Delegation Wins Pledge Roosevelt's 'Substitute' for C.W.A. to Provide Wage Slash

> (Daily Worker Washington Bureau) By MARGUERITE YOUNG

WASHINGTON, D. C., March 19.—Federal Relief Director Hopkins of the C.W.A. announced late today that \$12 a week will be the "average" wage for all workers on the slashed-pay and slashed-payroll work projects which the Roosevelt govern-ment will substitute for the C. W. A. on March 31. According to the detailed plans Hopkins gave out, however, the schedule will provide NEW YORK.—Vigorously protesting the brutal police attack on last a maximum of 24 hours at a maximum of 30c an hour exactly \$7.20 a week.

This is what President Roosevelt provides under what he called "individual self-reliance" in announce

Hopkins said it would give work to "somewhere under two million, take a strike vote tomorrow if their demands for higher wages are not not necessary to ask the police for million." He declared that \$600,000,-Three hundred workers of the a permit to hold a meeting, but at 000 will cover expenses well into next winter, for these work projects in industrial cities and for Saturday's meeting at 127th Street Federal relief and for rural work and Lenox Avenue. He refused the projects. The new plan divides all delegation's demand for an open investigation, but under pressure of the flerce indignation of the masses of Harlem and the city generally, unemployed in urban centers." Hopof Harlem and the city generally, unemployed in urban centers." Hopfinally agreed to order an investigation by the police heads. Leo Gallagher, one of the spokesmen pointed out that "the essence" of the new program is "decentralization." He said only those who are "needy" (virtually a pauper's oath basis) would be included, and that responsibility is now placed jointly

on Federal, State and local authorities. The program provides the unemployed in rural areas with even

### Jobless Demand AFL Executive Endorse C.W.A. Protest Strike

The following letter has been sent to the Executive Council of the American Federation of Labor by the Greater New York conference for united action on C.W.A. and Unemployment. The letter calls for endorsement of the protest strike of March 29 at 4 p.m., to demand continuation and extension of the C.W.A. The strike was initiated by the united front conference. Identical letters are also being sent to the Trade Union Unity League and to the executives of all independent unions. The letter follows:

Mr. Wm. Green, President Executive Council, American Federation of Labor, Washington, D. C. Dear Sirs and Brothers:

In accordance with the enclosed resolution adopted by representatives of all C.W.A. projects in Greater New York and numerous trade union locals, we are addressing ourselves through you to the Executive Council of the American Federation of Labor for support to the call for a nation-wide, one-hour protest strike against the proposal of the administration to liquidate the Civil Works projects. As you know, these projects have served to provide the only

means of livelihood to several million workers in all parts of the U. S. who are unable to secure any other employment or means of support. Among those so employed are many members of the American Federation of Labor and its affiliated unions. The discontinuance of these projects will leave millions of semi-destitute workers completely destitute.

The policy of the Federal administration as announced by the President also establishes a principle which is inimical to the best interests of all workers. According to this policy, only those who can establish that they are already paupers will be entitled to relief, and furthermore, all who receive relief are to be required to work in return for minimum sustenance budget instead of for cash wages.

We feel further that this action of the administration is a direct aid to the employer to reduce wages, and prevent labor from organizing. We see a very close connection between this abrupt action on the part of the administration and the growing number of strikes for increased wages, against company unions, and for the right to organize into unions of the workers' free choice

We consider that this policy constitutes a challenge to the entire Labor Movement and to all workers in the United States.

We are convinced that a general and nation-wide protest action by means of a protest strike is at this point one of the most effective means of bringing pressure to bear upon the administration. We accordingly call upon you to endorse the enclosed resolution, which calls for the organization of "a one-hour protest strike on Thursday, March 29, at 4 p.m." and to issue a call for such a strike.

We feel sure that we are expressing the sentiments of the rank and file membership of the American Federation of Labor and of workers organized in other unions as well as the unorganized in this proposal for vigorous determined action.

## Threaten 15 P.C. Pay Cut

of Strike Sentiment Among Rank and File

By SEYMOUR WALDMAN (Daily Worker Washington Bureau)

WASHINGTON, March 19. - "I lon't know anything about it," Alexander F. Whitney, chairman of the Railway Labor Executives' Association, told the Daily Worker today, when asked for comment on the rank and file strike sentiment which is rising against the announced determination of the owners to keep the railway workers on a cooling

W. F. Thiehoff, chairman of the Conference Committee of Managers, this morning issued a blast per-emptorily warning Whitney and his "labor" associates to either accept continuation of the 10 per cent wage cut for ten months after its expiration on June 30, 1934, or to consider the "conference" closed, with a 15 per cent basic wage cut in the offing under the provisions of the Railway Labor Act.

It is significant that Thiehoff rubbed the noses of the Whitney delegation in the sand of President Roosevelt's Feb. 14 letter which procent cut for another six months neously with the owners' proposal for a 15 per cent wage cut, was genally interpreted as a maneuver forestall the expected demands for wage increases to meet the great rise n the workers' cost of living. It is quite obvious that the Roosevelt Administration is following the lead of the railroad management. In fact, the owners consider their refusal to increase wages part of the N.R.A.

The labor executives, said Whitnev, at his headquarters at the Willard Hotel, the Ritz Carlton of Washington, will reply tomorrow morning to today's blast from W. F. Thiehoff, scorning Whitney's request for the restoration on July 1, 1934, of the basic rates of pay. organization last Saturday rejected the request of the 200 Class I railroads for the continuation of the 10 per cent wage cut for ten months after its expiration on June 30, 1934.

