### SPREAD THE ATLANTIC COAST MARINE STRIKE! -AN EDITORIAL -

THE strike of the Atlantic maritime workers went into effect yesterday, despite frantic efforts of the shipowners and leaders of the International Seamen's

Union to halt it. Crews of nine ships are out in New York harbor. Fifty longshoremen, members of the International Longshoremen's Association, have joined the seamen in a sympathy strike in Brooklyn. Reports from other Atlantic ports-Baltimore, Norfolk and Eoston-show that the strike is spread-

ng there also. Out of three ships in port in Boston yesterday, two struck. This is a splendid beginning, and shows that the strike has every possibility of rapidly spreading, striking the ships as they come into port, gaining momentum from day to day.

The samen, fighting under the leadarship of the Joint Strike Committee, are striking for the

following demands:

The eight-hour day on all ships and departments, and the 44-hour week. The 1929 wage scale; 75 cents an hour for all

overtime after eight hours. For a 33 per cent increase in the present Shipping Board manning scale. For a centralized shipping bureau controlled

by elected committees of seamen. Against discrimination of Negro and foreign-Recognition of the ship committees and unions

of the workers' choice. Longshoremen, striking in sympathy with the seamen, are demanding a dollar an hour; six-hour day; time and a half for overtime; control of the hiring halls by elected committees of longshore-

In order to win these demands it becomes urgently necessary to rally at once all available forces to spread the strike to every ship that comes I harbor on the Atlantic Coast,

into the harbor. Committees must be on the lookout to see that none of the struck ships pull away from the docks. There must be mass picketing at all piers where the struck ships are tied up.

The main slogan today is, Spread the Strike!

All activities in connection with closing the fink shipping halls should be intensified and strengthened Many have already been closed, but the seamen can see that they stay closed. Mass picket lines should be set up in front of the agencies which persist in shipping scabs. The unemployed workers have a special role to play in closing the shipping halls and keeping them closed.

Already longshoremen on one pier have answered the strike call, in spite of attempts of Joseph P. Ryan to keep them from striking. More longshoremen will answer the call. But to bring them out there must be an intensified mass agitational campaign launched at once at every dock in every

All harbor workers, tugboat men, and bargemen, regardless of union affiliation, should be convinced that this strike is for the benefit of all maritime workers. All efforts should be made to draw them into the struggle. Officers and radio operators on all ships touching

Atlantic ports-this is your strike. Join it.

The strike can be won. Its success depends upon the ability of the workers to activize the broadest number of workers in the struggle. Small numbers of workers in action are not sufficient. The question of relief for the strikers is a most

important one. Relief stations have been set up in all ports by the Workers International Relief More funds, food and clothing must be rushed immediately to the Relief Headquarters at 870 Broadway, New York City. All workers in all trades, workers in all unions,

workers of all political opin ons and party affiliations, stand behind the maritime workers in their heroic strike.

Spread the strike!

These are WEEKLY earnings of a typical textile town. These are the average payments at the N. R. A. code rates, from \$12 to \$14 a week.

With rising prices, company deductions, sickness, lay-offs, and stretch-out, they give a picture of unexampled misery and starvation in the textile centers where almost one million textile workers grind profits for the employers.

The conclusion is inescapable the "success" of the New Deal which Moley asks the workers to continue in the Congressional elections has been only a successful wringing of new profits from the workers by lowering their real wages and their daily standards of living.

Sinclair, to save his face, has announced that his program has had to be modified because of constitutional barriers. He speaks of a "twilight zone of law" that forces him to use only "such procedure as our people are used to and our courts have definitely sanctioned."

is little more than a plan to help tory receives a high rent from the Subsistence Colonies

The Ohio plan, to which Sinclair now subscribes, is part of Roosevelt's scheme to drive the unemployed to subsistence colonies, where they will be insulated from the employed workers. It is a shrewd scheme to foist the burden of unemployment on to the working class and use the misery of the unemployed as a club against strikers and workers who fight for higher standards of living.

