## Vandeleur Plan GENERAL STRIKE KNIFER FIGHTS UNEMPLOYED U.N.T.O.M.

SAN FRANCISCO, Nov. 27.—Vandeleur, president of the Central Labor Council here last night declared that S.E.R.A. workers would be left to starve if it rained for a whole week, since there would be no more pay for rainy days.

Another revelation by Vandeleur, who is also the leading lights of the Citizens' Relief Committee, was that the Associated Charities would discontinue its Central Medical Bureau, and thus leave unemployed workers without any medical aid.

The announcement of the adoption of these cynical policies by the federal and city authorities was made by Vandeleur at a meeting of the executive board of the Central Labor Council.

The issues were brought out when the executive board, as a point on the agenda referred to it by last week's meeting of the Labor Council, gave reasons why the resolution presented by the Public Works and Unemployed Union would not be considered by the council.

Wire To Hopkins.

A telegram has been sent to Federal Relief Administrator Hopkins at Washington, signed by both Vandeleur and O'Connell, secretary of the Labor Council. This wire, it was learned, contained the request that the rescinding of the order allowing pay for rainy days, temporarily won by strike action, be reconsidered.

Vandeleur and O'Connell fear the organized militant action of the S.E.R.A. workers, under the leadership of the Public Works and Unemployed Union, against this starvation policy, and its effect on the rest of organized labor.

The discontinuance of the medical relief comes at a time when all capitalist newspapers are hailing the news that the Community Chest drive is going over the top. The Associated Charities, of which the medical bureau is a part, is supposed to be one of the chief recipients of Community Chest funds.

P.W.U.U. Kept Out.

Delegates representing the P. W. U. U. were not allowed to be present at the Labor Council executive board meeting. But after the meeting Vandeleur, in a hypocritical gesture of friendliness, shook hands with one of the delegates as he passed by on the street, and said, "We're all with you," the Western Worker reporter learned at the P. W. U. U. office.

Inside the meeting, Vandeleur had almost grown apoplectic.

## PHOENIX TRIALS ON RIOT FRAME- UP UNDER WAY

PHOENIX, Ariz., Nov. 24.—Enlivening otherwise tedious proceedings, Renz L. Jennings, Maricopa county attorney and technician, ordered into court yesterday by Superior Judge Howard C. Speakman—stood pat on his previous refusal to prosecute or assist in prosecuting 28 workers charged with "riot" in connection with a disturbance at Federal Emergency Relief Administration offices here last September 6th. The "riot" was provoked by police officers, sheriff's deputies and ERA thugs, incited by direct orders to break the strike of relief workers "at all costs" which were issued by fascist Governor B. B. McCreary.

Proceedings in the trial of Clay Neff moved so slowly yesterday that only a half dozen prospective jurors had been questioned by prosecution and defense when court adjourned. Neff was Communist candidate for governor at the recent general election, and is the first of 28 workers facing trial on the frameup charge of "riot."

Brought Into Court

Selection of a jury in the Neff case was about to begin, and Arthur T. LaPrade, attorney general, and his assistant Cecil Edwards, had appeared for the prosecution, when Judge Speakman sent a court bailiff to bring Jennings into court.

The bailiff met Jennings as the

## JUDGE LEMMON REFUSES DROP C. S. "TRIALS"

JURY BEING PICKED IN  
SACRAMENTO FRAME-UPS

SACRAMENTO, Calif., Nov. 26.—The case of the "people of California" vs. the eighteen Criminal Syndicalism defendants got under way today.

A courtroom packed with workers heard District Attorney McAllister's motion for a dismissal of four counts against Higham granted, while Gallagher's demand that these four counts be dismissed against all the defendants because the indicting evidence was the same, denied.

On the witness stand, McAllister admitted there was no difference in the evidence against Higham and the evidence against the seventeen others, but because Higham indicated later, was entitled to a separate trial, he wanted the counts dismissed for "convenience sake."

The long and tedious work of selecting a prejudice-free jury in the propaganda-riddled county, was slowed by McAllister's objection to every question the defendants asked the prospective jurors. "Incompetent, immaterial and irrelevant," according to him, were questions like, "Are you a member of the American Legion?" "Are you a constant reader of the Sacramento Bee (the worst debating newspaper in Northern California)?" "Do you work for or have an interest in the P. G. & E. the Growers' or Industrial Associations, or any other group that is backing this prosecution?" "Do you belong to the Elks, Knights of Columbus, Catholic church or any organization which has passed resolutions against the Communists," the use of the word "oppression," etc.