To Proceed With Cuts they persisted in refusing the for-mers' offer to "defer" another re-

of cutting wages further under the terms of the Railway Labor Act.

Railway Labor Executives' Associa- wages tion figures on the great increase in based, as well as your unqualified rejection of the reduction in basic rates of pay of which we have given you notice pursuant to our agreement with you and the provisions of

the Railway Labor Act. roads are operating at a "deficit" despite the fact that nearly all of the operating profits for 1933. The latest announcement, released on March 9 by the Bureau of Railway Economics, the statistical organ of the managements, declared that the Class I railroads' net operating income for of 127.7 per cent over the corresponding month of 1932. In addition, their taxes decreased 4.5 per from \$21,40,201 in January.

### Mussolini Speech **Sharpens Conflicts** AmongImperialists

(Continued from Page 1) plained, to discourage the migra-

Only a few days before he made his speech, several hundred peasants of the Benistari district of Ca- ers in other plants. labria marched on the town hall, emonstrating against intolerable taxes, and burned a portrait of Mussolini in the public square. When a fascist deputy addressed them, they became so enraged that they set the town on fire. The ar-rest of many peasants by troops sent in from elsewhere has greatly increased the discontent.

"The fascist corporate state will find a remedy for the ills of the world," he boasted. Especially in recent months, the Italian fascist state has carried out measure after measure to place industry in the control of the biggest monopolies, to turn the state into the direct apparatus of oppression of the big-gest capitalists. This is the corporate state of which Mussolini boasts. Under this "corporate state," the crisis has struck Italy with the same deadly force with which it has struck all other capitalist countries. The "corporate state" apparatus merely helps the capitalists unload the burdens of the crisis

the masses.

## **Detroit Auto Men** Vote for Strike

No questions were allowed from the floor, on the pretext that it was a general meeting, though the overwhelming majority were Hudson workers. Silencing of discussion is obviously to prevent workers from expressing themselves on the strike and protesting against the leaders

While Collins poses as favoring To Proceed With Cuts strike his real game was shown Thiehoff, for the owners, warned in the statement in today's press, Whitney and his associates that if in contradiction to the spirit of the

duction of 5 per cent (making the employers until Wednesday to total 15 per cent) in the basic rate guarantee the right of elected repof pay, "your continued declination" resentatives to all workers. But the leaves "before us for consideration contemplated strike will be called only our notice of a 15 per cent reduction in basic rates of pay to become effective on July 1, 1934."

off only in the event of the automobile employers agreeing at the conference today in New York to come effective on July 1, 1934."

In short, says the owners' ultimatum, we'll "proceed" in our plan of cutting wages further under the objective workers the privilege of selecting their own representatives by secret vote."

In this statement Collins again Thiehoff arrogantly dismissed the dumps overboard the demands on and speed-up, tried to carry through the tactics used in the Weirton and Budd auto 1933 railroad profits, declaring, "Your statement deals at great length with certain statistical data of a highly controversial nature."

used in the Weirton and Budd auto body strikes, when struggle was called off on the promise of "real elections," which gave the companies a change to mit over comelections," which gave the com-panies a chance to put over company unions and victimize the most

Strikes and stoppages continue at Dodge, Ternstedt, Ford and other plants through action of the Auto Workers' Union members, as well as through spontaneous action of the Thiehoff insisted today that the sular Metal Products Co., auto parts manufacturers, struck this morning.

The auto manufacturers are pre-paring their strike-breaking ma-

chinery, hiring more men than they need, and at the same time they are trying to ferret out trade unionists. They are hoping January, 1934, showed an increase to intimidate workers through preparing for widespread terror by the ous strike-breaker of the National Guard, as police chief of Detroit. Ballyhoo Not Working

Reports from auto shop workers are that they are not at all affected by the much-ballyhooed 36-hour week, with adjusted wages, or by the Ford increase to \$5 a day minimum. Workers have eagerly taken Auto Workers' Union leaflets, and in many departments discussed them in groups, agreeing that the manufacturers' action meant no in-crease in weekly wages and in some cases meant a cut as well as more speed-up.

Ford workers, at a meeting of the tion of farm workers to the cities in Auto Workers' Union local yester-search of work which is not to be gates to the March 25 Conference. Elections are going forward in departments and at meetings of work-

"Auto Workers' News," official organ of the Auto Workers' Union, containing the call for united action, is being distributed at all auto plants today. The decision of the Mechanics' Educational Society executive regarding this appeal for delegates to the united front conference is not yet known, but strike sentiment is strong among the mem

bership.
The Communist Party, at its Paris Commune Meet membership meeting on night, pledged assistance to the Auto Workers' Union and is mobilizing all members to help carry through the fighting policy for victory.

MASS PAGEANT REHEARSALS ARE ON

Workers, members of cultural organizations are tryited to take part in the mass rageant which will be presented at the opening of the District Convention of the Communist Party on Friday, March 23, at the Bronx Coliseum. The last two rehearsals will take place at Irving Plaza Hall on Wednesday and Thursday at 8 p.m.

However, when we examine revolutionary work done by these fractions in the trade unions we find many glaring weaknesses which were particularly manifest in the recent period when real Commuvelt's New Deal.