Sinclair will do nothing for the unemployed. He will do nothing for the poor farmer who will continue to have his farm foreclosed by the banks or sold for taxes by the state. The small home owner has already heard Sinclair repudiate his promise to exempt his house from taxes. Silent on Reign of Terror

The employed worker has seen Sinclair refuse to condemn the vicious reign of terror that was launched against all militant workers, during the San Francisco general strike. Sinclair has refused to commit himself on such a vital as discrimination against Negro, Filipino, Chinese and foreign endorse the candidacy of the militant fighter Leo Gallagher, for the Supreme Court. And at a time when the workers of this country the New Deal, he has fully endorsed the Roosevelt regime. This means that he has endorsed the murder of all strikers who have been killed in strike and to organize.

The huge vote that Sinclair received in the primary elections was the expression of the discontent of the toilers with the reactionary the Atlantic Coast Fisheries refornia was in any sense "and that

Workers who vote for Sinclair in preference to Merriam are voting just as the capitalists want them to vote. They are voting for a man who will give them nothing, for a candidate who has betrayed his promises even before he was put in In contrast to Sinclair's method

of promising everything and giving nothing, the Communist Party in California has worked out a program that recognizes the immediate needs of all the workers, farmers and small homeowners in the State. It would increase wages 20 per cent in order to meet the rising cost of living. It would inaugurate a five would end all taxes on homes valued would end all taxes on homes velued at \$3,000 or less. Accidents Frequent As Men Are Speeded Up; Grafters Use Stools to Throw Blame on Workers

By an Auto Worker Correspondent

DETROIT, Mich.—The exposure of the Ford Executive ist, is stomping up and down the a new speed-up system in the form Administration which appeared in the Daily Worker of Aug. "sawdust trail." 28th had a tremendous effect both upon the grafters of the Ford executive and many workers in the Ford plant who Bolshevikis, and labor unions" in ment realizing that it was defeated they could not pay any more. If were glad to see these corrupt officials getting shown up.

Krause, Williams, De Planche, Mid-9 dleton, and Rooney, the Ford executives concerned were running all Seamen! over the various departments trying to find out where the information came from, and to cover them selves up. We know they were all called up to the main office for questioning and like the rats they are they could not take it and are trying to pass the buck on the Ford workers and some of the smaller bosses They are trying to break up all talk of their thieving by itting up all the men whom they think might know something and send them to all parts of the plant, out of the way. We know that their thieving gang was spread in every part of the plant. The notorious Ford Service Department is involved heavily. We want to tell Krause and Company that we have not told

all we know yet.

These rotten and corrupt Ford Executive Administrators are the men who emphatically state that \$5 a day is plenty for any Ford worker. They might, they say extend it to \$5.20 up to \$5.60 a day and in a few instances even be generous to give \$6 a day. In any case they could not give any more because the cost of the jobs is already too high. Here we have these Ford Executive Administrators using up men's time month after month and thousands of dollars of material for their own personal use and their friends. This is all put down to a job number and is charged on the cost sheet as such. This is what makes the job cost so much.

Take a particular case, a job is costed to take 22 men with \$2,500 of material, four weeks to complete. Ten or twelve of these men with \$1,200 worth of this material are using it to make up all kinds of articles for the personal use of these Ford Executive Administrators and The ten to twelve men who are left on the costed job are driven and speeded up as far as they can go to make up the time of the rest of the men who are supposed to be on this job. The jobs are slapped up anyway and often accidents happen as the result of this infamous corrupt tribe of Ford's administrators.

## Longshoremen!

The Daily Worker urges all seamen and longshoremen to write about all developments connected with the strike, the sentiments among their fellow workers, actions to establish one united strike front along the entire Atlantic and Gulf Coast, and so to prevent any sell-out or arbitration scheme of the International Seamen's Union leaders. Write about everything that you discuss with your fellow workers. This will make it possible for us to help in organizing and winning your struggle.

During the strike first consideration in the publication of news and correspondence will be given to the marine strike.