The question, "Do you believe in the right to defend the constitutional guarantees of free speech and assembly and press?" was held "improper" because "restrictions have been placed upon such rights by the Criminal Syndicalism law."

"Twice McAllister was forced to a hasty re-reading of his indictment. He had 'forgotten' to mention picketing and fight against imperialism as crimes, and objected to questions regarding them as "having nothing to do with the case."

Albert Hougardy, Martin Wilson and Caroline Decker are defending themselves. The other fifteen defendants are represented by Leo Gallagher, although Nora Conklin, Pat Chambers and Jack Warnick are defending themselves with the right to surrender their defense to Gallagher whenever they wish.

GUADALUPE STRIKE ENDS  
IN VICTORY; C & A W I U  
KEEPS RANKS SOLID

SANTA MARIA, Calif., Nov. 28.—Faced with a solidarity they could not break, the ranchers gave way Sunday to the demands of the 3,000 lettuce strikers here and throughout the Guadalupe Valley, boosted the pay back to 30 cents an hour and asked the strikers to please hurry back to the fields before the crop was ruined. Packers are to receive 62 cents an hour, and the other demands are to go to arbitration.

For a week, with militant determination and mass picketing, the strikers, Mexican, Filipino and white—held fast. Despite the mobilization of police to terrorize them, they sent out pickets day and night and halted the trucks which tried to bring scabs. The Mexican Consul brought in as always in Southern California, agricultural strikes, to split the ranks by dividing the workers along racial lines, flopped miserably, for throughout the whole area were hundreds of members of the Cannery and Agricultural Workers' Industrial Union who had seen the trick tried in Imperial Valley and even in this vicinity before, and recognized it. They stood together solid—the Filipino Workers' Union, Cannery and Agricultural Workers' Industrial Union, Vegetable Packers' Association, and Mexican labor—Union—tied up the whole area and kept on their militant fight.

As a result of the strike C. & A. W. I. U. locals have been formed in all towns in the vicinity.

The closed shop was not won, but the growers have given a pledge that no strikers will be discriminated against, and three who were arrested have been released. The strikers are determined to see that the pledge is kept, and if not, to take action again.

The Arbitration Committee, consisting of three strikers, three growers and one state, one federal and one county representative, will begin meetings not later than Dec. 10 and bring its final report by Dec. 14. Realizing that they are outvoted on this committee, the workers are spreading their organizations to resume the strike if necessary.

## 10,000 French Small Farmers Battle Paris Police

PARIS, Nov. 29.—A demonstration of 10,000 French farmers here fought back heroically when attacked by police, who hoped by provocation to give an excuse for the interference by several thousand police massed in reserve. The manifestation, organized by the French Agrarian and Peasant Party, was the result of the low prices paid farmers for their products, and the high prices to the consumers.

The demonstrators later met at Wagram Hall, near the Arc de Triomphe, where the present reactionary French government was vigorously denounced.

## 25,000 JOBLESS MARCH IN BIG CHICAGO DEMONSTRATION

CHICAGO, Nov. 25.—Showing the way to the rest of the country, a united front of Communists, Socialists, A. F. of L. members, and other workers, 25,000 strong, paraded yesterday in a gigantic demonstration demanding the sweeping relief cuts put into effect Nov. 1 be rescinded.

Further demands raised by the marchers were increased relief, winter clothing, jobs at trade union wages, and unemployment insurance.

From two mobilization points—Union Park and Wentworth St.—the marchers united their columns in the Loop, paraded past the heart of the city to the Illinois Emergency Relief Commission. East the Hotel Congress where Federal Relief Administrator Hopkins was meeting with the Congress of Mayors, they marched, shouting their demands, while inside this assortment of fatboys grew silent, temporarily halting their scheming of how to cut relief still further.

The elected committee which presented their demands at the Relief Commission were met with politely evasive answers, for in the face of this huge throng the officials dared not make an outright refusal.

In New York a demonstration of about six thousand workers assembled at Union Square yesterday in a jobless demonstration called by the Workers' Unemployed Union and supported by the Unemployed Councils. The main demands raised here included enactment of the Workers' Unemployment Insurance Bill, H.R. 7598.

As winter comes on bringing an intensification of misery throughout the whole country, more and larger demonstrations are being held and the whole unemployed movement is looking to the 4th National Convention of the National Unemployed Council to carry their fight to the halls of Congress when it opens in January. Delegates to the Convention to be held Jan. 8 and 9 in Washington, D. C., are being elected in all parts of the nation.

