

AMILCAR CABRAL CABLES UN

I HAVE the honour to confirm the news published by the international Press and Radio about Portuguese Guinea PAIGC Freedom Fighters who are daily defeating the overwhelming colonial troops.

Faced with the negative attitude of the Portuguese Government which is now forced to speak of autonomy for our country with a view to deceive the whole world, we are strongly convinced that our victorious armed struggle assures as much real self-determination of our people as the respect for urgent application of the UNO resolutions to our African continent.

We however, reaffirm the peaceful sentiments of our people, hoping that the council will introduce concrete measures, suggested by all the African countries, to let the Portuguese Government agree to peaceful solution of the decolonisation of the Portuguese Guinea and the Cape Verde Islands through negotiation with our fighting Party.

The complete African solidarity for our cause increases. Meantime, we continue to fight till we achieve the final victory, complete freedom for Africa, peace, progress and for humanity.