While these labor-exploiting bosses are washing their dirty linen, much information of great interest to the workers who slave in the Keystone mill for low wages, is being uncovered. # CHANGE

THE news out of all the capitalist countries today is bad news, evil, disgusting and inhuman news.

The news out of the Soviet Union is sometimes news of misfortune, but mostly, it is great news, inspiring news, news of hope for the human race; news that is, in the profoundest sense of the word, GOOD news.

By their fruits shall ye know them. The American newspapers depress one with a record of daily horror and defeat. Negroes are being lynched and tortured in this land of capitalist "freedom." Millions of workers are paid a starvation wage, like the textile workers, who earn an average of \$10.17 a week, and are murdered by soldiers and boss-thugs when they dare to strike

A steamship is sunk and 300 lives lost, because of the filthy greed of the capitalists. A baby is kidnapped and killed by one of the numerous money-maniacs. Dozens of jobless Americans die every week by suicide; death has become easier than to live in this inferno.

But the newspapers of the Soviet Union are filled with reports of great construction. There is no unemployment in that country. The farmers are organized, and are bringing in the greatest crops in their history. At last, after seventeen years of fighting against the capitalist world for the right to live, the Soviet people feel secure. The girls are beginning to dress up. Thousands of new modern apartment houses are being built. There is a demand for luxury among

The country has the highest birth rate in Europe; nobody fears the future. More books are published than in any other country in the world; good books, not trash. The people are educating themselves; there is no more illiteracy, or hunger or fear.

If this Soviet land of workers isn't switched off its main track in the next few years by another military invasion of bloody capitalitm, it will soon be a land of wealth and culture such as the world has never seen before-wealth and culture that everyone will share

Yes, it is all good news and one feels deeply as one reads it. that the human race is fundamentally good. Crime, poverty, war, and the other familiar evils are only capitalist evils, and can easily be wiped off the earth. That is what they are busy doing in the Soviet Union; they are proving that the human race is good-given the chance to be, under Communism.

### An Army of Liars

THERE are so many fancy liars about the Soviet Union, that many Americans are confused. They don't know what to believe, and it is hard to blame them. When a seemingly genial, good-natured, "folksy" clown like Will Rogers begins to lie about the Soviet Union in his innocent way, as he did recently, how is the average man to

But it should be very easy to test such people. They always lie because their sympathies are with the rich class, and not with the workers. Watch these people closely in any big American situation. They are sure to be on the side of those who lynch and hate Negroes, Jews, Irish or other national minorities in this country. When there is a strike, they are always on the side of the scabs and the boss-

The people who lie about the Soviet Union, do the same dirty work when the American common people are concerned. Look at the stand taken by Will Rogers in the recent reign of terror in California. Will was on the side of the capitalist butchers, of course. He gloated over the fact that free speech had been denied the strikers. and their people shot down.

Will Rogers is a wealthy clown these days and has many investments to protect. He moves among only the "best people," and is the favorite wise-cracker of every Babbitty millionaire. Keep it up, cowboy, you'll be a crooked congressman yet!

We mustn't allow these liars to mislead us about the Soviet Union. A mountain of facts has piled up during the years, and any American worker can find them. They will teach him that it is possible to create something better than the capitalist system so beloved of Will Rogers and Will Durant.

### Give Us Our Daily Lie

FOOL can ask more questions in an hour than a wise man can A answer in a week. And a really good liar, rolling up his sleeves and sweating cheerfully at his work, can invent more assorted lies in a day than a hundred truthful men can dispose of in a life-time.

Every one of these lies has been answered dozens of times, but the liars roll merrily along. It's their job, just as raising a bad smell is the career of a skunk.

Take the lie so much favored among American intellectuals: that the Soviet Union is a land of machine-worshippers, who, like Henry

Ford, care more for production than they do for human beings. You are probably familiar with this ripe-smelling old lie. has heard it scores of times from the quivering lips of Joseph Wood Krutch, Seward Collins, the fascist, Isaac Don Levine, Bishop Manning, Herbert Hoover, Emma Goldman, and many others.