Canton Seeks Loan

SOVIET ARMY CONCENTRATION TOWARD MOUNTAINOUS SZECHUAN

CANTON, China, Nov. 29.—The victorious Chinese Red Army, heroic defender of Soviet China, this week scored a series of smashing victories and made unprecedented advances on three separate sectors which, when consolidated, may serve to unite most of Southern China under the Red banner.

Latest reports from Canton say the Red forces, advancing on a 200-mile front in Kwangsi Province, are threatening momentarily to capture the city of Wuchow.

Already this week, the army of the Workers' and Farmers' Soviet Government of China, marching in two columns toward Szechuan Province from Hunan Province, was reported at Hungming in its westward march while the second column reached Chuanchow in Kwangsi Province.

Stronghold Retained.

It also has been reported that the Soviets in Fukien Province have retained the stronghold at Hweichang, creating ever-increasing difficulties for the Chiang Kairshiek forces.

The Soviet victories during the last few weeks have more and more menaced the Cantonese forces under General Chen Chi Tang, imperialist war lord. The general has announced efforts are being made by him to get a loan of \$10,000,000 from the British Dutch Shell or the Standard Oil Company, in order to carry on the war against the Red Army.

The Red Army is concentrating its forces toward Szechuan Province, a mountainous country and practically impregnable. It has been reported that Hsiao Keh and Lu Lung, both in command of crack Communist forces, already have succeeded in joining hands over a considerable section of the territory close to this province on the South. The imperialists of the North, including Chiang Kairshiek, consider this move as a national problem and a "menace" to all they stand for on the side of the imperialist nations.

U. S. Gunboat Ready.

The United States gunboat Mindanao of the South China patrol has been ordered to proceed up the river to Wuchow.

The Chinese Red Army is fighting one of the most heroic struggles in history and is backed by the millions of farmers and workers of interior China who themselves compose the fighting forces. Efforts of Chiang Kairshiek to crush the revolution which rapidly is spreading across the country, have proved increasingly fruitless.

The capitalist newspapers, unable for long to hide the truth, even now grudgingly admit the victories but also make it a point to speak of reported thousands of Chinese being slaughtered and attempt to hide the significance of the advance of the Soviets.

Admitted Frame-up  
And Bail Theft In  
East Bay Defeated

EMERYVILLE, Cal., Nov. 26.—Steve Connors and S. W. Johnson were acquitted of frameup charges by Superior Judge Fred V. Wood last Tuesday, when it was obvious the frameup was too raw to hold up. These workers were arrested for distributing handbills during the longshore strike. A jury dismissed the handbill charges but convicted them of having attempted to intimidate, threaten and coerce workers in an industrial plant. The case was appealed, and Judge Wood was forced to admit that there was not the slightest basis for such a charge.

On the day they were originally sentenced, although these workers appeared in court, they failed to officially deliver themselves into custody. Judge Kennon took advantage of their ignorance of the fine points of the law and confiscated \$200 of the bail. Judge Wood's reversal of the decision has forced Kennon to return this money.

Connors and Johnson were distributing copies of the "Pabco Fighter," shop bulletin of the Paraffine Co. of Emeryville.

## GOLD STAR SCHEME IS AIMED TO CURB JOBLESS STRUGGLE

BALLYHOO NEW VERSION  
OF OLD STAGGER  
SYSTEM

SAN FRANCISCO, Nov. 28.—The latest "play" to solve unemployment relief arrived in San Francisco with the return of Mayor Rossi from the National Conference of Mayors at Chicago. This is called the "gold star" plan. Gold Stars up to the present writing have indicated that the wearer is a mother or close relative of one of the "honored dead" who lost their lives in the "war to end wars." But strangely enough this "gold star plan" has nothing to do with the victims of the late imperialist slaughter for the profits of international bankers. This plan is aimed to create more jobs. How?

It is calculated that throughout the country one man out of eight is unemployed. The problem therefore is simple. Each employer employing eight men takes on an extra man and everyone who wants to work has a job. Thus spoke Mayor Rossi in outlining the plan, and among other features added: "Each employer who fills up his quota is given a 'Gold Star' banner with a star for each man taken on." How is this "simple" problem to be solved?

## Admiral Pledges Aid To Break L.A. Strike

LOS ANGELES, Nov. 27.—Speaking at a time when Los Angeles street car workers are out on strike for a decent wage standard, and a strike decision was being made, Admiral Reeves, commander in chief of the United States fleet, with one eye on the Chamber of Commerce and the other on the strikers, pledged local security and co-operation at the annual Admiral's dinner, given by the Chamber of Commerce.

While the admiral got down to the task of court jester for the business rulers of Los Angeles.

