INVEST YOUR FUNDS HERE.

Have you read our plan of paying all our present indebtedness and for the new cylinder press from the proceeds of the sale of the proposed issue of bonds?

Early in the beginning of this year, the directors of the SOCIAL-DEMOCRATIC HERALD decided that a plan of issuing bonds be proposed to the stockholders.

Intending purchasers of bonds need have no fear about the safety of these bonds. The Social-Democratic movement in Milwaukee is growing, and its plant is growing even faster.

Q.—Do you know Mr. Herr? A.—Yes, sir, I met Mr. Herr at one time. Q.—And when is the first time you met either of the two men?

Q.—What took place then? A.—Well, he took Mr. O'Connor outside; there was just a partition, it is only about, I should say, an inch or an inch and a half, or two inches, like that...

Q.—How did you happen to be there? A.—Well, I was talking to Mr. O'Connor, when this—I do not know the other man's name at all—brought him in and introduced him to Mr. O'Connor.

Q.—Did he say anything to you about not talking? A.—He said, not to talk to nobody. He said, 'When you get down to the station, give them your name and address and say nothing to them.'

Q.—Did you see Mr. Schwab? A.—Yes, sir. Q.—Did you hear Mr. O'Connor tell Mr. Schwab?

THE CRIME OF COLORUSSIA

CAPITALIST ANARCHY GETS AN EXPOSURE

The Reign of Terror in Telluride. What Was Done to the Merchant Floaten by the Mine Owners' Militia and Mob. Sympathy With Union a Crime.

Boise, July 17.—The morning session of Haywood's trial developed most interesting features as showing the irreconcilable strife that exists between the two strata of society in the industrial points where the great class struggles have taken place.

Richardson then drew him out on the subject as to whether he believed a man had a right to free speech or not. Sackett vigorously asserted that he did, but he added the provision that it should be all right and proper, and the court room broke into a laugh.

The witness admitted that all these charges were true, but said they were justified by the "law of self-defense." When asked how he knew when it was justifiable to use that law he replied, "each man decided for himself."

ant class, depends upon who runs it. Sackett attempted to leave the impression that the district was dominated by a reign of terror from the unions for years.

Richardson asked him to repeat some of the things he had heard Floaten say. But Sackett could not remember a single thing.

The attorney then asked the witness if he did not know that the court had said that the aristocrat "citizens" were the only disturbers in Telluride.

Cheapest Trusses for Men, Women and Children, known to be the CHEAPEST and the BEST in the city—made to order and always on hand.

Mr. Richardson said it was well known that Mr. Floaten preached the doctrine of non-resistance and peace, and Sackett agreed to it.

At the close of the questions from the defense Mr. Hawley asked Sackett to give the substance of what Floaten said in his speeches. He replied that he could not give any intelligent answer to that question, and was dismissed.

Wednesday afternoon the state rested its rebuttal. The sudden close of its testimony came as a general surprise.

William Gross Lloyd made most of his address a story. "A party went up in the Wisconsin woods one time," said he, "and none of them knew how to cook, or liked to cook. They made it up that they'd draw for the first cook, and the first man that kicked about his cooking would have to become cook until some other man kicked. It got around to one fellow at last that had held the job for ten days, because the crowd got fovey. One day, to make them kick, he dug up some angle worms and made a pie with them. One of the party cut into the pie and seeing the squirmers forgot himself for a moment and shouted: 'That's pretty rotten pie.' Then he recollected the cooking penalty, and immediately cried: 'But I like it all right.' That's just the way the Republican and Democratic parties are working you."

The speaking was preceded and followed by songs by the united Socialist Singing societies, who gave several rousing selections in rousing fashion.

Resolutions From Milwaukee to be Presented at Philadelphia.

Whereas, All economic relations of our body politic to-day are governed by might, and defended by the passive masses and shrewd plutocrats as being right; and

Whereas, We find, by careful investigation, that these accepted practices which rely on might for their promulgation are made possible only by the acceptance of argument, on faith, by the multitude before the age of discretion.

As is well known, a child of any parentage, placed within a family of Catholics or Jews, will usually adopt either faith without question and endure much personal hardship in defense of it. The same is not alone true of those who are kept within the direct influence of any creed, but the prevailing customs which have grown from causes remote in our history, are to-day governing us in our economic relations, and are holding us in hidebound, enduring much suffering, because we accept the time-honored customs without question, and

Whereas, These customs not only permit, but really encourage the exploitation of labor, and our education, as now provided by our public schools, simply promulgates or at least keeps alive, the modern business methods (far from equitable) which impose a penalty for acquiring the products of labor without compensation by such methods as the uneducated are capable of, viz.: burglary or larceny—and call for the admiration of those who are most successful by direct, legalized methods; and which education does not awaken the self-consciousness and reasoning powers to recognize the fact that it is wrong to take something for nothing, whether it be by burglary, a sharp bargain, interest on capital, or throwing of dice: Therefore, be it

Resolved, That we do all in our power, both collectively and individually, to afford the rising generations (present and future) such environments as will enable them to develop their understanding of facts in an unbiased manner—that their convictions be not warped by the guidance of selfish or class interests; that the dignity of productive labor be not depreciated through its exploitation; that man's service to society may become the

real measure of his value.

Be it further Resolved, That we endorse the actions of the Social-Democratic party in its efforts to defeat the control of our public schools by the autocratic cults of book companies, self-opinionated pedagogues and appointed school boards, whereby certain class interests are served by the training of a child, rather than providing for its normal development.

Be it further Resolved, That we heartily commend the plans of those who would have all schools in parks, where ample room may be had for the exercise of all the faculties, within a healthy atmosphere, with playground facilities, a public library and a "neighbor house," equipped with reading rooms, rooms for games in winter, a gymnasium that may be used as an auditorium and for dances, bath rooms, club rooms, etc., which will serve to make each school a local center where the whole family will feel an interest in the school and the teachers feel as great an interest in the family. We declare that it is only by assuming the universal responsibility in this way that we can provide for an education that is normal or natural, where truth, integrity and equity can prevail.

Be it further Resolved, That the contention that the members of the school board should be elected directly by the people, from each of these centers, is endorsed by this convention; that we consider the appointment of school boards, or their selection by any method which removes the responsibility from the direct influence of the people, dangerous and undesirable, and in particular do we condemn the method of electing members at large, because a director elected to represent all the people never represents any but those who are instrumental in securing his appointment or election, the masses therefore being misrepresented.

Why Socialists Organize.

First, because they know that by a compact organization on the political field the working class can successfully battle against the capitalist parties.

Second, because the capitalists have proved conclusively, by their organization of industry on the economic field, and their political organizations on the political field, that organized effort is the bulwark of the capitalist system, and that no individual effort can be successful in overthrowing the same.

Third, in order that the party may be self-sustaining financially, and therefore independent of the influence of any person or persons or other political parties, the dues system has been adopted, which requires each member to contribute a small amount each month to support the local, state and national organizations.

Fourth, by means of the organization the propaganda of Socialist principles is more effective and far-reaching than by any other method.