How can we account for this? First because of the lack of politi-cal education on the part of the fractions. Despite the correct Party analysis of the N.R.A., the poisonous propaganda carried on by the government and the reformists about the N.R.A. as a new charter of labor penetrated the ranks of our fractions. Although this did find open expression at the fraction meetings it seriously af-Beacon, N. Y. Tel. In most instances this is considered the task of the leadership of the

ure to bring forward the face of the Party. But when the comrades were asked how many of them had recruited Party members, only two or three raised their hands.

Neither do the factions fully understand their role as the Party paigns such as the campaign against war, the campaign in support of the Communist Party of Germany, es the trade unions and other mass organizations on the basis of the

The Fractions and Party Units The third reason is that there is too much separation between the fractions and the Party organiza-The Party in the last few months has carried through some fundamental political discussions in The second reason to account for the units, such as the discussion on the shortcomings of our fraction is the N.R.A., the lessons of Germany, the lessons of the Austrian revolution, discussions on the Negro problem, on the Soviet Union, the 13th Plenum, the Open Letter, etc. The aim of these discussions is to raise the political level of the comrades and prepare them for better leadership of the masses. However, many of the most active and loyal comrades, the real Party mass workers, are not present at these meetings and do not benefit by the training given to the comrades through the Party.

We find a situation, for instance, from the leading comrades. such as in the furniture workers union and not the fraction itself. where the Party fraction secretary

They were afraid to go against the tide. cite from the shoe workers. At and simple trade unionism. The one of the fraction meetings during the strike the comrades severely criticized the leadership for the failoften of an abstract character because of the absence of the real mass workers who could help to concretize these discussions on the basis of their experiences. fault for this situation does not lie entirely with the fraction. The fact that many of the Party members are not as yet actively involved in trade union work throws the burden on a few who become so instruggles that they become isolated from the Party. Many comrades who praticipate in the discussions rarely consider it their duty to bring these discussions into the unions. In the unions they merely concern themselves with the immediate economic problems.

The recent recruiting campaign in New York City will show that very directly through the efforts of the fractions. The Party member may spend hours going after a contact secured through the unit but this same comrade functioning in the trade union will overlook many sympathetic elements with whom he is in contact from day to day as material for the Party. So that hundreds of workers in full agree-ment with the line of the Party continue to be sympathizers instead of being active builders of the Communist Party. Another weakness is the absence of a leading fraction to coordinate the work of all fractions, exchange experiences, to the mutual benefit of all and thus avoid mistakes often repeated in one fraction after another. Until now all efforts to build such a fraction have not met with any cooperation month.

Until very recently the Party did not give sufficient attention to the life of the fractions. Leading Party comrades visited fraction meetings only when special problems came up. The Party must give more direct and systematic guidance to the fractions so as to help them become a real instrument for revolutionizing the masses. This can best be accomplished by developing political discussions in the frac- first order of business at every tions and to concretize these dis- meeting and a brief check up or cussions on the basis of the specific conditions of the workers in the particular industry. In the re-cent period the New York district two months. has given special attention to this question and already we can see very good results. In many of our fractions such as in the shoe, needle, furniture, technical men, etc., recruiting is now going on. The sale of the Daily Worker has improved and the Party campaigns are being brought into the unions as seen by the quick response to the campaign in the Austrian situation, the recent unemployed conference, etc.

IF ANY

Peter Nikiforov, of rade Nikiforov? Bashkiria, U.S.S.R., wonders how the unemployed and half-employed American workers manage to live, what are living costs compared to

First, as to cost of existence. Food: the leaflet, "The Family's Food at Low Cost," sent out by the U. S. Dept. of Agriculture, states: "The orders below are suggested for families suffering from shortage of ne-grown foods and ready cash. These . . . give good nutrition returns for a limited outlay of money. . . . They are not considered op-timum for nutrition, but they are believed to be adequate. Any reduction in the suggested amounts of vegetables, and lean meat

must be made with great discre-tion." For a family of 2 adults and 1 child the weekly rations are as Bread, 10 to 13 pounds; flour, 1 Pattern 1680 is available in sizes Furthermore, we would like to to 2 pounds, cereal, 3 to 4 pounds; 34, 36, 38, 40, 42, 44 and 46. Size learn from the "Daily" as to how it whole milk, 9 to 14 quarts; potatoes, 36 takes 41/2 yards 39-inch fabric. to 10 pounds; legumes (peas. beans, peanuts, etc.), 1 to 2 pounds; tomatoes (fresh or canned or oranges), 4 pounds; other vegetables and inexpensive fruits, 12 to 14 pounds; fats, 2 pounds; sugar and

molasses, 2½ pounds; lean meat (liver, fish, eggs, cheese, etc.), 3 to 5 pounds; addition eggs for younger children, 3. Figured approximately at lowest discoverable prices, this grocery or-der costs over \$5. If there is another adult, as in Comrade Niki-forov's family, another \$2 at least will have to be added. This is the price of a diet which the U.S. overnment admits is on the ragged

What about housing? Well-in New York City, a cheap 4-room apartment, heated, costs from \$30 to \$40 monthly, according to locality.

There's between \$15 and \$20 weekly for the barest living ex-penses, not to mention shoes, soap, carfare, stamps, newspapers, in-surance, doctor bills, and such!

And the codes set the "minimum" wages around \$12 or \$13 weekly! So what do the workers do?

