UNITED STATES TEACHERS HAVE NOTHING TO SAY ON "EDUCATION WEEK"; LEGION TO RUN FARCE

(By The Federated Press)
WASHINGTON, Nov. 2.—Alliance between the U. S. bureau of education and the American Legion in the promotion of Education Week, in which the American Education Assn. will play only a very minor role, has brought upon Commissioner J. J. Tigert a forceful protest from the American Civil Liberties Union. The Rev. John Haynes Holmes, chairman of the union, in a letter to Tigert, calls the Legion a "military propaganda agency," and points out that the program announced for Education Week is "marked by intolerant propaganda against progressive political and industrial thought under the guise of combating radicalism."

According to the Civil Liberties Union, its protest has been duplicated by educators, publicists and peace and civil organizations, to the extent of as well as of the labor leaders. Negro Editors Bought to Betray Own Race

(Special to the Daily Worker) WASHINGTON, D. C., Nov. 2.-The colored prostitutes are not all poor Negro girls forced by low wages to sell themselves. Coolidge's agents in the Negro branch of the republican national headquarters in New York, are revealed by testimony given Friday before the Borah committee, as having sent out a circular letter to colored newspaper editors and publishers, inviting them to a banquet at the Hotel Dumas in New York.

At the banquet Editor Vann of the Pittsburgh Courier presided. He told them that they would be expected to peddle their support to Coolidge and Davis before there would be any discussion of paid political advertising.

Carl Murphy, editor of the Afro-American of Baltimore, testified before the committee. Murphy and his advertising manager, Henry T. Allen told how the scheme worked and how when they refused to pledge support to Coolidge, and left the banquet they got no advertising. Chicago Defender Sells Out.

They were told by Vann, the previous day, that the Chicago Defender, the chief Negro paper in the United States, had received \$10,000. It has been printing four or five pages of Coolidge propaganda each week, said Murphy.

Allen, in a spicy letter to the Baltimore Sun, which was read into the record, told of the banquet and said it was designed to pledge the Negro press to Coolidge and the Ku Klux

introduced by Painters' Local 275 at the previous meeting and were laid over. The resolutions aiready published in the DAILY WORKER, called for a fight against imperialism, on the Ku Klux Klan and in aid of the unemployed workers.

The resolutions committee voted non-concurrence on the ground that the resolutions bore all the earmarks of Communist origin. The committee did not say that it handled the resolutions with asbestos gloves, tho it must be hot stuff. The committee also made the startling announcement that the Communists had the propaganda possibilities of the resolutions in mind when they hatched them.

Nockels Excited.

Nockels announced, as part of the ed-baiting plan of the federation, that Jack Johnstone of the painters and Nels Kjar of the carpenters were unseated as delegates to the central body, Johnstone because of his Comnunist activities.

E. Arnold fo the Painters' Local 275 spoke against the report of the resolutions committee, pointing out that his local had 1,000 members and that the same kind of language now used against the Communists was once used against the socialists. When another delegate from the painters tried to get the floor, a reactionary called for the previous question and it was carried.

About one-quarter of the delegates voted against the previous question and the motion to non-concur. A delegate protesting against closing discussion declared that there was something rotten that was being hidden. This annoyed Nockels, but Fitzpatrick's gavel restored order.

CHARGE LAFOLLETTE'S CANDIDATE FOR SENATOR IS HELPING TO SHIELD STANDARD OIL TRUST FROM EXPOSURE

DENVER. Colo., Nov. 2.—Charges that Senator Thomas J. From what is now disclosed, the Standard Oil company of Indiana, the Midwest Refining company, the Midwest Oil company and the Prairie Oil and Gas company were deeply involved in the Teapot steal. The Standard of Indiana and the Midwest interests were involved up to its neck by half ownership of the Sinclair pipeline built in pursuance of the lease to take oil from Teapot Dome, around which lease the whole scandal arose.

