder the fighting workers.

It was the Socialist mayor, Baxter, of West Allis, who called out his socialist police and had the cooperation of the \$13,500 a year Socialist Mayor Hoan and Socialist Sheriff Benson of Milwaukee, in murdering assaulting the 6,000 fighting laid-off workers of the Allis-Chalmers Motor Corporation, who demanded relief from the company. For these attacks, the mayor, sheriffs, cops and deputies are not affected by "subject poverty," nor do their children "go around in rags."

Well, Messrs. Social-fascist leaders—Thomas, Hillquit, Hoan et al.—are you again "misrepresented"? Do you or do you not play the part of agents of the capitalists in the ranks of the workers? You say you stand for "socialism"—but what brand of socialism? The Milwaukee brand of starvation and murder of the workers!

Socialist workers: Have we Communists misrepresented the Socialist Party? Is Socialist Milwaukee not exactly as we Communists have told you? Is it not time to do as the Easton, Pa., rank and file Socialists have done—to get out of the Socialist Party, and to take the next step and join the Communist Party?

The municipal campaign of 1933 in New York is already in the making. Hillquit, Thomas and Blanshard, leading Socialists, already tell us that they will stand for a "real socialist" program. We have it in Milwaukee. It is a clear capitalist program, no matter how it may be ornamented with demagogic phrases.

In the municipal campaign, as in all struggles, there will be one and only one workers' party—and that is the Communist Party. The Communist Party and it alone is leading in the fight for unemployment relief and unemployment insurance, for farmers' relief and the bonus. The Communist Party is fighting against wage cuts, police terror and imperialist war. Everywhere the workers in their struggles meet the Socialist Party, which carries on the foul game of the bosses. Therefore, to fight the bosses, we must at the same time fight and ruthlessly expose their agents, the Socialists.

They have again helped us in Milwaukee — out of their own mouths the Socialists have exposed and convicted themselves!

Letters from Our Readers Wants Speakers to Be Concrete—and Show up New York City. Editor Daily Worker: Dear Comrade: Recently I was at 41st St. and 8th Ave. New York, listening to the Communist speaker who was talking generalities, avoiding local issues.

The next night another open-air meeting was supposed to be held at 30th St. and 8th Ave and after leaflets were distributed saying the meeting would be under the auspices of Section 2, Unit 12, at 7:30 p.m. The workers were assembled there, but the speaker did not appear until 8:30 p.m., and workers got disgusted and went away.

And on another day leaflets were distributed all along Hell's Kitchen, calling for a demonstration at 35th and 36th Sts. and 10th Ave. The workers and their children were assembled there waiting for the Young Communist League, who sponsored the meeting, when one of the Y. C. L. came over and told the children that the demonstration was postponed until next Friday night, although the leaflets said the demonstration would be on Wednesday. How the hell do you expect us workers to follow you when your speakers confuse us in their speaking and also fool us and do not appear on time? Jay Dee.

NEGRO SLAVERY TODAY John L. Spivak's Stirring Novel "GEORGIA NIGGER" NOTE—"Georgia Nigger" is a smashing exposure of the hideous persecution and national oppression of the Negro masses. The Daily Worker is relentlessly opposed to the white rule of the class, "nigger," and to the oppression and contemptuous treatment of Negroes which it symbolizes.

THE STORY SO FAR: After escaping from the slave farm of the powerful white planter, Jim Deering, where Negroes are tortured and sometimes murdered, David Jackson, a Negro lad, is being driven to the next county by Ramsey, a planter who has come to his aid, when they are overtaken by Sheriff Dan Nichols, a Deering hireling, and forced to turn back to the courthouse. After much wrangling, Deering finally agrees to let David go if Ramsey will pay off his advance. Ramsey takes the boy to the next county, gives him \$10 and leaves him to take the bus for Americus, from where David expects to go to Macon and get a job. Now read on:

THE town was like Live Oak, only larger. Concrete sidewalks and wide, concrete streets. Small buildings of brick and dull wood. A drug store on one corner and a general notions store on another. The depot, with its painted signs announcing destinations and fares—Macon, Atlanta, Columbus, Birmingham, Jacksonville. David peered into the darkened station. Two white women sat on wooden benches, with suit cases in front of them. There did not seem to be a colored waiting room and he stood uncomfortably before the large depot window with another list of destinations and fares painted in bright yellow.

AN OFFER OF WORK A lean, sun-dried white in a soiled blue shirt approached with a friendly air. "Lookin' fo' work?" David was too frightened to answer. "How'd you like to work fo' me?" "I can't, suh," the boy choked. "I'm on my way tuh Macon. I'm waitin' fo' de bus, suh."

THERE were hours to wait for the bus and the white had scared him. He asked the ticket agent how far it was to Americus. "If yo' fixin' to walk," the clerk drawled sympathetically, "head yonder till you git to the highway. This'll git you there. Maybe some darke'll give you a lift."

NOT until he was well in the countryside did he dare ask for a ride. A grizzled old Negro in an empty wagon from which tufts of cotton fluttered, rattled by and David hailed him. "Goin' far?" he asked timidly. "Yonder. He nodded vaguely up the road. "Dey's plenty room if you wan' a lift."

A FRIENDLY NEGRO The horse jugged wearily. A wheel careened crazily. The driver wiped his face with a shirt sleeve. "Americus?" "Purty far. Whut you gwine dey fo'?" "Wuk." "I wan' tuh wuk in a mill."

DAVID did not answer. "Dat's alright. I ain' askin' no questions. Doan you be skeered o' me. Say, if I was to tell 'bout all de niggers I heped run away I'd be roasted lak a barbecued pig. Lord, I've done heped mo' niggers run away den dey is on Jake Millet's farm. I ain' askin' no questions, but if you is foot-loose you better git outen dis here county. Why, dey ain' a farmer run' here ain' pickin' de hairs er cuttin' de er shakin' dey peans er cuttin' dey cane, er jes' plain worryin'."

SLAVE TRAFFIC He wiped his face again. "Dese white folks ain' happy jes' dey's worryin' 'bout somethin'. An' we'd dey starts worryin', foot-loose niggers better start travellin'."

THREE miles north the Negro came to his cabin. "Dis is my place," he said. "If you got a dollar er two you'd better tek a bus, boy. Ain' nobody stop you if you got a ticket."

THE Amityville bus station was in a three story hotel. From the ticket agent David learned that the connecting bus did not leave until seven in the morning. He would have to spend the night in town, and he started aimlessly for "Nigger Town," where he could find a lunch counter and a bed, but he had not gone two blocks before a stocky white man stopped him. "Whut you doin' in this part o' town?" "Lookin' to de culled section. I got tuh wait till seven in de

U.S. Bosses Arm Fascists Against Chinese Masses American volunteers organized in the South China city of Shanghai for use against the revolutionary Chinese workers have just been armed with the notorious American sawed-off shotgun. Arms and munitions for this group of American fascists are furnished by the Wall Street government. The International News Service admits this in a Shanghai dispatch of Nov. 22. "Few people in the United States probably are aware that the Washington government furnishes arms and munitions for this group of Americans who stand side by side with detachments of other nationalists on the firing line when disorders threaten the International Settlement here. "The 'disorders' referred to are the revolutionary struggles of the Chinese toilers to rid the country of the imperialist parasites, plunderers and murderers.