First of all, they worry. They all worry. Day and night. Nice deep-voiced politicians and clergymen tell folks over the radio that worrying never solves any prob-lems, is bad for the health, and stands in the way of success; that confidence and faith, glorious faith are all that are needed to bring back that goy and recalcitrant prosperity. Somehow, the workers don't listen. They go right on worrying.

Then they "double up"-move together, two or more families, into an apartment meant only for one family, and sleep packed so close together there's scarcely room to

Often they are evicted. They move around from pillar to post and

Many foraged the garbage cans for food and the ash cans for castoff clothing. Many are long since without homes of any sort, and sleep in the parks and in doorways in the summer and ride the subway

all night in winter. When they just can't stand it any longer, they commit suicide.

# Life in Mill

Have Workers Blame Each Other

By a Steel Worker Correspondent) CHICAGO, Ill.—Here in the gas house of No. 2 Blooming Mill, Wisconsin Steel Co., 106th and Torrence, the gas fumes are killing, by degrees, all of us. The company to do any thing. They try to blame us for making too much gas, hopstances of increasingly sharpened imperialist exploitation of colonies and semi-colonies — a component and first stabilization of stabilizatio ers with the hope that they will blame the rollers or some other workers, thereby making the workers struggle one against the other.

That is what has happened many ral relief. times in the past when anything also included 4 to 6 was brought up. They like to know to fill the core boxes. that we are calling the other workers dirty names and blaming them for everything because when we do that they know that we are not going to make them pay out any money to make the place a more decent place to live in.

We spend most of our time here, except when we are asleep, therefore it should be made into a decent place.

It is true that the most of us are foreign born, but since we have been in this country many years and have made the company millions where we have only received a measly weekly salary that was only enough to keep us in good enough physical condition to come back the next day and sweat out our last day's pay, we feel that we should have some of the pleasures that go with life, but if we are go-ing to have to spend the rest of our existence in the same way that we have spent the last few years then there is nothing to do but start putting up a fight, for it is not going to do us any good to stay here and breathe these fumes all day and then go home and spend our time off trying to recover from

We are asking especially for the support of the workers who are American born, but generally for the support of every worker in the

### Letters from Our Readers

CORRECTION ON THAELMANN PROTEST IN CLEVELAND Cleveland, Ohio.

The March 10th issue of the Daily Worker, reporting on the demon-stration called in Cleveland for the release of Ernst Thaelmann reported absolutely false information. It reported that thousands of Cleveland orkers participated in this demonstration called by the Young Com-munist League. The facts are that the demonstration was a failure, due to lack of serious preparations on the part of the League and failure of the Party to mobilize any of its forces in support of this action.

The statement appearing in the Daily Worker can only tend to dis credit us before those Daily Work-er readers in the City of Cleveland. We feel it necessary that the Daily Worker immediately print a retraction of its previous statement, pointing to its error, and also using this failure on our part to stress the need of careful and thorough preparation in mobilizing the masses of orkers in actions for the freedom

of Thaelmann. was possible to print such erroneous information. Such practices must not be allowed in the future.

Comradely yours. DISTRICT ORGANIZER, Young Communist League.

EDITOR'S NOTE: The report of the Cleveland demonstration was inexcusably written by a member of the staff on the basis of the announced plan for it, without confirmation that it had taken place. This is absolutely contrary to the policy of the Daily Worker, and steps have been taken to make sure that it will not occur again.

MUST DEFEAT ATTEMPT TO MILITARIZE CHILDREN Hudson, N. Y.

Dear Comrade: Enclosed herewith is a marked article from the Hudson Evening Register, which I though might interest you. This is concrete evidence of how the war mongers, a la N. R. A., weasel their way into Wall Street's Public School system. In view of Ralph Easley's great concern for the American public schools, he might direct his professional patriotic activities against this vicious attempt to militarize public school children in preparation for finance-capital's next imperialist slaughter.

There is slight chance, however, that the man, Easley, who was on Henry Ford's pay-roll a few years ago, and boasted that, "in one year Street which keeps him well-fed. (Signature authorized.)

# A BLESSING IN U.S.S.R.

35 Percent Output Rise Soviet Union Workers Steel Company Tries to in Detroit Means Only Get Benefit of Every Greater Speed-Up

IS A CURSE AT FORD'S,

By an Auto Worker Correspondent DETROIT, Mich. - There is no limit to the speed up in the core-room Dept. K in the Foundry Building. Six core-makers working in a gang used to make six flywheel cores in an hour. Later the work was speeded up to 10 an hour, and then to 20 and 30 an hour in a gang of six workers or on an average of 450 core boxes in three shifts. After a general layoff, only 13 workers remained at work. A specially designed machine was inment around the town. where one worker now makes 450 cores an hour. Produc-

we had to insert various forms of and for the workers. wire to strengthen the cores. This is now eliminated by the use of some powdered composition which makes the cores strong without the wire. We now must keep up with the speed of the machines, which is wrecking our health.

Signs of Breaking Down

About four months ago one of the workers was so exhausted from overwork that he could not get up and start working after his lunch hours. The foreman sent him to the factory hospital, and the doctor after examing him sent him home. Three weeks after, this worker came back to work. He was only able to work one week and then was laid off for good. The strongest workers who are still at work are showing signs of breaking down.

On other makes of cores the work also has increased to inhuman speed, which is nothing new at Ford's. the water jacket job it required 8 workers in a gang to make a com plete core. Now one worker operating a machine makes more cores than perviously the eight working in a gang.