Incidently, this pipeline is likewise o take oil from the Salt Creek field controlled by the Standard, the royalty oil of which was sold by Secretary Fall, now indicted for conspiracy after being forced to resign from Coolidge's cabinet over the Teapot affair, to the Sinclair gang. But in that sale, along with Fall, was the Standard Oil, as half owner of the capital stock of the Sinclair Crude Oil Purchasing company.

The oil investigation committee run y the democratic friend of LaFollette, Walsh, labored very hard to convince the public that it was following out every shred of testimony that promised to yield the truth. But the ugly fact now appearing is that whereever a trail of suspicions led up to diction of the government. the door of Standard Oil, Senator Walsh immediately drew a red herring across it and sent the inquiry off on another scent. Senator Adams of Colorado, was Walsh's assistant in this

Further, in the course of the testimony before the Walsh committee, the charge was made that the real conspiracy, out of which the lease came like manna from heaven from Albert Fall to Sinclair, was a secret meeting at Mexis, Texas, followed by others in New York.

Sinclair. The financial transactions were later arranged between Secretary Fall and the oil ring, including the Standard.

LaFollette's Darling Covers Crime. Strangely, Walsh, who has elevated himself to national and even international fame by passing himself o as a great and thrice-righteous crusader against oil steals, ignored this information and covered his failure to investigate the Standard Oil with lame excuses about these charges being made by blackmailers.

All mention of the Rockefeller interests in the Teapot steal was sedulously kept out of the press by Walsh, the Montana darling of La-Follette. Many people who at the time wondered at the exposure how Rockefeller was dodging investigation, will now look to Walsh to tell

It even appears that Walsh had the investigation hastily ended to avoid developing too much evidence against Standard Oil. And when the two attorneys who were assigned to prosecute the conspiracy, so the story goes, were looking thru the record, they discovered that Walsh's committee, which made both himself and Senator Wheeler, now running with LaFollette. amous, had covered up the existence of important evidence.

GLACE BAY, Nova Scotia, Nov. 2.-Hardly had the temporary officers of District 26 been elected by the rank and file convention of the miners when they immediately set out on a tour to the most backward parts of the district.

While the results of their labors have been profitable, yet the district is not too well organized, due to the success of the combined forces of the Lewis appointees and the steel corporation in their union splitting activities.

Ready To Fight Wage Cut

These with other sinister forces have made slight inroads into the miners' ranks. However the tempor ary officers are confident that before the new year dawns the miners will be fully organized to combat the wage cut that may be proposed by the British Empire Steel Corporation.

Wages Not Much Advanced

An answer to this statement, filed with the railway commission by the united railway unions of the dominion, calls attention to "the cold historical facts" that the wages of railwaymen have not advanced as much as those of some other classes of labor since the outbreak of the great

"Were the 1920 rates of pay and working rules still in force," the railway unions point out, "the payrolls of Canadian railways for 1924 would be increased between forty and fifty million dollars.'

The unions deny that the Canadian rates were increased by the McAdoo award and affirm that adjustments were made by that award "to the detriment of the employes who were at that time expecting better results more in keeping with the existing high living costs."

Less Than in U. S.

"Rates paid various classes of railway employes in Canada," it is stated are less than those prevailing in the United States, while some are quite equal to the United States standard. ATTACK MADE ON CZECHO-SLOVAK BRANCH, WORKERS PARTY, IN NEW YORK CAMPAIGN NEW YORK TAG

By JULIUS CODKIND.

NEW YORK CITY, Nov. 2.—The New York Czecho-Slovak branch of the Workers Party is numerically small. Their membership is about 40, of which 25 are considered active. The bulk of these comrades live in the Southeastern portion of the Yorkville district of New York.

This has always been a politically backward section, and when the campaign plans were made no consideration was given to the district.

Late in the campaign the comrades in this branch realized that no plans for conducting a campaign had been made for their district. They came down to protest and were told of the situation, whereupon they insisted

A Labor Victory in Spite of MacDonald

In spite of MacDonald's treachery and opportunism, in spite of the weak-kneed and cowardly policies of the late "labor" government, British labor scored an important victory in the parliamentary elections. Out of a total of about 20 million votes cast, the labor party candidates received 5,536,000, that is, a gain of one million votes. Large sections of the working masses of Britain have thereby shown clearly and unmistakably, that they do not trust the parties of capital, and that they want a government of their own.

