

Resolution on Jewish-Arab Brotherhood

1. Mapam will continue to develop and cultivate the principle of brotherhood within the State as means towards bringing the peace between Israel and its neighbours in the area closer.
2. Mapam will continue, in cooperation with other public factors, to repel the waves of nationalism, whatever direction they come from which enflame hatred between the nations and which sews division between Jews and Arabs in the State and in the region.

(Adopted by the I. Session of the Fifth Party Congress,  
Tel Aviv, March 1968)