The continuous, strenuous muscular movements gets one tired and

workers have been afraid to strong espionage at Fords. But now the tide is turning where some of the workers are not only talking about the nerve-wrecking speed-up but the need of organizing to put a stop to this. The Auto Workers News is finding its way into our department as well as to the whole factory.

The militant workers pasted up stickers calling workers to organize against \$4 and speed-up, and de-manding \$6 for a 6 hour day; 2 weeks lay-off pay. The foremen and service men scraped the stickers off but others found their place.

We must immediately organize committees of action against the slave driving conditions.

### **Workers Council in** Spur, Tex., Formed; To Meet March 21

By a Worker Correspondent SPUR, Texas.-Saturday night March 10, here, we organized a Workers' Council. I joined. About the 21st we will meet again; more are coming in to the Council. Conditions are getting serious here. What happened to the \$300,000,000 that Hoover appripriated? F. D. R. appropriated \$3,-300,000,000, then \$950,000,000 more. What has become o this money? The working class certainly has

not had the benefit of it. We will have a delegation at the the Dallas News gave out these I was in the hospital two months ready a C. W. A. worker has been threatened with being taken off the C.W.A. rolls, because a farmer ica I worked and starved. I want

### Building of LSNR Is Problem of Great Political Importance

Where White Comrades were Active, We Won Confidence of Negro Workers, Says Ford

By JAMES W. FORD,

Section Organizer, Harlem. In line with the Open Letter, the cided that Harlem should become a national concentration point. Following this, the Harlem Section Committee undertook as its central of a worker disagreeing or oppostask, the building of the League of ing the formation of the L.S.N.R. Committee undertook as its central formism and that a strong revolulem would counteract Negro re- tendance at meetings ranging from formism and thereby help the de- 50 to 100 members. relopment of the L.S.N.R. nationally.

We understood also that the rulway that revolutionary influence the branches was held after a makes in Harlem. It is no accident, for example, that along with the support that is given the Negro reformist leaders by the ruling class, we see that the renegade Communist officers work on a voluntary basis. groups find it important to carry on their counter-revolutionary activity in Harlem with gusto.

Every leading and responsible comrade of Harlem and the members of the Section Committee understood from the outset that our task was not simply a question of mathematics, of building so many branches of the L.S.N.R. But that our work involved ques-tions of great political importance in line with the open letter and the building of the L.S.N.R., was in connection with one of other concentration tasks, that is, shop concentration and the recruiting of Negro workers into the Party from the larger and basic industries. In Harlem this meant the laundries, etc. This was to insure a strong proletarian base for our liberation movement. We knew very well the social character of Harlem and that Negro reformist influence was wide-spread among honest Negro working people. This was, let us say, the first stage of our work.

Party in Harlem had within it an our white party comrades who were L.S.N.R. group. The comrades of these groups had as their major membership in an L.S.N.R. branch task the building of a branch of the L.S.N.R. in their neighborhood. Possible to prevent the justification The national committee of the L.S. of suspicion that they, as white The national committee of the L.S.

N.R. had already met and revised the program of the L.S.N.R., which was distributed in pamphlet form.

This program was a great help active members, leading forces, belloing and guiding as much as towards building up branches of helping and guiding as much as

One difficulty, however, which we fidence of the new Negro workers; that they should lead in the strugfrankly face was the following. The National Committee of the L.S.N.R. gle for Negro rights. We have gotten as an elaborate top heavy list of ten good results with this policy. was an elaborate top heavy list of officers. Many of them residing in have wen the confidence of the New York; they were like generals Negro workers. In no case have without armies. It was difficult to we had from honest rank and file get some of the generals to see that they should get down off their they should get down on their white comrades wno are memoers horses and help to lay a base for the L.S.N.R. in Harlem by building N.R. branches. One white comrade members. For a time confusion through house to house can work the retional officers. arose between the national officers arose between the national officers with the Liberator has got more and local officers. Finally, however, applications for the L.S.N.R. than this difficulty was greatly overcome. National officers were persuaded to of work should be instructive for give some assistance to building up other comrades. ocal branches, through day to day

Another stage. During the second Scottsboro trial we had two excellent protest demonstrations in Harlem, involving thousands of workers, and several mass meetings. The indignation of the masses against the second death verdict was very high. These actions brought in several hundred applications for the L.S.N.R. Together with the applications brought in by the day to day work of the units and the loyal cooperation of the Harlem branches of the I. L. D. we had a basis for starting to set up branches of the LS.N.R.

The applications were assorted according to territory or neighborhocd. The applicants were visited. There were, of course, duplications (of I. L. D. members); some of the applications were no good. The set-ting up of branches in given neigh-

# CHANGE

IN ITS current issue the New Masses, revolutionary weekly, continues to unmask the pretenses and reveal the anti-Communist motives of a group which about two weeks ago addressed an "open letter" criticising the Communist Party in connection with the Madison Square Garden meeting called by the Socialists ostensibly to protest against Austrian

An assorted group of 25 writers and college teachers, including individuals of varying degrees of obscurity, had signed this letter protesting against "the disruptive action of the Communist Party which led to the breaking up of the meeting called by the Socialist Party in Madison Square Garden.'

Now we know how to differentiate between a sincere request for clarity on a situation and a poorly disguised factional document. And this so-called "open letter" is clearly in the latter category.

'Speakers were howled down, fists flew, chairs were hurled, scores were injured." This description could have been taken bodily from the lying, sensationalized "news" reports which appeared in the capitalist press immediately following the Garden meeting. Whose fists flew? Who hurled the chairs? Who injured whom?