It so happens that the Soviet Union is precisely the first land in history where the value of human beings is being placed far above that of the things they produce.

It is simply a fact that the first charge on industry there is the health and happiness of the workers. No factory or collective farm is allowed to operate or show a profit until all the workers have been protected by every form of insurance. If they are sick, doctors take care of them without charge. They are given yearly vacations of a month at the expense of the industry. It is obligatory that the industry provide them with housing, food supplies, clothing, nurseries, clubs. The women are paid for four months while bearing a child.

Every truthful traveller who returns from the Soviet Union testifies to this amazing system of social insurance. American engineers who have gone there to work have often marvelled that industry could be made profitable with such an enormous overhead for the welfare of workers.

But this is the basic law of the Soviets-men come before machines. And the liars stand this fact on its head and make of it a charge against the Soviet Union.

### Soviet Prison Schools

OR TAKE that other stale lie about the harshness of Soviet prisons. Recently there was finished the great White Sea Canal, built entirely by prisoners. They were the worst criminal elements-thieves, murderers, incendiary kulaks, prostitutes-human unfortunates such as clog all the American jails. Thousands of them were shipped to the north under the leadership of a few G.P.U. men. It was an experiment. With this dangerous material the Soviets proposed to build a great canal and change also the hearts and minds of the criminal. In capitalist lands they tell us they believe in Christ's mercy, but

where in these "christian" lands has such mercy even been shown to criminals as by the atheist Soviets?

For the canal was built, and most of the criminals have become new men and women-sincere, serious and loyal. They have learned the great lesson of useful work. They have been socialized. Most of them were set free-some even awarded honors by the Workers' Republic.

The prison system of the Soviets is based no on punishment or vengeance, but on the principle of re-education. They regard a criminal as a sick individualist who needs to be cured by socializing him. Every jail there is a school, not merely a cage for confining human un-

And the capitalist liars stand this great new fact on its head. also. The most humane and rational prison system in the world is called the worst. What can you do with such determined liars? Maybe a term of re-education in a socialist jail is the only remedy. May the day come soon when it will be possible to save the liars from their own sordid and criminal careers.

### WORLD of the THEATRE

ROLL SWEET CHARIOT, a "symphonic play of the Negro people," by Paul Green, with an incidental Cort Theatre.

> Reviewed by LEON ALEXANDER

Mr. Paul Green, writing once children. They came to protest against starvation. They came to more of the Negro in the South— but this time, alas, without the sympathy and the understanding that was in "In Abraham's Bosom"—had not assumed the prophet's cloak and wrapped himself in seeming profundity, I might have found his new play "Roll Sweet Chariot" merely a dull and banal melodrama. But Mr. Green has a thesis, his play is a parable of the Negro people, and through the symbolic fog it emerges as a vicious slander upon

The locale of the play is Potter's Field, a Negro settlement in the South, on the edge of a white man's town. There the Negroes live in squalor and promiscuity; ignorant, physically and morally degraded, content to wallow in filth, unrebellious. Two at least of the depicted characters are congenital idiots, and the level of intelligence of most of the rest is not much higher.

THE melodramatic story, what I there is of it, centers around a woman whose husband has been sent to the chaingang, and who is now living with another lover.

To this settlement comes John Henry, the hero of song and story, the Paul Bunyan of the Negro in America; but he also has become degraded and depraved, an escaped convict from the chain gang, garbed in the fake dress of a minister, planning to prey upon the ignorance and the superstitions of this community. He impresses the people with his strength and his magic, and plots deeply and darkly a sad fate for Potter's Field. He engineers

THE last scene opens on the now destroyed settlement. We see the overseer of the chaingang, brutal, wielding a whip, and an armed guard; we hear the chaingang approaching. They come in, a dispirited, suffering group, singing a work song in the second best manner of Mr. Baillieff's performers in the "Volga Boatmen" tableau. The second book to cell block. But for the Worktrue-to-life set, crowded inside a cheese cloth sky cyclorama, is constantly at odds with the intended mood of the play; the lighting reminds us of the worse atrocities of the high school auditorium.