"We stand ready in any local emergency to help you—should such an emergency arise," declared Admiral Reeves. Let his hearers might think that he referred to emergencies classified as "acts of God"—earthquakes, etc.—Reeves continued, "The men of the fleet will loyally and effectively be with you to help stamp it out." No one ever heard of an earthquake being "stamped out."

"No Scab Cars Shall Run!"

Crowd of strikers and sympathetic workers on downtown Broadway halt streetcar, tying up all traffic for more than an hour. The crowd of thousands was only finally dispersed with a police tear gas attack. In other parts of the city, streetcars have been overturned.

## Leaflets Barred

LOS ANGELES, Nov. 26.—An ordinance adopted by the City Council makes it illegal to distribute handbills without the written consent of the property owners. This is clearly a fascist measure aimed against workers leaflets and handbills.

## VET OFFERING AID TO STRIKERS IS BEATEN BY THUGS IN L. A.

LOS ANGELES, Nov. 29.—Comrade Quinn, member of the Workers' Ex-Servicemen's League, was brutally attacked by thugs today in the corridors of the Labor Temple, outside the strike meeting of street car men.

"Let's get this—"

shouted one of the thugs, coming at Quinn. Using brass knuckles, the thugs unmercifully beat Quinn about the head, ribs and spine. When they had beaten him into unconsciousness they dragged him downstairs to the main floor.

Workers there, in answer to inquiries, got the curt rejoinder from the thugs that Quinn was "a Communist."

## 'Epic' Workers Urged to Be At Meeting Friday

Friday, Dec. 30, at 8 p.m., workers who supported the Epic plan in the elections, and all others, are urged to be present at an election "stock-taking" to be held at Equality Hall, 141 Albion St.

The issues of the campaign will be reviewed at a discussion, which will be conducted mainly from the floor by workers, with the object of answering the burning question: "What Next?"

The purpose of the meeting is to see what steps can be taken by all workers who are opposed to the reactionary Merriam machine, no matter what their political beliefs, to defend their every day interests.

Following the discussion from the floor, Sam Darcy, Communist candidate for Governor in the late elections, will sum up.

## COP'S WIFE USED BY LIEBOWITZ TO DISRUPT DEFENSE

NEW YORK, Nov. 27.—Continuing his vicious attempt to disrupt the defense of the Scottsboro Negro boys, Samuel Liebowitz planned one of the rottenest tricks yet used, when the wife of a Negro policeman Saturday night broadcast an appeal to support Liebowitz's "committee." This policeman's wife was representing herself as Mrs. Janie Patterson, mother of Hollywood Patterson, in the broadcast!

Indignantly denying that Mother Patterson was guilty of such treachery, Mother Wright, mother of two of the boys, hurried to the offices of the International Labor Defense which is handling the boys' defense at their own request. She had just returned from the South where she had talked with Mother Patterson and heard her denial that she had been anywhere within miles of a radio station at that time.

"That was the wife of a Harlem Negro policeman," she declared angrily, "and they introduced her as Mother Patterson. Why, she has never repudiated

## 7 MORE JAILED AS MILITANTS PICKET IN L. A.

LOS ANGELES, Nov. 30.—Seven more workers were arrested yesterday on the strike picket lines as the struggle entered its fifth day. Trying to raise the "red scare" as a means of splitting the ranks, the police charged these were "radicals" who had no sanction of the "leaders." These "leaders" are anxiously awaiting scheduled arrival today of F. A. Donaghy, Coast Regional Labor Supervisor, who is coming to act as "mediator."

LOS ANGELES, Nov. 29.—All efforts to stop the strike against the Los Angeles Railway have failed and the strikers continue to put up a militant fight against scabbing and attempts at terrorism on the part of the police and hired thugs.

At a conference in Mayor Shaw's office Tuesday an attempt by fakers, railway officials and city officials to terminate the strike failed when no agreement could be reached. Officials of the Los Angeles Railway declared that they would not restate the strikers during a truce period in which arbitration would take place. This means that the strikers are locked out.

The Railroad Brotherhood Unity Movement, the rank and file organization of members of railway unions, is trying to bring the L. A. strike out together with the Los Angeles Railway men. Both organizations have voted to strike, but through efforts of their leaders the L. A. strike has been stalled off, which reduces the chances of a successful strike by either one. Pointing to the example of the San Francisco longshoremen who went on strike over the heads of the mediators and consequently won their demands, the rank and file are urging a joint strike controlled by a joint strike committee composed of rank and file members.

