NATIONAL CONVENTION PROCEEDINGS
 The official stenographic report of the proceedings of the National Convention, held in Toledo, Ohio, October 15-17, 1924, makes a book of 317 pages, 8 1/2 inches, which every Socialist should possess. Contains full report of speeches and debates of the convention, a complete list of information for every student and worker. Contains a list of Socialists mentioned in the proceedings, with their names and addresses, with full address of the National Platform and Constitution Committee, and a list of names of those who took part in the convention. In fine new paper cover, 10 cents. Carefully packed in a sturdy envelope. Write to THE SOCIALIST, 209 Dearborn St., Chicago, Ill.

Class Struggles
 IN AMERICA. BY A. M. SIMONS. Second edition now ready. Not a reprint of the old edition. It is a history of the United States in the light of the class struggle.
 It starts with the facts that American society, based on the ownership of the means of production, is a society of class struggle. It shows how the capitalist class has exploited the working class, and how the working class has fought back. It is a book that every Socialist should read.

FOREIGN
 Argentine Socialists, Socialists now have a daily paper.
 The shameful action of the French radicals in continuing the alliance with Russia after the revelations of the Paris report, has precipitated an attack upon the present ministry by the Socialists.

THE INDIAN MAKES A POOR SLAVE
 Editor The Socialist.
 The freedom of the Indian as reported by the Socialist Party of America is of some little incidents that happened during his trip to the States. The Indian is not a slave, but a free man. He is not a poor slave, but a free man. He is not a poor slave, but a free man. He is not a poor slave, but a free man.

Local Cleveland.
 Tom Clifford, on behalf of the Annual Ohio Committee, has been advised that the second Sunday in August, 1925, will occur for the Socialists, if Sunday excursions are run from Cleveland to Shoreland, Ohio. It is reasonably certain that excursion will be cut out by the railway management. The Socialist Party of America can make preparations for their second annual picnic at Cedar Point, Sunday, August 24th, 1925.

The Labor Lyceum did not open at that time, but the members of the committee to secure a speaker for that day. The comrades had better find their own ranks and discuss questions of party policy rather than depend on outsiders.

SPECIAL ANNOUNCEMENT

With the issue of THE SOCIALIST of Jan. 6, 1906, there will begin a series of articles by Conrad Simeir, who is entitled "Reform Socialism and Revolutionary Socialism."

White complete details cannot be given at this writing, it is not too much to expect that this series will prove of great educational value and interest to Socialists and non-Socialists alike.

In addition to the foregoing there will also begin early in January a series of articles by Arthur B. Fowler, of Seattle, entitled "The Capture of China by Capital."

Besides these two articles THE SOCIALIST will continue during the year 1906 to follow the same course which has made it unique in its line and a Socialist Party in the fullest sense.

OUR BOOK DEPARTMENT

We desire to call the special attention of readers of THE SOCIALIST to our price list of books published elsewhere.

It will be observed that many of the books on our list are offered at prices generally below the publisher's prices.

It should be remembered that we give prices as premiums for subscriptions on the following terms:

Modern Socialism...

The Industrial Revolution

Continued from Page One.

Bound to the land and the service of his own class, the industrial revolution was growing up in the midst of an artisan class, a master, an independent artisan had his little shop in which worked side by side with him, journeymen and apprentices. These apprentices and journeymen had the opportunity and almost the certainty of some day becoming themselves masters.

Here enters the machine, the great factor of this change. Without an instrument, man is no better than an animal. He is limited to his own strength and to his own skill. The inventions during the 18th and 19th centuries of the spinning mangle, the cotton gin, the spinning jenny, the steam engine, the power loom, the steam engine, these inventions marked the beginning of the factory system. These machines, however, were old methods inadequate. The machines were labor saving and to some extent equalizing, but with smaller expenditure of money meant greater profit to the owner.

From the New York "World."

"THE JUNGLE." By Arnold Simeir. Edwin Arnold describes the Social at Toledo, Ohio, under the title of "The Jungle" for which please send me one copy of Conrad Simeir's book. I have already read it; it is a great work; the conditions he depicts are too dreadful to be true; but TRUHE are, as multitudes of workers know all too well.

"The Jungle" can be ordered from The Socialist at the same price as the book is furnished by The Jungle Publishing Company, which has been sent to me by Conrad Simeir. Orders sent us are promptly filled and will be forwarded as soon as the book is ready. Single copies are \$1.20, postpaid.

Wilshire Meeting

We do not believe that Conrad Wilshire is an advance agent for hearing him but that the impression carried away by many people is that the hearing him was that the "Heart" was not a Socialist party. We do not believe that the aim is Socialism and not the Socialist party.

"A KING'S NEEDED TO COMMAND THE ARMY." This is what Colonel Pettit, Eighth Infantry, U. S. A., is reported to have declared in an address before the National Industrial Institute at Governors Island, New York, last week.

"THE LONG DAY."

"There may be those who will say that the conditions pictured in 'The Long Day' are impossible, melodramatic even; but they will be only those who are entirely unacquainted with the actual life of the working girls of a great city.

"THE VOICE OF EQUALITY."

This series of poems has aroused much interest and appreciation for their beauty and sincerity. Brenholtz is a poet of the new Social Order. He flays the hypocrites and inequalities of the present as unsparring as he presents the triumph of the new with hope and longing.

THE OWNERSHIP OF BREAD

History has been the struggle on the part of those who made bread but did not eat it. The struggle has gone on, but did not make it—the thing that is the real problem is the struggle to go to make up opportunity available. Bread to eat means opportunity to live.

WHY ARE WE INDEPENDENTS

(Paper read by E. C. Pomeroy before Ward Branch Socialist Party of Toledo.)

"Why are Independents?" As I understand it, it is the reason for the existence of the Independent party. In all probability, were we able to see the science of deeply upon the minds of the leaders of the independent party, we would find almost as many reasons as to why they were in the Independent movement, as we would find candidates.

"I get this idea from talks I have had with a man from both the Independent and Socialist parties. He has no political axes to grind and no other object in voting with them, than that they are the only parties, the parties many of them had voted for, and that they were finally become so rotten and so corrupt that they had to have a person taught them 'Chronicle' men could not intentionally vote with them longer, though they were almost broken hearted over it."

WALSH, CONFISCATOR

John R. Walsh of Chicago, has been caught with the goods on him. His three banks have been declared insolvent and his property is being seized.

WAR OF THE CLASSES

A series of correlated essays, direct and trenchant in style, frank and vigorous in thought, are exceedingly entertaining in manner.

THE APPEAL Trust Edition

We have received few "roasts" from comrades like THE SOCIALIST. Last week we dared to criticize the "Trust Edition" of the Appeal to Reason.

HISTORY OF SOCIALISM IN THE UNITED STATES

No one can thoroughly understand the Socialist movement in the United States as it exists today without a knowledge of its history from its present stage. Every member of the party should have a copy of this book.

"MASS AND CLASS"

The deservedly favorable reception of this book has resulted in the issuance of a paper bound edition at the price of 12 cents.

THE OWNERSHIP OF BREAD

History has been the struggle on the part of those who made bread but did not eat it. The struggle has gone on, but did not make it—the thing that is the real problem is the struggle to go to make up opportunity available.

WE HAVE MOVED—CALL AND SEE US AT 819 JEFFERSON

By Horace Tansel. A collection of best essays by this original and purposeful writer. Full of the fire of genius and true insight in thought, these essays deal with no other man has dared say and says in a way that no other man has found the secret of using.