Returning to the play, it is also quite possible that I have misinterpreted the purposes of Mr. Green. ### Spanish Fascist Lies

THE American boss press, anxious to see I the Spanish workers and peasants defeated in their armed struggles against the Fascist Lerroux regime, Monday morning avidly printed and displayed the false and lying reports of the Spanish Government. "Red Revolt Crushed!" "Uprising Smashed!" shrieked the headlines, expressing their hatred of the Spanish workers' revolution, their bitterness over the daring and bravery of the oppressed masses rising against their enslavers and executioners.

Yet while the American capitalist sheets were spilling their vile, lying poison, the Spanish workers were intensifying their struggles, entrenching their forces, carrying forward the battle against fascism. With the "revolt crushed," the proletariat of Oviedo, Asturias, captured the huge government arsenal, arming thousands of workers for still more inten-

sive and decisive battles against the Fascist hordes. Though Luis Companys and his bourgeois associates had capitulated in the national struggle of Catalonia, the proletariat and peasantry took up the battle on a higher stage and at a flercer pitch.

Far from having been defeated, the proletariat throughout Spain were girding their forces for greater battles. IT MUST be remembered that every bit of news

coming out of Spain is censored and doctored in the interest of the Spanish Fascist cabinet. In fact, when one correspondent was telephoning to London, the wires were suddenly shut off by the censor. Then, too, most of the news comes from correspondents in the pay of capitalist news services who are ignorant of the class forces behind the growing revolutionary struggle, and who, furthermore, are not too anxious to even report straight news on the advances of the workers.

The Spanish proletariat is battling on. The outcome cannot be foreseen at this time. Every worker will be inspired, his heart will beat faster with hope and solidarity for his heroic Spanish brothers. Every worker will hope and fight, in every way he can, for the victroy of the Spanish toiling masses against their bestial exploiters.

Here in the United States our best service in the interest of the Spanish workers will be the establishment of the united front of Socialists and Communists against our own imperialist government, against its fascist measures, against its onslaughts on the workers.

Above all, we must immediately establish united action of Socialists and Communists to express our international solidarity, our enthusiasm for the heroic battle of the Spanish toiling masses

All out today to the Spanish Consulate, 53rd St. and Madison Avenue, 12 noon!

### For a New Scottsboro Drive

THE Alabama Supreme Court for the I third time has denied the appeal of the International Labor Defense against the lynch verdicts of death against Heywood Patterson and Clarence Norris, two of the Scottsboro boys. This court has set the date for their execution—their murder—for Dec. 7.

Coinciding with this action, new vicious attacks were launched against the Scottsboro campaign and defense led by the International Labor Defense and the Communist Party. Samuel Leibowitz, former trial counsel in the case for the I. L. D. slandered the mass campaign to free the boys, and in Alabama two attorneys were framed on the charge of attempting to bribe Victoria Price.

The I.L.D. is once again taking the Scottsboro case to the United States Supreme Court.

Now, more than ever before, it is the mass pressure of the Negro and white workers, the farmers, and their friends throughout the United States and throughout the world, which can force the U.S. Supreme Court to review the case and free these innocent boys unconditionally.

These facts place upon our Party the immediate responsibility of exerting every effort to develop the most intensive and the broadest mass campaign to defeat the plans of the landlord and industrial lynchers and to free the Scottsboro boys.

The Central Committee calls upon all district committees to take immediate steps to mobilize the entire Party organization to carry out the present

necessary tasks in the Scottsboro campaign. The district committees are called upon to take the following steps in support of the actions undertaken in this campaign by the International La-

bor Defense and League of Struggle for Negro rights. 1. Mobilize all fractions for participation in all mass organizations and trade unions for the preparation of broad united front Scottsboro Committees of Action. Those that already exist must be reactivized. These united front committees must hold Emergency Conferences on the broadest scale under their auspices. Every effort must be made to involve the Socialist Party, A. F. of L. locals, local Negro reformist organizations, N. A. A. C. P., Urban League, Garveyite, church, social, pro-Japanese organizations, etc. These conferences must not be delayed. They must be the means for developing an extensive campaign which will reach

new and larger masses of workers and farmers. 2. The Scottsboro campaign must be tied up with the entire anti-fascist struggle. On this basis we must draw into the campaign the widest number of workers, intellectuals, professionals, and other