Dr. Nylander of the Regional Labor Board, again entering the dispute, named a committee of nine to represent the public, labor and industry in negotiations. Nylander proposes to again bring up the issue of a truce with reinstatement of the strikers.

Meaning, despite the oft repeated pronouncements by international union officials that the men were to be gentlemen and picket peacefully, repeated mill

## SERA Slashes Pay of Ranch Workers In Imperial Valley

SAN DIEGO, Calif., Nov. 27.—Attempts to cut down the pay of agricultural workers in the Imperial Valley have now been given federal aid with the issuance of an S.E.R.A. order that all workers who refuse to work for the growers for a "reasonable" offer will be summarily cut off.

The reasonable offer is 25 cents an hour, and had this order not been put through the ranchers were expecting to be forced to pay a minimum of 45 cents an hour. The S.E.R.A. order thus effects almost a 100 per cent cut for them.

Not only are the men expected to work for this wage but no provision is made for their transportation for the long distances to and from work, even when the workers have to pay that they selves out of their meagre earnings. This is a concrete carrying out in practice of Hopkins' recent statement that S.E.R.A. pay from now on will not exceed that paid on other jobs in the vicinity.

Growers are coming direct to the S.E.R.A. offices to get the men, who are forced to accept the work because refusal means they will be cut off the S.E.R.A. at once.

This system is expected to be put into effect city by city throughout the state, and workers are organizing to put up a fight against it.

EARLY AMERICAN WORKERS POLITICAL PARTIES

TO EPIC WORKERS

EDITORIAL. This series of articles shows that when the American Workers first began to express themselves through political parties, they based themselves on the needs of the workers. The parties of that time were not only democratic but also revolutionary.

Preparing for Wage-Cuts

Preparation is being made for the wage cuts which will be a part of the new economic program. Workers should be prepared to meet these cuts with a united front.

Who Controls Education?

This fact was one which the working class leaders of the day did not realize. They saw the injustice of education that was controlled by the bourgeoisie and they fought for a system that would be controlled by the workers.

Homework Increasing Under Codes

The NRA is supposed to have abolished "sweatshops" but little is said about the homework which is being done in the home. Homework is increasing under the new codes.

No Change in Price Fixing

The NRA is encouraging monopolies, raising prices and cutting wages. There is no change in price fixing.

## Left-Wing Worker Fired For Activity Against Bureaucrats

LOS ANGELES, Dec. 10.—Fired after nine years' employment by the Anchels Furniture Company, George Driesen, active Communist Party member, turned in rain to union officials for help when his appeal against the firing was taken to the National Labor Relations Board.

With the exception of an eighteen-month layoff, Driesen was employed by the Anchels company from 1925 to Nov. 1, 1934. Driesen, in presenting his case to the National Labor Relations Board, declared that he was fired because of his union activities.

Joseph Ziska, assistant manager of the Anchels Furniture Company, in a statement made in court, admitted that Driesen "has always been a fine workman and that there were no grounds for his discharge." He stated that Driesen was fired because of his union activities, but merely because he was not the type of man that he wished to employ in the organization.

John Murray, leading Socialist and business manager of the labor union, reported that he investigated the case. He reported to the National Labor Relations Board that he was not discharged on account of his union activities, but for other reasons.

George Petre, chairman of the shop committee, elaborated on Murray's case statement by saying that Driesen was fired because of his union activities, but merely because he was not the type of man that he wished to employ in the organization.

## Centralized Shipping Bureau Gains Seamen Control of Jobs, Higher Wages

By B. B. JONES  
Four years ago the militant union on the beach and sailing out of the port of Baltimore decided to fight the shipping industry. These seamen were convinced that the reformist policy of the International Seamen's Union and the Baltimore Seamen's Union was not the way to win the rank and file by the seamen. They knew from bitter experience that the reformist policy of the International Seamen's Union and the Baltimore Seamen's Union was not the way to win the rank and file by the seamen.

The W. U. C. issued a port bulletin, exposing the "holy trinity" of the shipping industry: the shipowners, the shipbuilders, and the ship repairmen. The relief racketeers, who had been the mainstay of the reformist policy, were exposed and their influence was broken.

100 Lose Jobs As WP Car Shops Close  
SACRAMENTO, Cal., Dec. 18.—On Nov. 20th, the Western Power Car Shops closed their doors, leaving only six at the rate in the blacksmith shop, all were fired in the plant shop and several from the crew yard. This makes a total of nearly 100 workers who have been fired from their jobs.

## Declarer French Deputy

PARIS, Dec. 16.—Declaring that "the day of the machine gun is over," French Deputy Raymond Sarrailh, speaking for the Communist Party, declared that the workers must arm themselves to defend their interests.