### The Issue Re-Stated

WHAT was the frame within which all these events took place? A mass of workers coming to make the united front in action provoked by police searching, stripping of banners carrying revolutionary slogans by police acting under Socialist Party orders. Add to this the fact that the note insistently sounded from the first by the Socialist Party leaders was a note of calculated insult and provocation.

Against this the workers reacted with sound, proletarian instinct! By the actions which the signers of the "protest letter" found so disagreeable, the thousands of assembled workers accomplished one magnificent result: they showed that the workers of New York will not tolerate the presence of such advance agents of fascism in America as Matthew Woll and LaGuardia to defile a meeting dedicated to the

And seated on the platform, trying to cover their own reactionary deeds in this country by the glory of the Austrian workers, were the Dubinskys and Schlossbergs. Ladies and gentlemen of the "protest letter"-do you find fault with the class instinct of the workers as revealed at Madison Square Garden whose hatred can not be so easily restrained within the polite limits of academic "radicalism"?

TUST what, then, is the purpose of this "open letter" to the Communist Party? Its purpose is crystal clear.

When the Socialist leaders, by their treachery everywhere, are being completely discredited before the masses-individuals tied to the kite of Trotsky's little group in America, to Muste's foundling (the American Workers Party), to the Lovestone renegade group-at such a time, the sponsors of the "protest letter" seek to bolster up the waning influence of the Socialist Party and halt the movement of the workers toward the Communist Party.

The Socialist Party in every country goes over openly to the camp of fascism. (See Otto Bauer's recent statements.) In the United States, for example, it is vividly exemplified by the support given the N.R.A. by Norman Thomas, and to his statement-made only the other daycalling for support of the Wagner Bill, which would force militant unions and all workers' actions under the domination of the A. F. of L.

"We do not approve the Socialist leadership in Austria or the United States," say these signers of the "protest" letter to the Communist Party. But their action is precisely calculated to maintain the waning influence of these leaders, and to cloak the political meaning of the "united front" which these Socialist leaders tried to make with

WHO are some of the signers of this document? Some of them are sentimentalists like Louis Berg, John Henry Hammond, Jr., Greenwich Village revolutionists whose guiding star has been Elliot E. Cohen, the former associate editor of the Zionist publication, "The Menorah Journal," who himself signs the letter. Cohen, Berg and a number of others demonstratively resigned from the National Committee for the Defense of Political Prisoners at the most crucial stage in the fight to save the Scottsboro boys because they disagreed with the policies fol-

lowed by the organization conducting the defense. There is Felix Morrow, Sidney Hook's unctuous undercover man among the "literary" radicals-politically shifting and double-dealing. There is John Chamberlain, whose interest in the "Left" is such

that the highly class-conscious owners of the New York Times find his social and literary criticism not only not objectionable, but valuable to their reactionary class purpose.

There is James Rorty, whose years of experience in writing lavish advertising for soaps, perfumes and Scott Tissue, equip him admirablyin his own opinion-to pass judgement on the united front tactics of the Communist International. Years of training have taught Rorty how to pass from one political camp to another as handily as he passed from writing advertising panegyrics for toothpaste and patent laxa-

There is Clifton Fadiman, book commentator of The New Yorker, spicy organ of middle-class sophisticates, seeking to enjoy vicariously the life of the leisure class. Fadiman takes exception to our united front tactics!

There is Edmund Wilson, who justifies his acceptance of Trotsky's counter-revolutionary program by saying that he finds Trotsky's prose style more elegant than Stalin's.

There is George D. Herron, one of the pro-war Socialists who served Woodrow Wilson faithfully as an unofficial Administration agent in Europe during the war.

These people, who in their daily life are continually making concessions to the bourgeoisie, dare give us lessons in united front tactics! Because of their class nature, they instinctively seek to pull the

revolutionary movement in their direction. There are such nonentities as John McDonald, who acts as time-

keeper and water-carrier for the more prominent in the group. Novack, Meyer A. Girshick? Are they intellectuals? Are they revo-

### Strange Company for Some

IT IS surprising to find the name of Meyer Schapiro signed to this "protest." For Schapiro, as an able art critic, has frequently aided the activities of the artists of the John Reed Club. Quite recently he and an associate made a valuable study of housing conditions in New York City and placed their findings at the disposal of the Unemployed -Councils of New York. It is much more surprising to find the name of John Dos Passos

signed to this "open letter." And the sponsors now announce that Theodore Dreiser, too, has affixed his name to the "protest."

In its Open Letter to John Dos Passos, the "New Masses" eloquently called his attention to the strange company in which Dos Passos finds himself in.

As for Dreiser-assuming that it is true that he has signed this curious "open letter"-it is not so surprising. He has recently come out staunchly for the wage-cutting codes of the N.R.A., and his public declarations of late have revealed a man unable to shake off the individualistic intellectual habits of a lifetime.

The Communist Party is the defender of everything that is vital and honest among American intellectuals. The rigors of the crisis are separating unerringly the honest elements among American intellectuals; those whose loyalty to the revolutionary movement is real and courageous, from those who are already beginning to rationalize their fear of the realities of class struggle by seizing any convenient pretext for isolation from the struggle-and clothing their cowardice in the tattered cloak of Trotskyism.