3. Every support must be given by Communist Party committees and fractions to the financial campaign for funds for the Scottsboro case. Large sums of money will be necessary for the legal steps alone. The campaign must not be endangered by

any shortage of funds. 4. Mass meetings, parades and demonstrations on the Scottsboro issue must be arranged in all possible centers and sections, mobilizing the Negro

and white masses for protest actions. 5. At every mass meeting, large or small, and in every organization, resolutions must be presented addressed to the United States Supreme Court and to President Roosevelt, both at Washington, pro-

y die kan a

testing against the decision of the Alabama Supreme Court and demanding the immediate, unconditional release of the Scottsboro boys. Special efforts must be made to secure the adoption of such resolutions in A. F. of L., independent, and T.U.U.L. unions.

6. The Scottsboro campaign must be bound up with all of our election campaign activities from now on. We must demand of all capitalist and Socialist candidates that they take a definite public stand on this question. Our own candidates must make their position clear not only in words but in direct participation in Scottsboro actions.

7. We must make serious efforts to build the League of Struggle for Negro Rights, and to increase the circulation of the Negro Liberator during the course of the present campaign. At the same time, the I.L.D., through its independent activities and leadership, must be strengthened organization-

There is no time to be lost. Application for review by the U.S. Supreme Court of the Scottsboro decision will be made by the I.L.D. within a few days. To force the acceptance of this application, to force the reversal of the Scottsboro lynch verdicts, will require tremendous efforts, a mass campaign of struggle, and the mobilization of the masses on a broader scale than ever before.

The Scottsboro boys must be freed!

### A New Wave of Political Reaction

NEW wave of political reaction is rising throughout the capitalist world.

Terrified by the unmistakable rise of working-class militancy everywhere, with the crisis-racked toilers beginning to take the offensive against the hunger and wretchedness which is their daily lot under capitalism, the capitalist ruling class is everywhere rapidly turning to increasing fascist reaction to defend its rule against the actions of the masses.

In the United States, the Roosevelt government is moving, amid the shooting down of strikers on the picket lines, through the treacherous channels of an "industrial truce" to chain the workers against the use of their most powerful weapon, the strike

In France, a leading bourgeois diplomat, quoted with fear and trembling this morning by the Wall Street Journal, states quite frankly

"It is not so much war that I fear for the near future, as it is revolution."

In Germany, the Nazis, facing economic ruin, plunging headlong into imperialist war, have let loose a reign of unbridled terrorism against the working class, smashing trade unions, keeping Ernst Thaelmann, Torgler, and thousands of anti-Fascist fighters in the torture cells of their dungeons and concentration camps. In its brutal desperation, German Fascism is speeding the execution "trial" of Thaelmann for Oct. 15.

T IS decaying capitalism, a system ridden with chronic crisis, which breeds this black reaction, this atmosphere of stifling rot and brutality. The world forces of counter-revolution are swiftly marshalling against the irresistibly rising world forces of revolution, against the forces of liberation from the yoke of capitalism and its crisis.

At the forefront of this advancing world reaction stands American capitalism which, as the recent testimony at the Senate Arms investigation abundantly confirmed, supplies this world reaction with arms and money, munitions for the re-arming of Fascist Germany, munitions and funds for the counter-revolutionary reaction of Chiang Kai-Shek in China, and arms to crush the Cuban revolution.

The increasing evidence of officially countenanced, organized anti-semitism in this country, evidenced by the speech of former Ambassador Gerard yesterday and the data made public in the recent issues of the New Masses, is a sinister symp-

HESE developments are not something remote from the life of every American worker. They affect him and his family profoundly. The menace of rising Fascist reaction faces every American worker, every member of a trade union, every member of the Socialist Party, every honest person who believes in the progress of society.