Livingston, Calif., Dec. 16.—Dear Comrade: These questions have come up several times in discussions with comrades and I would like to see your views on them.

These questions have come up several times in discussions with comrades and I would like to see your views on them. The Communist Party is the only party that is not afraid to arm the workers.

General Strike of Greek Seamen Met By New Terrorism  
ATHENS, Greece, Dec. 16.—An outbreak of terrorism against the Greek seamen, who were on strike, was reported today. The strikers were attacked by a group of thugs who were hired by the shipowners.

1,000 Men Stripped  
The task of the militant seamen was to strip the ships of their armaments and to control the waterfront. This was done in a series of strikes and demonstrations.

Smashing Victory  
Step by step the seamen are smashing the power of the shipowners. They have won a series of victories that have led to their present position.

Editorial Column

Hearst Calls For Murder

William Randolph Hearst, in shooting his latest editorial venom against the working class, openly calls for the murder of the leaders of working class struggles!

Referring to the execution by the Soviet Government of armed terrorists sent in to attack the workers' and farmers' government, Hearst declares similar action against Communists.

Mr. Hearst says that the Communist Party, which seeks to win a majority of the working class, will be backed up against a prison wall and ruthlessly shot to death.

Mr. Hearst seeks to give the impression that there is no difference between assassins sent by White Guard counter-revolutionary groups to strike against a government and economy operated for the benefit of all producing people, and workers who are members of the Communist Party.

Mr. Hearst is a compassionate people and never yet has the firing squad been a political weapon of ours.

Plainly, he says that the time for using the firing squad has arrived. It is not for nothing that Hearst recently paid a visit to Nazi Germany.

And why should Communists be summarily executed? Because, as he admits, Communists organize class struggles for the abolition of the capitalist system.

"Popular," with whom? With the finance-capitalists who own it, lock, stock and barrel!

A government of "human justice," lables Hearst. Ask the "heroes of 1917" who were run out of Washington at the point of bayonets when they came to petition Congress for their own independence in San Francisco.

He Knows Which Is Cheapest For Him

AN OPEN LETTER TO WILLIAM R. HEARST

By WILLIAM F. DUNNE

This is the second of three articles in the open letter to William F. Dunne to William Hearst, published in the Western Worker.

As we have said, Mr. Hearst, you are a great advocate of "free press" according to your own definition of it.

Mr. Hearst is playing his role as the propaganda wedge in the concerted drive to outlaw the Communist Party.

The question is not "Hearst versus the Communist Party." The issue is clear-cut: Capitalism, with its misery for the millions and luxury for the few, against a workers' and farmers' government.

Mr. Hearst's mass role as defender of the corrupt capitalist system must be exposed everywhere workers gather!

A New Word For It

Government experts have coined a new term for exploitation, a "much nicer" one. They call it "efficiency brains."

MUNITIONS, MONOPOLY, IMPERIALISM AND WAR

This is the third of a series of articles exposing the connection between the war machine and American industry.

Requirements of An Imperialist Army In A Major War

By BILL DUNNE

Supplies for an army are listed under the general term "Ordinance." It means anything with military uses which this term means simply those supplies that are to be used in an army.

When the "Armed Forces" were announced on Nov. 11, 1934, more than 7,500 families of the manufacturing plants in the United States were engaged in production of various items for the "Ordinance" of the National and Allied armies.

# IGNORANT, PREJUDICED JURY SOUGHT BY C. S. PROSECUTION

### All Union Men Ruled Off Jury By Boss Attorneys

By CAROLINE DECKER  
One of the most important factors in the framing-up charges of Communist Syndicalism in the Sacramento courts is the determination of the jury. It is the determination of the jury that knows nothing about Communist Syndicalism, except what the boss attorneys tell it. The jury is to be composed of men who are ignorant of the facts of the case and who are prejudiced against the workers. ## Arrest Austrian Storm Troopers

VIENNA, Dec. 24.—A sharpening of the political crisis here is foreseen in the fact that all former Nazi Storm Trooper leaders in Austria are under arrest as the result of a series of threats to assassinate Franz von Papen, German minister to Austria. Von Papen is said to have given an interview to a French newspaper in which he revealed the German Nazis were responsible for the "policy" which resulted in the assassination of Dollfus, ex-governor of Austria. It is an indication of the inability of Austria to solve the contradictions of capitalism through the playing-up of intense nationalism, that inter-tribe disputes are rife between the Fascist nations of Europe.