British labor has been badly deceived and mistreated by its own official leaders and worst of all by its late "labor" government. The attacks of Baldwin and Lloyd George against MacDonald's government were certainly not dictated by love for the working masses, nevertheless the charge of these gentlemen remains true that MacDonald's government was in no way better for the workers than a government of conservatives or liberals, and no amount of apology and explanation will change the man who stands between capitalism and chaos." the fact that MacDonald's government was nothing more than a servile tool in the hands of British

There has been invented the slogan of "Coolidge or Chaos." Insofar as the working and farming for the overthrow of capitalism in masses of this country are concerned, Coolidge has proved a most deadly efficient vehicle for bringing them chaos. The biggest employers are fully aware of this situation. What is chaos to the workers means swollen profits and fabulous dividends to the exploiters. Hence the fear on the part of our leading bankers about the chaos that a Coolidge defeat might bring-to their bank accounts.

The LaFollette champions have picked up this reactionary slogan. They have made every effort to reassure the financiers and manufacturers that the Wisconsin senator will not be the harbinger of chaos if placed in the White House. The above statements are worth pondering over by every Communist who is sincerely bent on winning the masses for the revolutionary struggle America. "On principle" no one in our party would dare openly to disagree with the viewpoint of the Comintern and Profintern on the trade union question. But between "prin ciple" and practice there is too ofter great gap. It is much more comfortable to "agree on principle" than it is to beard Gompers' labor lieutenants in their dens. There is too much laxity and indifference on the part of Communists to the work in the trade

This can, of course, be explained Three factors face us at the present time: 1. The political isolation of our party owing to the adhesion of the laorganized for the purpose of putting but that it aims at the reorganization of the entire labor union movement on the basis of adherance to revolutionary principles. We know that the LaFollette-Wheeler movement is simply an attempt on the part of middle class professional izing the cleavage which exists in the ranks of the capitalist class, and the discontent among the workers and small farmers. But the workers look upon LaFollette as their candidate who will serve their interests if he is elected.

shown a different aspect to our development. An 'industrial "boom' came, and formed a basis upon which the labor fakers rallied their forces and fought us. For some time the bureaucracy was of the opinion that our movement was of the usual character of a revolt of the "outs" against the 'ins"-and they did not worry much as they had always been able to buy up the leaders of such revolts in the The present machines of the labor fakers contain many who gained position thru staging such fake "progressive" movements. But soon they recognized that this

was no mere movement of rival fakers. We went to the masses and stirred them up. We insisted upon awakening the organized workers to the necessity of them taking over control of their unions and throwing out the labor fakers. And the slaughter of fakers that took place in the Maintenence of Way Men's Union at the convention in 1922 when 19 out of 22 bureaucrats, were fired (in spite of the fact that Flozdal, who was elected president, was merely a fake progressive) woke the bureaucracy up to a realization of the awful fate that awaited them if this movement made any more headway among the rank and file

First of all the bureaucrats put their own camp in order. Those who had been flirting with the Communists were told to line up with Gompers or get out. Fitzpatrick and Knockles are a fine example of this. Then the drive against us began. The railroad shopmen's strike, and the miners' strike of 1922 forced the fakers to smash us because these strikes were throwing the workers towards us. ressure was brought to bear on all dissident central labor bodies such as Seattle. The propaganda was intensified. And the yellow socialists in some of the needle trades unions showed Gompers how to deal with the Communists by expelling and slugging the leaders of the left wing movement in those unions. But today, with the south organized into the Ku Klux Klan and the north with a strongly organized Roman Catholic church, we find both of them fighting together on one issue. Campaigns have been fought and men have been elected to office on that issue. Public sentiment had been created in favor of that issue.