Certainly, the time is more than ripe for uniting all anti-fascist forces, for the welding of all haters of political reaction into a mighty United Front Against Fascism and Imperialist War! Certainly the time has passed when we can look passively on while political reaction prepares to make life hell, under the heels of open capitalist dictator-

In Spain, Socialist and Communist workers are achieving in the fire of revolutionary action, the unity of the working class. Can Socialist workers in this country remain indifferent to this tremendous event? Should anything be permitted to stand in the way of welding this precious unity of the working class in this country? Must not this striving for the unity of Socialist and Communist workers become a leading subject for discussion in the Socialist Party locals?

Can the workers in the A. F. of L. trade unions submit to the advance of that reaction which will smash their unions, destroy their right to strike and picket? Will we permit Roosevelt to trick the American working class to surrender the strike weapon which alone can win better conditions in the shops?

A mighty United Front movement against political reaction, against Fascism, for the freeing of Thaelmann, who symbolizes the world fight against Fascism, a movement to defend the right to strike, this is the immediate need of the hour.

### To All Workers!

THE workers' armed struggle against fascism that is taking place in Spain is a struggle that every class-conscious worker must take to heart. It shows that the class lines all through the world are being sharpened, that the proletariat is preparing to challenge the authority of the bourgeoisie and set

up Soviet power. We must support this struggle with all our power. But we must remember that here in America we, too, face the menace of fascism, we, too, face the necessity of challenging the hunger deal of Roosevelt and the advance of fascism. Every honest and conscientious worker must realize that to beat back the attacks of the fascists we must strengthen the Communist Party.

It is the Communist Party that stands as the vanguard of every working class fight. It is the Communist Party that organizes the fight against hunger, war and fascism

The Communist Party is now appealing to all

anti-fascist fighters, to all workers struggling for higher wages and better conditions, to all the oppressed toilers of the country, to join their Party. In joining the Communist Party and in working in the Communist movement, they join in a fight that will not only benefit them but will bring about the end of the corrupt, murderous and decaying cap-

Workers School Formed In Youngstown, Ohio. U. S. Steel Center

The latest addition to the na-tion-wide chain of workers' schools has been established in Youngstown, O., a steel center of the country. The school, with its headquarters at 310 W. Federal St., will open its fall term with eight classes beginning Oct. 15. A fall term announcement of courses has been is sued, stating that "The Youngs town Workers School has been established in response to a long felt need in the workers' movement and among thinking people for systematic political education. The work ing class today is in urgent need of trained leaders and organizers."

Ada Searles, executive secretary of the school, stated that an enroll ment of 150 students is expected for the fall term. Already the A. F. of L. steel union and other working class organizations have agreed to send students to the school. A special conference of representatives from mass organizations was held at the school headquarters Sept. 15 and a school committee was estab-

Doumergue's Threats Fail United Front More Solid Japan's Manchurian Plans

DREMIER GASTON DOUL MERGUE'S threat of Fascist decrees, designed to drive a wedge into the Socialist and Communist united front of France, failed of its purpose. Now the Parisian prostitute press is endeavoring to scare some of the Socialist leaders away from the united front by pointing to the armed struggles of Socialists, Comnunists and Syndicalists in Spain. The answer of the Socialist and Communist Parties to Doumergue's cowling and warnings was to draw tighter the united front and prepare for a counter-offensive.

A plan of action was jointly signed by the leaders of both parties providing for nation-wide anti-Fascist demonstrations on October 30 against the decree laws, against all fascist manifestations, and to knit the workers more closely to resist every fascist move of the gov-

The two parliamentary groups decided to demand the immediate convocation of the Chamber of Deputies to consider the revocation of the decree laws and for reform in the method of the elections.

**NUITE** contrary to the wishes of the French capitalist press, the united front struggles in Spain, sealed in the blood of Socialists, Communists and Syndicalists, will heighten the fighting spirit of the united front in France, speed the mobilization of the workers for the final battle to destroy fascism, root and branch.