Support the Fight For Real Cash Relief

Before the State Legislature concludes its January session the unemployed workers of California will present a Bill, backed by a program of struggle, for cash unemployment relief. The Bill will be endorsed by a State Convention of the Unemployed, which will be held in Sacramento January 27 and 28.

The Bill calls for the payment of \$10 a week to each head of a family, and \$3 additional for each dependent. Its enactment would afford a real measure of security for the unemployed in this state pending the passage by Congress of the Federal Unemployment and Social Insurance Bill (H.R. 7578).

Because the Bill calls for the payment of the relief to be borne solely by the state and the employers, it will meet with organized and vicious opposition by every agency of Merriam's command. First, every effort will be made to block the introduction of the Bill. If the legislature is forced to receive the Bill to mass pressure behind it, the attempt will be made to lurch it into committee. If that fails, and the Bill is voted upon—it will be defeated, unless the workers of California organize such mass struggles that the legislative servants of the industrialists dare not do it.

This means that the workers of California are faced with the immediate and urgent task of marshalling all their forces for the struggle. The opening gun of this campaign has been fired with the circulation of thousands of petitions calling for signatures of workers to support the Bill. The next step must be the broadest circulation of these petitions among employed and unemployed workers and the collection of thousands of signatures, on the building up of the coming State Convention so that it represents broad masses of the employed as well as the unemployed.

Every question of cash unemployment relief must be brought up in every trade union, every mass organization of the working class, every mutual aid society, every organized group of unemployed workers and the collection of thousands of signatures, on the building up of the coming State Convention so that it represents broad masses of the employed as well as the unemployed.

The backbone of the campaign must be organized, determined, single-minded, unemployed workers on S.F. or on other streets. It will be necessary to have a large number of workers close to one million unemployed of California were willing to fight to win security, the capitalist legislators in Sacramento would think twice before killing the workers' Bill for cash relief. However, unless we have an organized, determined, single-minded living condition, except at the point of organized struggle!

The State Convention of January 27 and 28 will not end in itself. It will be gathering at which the workers will have their just grievances against miserable relief. It will lay down a program of action to wrest more concessions from the capitalists who hold the purse strings. It will be a springboard for the launching of a program which will unite all existing organizations of unemployed workers in common action against the common enemy.

Organizations of employed and unemployed workers! Get behind this campaign for cash unemployment relief! Elect your delegates to the State Convention January 27 and 28!

Build the Fighting Vanguard

The present drive to outlaw the Communist Party, headed by the Congressional Committee to Investigate "Un-American" Activities and the full Hearst press, has a sharp challenge at the American working class. This challenge is answered by an immediate and decisive, American workers are due to experience the most vicious attack against their standard of living in the history of the country.

This drive against the Communist Party is not action taken by the bankers and industrialists merely for want of something better to do. It is being conducted by employers' groups throughout the country, which are also directing the activities of the Congressional Committee, as the first step in a campaign to slash relief and cut wages generally. The capitalist interests know that with the Communist Party on guard and leading the workers in defense of the working class, they cannot with assurance lay down their barrage of wage-cut!

In California, the chief weapon being used against militant working class organizations is the infamous Criminal Syndicalism law. This weapon is directed chiefly at the Communist Party, for it is the only Party leading the struggles of the workers in California against hunger, fascism and war. The trial of the Communist Party in California is the first step in a campaign to slash relief and cut wages generally. The capitalist interests know that with the Communist Party on guard and leading the workers in defense of the working class, they cannot with assurance lay down their barrage of wage-cut!

These actions of the employers demand a sharp answer from the masses of exploited workers against whose interests they are aimed. Realizing the role of working class leadership played by the Communist Party, the masses of workers must organize to make it to build the Communist Party into a mass Party that cannot be outlawed by any act of a capitalist law-making body, police thugs or vigilante gangs!

The Communist Party in District 13, comprising California, Arizona and Nevada, is conducting a recruiting drive. The successful completion of this drive is the first step in the building of such a mass Party. The achievement of the quotas of dues-paying members means, furthermore, added strength to the workers in their immediate resistance to the attacks of the large employers.

If you are a worker, employed or unemployed, and sincerely interested in the welfare of your class, your place is inside the Communist Party!

NEW YORK, Dec. 22.—More than 200 workers, both men and women, demonstrated before the Finnish Consul here recently against the "White Terror" in Finland.

Speakers denouncing the Finnish consulate and its agents, the capitalist powers for jeopardizing the Soviet Union and demanding the release of political prisoners in Finland. Signs carried by the demonstrators read: "Fascist-breeds terror and war—workers stand for peace, and 'Down with the White Terror' against the Soviet Union."

