

# New York I.L.W. Fight

The DAILY WORKER, we send you a message of splendid work achieved and of hope for the future progress of the most militant sections of the great working class. With that we desire to associate our greetings to Comrade [name] who is suffering in prison at the hands of American capitalists.

In the midst of a fierce persecution our party is kept out of Communism in the heart of the British Empire and its influence thru the correct application of the political line. May 1926 be a year of fruitful victory for the Workers of America and may The DAILY WORKER continue to take the initiative lead against opportunism and reaction to the labor movement in the United States in the stern struggles awaiting it.

With Communist Greetings  
Robt. [name]  
Acting [name]  
Communist Party