We Communists have been building the united front of the workers; we shall continue to build the united front of all genuinely interested in waging a revolutionary struggle for the needs of the workers,

### Auto Workers! Strike!

LVERY auto worker in the United States is now faced with the most momentous decision. The class battle lines are being drawn for the most gigantic strike struggle the auto industry has ever seen in this The bosses have mobilized their forces. Helped by the criminal delays of the A. F. of L. leadership, they are striving to gain the advantage through the N.R.A. and with the aid of the Roose-

With tremendous strides the auto workers are moving into action. Almost unanimously 4,000 Chevrolet Motor Co. workers in Flint on Sunday voted for strike. The Hudson A. F. of L. local in Detroit on Sunday voted to strike Wednesday at nine o'clock. Tens of thousands of more workers all over the auto industry have already expressed their firm determination to strike. Over 250,000 workers are involved in this industry, and are in a position to win their demands by the proper action, and by avoiding the pitfalls set for them by the treachery of the A. F. of L. officialdom.

Now is the most favorable time to strike. That is why the bosses with the help of the government and the A. F. of L. leaders are so frantically trying to stop the strike or to stall it along to a time more favorable for the bosses. Action to be victorious must come now. The height of the season is here. A stoppage would hit the bosses when they do not want to be hit. This is the trump card in the hands of the workers.

With this favorable situation, united action is imperative. The A. F. of L. leaders are following the policy of trying to split the workers' ranks. The Auto Workers Union has warned the workers against this policy. They point out that in every auto plant, every worker, regardless of whether he is in the A. F. of L., Auto Workers Union, or the Mechanics Educational Society must knit his force along with his fellow worker in one united struggle All workers must act together, and not allow their power, their mighty struggle to be split along organizational lines. Strike committees should be set up in every plant, with representatives from every department, unifying the workers, and representing their interests, preparing to lead them into the great battle that will win them the victory of higher wages and a real union recognition.

THE A. F. of L. leadership is trying to build up all sorts of illusions about what President Roosevelt will do for the auto workers at the critical moment, at the zero hour. The very sharp and bitter attack of the National Automobile Chamber of Commerce, supposedly against the A. F. of L. leaders, is one of the tricks of this game. It is made especially sharp in order to give room for apparent bargaining and later conciliation-which would leave the workers nothing.

The auto workers must beware of the usual talk and proposals for an election. This is defeat for the strike; it is defeat for the workers' demands. Remember Budd, remember Ford, remember Weirton. These workers got "elections." And with what results! The workers were driven into company unions. They were fired. They are now worse off than ever before. "Elections" under the N.R.A. with the bosses fortified by the "merit clause" of the N.R.A. code, is playing into the hands of the bosses. Only strike can win what the workers want; and every step should now be taken for this road. for unifying the workers for action

The A. F. of L. leadership is ditching the workers' real demands, such as higher wages, against speed up. William Collins declared to you that a strike would not "fundamentally be for better working conditions or pay increases, but for the enforcement of Section 7a of the N.R.A. code." This is a ghastly piece of treachery. The bosses were able through Section 7a to build their company unions. Collins does not want the workers to strike against the rotten conditions imposed on the auto workers by the auto code, and kept shackled on them by Section 7a.

Not only should the immediate action be the setting up of strike committees, composed of those workers in your shops you have confidence in, but all auto workers, in every factory, in every union local should send delegates to the huge united front conference called by the Auto Workers Union.

THIS conference, already endorsed by thousands of auto workers regardless of their union affiliations will take place in Detroit on Sunday, March 25, at 10 a.m. in Carpathia Hall, 3500 Elmwood Ave.

The purpose of this conference is to rally all auto workers, whether in the A. F. of L., Mechanics Educational Society of America, or the Auto Workers Union, to discuss their demands, to get down to real action, to take up the actual questions of forging a united front of all workers which will be the guarantee of victory in the strike.

Every auto worker should make himself a fighter for the conference. Bring it up in your

N THE pending auto strike, which will have its echoes in all the basic industries throughout the country, members of the Communist Party in the automobile factories bear the greater responsibilities. They must take the lead in forging the united They must be in the forefront in exposing the A. F. of L. leaders, the N.R.A., in their negotiations with the bosses. The Communists, the most militant and trustworthy leaders of the working class, must now show their mettle in this tremendous battle. In the Auto Workers Union they must devote the greatest energy in helping build the united front. In the A. F. of L., and M.E.S.A., they must build the rank and file oppositions to win favorable action for the united front, for the building of strike committees, and in preparing for strike action. They must answer the "red" scare, and combat the illusions of the N. R. A. and

Auto workers! Now is your golden opportunity to smash back the miserable conditions under which you have been slaving. Now is the time to win wage increases, to defeat the savage speed-up that is tearing you to pieces. Now is the time to win organization! Do not let the bosses and their agents, no matter whether they are disguised as A. F. of L. leaders or not, grasp this opportunity

Act now! Form your strike committees! All auto workers! Unite! Prepare for the struggle and

### Who Is Responsible for the Tag Days in Aid of Tenement Fire Deaths?

THE lives of over three and a half million workingclass men, women and children, living in oldlaw slum tenements throughout Greater New York, are daily menaced by horrible death by fire.

Fully 75 per cent of the workers' dwellings in New York City are miserable fire-traps, which can be turned in a few minutes into blazing coffins.