A resolution demanding the release of Finnish workers arrested in the struggle of the Finnish workers in Finland, was passed by the group.

Recruiting Contest

LOS ANGELES, Dec. 21.—The Communist Party of California has announced a recruiting contest to hold a record in the number of new members.

The contest will run from December 21 to January 1, 1935. An affair will be held at the end of the contest to honor the winners. The contest will be held in the Downtown section of Los Angeles, and will be held in two parts, A and B, and will be held in a similar contest in other parts of the state.

Group Formed in South To Fight War and Fascism

SANTA MONICA, Dec. 19.—United Front action against the menace of war and fascism found expression on Sunday in a meeting at Municipal Auditorium, Ocean Park. Present trends and the role of the United Front in the defense of the United States were the keynote of talks by George R. Kinnear, secretary of the United Front.

What for? The Rev. A. A. Heist, Methodist minister of Los Angeles, said that the United Front is a group of men who are organized for the purpose of fighting the forces of war and fascism. Heist said that the United Front is a group of men who are organized for the purpose of fighting the forces of war and fascism.

The average person has only the most sketchy understanding of the industrial revolution and the world war which is in connection with the war programs of the industrialists. The owners of the iron and steel industry and the natural resources of the world are the industrialists. The directors of the industry are the industrialists. The industrialists are the owners of the iron and steel industry and the natural resources of the world.

A DAY PASSES

The magnificent achievements of the Chinese Red Army in beating back the Kuomintang and advancing to win from capital cities are creating tremendous interest among the workers of California.

The workers of California are more and more realizing that a whole country approaching the Chinese Red Army and the Communist Party is the only way to win from the capitalists and the farmers' government.

The State Convention of January 27 and 28 will not end in itself. It will be gathering at which the workers will have their just grievances against miserable relief. It will lay down a program of action to wrest more concessions from the capitalists who hold the purse strings. It will be a springboard for the launching of a program which will unite all existing organizations of unemployed workers in common action against the common enemy.

Build the Fighting Vanguard

The present drive to outlaw the Communist Party, headed by the Congressional Committee to Investigate "Un-American" Activities and the full Hearst press, has a sharp challenge at the American working class. This challenge is answered by an immediate and decisive, American workers are due to experience the most vicious attack against their standard of living in the history of the country.

This drive against the Communist Party is not action taken by the bankers and industrialists merely for want of something better to do. It is being conducted by employers' groups throughout the country, which are also directing the activities of the Congressional Committee, as the first step in a campaign to slash relief and cut wages generally. The capitalist interests know that with the Communist Party on guard and leading the workers in defense of the working class, they cannot with assurance lay down their barrage of wage-cut!

In California, the chief weapon being used against militant working class organizations is the infamous Criminal Syndicalism law. This weapon is directed chiefly at the Communist Party, for it is the only Party leading the struggles of the workers in California against hunger, fascism and war. The trial of the Communist Party in California is the first step in a campaign to slash relief and cut wages generally. The capitalist interests know that with the Communist Party on guard and leading the workers in defense of the working class, they cannot with assurance lay down their barrage of wage-cut!

These actions of the employers demand a sharp answer from the masses of exploited workers against whose interests they are aimed. Realizing the role of working class leadership played by the Communist Party, the masses of workers must organize to make it to build the Communist Party into a mass Party that cannot be outlawed by any act of a capitalist law-making body, police thugs or vigilante gangs!

The Communist Party in District 13, comprising California, Arizona and Nevada, is conducting a recruiting drive. The successful completion of this drive is the first step in the building of such a mass Party. The achievement of the quotas of dues-paying members means, furthermore, added strength to the workers in their immediate resistance to the attacks of the large employers.

If you are a worker, employed or unemployed, and sincerely interested in the welfare of your class, your place is inside the Communist Party!

MUNITIONS, MONOPOLY, IMPERIALISM AND WAR

This is the fourth of a series of articles exposing the link between the war machine and American industry. It reveals the immense capacity for organization and efficiency of the American industrial system in producing munitions, and the entire strength and resources of a country for purposes of mass production.

The ordinance department, therefore, made a number of plans, which were adopted, for a chain of plants to produce only for the military department. The Armistice was signed construction had already begun on a gigantic ordnance factory—larger than anything of its kind in the world. It was immediately larger than the Krupp plant in Germany. Its program of expansion took care of all the requirements of the military department. The ordinance department, therefore, made a number of plans, which were adopted, for a chain of plants to produce only for the military department.