No one actually knows how many fires occur in the city every single day of the year. No one knows how many fires are discovered just in timediscovery of fire a few minutes later in most of these cases would result in the charred bodies of dozens of workers who are crowded into these filthy tenements, which Commissioner Post has admitted are "unfit for human habitation."

Who is responsible for the fact that workers are forced to live in these inhuman holes, forced to fear annihilation of themselves and their families at any moment? Revelations of the past few weeks have shown that the owners are the wealthy and aristocratic families of New York-the Stuyvesants, the Astors, the Ham Fishes. Other interests whose incomes are swelled by the rent which workers are forced to pay for the privilege of living in constant fear of fire are the wealthy churches, the theological seminaries. Wealth and the religious interests go hand in hand in victimizing the working

But no worker can forget that the primary fault for the 33 fire-deaths which have occurred in the last two and a half months rests directly on the shoulders of Mayor LaGuardia and the Fusion administration. The glowing promises of LaGuardia during the election campaign that he would raze the slums and build modern sanitary apartments for the workers at nominal rentals have not materialized. Instead we have witnessed the horrible deaths of 33 workers, their wives and their children. The city government is directly responsible for these deaths. All of Fusion's promises, its smoothly-worded statements, are just so many words when the wealthy tenement owners, Wall Street banks and LaGuardia weigh their profits against the lives of 3,500,000 people, and prefer their profits. LaGuardia's demand that the landlord's "repair" these hopeless firetraps is a fake; this is not being, nor will it be enforced. It would, in any case, be insufficient, since most of these buildings are beyond the stage where repairs might do any good.

THE Unemployed Councils proposed an extensive Public Works program, part of which is the razing of slums and the building of modern sanitary homes for the workers. This would put thousands of jobless men to work as well as provide safe homes for fire-menaced families.

LaGuardia, it might be pointed out, is not alone in his empty promises; Roosevelt also spoke grandly about model-housing projects a year ago. But today, a year after Roosevelt assumed office, and almost three months since LaGuardia became Mayor, the early campaign promises are just so much words; joblessness continues to be widespread, and workers still rot in slums, not only in New York but throughout the United States.

New York workers must remember these empty promises and declare emphatically that these promises will not blind them to the fact that the city administration is responsible for the deaths of workers and their families.

Organize in every house. Set up committees in every slum block. Demand that all tenants, Negro and white, in firetrap buildings be moved at once into safe and sanitary dwellings; that the Home Relief Bureaus assume responsibility for moving expenses and rent payments for all unemployed families; that all workers' families living in firetraps be given preference in all city dwellings, in all city apartment houses now in existence and those to be built.

Fight against any form of discrimination against Negro tenants; for the right of all tenants to choose themselves the section in which they wish to live. Demand that LaGuardia immediately carry out his campaign promises

Demand that the slums be torn down and that fireproof sanitary apartment houses be built-the rentals to be from four to six dollars per room max-

## Enthusiasm Grows for National Party Convention

### Mobilizing for the Opening Meet

CLEVELAND .- The struggle against war and fascism and the revolutionary solution of the crisis will be the first point on the agenda of the Eighth National Convention, which takes place in Cleveland, Ohio, April 3 to April 8.

Earl Browder will deliver this main report, it was announced yes-terday. Later it will be discussed by the rank and file delegates and leading functionaries of the Party from all over the United States. On the basis of these discussions a program of struggle will be drawn up by the convention.

One hundred and fifty thousand leaflets have been spread all over Cleveland, the concentration district of the Party, and in the industrial towns nearby, calling the workers to participate in the opening meeting. Posters announcing opening of the convention are being placed all through workingclass neighborhoods.

"The significance to Cleveland and to the whole Party in holding the Convention in this centre of industry and basic mass struggles is great enough to warrant the greatest and most intensive mobili

Jobless Strike Against Forced Labor Near Hamburg

BERLIN.-Strikes against attempted wage-cuts under the new Nazi "labor law" are reported in the illegal "Rote Fahne," central organ of the

German Communist Party. In the Neidig machine building works, at Mannheim, the management attempted to cancel the wage agreement, basing its action on the proclamation of the "labor law." It proposed a piece-work rate which would make it impossible for the workers to get as much as be-

The Nazi shop stewards refused to call a meeting at the plant, to protest, and a number of workers called a shop meeting at which a delegation including two members of the Nazi shop council, was elected to present the demands of the workers to the management.

Workers Strike on Job The manager refused to negotiate When the delegation reported this, the workers stopped work. Next morning, all the workers showed up,

but did not stir a finger.

The next morning, the management posted a notice that the new regulation was withdrawn and the vorkers would be paid under

The Rote Fahne, commenting on this strike, warns the workers that the attack will be renewed after the slave "labor law" is made effective on May 1, and calls for the building of a powerful illegal shop organization and independent class unions to lead the resistance to the bosses' offensive.

Similar strikes occurred in the great Spindler cleaning and dyeing works in Berlin, and in the Chemnitz textile factory.

Strike Against Forced Labor HAMBURG, March 19.—Fifty unemployed workers being transported to a forced labor camp near Verden went on strike yesterday, shouting their protests against the hard

work and starvation pay.

Three were arrested, but the strikers marched back to their home

### Fascization of **Austrian Unions** Meets Setbacks

Not Enough Heimwehr Workers To Carry Out Reorganization

VIENNA, March 19.—The fascisation of labor organizations in Austria is not going forward as fast as the Heimwehr would like, because there are not enough fascist work-

factories to discharge workers to wehrmen are unskilled, and poor
